Independent Auditor's Report

The Plan Administrator
Trek Bicycle Corporation
Employee Stock Ownership Plan
Waterloo, Wisconsin

Opinion

We have audited the financial statements of Trek Bicycle Corporation Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

BDO USA, P.C., a Virginia professional service corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The ERISA-required supplemental schedules, Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H (Form 5500), Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures

applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the ERISA-required supplemental schedules, we evaluated whether the ERISA-required supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying ERISA-required supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Trek Bicycle Corporation Employee Stock Ownership Plan

Notes to Financial Statements

1. Plan Description

The following description of the Trek Bicycle Corporation Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Trek Bicycle Corporation (Trek or the Plan Sponsor) established the Plan in 1987. The Plan is a noncontributory employee stock ownership plan (ESOP) established for substantially all domestic employees of Trek hired prior to January 1, 2017 who have completed six months of service and for those employees hired after January 1, 2017 who have completed 12 months of service. Employees are eligible for participation in the Plan on the first day of the month after the above eligibility requirements are met. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan is administered by the Plan Administrative Committee, comprised of individuals appointed by the Trek Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was restated effective January 1, 2023.

Contributions

Contributions to the Plan are determined by the Board of Directors of Trek and may not exceed the maximum amount deductible under the IRC. Total Trek contributions are limited by certain restrictions as specified by the Plan. Only those participants who are eligible employees of Trek and were credited with at least 1,000 hours of service during the Plan year and employed on the last day of the Plan year will receive an allocation. Contributions are made among eligible participants in proportion to their eligible compensation for such year. The Plan Sponsor made no contributions to the Plan during 2025. Participant contributions are not allowed under the Plan.

Vesting

Participant accounts are 100% vested.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Participant accounts are credited with an allocation of the Plan Sponsor's contributions and Plan earnings or losses and are charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined.

Payment of Benefits

Normal retirement age under the Plan is age 60. A participant who continues working after their normal retirement date may elect to receive a distribution of all or a part of their account balance once each year. Distributions are permitted to be made in cash only. In general, balances less than \$500,000 are paid out in a lump sum, and balances exceeding \$500,000 are paid out in annual installments over a period of up to three years. A participant's account balance is distributable to the participant upon termination of employment if the balance is less than \$1,000.

Trek Bicycle Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Transfers Out

In the event that a participant terminates employment or a qualified domestic relations order, the participant has a balance greater than \$1,000, and the participant does not elect a distribution, the participant's vested balance will be transferred to the Trek Bicycle Corporation 401(k) Plan. During the year ended December 31, 2025, \$5,295,154 was transferred to the Trek Bicycle Corporation 401(k) Plan.

Voting Rights

The shares of Plan Sponsor stock held in the Plan will be voted by the trustees at the trustees' discretion. However, voting rights may be exercised by participants or beneficiaries with respect to any corporate matter involving the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the corporate assets. In the event participants are entitled to direct the trustees as to the voting of the stock, the trustees shall vote in accordance with the instructions received from participants. However, to the extent participants do not provide voting instructions, the trustees shall vote such shares of stock at the trustees' discretion.

Put Option

Under federal income tax regulations, the Trek common stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that Trek buys any shares of its stock distributed to participants for which there is no market. The put price is representative of the current fair market value of the stock. Trek can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants so that they have the opportunity to transfer part of the value of their account into other investments. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify up to 25% of their accounts each year during the first five years of their diversification period. In the sixth year of their diversification period, participants may elect to diversify up to 50% of their account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The financial statements include Trek's common stock, the value of which has been estimated by an

Trek Bicycle Corporation Employee Stock Ownership Plan

Notes to Financial Statements

independent valuation specialist in the absence of a readily ascertainable market value. For the aforementioned estimate, it is reasonably possible that the recorded amounts or related disclosures could significantly change in the near future as new information is available about the value of Trek's common stock, which represents a significant investment of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements. Contributions are automatically invested in shares of registered investment companies and certificates of deposit.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date for shares of registered investment companies and on the date declared for Trek common stock. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Sponsor Dividends

The Plan Sponsor paid dividends to the Plan totaling \$63,740 during the year ended December 31, 2025. Dividends are allocated to participants as investment income.

