Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: CLIFTONLARSONALLEN LLP

(2) EIN: 41-0746749

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		25000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation's ability to continue as a going concern within one year after the dates that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Plan Administrator
WEC Energy Group Retirement Plan
for Wisconsin Public Service Corporation

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTE 1 DESCRIPTION OF THE PLAN

The following description of the WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation (the Plan) is for general information purposes only. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan for certain eligible employees of participating subsidiaries and affiliates. The Plan is maintained by WEC Energy Group, Inc. (WEC or the Company).

Effective January 1, 2008 for administrative employees, the Plan is closed to new entrants. Benefit service accruals no longer accrue after December 31, 2012 and pensionable earnings froze as of December 31, 2017 for this group of participants. The Plan was closed to new entrants effective December 18, 2009 for union employees of Wisconsin Public Service Corporation.

Plan Sponsor

WEC is the Plan Sponsor.

Plan Administration

The WEC Employee Benefits Committee, which consists of Company employees, is responsible for administration of the Plan. The assets of the Plan are maintained in the Integrys Energy Group Master Retirement Trust (the Trust or Master Trust). The Trust is administered by the WEC Investment Trust Policy Committee, which consists of Company employees.

The assets of the Plan are commingled in the Trust with the assets of five other employee benefit plans of the Company. The Plan's investments represent an undivided interest in the Master Trust investment portfolio for which The Northern Trust Company (The Northern Trust or the Trustee) serves as the Plan's qualified institution.

Contributions

Contributions to provide benefits are made solely by the Company. Company contributions are based on a determination by the Plan's actuary, and are in accordance with the Plan requirements and the minimum funding requirements of ERISA. The Company's contributions for 2025 and 2024 complied with the minimum funding requirements of ERISA.

Benefits

Retirement benefit provisions vary by participant group. Specific benefit formulas can be found in the individual summary plan descriptions for each participant group. Administrative employees have a pension equity plan formula. Normal retirement is generally age 65 and early retirement options are available. Administrative participants are generally fully vested in their service credit after three years of service. Represented participants are fully vested after five years of service.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Benefits (Continued)

Provided the Plan is funded above 80% as defined under the Pension Protection Act, certain administrative participant groups may elect to receive the value of their accumulated plan benefits as a lump-sum distribution, and all participant groups may be offered different annuity options for benefit payments upon retirement.

Most vested participants who terminate for any reason other than death are entitled to the monthly vested benefit beginning on the normal retirement date in the amount of the accrued benefit. If the value of the participant's accrued benefit is less than \$5,000, the participant is paid a lump-sum payment. Benefits payable prior to normal retirement date may be reduced for early commencement. If a participant dies, the surviving spouse, or nonspouse beneficiary in some groups may be eligible for reduced benefit payments.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements and the reported amounts of additions to net assets and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefit Payments

Benefit payments to participants and their beneficiaries are recorded upon distribution.

Administrative Expenses

The Plan's Trustee, investment manager, legal, audit, consulting, administrative and actuarial fees, and Pension Benefit Guaranty Corporation (PBGC) premiums were paid by the Plan to the extent permitted by applicable regulations. All other administrative costs are paid by the Company and its subsidiaries. Since such costs are not paid from plan assets they have been excluded from the accompanying financial statements.

Transfers

The Company also sponsors additional retirement plans for various groups of employees. If an employee changed their position within the Company, their associated balance is transferred into the corresponding plan. There were no plan transfers for the years ended December 31, 2025 and 2024.

Allocation of Master Trust Investment Income

All income and expenses related to the Master Trust investments are allocated monthly by the Trustee based on the number of units of the Master Trust investments held by the Plan at the end of each month. A portion of the Master Trust income and expense is then allocated to each plan (see Note 3).

Subsequent Events

Plan management has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through July 30, 2026, the date the financial statements were available to be issued, and is not aware of any subsequent events that would require recognition or disclosure.

NOTE 3 INVESTMENT IN MASTER TRUST

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Cash Equivalents: Valued at cost, which approximates fair value based on the fair value of the fund's underlying investments.

Common Collective Funds: Valued at cost which approximates fair value or at the net asset value (NAV) of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. If the Master Trust initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate and Government Debt and Investment of Collateral: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted market prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote is available.

