INDEPENDENT AUDITOR'S REPORT

To the Investment Plan Committee and Audit Committee
CNX Resources Corporation Investment Plan for Salaried Employees
Canonsburg, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the CNX Resources Corporation Investment Plan for Salaried Employees (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CNX RESOURCES CORPORATION
INVESTMENT PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE 1 - DESCRIPTION OF PLAN

The following description of the CNX Resources Corporation Investment Plan for Salaried Employees (Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General - The Plan is a tax-qualified, defined-contribution plan covering full-time salaried and part-time casual employees of CNX Resources Corporation and participating employers (CNX Resources or the Company). Employees can participate in the Plan on the first day of the first full pay period following the date they first become eligible. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and the Internal Revenue Code (Code).

The Plan administrator is the Investment Plan Committee of CNX Resources, whose members are appointed by the board of directors (Board) of CNX Resources. The Investment Plan Committee also has responsibility for selecting and overseeing the Plan's investments. The Board has the authority to appoint trustees and has designated Bank of America, N.A. (Trustee) for the Plan.

The Plan holds the Core Natural Resources, Inc. Stock Fund (Ticker Symbol: CNR; formerly CONSOL Stock Fund Ticker Symbol: CEIX) and the CNX Resources Corporation Stock Fund (Ticker Symbol: CNX) (Stock Funds). The Core Natural Resources, Inc. Stock Fund was created as a result of the separation of CONSOL Energy Inc. (CONSOL) (previously known as CONSOL Mining Corporation) and CNX Resources in 2017. The Stock Funds are employee stock ownership plans (ESOP) where participants could elect to have dividends paid to them in cash instead of being reinvested in the stock funds in their Plan account. Effective November 27, 2017, the Core Natural Resources, Inc. Stock Fund was partially closed, meaning it did not accept purchases of CNR shares. After this date, only the sale of common stock of Core Natural Resources, Inc. (CNR) was permitted. Effective December 28, 2018, participants were no longer permitted to make contributions, purchases or transfers into the CNX Resources Corporation Stock Fund. Participants are permitted to maintain their current holdings in the Stock Funds.

Effective January 1, 2019, the Plan was amended to no longer require a CNX Resources Corporation Stock Fund. Additionally, all cash dividends declared or paid on the interest in the CNX Resources Corporation Stock Fund of a participant are paid directly to the participant. For the year ended December 31, 2025, there were no dividends from the Stock Funds paid to participants in cash.

Participants are automatically enrolled in the Plan at a 6% before-tax savings rate if no action is taken by the employee within 45 days from the date they first become eligible. Under the automatic enrollment provision, participant assets are invested in accordance with a managed account feature offered by the Trustee based on certain demographic characteristics of the participant. A participant may elect not to participate in the Plan at any time. The Investment Plan Committee has discretion to automatically increase all participants' contributions up to 6% before the start of a plan year.

Contributions - Participants may make pretax, after-tax and/or Roth contributions of 1% to 75% of eligible compensation to the Plan through payroll deductions. CNX Resources matches these contributions (excluding deferrals of incentive compensation payments) dollar for dollar up to 6% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants can elect to convert their vested accounts in an in-Plan Roth conversion.

INVESTMENT PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE 1 - DESCRIPTION OF PLAN (Continued)

A participant may also separately designate from 1% to 75% (not to exceed \$10,000) of any incentive compensation payment as a before-tax and/or after-tax contribution.

Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

The Company may also make discretionary contributions to the Plan ranging up to 6% of eligible compensation for eligible participants (as defined by the Plan). There were no discretionary contributions made by the Company for the year ended December 31, 2025. All participant and employer contributions are subject to regulatory and Plan limitations, and total contributions credited to a participant's account are further subject to annual addition limitations under the Code.

Participant Accounts - Each participant's account is (i) credited with the participant's contributions and allocations of the Company's contributions and Plan investment earnings and (ii) charged with an allocation of administrative expenses and Plan investment losses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options - Upon enrollment in the Plan, a participant may direct employee and Company contributions into any of the investment options offered by the Plan, including registered investment companies, a stable value fund or, prior to December 28, 2018, common stock.

Vesting - Participants are immediately vested in their contributions and any contributions made by the Company plus actual earnings (losses) thereon.

