Independent Auditor's Report

To the Plan Sponsor
Mass General Brigham Long-Term Disability Plan
Somerville, Massachusetts

Opinion

We have audited the financial statements of Mass General Brigham Long-Term Disability Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of plan benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and plan benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of delinquent participant contributions for the year ended December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

General

The Mass General Brigham Long-Term Disability Plan (the Plan) provides long-term disability benefits to participating employees of Mass General Brigham Incorporated (the Company) and certain of its affiliates. The Company is the Plan Sponsor.

A Master Trust (the Master Trust) was established under Section 501(c)(9) of the Internal Revenue Code (IRC) to fund the benefits of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The following description of the Plan provides only general information regarding the provisions of the Plan. Participants should refer to the plan agreement for more complete information.

The Plan is a contributory defined benefit health and welfare plan that provides long-term disability benefits to eligible employees of the Company and to eligible employees of the following affiliates of the Company: The General Hospital Corporation, The MGH Institute of Health Professions, Inc., The Spaulding Rehabilitation Hospital Corporation, Mass General Brigham Home Care, Inc., Spaulding Hospital-Cambridge, Inc., Mass General Brigham Health Plan Holding Company, Inc., The Brigham and Women's Hospital, Inc. and Brigham and Women's Physicians Organization, Inc. (collectively, the Plan Participating Employers).

Contributions

The Plan is principally funded by Plan Participating Employers contributions with an option to employees to buy-up additional coverage through a salary deduction program.

Benefits

Substantially all employees of the Plan Participating Employers are eligible for the Plan at date of hire. Benefits paid under the Plan are based on a percentage of the participant's earnings. Participants who become disabled receive monthly disability payments for each month disability continues beyond the applicable benefit waiting period, but for not more than the applicable maximum benefit period, as defined. The Plan Sponsor maintains the right to modify the benefits.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the accompanying financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit

information date, the changes in net assets available for the benefits during the reporting period, and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The assets of the Plan are invested in the Master Trust. The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust, plus actual contributions and investment income, less actual distributions and expenses (investment manager fees).

Fair values of investments in the Master Trust are determined by reference to published market quotations or through the use of various valuation approaches, including market, income and cost approaches. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Disability Benefits

The Plan's long-term disability benefit obligations represent the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31. Long-term disability benefits include future benefits to be paid for (1) currently disabled employees and their eligible dependents and (2) active employees and their eligible dependents after disability from service with the applicable Plan Participating Employer. Prior to an active employee's full eligibility date, the disability benefit obligation is that portion of the benefit obligation that is attributed to that employee's theoretical account balance at that valuation date.

The actuarial present value of the expected long-term disability claims is determined by a consulting actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawals or retirement) between the valuation date and the expected date of payment.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan (through the Master Trust) or by the Plan Sponsor, as provided by the Plan document. Expenses that are paid directly by the Plan Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in the Master Trust investment income presented in the accompanying statement of changes in net assets available for benefits.

3. Interest in Master Trust

The assets of the Plan are pooled and invested in the Master Trust. The assets of the Master Trust are invested in commingled funds managed by State Street Bank and Trust Company (State Street).

At December 31, 2025 and 2024, the Plan had a 100 percent interest in the net assets of the Master Trust.

The following table presents the fair values of net assets for the Master Trust as of:

December 31,	2025	2024
Investments, at fair value:		
SSgA Equity funds	$ 35,474,872	$ 27,681,096
SSgA Bond funds	16,066,385	14,388,501
SSgA Money market funds	1,692,670	2,386,583
Total investments, at fair value	$ 53,233,927	$ 44,456,180

The following table presents the investment income for the Master Trust for the year ended:

December 31,	2025
Investment income:	
Net appreciation in fair value of investments	$ 9,041,405
Interest and dividends	560,783
Total investment income	$ 9,602,188

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (also referred to as exit price). Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. In determining fair value, the use of various valuation approaches, including market, income and cost approaches, is permitted.