Risks and Uncertainties

The Plan's investment securities, which consist of the Plan Sponsor's common stock and various other investments, are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with certain investment securities including the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock or other investment securities will occur in the near-term and that such changes could materially affect participant's account balances and amounts reported in the statements of net assets available for benefits.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan as provided in the Plan document. Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. No participant benefit payments remained unprocessed and unpaid as of December 31, 2025 and 2024.

Cash, Interest Bearing

The carrying amount approximates fair value because of the short maturity of the instrument.

Trek Bicycle Corporation Employee Stock Ownership Plan

Notes to Financial Statements

3. Investments

The fair value of Trek Bicycle Corporation common stock owned by the Plan is as follows:

<i>December 31,</i>	2025	2024
Trek Bicycle Corporation Common Stock		
Trek Bicycle Corporation common stock shares	672,980	847,232
Fair Market Value	\$ 109,695,740	\$ 147,079,475
Cost	57,751,617	63,248,685
Fair Market Value per Share	\$ 163.00	\$ 173.60

4. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025.

Notes to Financial Statements

Common Stock - Trek Bicycle Corporation

Shares of Trek common stock are valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the discounted cash flow method under the income approach and the guideline public company method and comparative transaction method under the market approach. The appraiser took into account historical and projected cash flow under the income approach and net income and sales of five publicly traded companies under the market approach for 2025 and 2024. The comparable companies used in the analysis were the same in both 2025 and 2024. For the years ended December 31, 2025 and 2024, the discounted cash flow method was assigned an 80% weight and the guideline public company method was assigned a 20% weight.

The valuation process involves the Plan fiduciary's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Plan Sponsor and prepares the models for future growth of profitability expectation. Plan management obtains the preliminary report from the appraiser and reviews in detail, discusses, and approves. The results of this process are documented in the minutes of the Plan Sponsor.

Shares of Registered Investment Companies

Shares of registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value:

Transfers Between Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

5. Related Party and Party-in-Interest Transactions

Trek has entered into a shareholder agreement with each of its shareholders (including the Plan) that provides for the purchase of Trek common stock. The shareholder agreement provides that unless Trek is precluded from purchasing its common stock because of legal or contractual reasons, Trek is obligated to purchase shares of common stock at fair value from a shareholder that intends to sell or transfer their shares to a buyer or transferee that is not approved by Trek's Board of Directors. Trek is considered to be a party-in-interest to the Plan as defined by ERISA.

Trek Bicycle Corporation Employee Stock Ownership Plan

Notes to Financial Statements

As of December 31, 2025 and 2024, the Plan held 672,980 and 847,232 shares of Trek common stock, respectively. Therefore, all transactions involving Trek common stock qualify as party-in-interest transactions.

As of December 31, 2025 and 2024, the Plan had payables outstanding of \$30,522 and \$505,600, respectively, due to the Plan Sponsor.

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Administrative expense and appraisal fees may be paid directly by the Plan Sponsor or from Plan assets.

Blue Ridge ESOP Associates (Blue Ridge) is the recordkeeper, as defined by the trust agreement, and provides recordkeeping and information management services. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Blue Ridge for these services were approximately \$107,000 for the year ended December 31, 2025.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon partial or complete termination of the Plan, or upon discontinuance or suspension of further contributions by Trek, all account balances of the participants shall remain 100% vested and non-forfeitable. The trustees shall make distributions of the accounts of each participant or their beneficiary in the manner specified under the provisions of the Plan document.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated July 17, 2015 stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended and restated since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC and the Plan is qualified and the related trust was tax-exempt as of December 31, 2025 and 2024.

Accounting principles generally accepted in the United States of America require Plan management to evaluate the tax position taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

8. Subsequent Events

The Plan's management has evaluated subsequent events through July 30, 2026, the date on which the financial statements were available to be issued.