Partnerships and Real Estate: Valued using evaluations (a good faith opinion as to what a buyer in the marketplace would pay for a security-typically in an institutional round lot – in a current sale), based on proprietary models, or based on the NAV. The NAV is used as a practical expedient to estimate fair value. Certain partnerships have terms that range from 12 – 15 years. Partnerships are typically structured as closed-end, commitment-based investment funds where the Master Trust commits a specified amount of capital upon inception of the fund (i.e., committed capital) which is then drawn down over a specified period of the fund's life. A majority of these funds then seek to invest in lower middle-sized companies.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Funds held by the Master Trust are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Master Trust are deemed to be actively traded. There is one Registered Investment Company where NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. If the Plan initiates a full redemption of the investment, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 5 SECURITIES LENDING

The Plan has securities lending arrangements for certain Master Trust assets managed by Northern Trust. Under these arrangements, certain investment securities are loaned to investment brokers (the Borrowers) for a fee. Securities loaned are fully collateralized. The Borrowers are required to maintain the collateral at not less than 100% of the market value of the loaned securities. At December 31, 2025 and 2024, \$98,185 and \$90,620, respectively, of equity and fixed income securities in Master Trust investments were on loan under the securities lending arrangements. Cash and noncash collateral held at December 31, 2025 and 2024, was \$100,580 and \$92,626, respectively. Cash and noncash collateral provided by the Borrowers was invested in the Northern Trust Collective Securities Lending Core Short Term Investment Fund. Securities loaned continue to be listed as Plan and Master Trust investments. Income earned on securities lending arrangements totaled \$181 and \$215 for 2025 and 2024, respectively.

NOTE 6 POSTRETIREMENT MEDICAL BENEFITS

The Plan includes a medical-benefit component, in addition to normal retirement benefits, to fund a portion of the Company's postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (the IRC). A separate account has been established and maintained in the Plan's trust for the net assets related to the medical-benefit component (the 401(h) account). In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Any assets transferred to the 401(h) account from the defined benefit pension plan, in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the plan year, must be transferred out of the account to the pension plan. The related obligations for health benefits are not included in this Plan's financial statements, but are reflected as obligations in the financial statements of the Company's health and welfare benefit plans. Plan participants do not contribute to the 401(h) account. Employer contributions to the 401(h) account are determined annually and are at the discretion of the Company. As of December 31, 2025 and 2024, \$3,724 and \$4,428, respectively, of the Plan's investment in the Master Trust is restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries in accordance with IRC Section 401(h). The activity of the 401(h) account is not included in the Plan's activity as shown in the statements of changes in net assets available for benefits.

NOTE 7 ACCUMULATED PLAN BENEFITS

Accumulated plan benefits represent the actuarial present value of those estimated future benefits that are attributable to employee service rendered to December 31. Accumulated plan benefits include future benefits expected to be paid to or for (i) currently retired or terminated employees and their beneficiaries and dependents and (ii) active employees and their beneficiaries and dependents after retirement from services. Prior to an active employee's full eligibility date, the accumulated plan benefits are the portion of the expected accumulated plan benefits that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust to the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 7 ACCUMULATED PLAN BENEFITS (CONTINUED)

The significant actuarial assumptions used in the valuation as of December 31, 2024 were as follows:

Average Retirement Age	Graded retirement ages 55 through 70 with an average retirement age of 60.
Mortality Rate	For healthy lives, Pri-2012 benefit weighted healthy annuitant (retiree and contingent) and non-annuitant mortality tables (with blue and white collar adjustments for union and nonunion employees respectively). For disabled lives, Pri-2012 benefit weighted disabled mortality table. Mortality rates were projected using a generational projection scale that uses MP-2020 rates in 2012 and converges to a long-term improvement rate similar to that of the Social Security Administration with separate improvement tables for males and females.
Lump Sum to Annuity Conversion Interest Rate	5.70%
Lump Sum to Annuity Conversion Mortality Table	IRS 2025 417(e) Applicable Mortality with static projection to commencement year with the MP-2021 projection scale, incorporating the suspension of assumed mortality improvement for 2020-2023 and the 0.78% cap on mortality improvement for all years after 2024, consistent with IRS regulations under SECURE 2.0
Investment Return	6.75%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits.