Notes Receivable from Participants - Participants may borrow up to the lesser of one-half of their account balances (subject to a \$1,000 minimum) or required regulatory loan maximum limitations. Such loans are repayable over periods of 12 to 60 months (120 months maximum if for the purchase of a principal residence) and are secured by the balance in the participant's account. The rate of interest on loans is commensurate with the average rate charged by selected major banks for secured personal loans and remains fixed for the life of the loan. Loans are repaid over the period in installments of principal and interest via payroll deductions or ACH account debit for participants who terminate employment subsequent to the loan's execution. A participant also has the right to repay the loan in full, at any time, without penalty. At December 31, 2025, loan interest rates ranged from 4.25% to 9.5%.

Payment of Benefits - In connection with the Secure Act, participants who retire from active service may elect to defer withdrawals until April of the calendar year following the later of the year in which the participant attains age 73 or terminates employment. They may also elect an option to have their account distributed over a period of not less than two years or more than a period that would pay the account balance during the participant's actuarial life in either a fixed or variable amount. Before-tax contributions may be withdrawn only in the event of a participant's retirement, death, termination, attainment of age 59½ or defined hardship.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

CNX RESOURCES CORPORATION
INVESTMENT PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by management in the preparation of the accompanying financial statements of net assets available for benefits and related statement of changes in net assets available for benefits and the related notes to the financial statements (financial statements) follows:

Basis of Accounting - The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation and Income Recognition - Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 5 for a discussion of the fully benefit-responsive investment contract.

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurement.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Realized gains and losses on the sale of common stock are based on the average cost of the securities sold. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest on notes receivable from participants is recognized over the term of the notes and calculated using a simple-interest method on principal amounts. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. The Plan administrator considers delinquent loans to be defaulted on the last day of the calendar quarter following the quarter in which the last payment was made and reclassified as a distribution based on the terms of the Plan document.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Expenses incurred in connection with the operation of the Plan with regard to the purchase and sale of investments and certain trustee and professional fees are paid by the Plan. Fees related to specific participant transactions are charged directly to the participant's account and are included in administrative expenses. Also charged to the participant accounts are administrative expenses such as recordkeeping (keeping track of participant accounts and transactions), custodial services (safekeeping of participants' assets associated with the Plan) and professional/legal services (such as an annual third-party plan audit, investment consulting and annual legal filings), as well as services including providing call centers, websites, account statements and educational materials related to saving and investing for retirement. The Plan assesses these administrative expenses as a flat fee on an annual per capita basis. Asset-based fees are deducted prior to allocation of the Plan's investment earnings (losses) activity and thus are not separately identifiable as an expense. Other administrative expenses are paid by CNX Resources at no cost to the Plan.

INVESTMENT PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

ESOP - Prior to the removal of the CNX Resources Corporation Stock Fund as an available investment option for future contributions effective December 28, 2018 described in Note 1, the Plan's ESOP provision previously provided that participants may have invested a portion or all of their account in Company stock, although the right to invest had been restricted as provided above. The ESOP provision also contained a put option in accordance with the requirements of the Code, which is a right for any participant who is otherwise entitled to a distribution from the Plan to require the Company stock in their ESOP account be repurchased by the Company if it is not readily tradable on an established market. Participants who elected to invest their account balance in Company stock have voting rights commensurate with their shares and participants are fully vested at all times in dividends paid on the acquired Company stock. A participant also has the right to diversify stock in their accounts pursuant to the provisions of the Plan document. At December 31, 2025, and from the period since inception of the ESOP, there were no Company contributions in the form of Company stock.

Subsequent Events - Subsequent events are defined as events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are issued or are available to be issued. Management has evaluated subsequent events through July 27, 2026, the date that the financial statements were issued, and determined that there have been no events that have occurred that would require adjustments to the disclosures in the financial statements.

NOTE 3 - INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee of the Plan's assets.

NOTE 4 - FAIR VALUE MEASUREMENT

U.S. GAAP for fair value measurements provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

CNX RESOURCES CORPORATION
INVESTMENT PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE 4 - FAIR VALUE MEASUREMENT (Continued)

The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or other inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Registered Investment Companies - The shares of registered investment companies are public investment vehicles valued at quoted market prices, which represent the net asset values of the shares held in such funds. Each of these funds is considered an open-ended interest in a registered investment company and valued using a market approach. Fair value is based on a daily net asset value that can be validated with a sufficient level of observable activity in an active market (i.e., purchases and sales at net asset value) and therefore these interests in registered investment companies have been classified within Level 1 of the fair value hierarchy.