Fair Value Hierarchy

A fair value hierarchy has been established based on whether the inputs to valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the reporting entity's assumptions about the inputs market participants would use. The fair value hierarchy requires the reporting entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. In addition, for hierarchy classification purposes, the reporting entity should not look through the form of an investment to the nature of the underlying securities held by an investee.

The hierarchy is described below:

Level 1: Valuations using quoted prices in active markets for identical assets or liabilities. Valuations of these products do not require a significant degree of judgment.

Level 2: Valuations using observable inputs other than Level 1 prices, such as quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; broker or dealer quotations; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Valuations using unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Valuation Techniques

All investments classified within Level 1 or Level 2 of the fair value hierarchy are valued using quoted market prices, broker or dealer quotations or other observable pricing sources.

The following tables summarize fair value measurements for financial assets measured at fair value on a recurring basis:

	December 31, 2025		
	Fair Value Measurements		
	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Commingled funds	$ 8,967,986	$ 44,265,941	$ 53,233,927
Total investments, at fair value	$ 8,967,986	$ 44,265,941	$ 53,233,927

	December 31, 2024		
	Fair Value Measurements		
	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Total
Commingled funds	$ 9,340,524	$ 35,115,656	$ 44,456,180
Total investments, at fair value	$ 9,340,524	$ 35,115,656	$ 44,456,180

5. Benefit Obligations

Long-term disability benefits of the Plan represent the expected amount of future payments for claims incurred, stated at their estimated present value, assuming the following valuation tables and discount rates as determined by an independent actuarial firm, as follows:

Year ended	Valuation Table	Discount Rate
December 31, 2025	Society of Actuaries Termination Rate Table - 2012	4.78%
December 31, 2024	Society of Actuaries Termination Rate Table - 2012	4.75%

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the long-term disability benefit obligation.

6. Administrative Contracts

The Plan is administered by UnumProvident which performs all eligibility claims processing and check-writing functions in exchange for an administrative fee.

7. Transactions with Parties-in-Interest

ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. As State Street is the trustee and the custodian of the Plan, the investment transactions qualify as party-in-interest transactions.

8. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor reserves the right to terminate or amend the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, rights of participants to benefits are limited to claims incurred up to the date of termination and any balance remaining after satisfaction of all obligations under the Plan to the participants shall be applied for their benefits.

9. Tax Status

The Master Trust established under the Plan to hold the Plan's assets is intended to be exempt pursuant to the appropriate section of the IRC. The Master Trust has obtained an exemption letter from the Internal Revenue Service (IRS) dated September 1, 1988, in which the IRS stated that the design of the Master Trust was in compliance with the applicable requirements of the IRC. The Plan Sponsor believes that the Plan and Master Trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Sponsor believes that the Master Trust was tax-exempt as of the financial statement date. Accordingly, no provision for income tax has been recorded in the accompanying financial statements.

Accounting guidance requires the Plan Sponsor to evaluate tax positions taken by the Plan and recognize a liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has concluded there are no uncertain positions taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to examinations for years prior to 2022.

10. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the Plan balance and the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to valuation tables and discount rates, which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

11. Nonexempt Transactions

During 2025 and 2024, the Company inadvertently failed to deposit $640,270 and $845,968, respectively, of participant contributions within the required time frame as stated by the United States Department of Labor regulations. In 2025, the Company calculated lost interest and remitted calculated amounts to the Master Trust to correct this failure for the *Contributions Pending Correction in Voluntary Fiduciary Correction Program (VFCP)* reported in the December 31, 2025 Schedule H, Line 4a – Schedule of Delinquent Participant Contributions. In 2026, The Company will calculate lost interest, remit calculated amounts to the Master Trust and enter the VFCP for *Contributions Not Corrected* reported in the December 31, 2025 Schedule H, Line 4a – Schedule of Delinquent Participant Contributions.

12. Subsequent Events

The Plan has assessed the impact of subsequent events through July 24, 2026, which is the date the financial statements were available for issuance. There were no such events that required adjustment to or disclosure in the notes to the audited financial statements.