NOTE 7 ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits as of December 31, 2024 is as follows:

Vested Benefits:	
Participants Currently Receiving Benefits	\$ 306,335
Other Participants	151,019
Total Vested Benefits	<u>457,354</u>
Nonvested Benefits	<u>6,958</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u><u>\$ 464,312</u></u>

Changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2024 are as follows:

Actuarial Present Value of Accumulated Plan Benefits - Beginning of Year	\$ 461,115
Increase (Decrease) During the Year Attributable to:	
Actuarial Gain	(1,904)
Benefits Accumulated	5,852
Increase for Interest Due to the Decrease in Discount Period	30,530
Benefits Paid	(35,312)
Changes in Actuarial Assumptions	<u>4,031</u>
Net Increase	<u>3,197</u>
Actuarial Present Value of Accumulated Plan Benefits - End of Year	<u><u>\$ 464,312</u></u>

The assumption changes for 2024 consisted of:

- a. The lump sum conversion interest rate changed from 5.15% to 5.70%.
- b. The lump sum conversion mortality table was updated to incorporate guidance outlined in IRS Notice 2024-42 which specifies mortality to be used for minimum lump sum values for the 2025 plan year.
- c. The retirement, termination, form of payment, terminated vested benefit commencement, and marital assumptions were updated based on an experience study conducted in 2024 to better reflect anticipated future experience.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024 there would be no material differences.

NOTE 8 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the PBGC (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 TAX STATUS

The IRS has determined and informed the Company by a letter dated December 17, 2020, that the Plan is designed in accordance with the applicable regulations of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks including, but not limited to, interest rate, market, and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 11 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31:

	2025	2024

NOTE 12 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments represent shares of mutual funds and common collective funds managed by Northern Trust. Northern Trust is the Trustee of the Plan and, therefore, transactions with Northern Trust qualify as party-in-interest transactions under ERISA.

Certain administrative expenses that are paid by the Company and reimbursed by the Plan qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are not, however, considered prohibited transactions under section 408(b) of the ERISA regulations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Interest crediting rate	The plan credits interest to frozen pension equity plan accounts using the first segment rate defined under the Pension Protection Act for use in determining minimum lump sum distribution under IRC 417(e)(3) (for Part A participants active on January 1, 2001, a 2.80% minimum rate was incorporated; for all remaining Part A participants the minimum is 0.5%). The assumption is based on a blend of the current and historical 1 st segment rates with adjustments for anticipated increases in the long-term 1 st segment rate outlook based on the long-term 1-year T-Bill and 10-year T-Bond rates.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Annuity conversion rate for hybrid plans	As required by IRC 430, annuity benefits are valued by converting accounts to annuities using the current IRC 430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.
Rates of increase in compensation and National Average Wages (NAW)	Assumed increases are based on plan sponsor expectations. Note, the compensation increase assumption was based on an experience study conducted in 2024, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Assumed return for asset smoothing	The assumed return used for smoothing is the third segment rate. Although we don’t explicitly determine an expected return on assets, based on an analysis of the plan sponsor’s investment policy, we believe the rate to be above the third segment rate.
Consumer Price Index (CPI) and Social Security wage	CPI and Social Security wage base assumptions were based on a study conducted in 2018.
Administrative expenses	Administrative expenses are estimated by utilizing expense information provided by the client and adjusting for anticipated actual

Covered pay

Assumed plan compensation for the year beginning on the valuation date was determined as the base rate of pay on the valuation date, plus the target bonus.

Administrative expenses

\$974,000

Special at-risk assumptions, if applicable

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.

Cash flow

- ▶ Timing of benefit payments Annuity payments are assumed to be payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Assumptions Rationale – Significant Demographic Assumptions

Healthy/Disabled mortality

Assumptions used for funding purposes are as prescribed by IRC 430(h).

Mortality for annuity conversion basis for PEP account balances and lump sums

Assumptions used for funding purposes are as prescribed by IRC 417(e).

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.