Common Stock - The Stock Funds are stated at fair value as quoted on a recognized securities exchange and are valued at the last reported sales price on the last business day of the respective plan year. As a result, the fair value measurement of these investments has been classified within Level 1 of the fair value hierarchy.

The preceding methods described might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Further, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan invests in a Stable Value Fund (SVF), which represents a fully benefit-responsive investment contract. The SVF represents 30% and 33% of the Plan's total investments at December 31, 2025 and 2024, respectively. The Plan owns the individual investments of the SVF, which consist of a short-term investment fund along with separate account portfolios (SAP) and synthetic guaranteed investment contracts (SYN), all of which are held with multiple insurance companies and banks. SAPs and SYNs are backed by underlying fixed-income assets. The investment contracts are entered into based on an evaluation of the credit risk of the contract issuers and/or third-party guaranty. Collateral is generally not provided.

The following disclosures provide information about the nature of the investments in the SVF.

Synthetic Guaranteed Investment Contracts - SYNs are comprised of an underlying pool of assets (owned by the Plan) and a wrap contract designed to provide principal protection and accrued interest over a specified period of time, assuming that the underlying assets meet the requirements of a guaranteed investment contract (GIC). This pool of assets may include short-term investment funds, liquid government or corporate debt securities, fixed-income collective trusts, options and swap contracts.

Separate Account Portfolios - SAPs are investment contracts invested in insurance company separate accounts established for the sole benefit of SVF participants. SAPs are comprised of two components, an underlying pool of assets and a wrap contract. The insurer owns the individual underlying assets and the wrap contract (similar to a GIC); however, the assets in a SAP are maintained in a separate account, fully separated from the general assets of the insurer. The Plan participates in the underlying experience of the SAP via future periodic rate resets.

U.S. Government Security Fund - This security is a short-term investment fund (i.e., money market fund) designed to provide daily liquidity to the SVF.

CNX RESOURCES CORPORATION
INVESTMENT PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (Continued)

The contract or crediting rates for SAPs and SYNs are reset periodically throughout the year and are based on the performance of the assets underlying the contracts. Inputs used to determine the crediting rate include each contract's portfolio market value of fixed-income assets, current yield-to-maturity, duration and market value relative to contract value. All contracts have a guaranteed rate of at least 0% or higher with respect to determining interest rate resets.

GICs expose the Plan through the SVF to direct credit risk associated with each contract issuer. To mitigate this risk, investment guidelines prohibit the Plan from purchasing contracts from issuers with a credit rating lower than Aa3/AA. In addition, the weighted average credit rating of all GIC contracts must be A3/A- or higher at all times, and no single GIC issuer may represent more than 5% of the total SVF. Additionally, the Plan administrator and the Plan's third-party investment advisors continually monitor the issuers of these investments through external credit rating agencies and monitor credit rating history, downgrade/upgrade notifications and analyst reports for all current and potential issuers. There were no reserves against contract value for credit risk of the contract issuers or otherwise.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their SVF investment at contract value for Plan permitted benefit payments. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include amendments to Plan documents (including complete or partial plan termination or merger with another plan or distribution of any participant communication designed to induce participants to withdraw or otherwise transfer amounts from the SVF), changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of the Company or other Plan sponsor events (i.e., divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

Based on certain events specified in the fully benefit-responsive investment contracts (i.e., SAPs and SYNs), both the Plan and issuers of such investment contracts are permitted to terminate the investment contracts. If applicable, such terminations can occur prior to the scheduled maturity date.

Examples of termination events that permit issuers to terminate investment contracts include the following:

- The Plan sponsor's receipt of a final determination notice from the Internal Revenue Service (IRS) that the Plan does not qualify under Section 401(a) of the Code.
- The Plan ceases to be exempt from federal income taxation under section 501(a) of the Code.
- The Plan or its representative breaches material obligations under the investment contract, such as failure to satisfy its fee payment obligations or failure to follow the contract's equity wash provisions.
- The Plan or its representatives make a material misrepresentation, including acts of fraud or deceit that affects the intent, structure or risk profile of the contract.
- A material amendment is made to the Plan (including complete or partial termination or merger with another plan) and/or an amendment that adversely impacts the issuer.