Decrement timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements:

SCHEDULE SB ATTACHMENTS

the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with WEC Energy Group, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits in a single lump sum payment. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the form of payment assumptions described above.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Part V – Statement of Actuarial Assumptions/Methods, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Data Sources

WEC Energy Group, Inc. and/or organizations designated by WEC Energy Group, Inc. furnished participant data as of January 1, 2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with WEC Energy Group, Inc., assumptions were made for missing or apparently inconsistent data elements. These assumptions have been documented and communicated with WEC Energy Group, Inc.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2025

See Schedule SB, Part V - Statement of Actuarial Assumptions/Methods for retirement rates. For each active participant, an expected retirement age was calculated weighted in proportion to the probability (as shown in the retirement rates table in the attachment to Schedule SB, Part V – Statement of Actuarial Assumptions/Methods) that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 60 is the arithmetic average of the expected retirement ages of these participants.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions – Retirement Plan for Wisconsin Public Service Corporation

Effective January 1, 2017, five plans were spun off from the Integrys Energy Group Retirement Plan and the plan was renamed the WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation (WPSC). Participants retain eligibility for benefits as provided for under the Integrys Energy Group Retirement Plan.

The WEC Energy Group Retirement Plan for Wisconsin Public Service Corporation was closed to new entrants as follows:

- Administrative employees effective January 1, 2008
- Local 420 effective December 19, 2009
- Local 1147 effective April 18, 2010

The most recent amendment reflected in the following plan provisions was adopted on December 20, 2023 and effective on January 1, 2023.

WPSC Part A: Retirement Program for Administrative Employees of Wisconsin Public Service Corporation and Other Participating Employers

Covered employees	Except for anyone who is subject to a collective bargaining agreement, an employee will become a participant on January 1 or July 1 coincident with or next following the date of completion of one year of eligibility service subject to the provisions concerning closure of the plan to new entrants.
--------------------------	---

Definitions

Service considered	Year of "Eligibility Service" is the twelve month period commencing on the date of hire or rehire, or any plan year in which the employee completes 1,000 or more hours of service. "Service credit," to determine eligibility for and the amount of benefits, is determined under the ERISA elapsed-time rules. Service credit will be earned while the employee is receiving benefits from the long-term disability plan sponsored by the company. No additional benefit service will accrue after December 31, 2012.

Compensation considered Total compensation prior to severance from service excluding nonqualified deferred compensation payments, and extraordinary payments. Annual compensation is limited to \$200,000, adjusted in accordance with Internal Revenue Code. Final average pay is the higher of the average of (a) the highest five complete calendar years of pay within the last 10 calendar years preceding severance from service, or (b) total pay for 60 months preceding severance from service. Pay after December 31, 2017 will not be considered in the calculation of final average pay.

Eligibility for Benefits

Benefit eligibility 5 years of service (3 years for employees who terminate employment on or after January 1, 2008).

Benefits Payable

Plan benefit

- (a) Benefit payable to a plan participant with 3 years of vesting service.
- (b) Total Service Percent is a total of:
 - a. 9% per year for the first 10 years of service;
 - b. plus 12% per year for years 11 through 20;
 - c. plus 15% per year for years 21 and thereafter.
 - d. For employees hired after December 31, 2000, and WF&L employees, the service percentages are 9%, 11%, and 13%, respectively.
- (c) Pension Income (lump-sum form) is equal to Total Service Percent times Final Average Pay.
- (d) Minimum benefit is the lump-sum value of the benefit earned through December 31, 2000 under the plan provisions in effect at December 31, 2000.

There will be no additional service or pay increases applied to the plan benefit after December 31, 2012 and December 31, 2017, respectively. Effective January 1, 2018 the frozen accrued benefit will be increased each year until benefit commencement with annual interest credits based on the first segment rate defined under the Pension Protection Act for use in determining minimum lump-sum distributions under IRC 417(e).

Pension transition

For employees employed on January 1, 2001:

- (a) Calculated by taking combination of participant's age and service on January 1, 2001.
- (b) Total age plus service is multiplied by 1.35% to arrive at Transition Percent (limited to 115%).
- (c) This percent is held constant until retirement or participant leaves the company and will be multiplied by Final Average Pay to determine the Pension Transition amount (payable as a lump sum). The minimum amount is \$50,000 for employees who were at least age 58 and had five years of service at December 31, 2000.

Benefits Payable (Continued)

Pension supplement

To be eligible for the Pension Supplement, participant must be

- (a) employed on January 1, 2001;
- (b) retire after January 1, 2001;
- (c) be at least 55 years of age, and
- (d) have 5 years of service with the company.

The Pension Supplement is payable as a fixed \$800 monthly payment from retirement until age 65, or as a lump sum based on age at retirement and current interest rates.

For employees hired after January 1, 2001, eligibility for the supplement requires the participant to be age 55 with 10 years of service. The Pension Supplement amount is earned at a rate of \$40 per year of service (earned prior to January 1, 2013).

Surviving spouse's benefit

- (a) If the death of a vested participant occurs, the spouse will receive either a single-sum payment or a survivor annuity benefit. If the participant had designated a non-spouse beneficiary and the surviving spouse had consented, the beneficiary will receive a single-sum payment.
- (b) If a participant who was receiving a monthly pension dies, the surviving spouse will receive payment in accordance with the joint and survivor option elected or the remainder of the Pension Equity Account Balance, if any.

WPSC Part B: Retirement Program for Non-Administrative Employees of Wisconsin Public Service Corporation Represented by Local 420 of the International Union of Operating Engineers

Covered employees An employee represented by Local Union No. 420 of the IUOE will become a participant upon completion of one year of service credit subject to the provisions concerning closure of the plan to new entrants.

Definitions

Service considered "Service credit," to determine eligibility for and the amount of benefits, is determined under the ERISA elapsed-time rules.

Compensation considered Total compensation prior to severance from service, including contributions to the Wisconsin Public Service Corporation Master Trust, but excluding nonqualified deferred compensation payments and extraordinary payments. Annual compensation is limited to \$200,000, adjusted in accordance with Internal Revenue Code. Average monthly compensation is the higher of the average of (a) the five calendar years of service after 1979, or (b) 60 months preceding severance from service.

Eligibility for Benefits

Normal retirement benefit On or after attainment of age 65 or, for an individual who became a participating employee after age 60, on the 4th anniversary of his date of participation.

Early retirement benefit Termination of employment on or after age 58 but prior to age 65, and completion of five years of service, at the request of the employee.

Deferred vested benefit In the event of termination of employment prior to age 58 and after 5 or more years of service credit.

Benefits Paid Upon the Following Events

Normal retirement benefit Monthly pension is equal to 56% of the participant's average monthly compensation prorated for less than 30 years of service, less one half of his primary social security benefit at age 65 prorated for service over the greater of service to age 65 or 30 years, plus 1/2

percent of average monthly compensation multiplied by the participant's service in excess of 30 years.

For participants as of January 1, 1983 the monthly pension determined under the above formula shall not be less than the benefit payable under the plan provisions as in effect on December 31, 1982.

Early retirement benefit

Monthly pension commencing as of the date designated by the participant or as of the participant's severance from service date, as the case may be, is determined in the same manner as a normal retirement benefit under the Normal Retirement Benefit paragraph above, reduced by $\frac{1}{4}$ of 1% for each month of early payment between ages 60 and 62 and $\frac{1}{2}$ of 1% for each month of early payment between ages 58 and 60. The pension is unreduced if benefits start after age 62.

Deferred vested benefit

Monthly pension payable as of the later of age 58 or the date designated by the employee, but not later than age 65, is determined in the same manner as an early retirement benefit under the Early Retirement Benefit paragraph.

Surviving spouse benefit

The spouse to whom the participant was married as of the date of his death will receive 50% of the pension determined under the following stipulations. This benefit will be reduced if the spouse is younger than the participant.

If the death occurs after early retirement age or normal retirement age, or after age 55 with 20 years of service, the base benefit is determined under the above Normal Retirement Benefit provisions. It is determined as if his date of death was his normal retirement date and based on his service credit and average monthly compensation as of his death. Payable starting the month following the month in which death occurs.

If the death occurs prior to early retirement age, but after 5 years of service credit, the base benefit is determined under the above Early Retirement Benefit provisions. It is determined as if his date of death was his early retirement date and based on his service credit and average monthly compensation as of his death. Payable starting the first of the month coincidental with or next following the date the employee would have attained age 58 if living.