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (Continued)

- The Plan, without the issuer's consent, attempts to assign its interest in the investment contract.
- The balance of the contract value is zero or immaterial.
- Mutual consent.
- The termination event is not cured within a reasonable time period, i.e., 30 days.

For SAPs and SYNs, additional termination events include, but are not limited to, the following:

- The investment manager of the underlying securities is replaced without prior written consent of the issuer.
- The underlying securities are managed in a way that does not comply with the investment guidelines.

For SAPs and SYNs, termination is at market value of the underlying securities, less unpaid issuer fees or charges. If the termination event is not material based on industry standards, it may be possible for the Plan to exercise its right to require the issuer that initiated the termination to extend the investment contract for a period no greater than what it takes to immunize the underlying securities and/or it may be possible to replace the issuer of a SAP or SYN that terminates the contract with another SAP or SYN issuer. Both options help maintain stable contract value.

Participants investing in the SVF are assigned units at the time of investment based on the net asset value per unit.

NOTE 6 - TAX STATUS

The Plan obtained its latest determination letter from the IRS dated September 25, 2014, stating that the Plan was qualified under the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken, or expected to be taken, that would require recognition of a tax liability and related interest and penalties or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2022.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

	<u>2025</u>	<u>2024</u>
Net assets available for benefits per the financial statements	\$ 446,314,155	\$ 438,639,073
Amounts allocated to withdrawing participants	<u>(7,428)</u>	<u>(59,786)</u>
	<u>\$ 446,306,727</u>	<u>\$ 438,579,287</u>

The following is a reconciliation of benefits paid to participants per the financial statements to Form 5500 for the year ended December 31, 2025:

Benefits paid to participants per the financial statements	\$ 46,671,541
Amounts allocated to withdrawing participants at December 31, 2025	7,428
Less: Amounts allocated to withdrawing participants at December 31, 2024	<u>(59,786)</u>
	<u>\$ 46,619,183</u>

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, 2025 and 2024, but not yet paid as of that date.

NOTE 8 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments, including several underlying SYN assets within the SVF, are managed by the Trustee; therefore, these transactions qualify as those conducted with a party-in-interest to the Plan. In addition, other underlying SYN assets include funds managed by State Street Bank & Trust, one of the custodians of the Plan. The Plan also issues loans to participants, which are secured by the participants' account balances. Therefore, these transactions qualify as those conducted with a party-in-interest to the Plan.

Merrill Lynch, Pierce, Fenner and Smith (MLPF&S), a subsidiary of the Trustee, provides certain administrative services to the Plan pursuant to a service agreement between the Company and MLPF&S. MLPF&S receives revenue from mutual funds and SVF service providers for services MLPF&S provides to the funds. If the revenue received by MLPF&S from such fund service providers exceeds the amount owed under the service agreement, MLPF&S remits the excess to the Plan's trust on a quarterly basis. Any revenue sharing amounts received are directly credited to the accounts of participants invested in those funds that share revenue quarterly, while the administrative costs apply to all participants to pay for administrative expenses. If any excess revenue is noted, those fees qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 8 - TRANSACTIONS WITH PARTIES-IN-INTEREST (Continued)

One of the investment vehicles that was available to participants, the CNX Resources Corporation Stock Fund (CNX), contains stock of CNX Resources. The Plan held 255,583 and 299,426 shares of CNX Resources common stock at December 31, 2025 and 2024, respectively, which represents approximately 2% and 3% of investments held by the Plan, respectively. The fair market value of the CNX Resources common stock was \$9,397,784 and \$10,979,947 at December 31, 2025 and 2024, respectively. During 2025, the Plan sold 31,007 shares (excluding 12,836 of in-kind shares) of CNX Resources Corporation common stock for total proceeds of \$1,060,832.

Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 9 - RISK AND UNCERTAINTIES

The Plan invests in investment securities that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Market risk arises from the potential for changes in value of financial instruments resulting from fluctuations in interest rates and in prices of debt and equity securities. The gross notional (or contractual) amounts used to express the volume of these transactions do not necessarily represent the amounts potentially subject to market risk. In many cases, these financial instruments serve to reduce, rather than increase, the Plan's exposure to losses from market and other risks. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are identified. The Plan's investment managers generally limit the Plan's market risk by holding or purchasing offsetting positions.
