Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **KMCO CPAS LLP**

(2) EIN: **42-1963336**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☒ Yes ☐ No

The Plan Administrator
Pension Plan of Stein Seal Company
Kulpsville, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Pension Plan of Stein Seal Company (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets in liquidation available for benefits as of October 31, 2025 and 2024, and the related statements of changes in net assets in liquidation available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended October 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pension Plan of Stein Seal Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Terminating Plan and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the Board of Directors of the Stein Seal Company, the plan's sponsor, voted in May 2025 to terminate the plan. In accordance with accounting principles generally accepted in the United States of America, the plan has changed its basis of accounting from the ongoing plan basis used in presenting the 2024 financial statements to the liquidation basis used in presenting the 2025 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pension Plan of Stein Seal Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of or for the year ended October 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Pension Plan of Stein Seal Company

Notes to Financial Statements

October 31, 2025 and 2024

(1) Description of Plan

The following brief description of the Pension Plan of Stein Seal Company (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a defined benefit pension plan covering substantially all employees of Stein Seal Company (SSC), its wholly-owned subsidiary, Stein Seal Industrial Division, and its affiliate, Bissinger and Stein, Inc. (collectively, the Company) who have attained the age of twenty-one years, completed one year of service, and have completed 1,000 hours of service. Effective November 1, 2021, the plan was amended to allow for eligibility of certain employees of SSC's foreign subsidiaries by adding Stein Seal UK Limited and Stein Seal Czech s.r.o. as adopting employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The plan administrator is responsible for the oversight of the Plan, determines the appropriateness of the Plan's investments and monitors investment performance.

Effective November 1, 2024, the Company initiated a freeze on its defined benefit pension plan, ceasing the accrual of additional benefits for all participants after October 31, 2024.

Plan Termination

In May 2025, the Board of Directors of the Company voted to terminate the Plan. Effective July 31, 2025 (the Plan Termination Date) the Plan was amended to be terminated. As of October 31, 2025, all participants of the Plan either received their vested pension benefit directly from the Plan, or the Plan has paid an insurance carrier to take on the participants' pension obligations. The remaining assets in the Plan are expected to be disbursed in 2026 in part as a refund to the Company and in part to a qualified replacement plan maintained by the Company.

Pension Benefits

Subject to vesting provisions, employees with one or more years of service are entitled to annual pension benefits beginning at normal retirement age of 65 equal to the product of 38% of their average compensation, their accrued benefit adjustment as described in the plan document, and their short service percentage as described in the plan document. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity, a lump-sum distribution, or a life annuity payable monthly from retirement. An employee may elect to defer their pension benefit to a later retirement date. A deferred benefit under the Plan is calculated based on an employee's normal retirement date and increased by an adjusting percentage as defined in the plan document.

Effective June 15, 2025, the Plan was amended to provide for a single sum payment window between July 1, 2025 and October 31, 2025 for participants whom are not eligible to commence benefits as of October 1, 2025 to request a lump sum distribution of their accrued benefits.

(1) Description of Plan, Continued

Pension Benefits, Continued

In addition to the lump sum distributions associated with the plan termination, In October 2025, the Plan purchased a guaranteed deferred annuity under a nonparticipating group annuity contract (the Purchased Annuities) with United of Omaha Life Insurance Company to provide future benefits of the remaining participants in exchange for premiums totaling \$14,107,950. The Purchased Annuities are contracts under which the insurance company is obligated to pay benefits to named participants and their beneficiaries. The plan and participants have no right to share in the earnings of the insurance company and there are no further obligations to the plan for the participant.

Death and Disability Benefits

If an active employee dies before his annuity starting date, a death benefit equal to 50% of the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become disabled before their normal retirement date and have completed ten years of service are eligible for a monthly benefit equal to their accrued benefit on the day before their monthly disability benefits begin, multiplied by a factor described in the plan document. Disability benefits are paid until normal retirement age at which time disabled employees begin receiving normal retirement benefits adjusted to reflect the actuarial equivalent value of the disability benefits previously received by the employee.

Vesting

Vesting in the Plan is based on years of service. A participant is 20% vested after three years of service. An additional 20% vesting occurs for each year thereafter, up to 100%. A participant is fully vested after seven years of service. Participants who attain the age of 65 while an active employee will become 100% vested.

As of the Plan Termination Date, all participants became fully vested in their pension benefits.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying 2025 financial statements are prepared on the liquidation basis of accounting; accordingly, all amounts expected to be incurred as a result of liquidation have been estimated and recorded as of October 31, 2025. The accompanying 2024 financial statements of the Plan are prepared on the ongoing accrual basis of accounting.

(2) Summary of Significant Accounting Policies, Continued

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends for common stock, registered investment companies, and exchange-traded funds (ETF) are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year. Interest and dividend income realized on pooled separate accounts is included in net appreciation in fair value of investments.

Pension Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as a deduction in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets in liquidation available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through August 11, 2026, the date the financial statements were available to be issued.

(3) Funding Policy

The Plan is funded each plan year by contributions from the Company determined pursuant to funding methods and actuarial assumptions sufficient to satisfy the Plan's minimum funding requirements under ERISA. Contributions to the Plan by employees are not permitted.

(4) Actuarial Present Value of Accumulated Pension Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' highest average compensation for a consecutive five year period. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Financial Group and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Certain significant actuarial assumptions are as follows as of November 1, 2024 and 2023:

	2024	2023
Mortality	The Pri-2012 Total dataset projected generationally using the Principal Mortality Improvement Scale 2024 (based on MIM-2021-v4) with a 13 year convergence period on age and cohort.	The Pri-2012 Total dataset projected generationally using the Principal Mortality Improvement Scale 2023 (based on MIM-2021-v4) with a 10 year convergence period on age and cohort.
Normal retirement age	65 years old	65 years old
Investment return	3.75%	7.50%

The actuarial present value of accumulated plan benefits is as follows as of November 1:

	2024	2023
Vested benefits:		
Active participants	\$ 22,943,846	\$ 16,681,790
Participants receiving benefits	12,761,602	9,224,129
Inactive participants	6,970,857	5,341,705
	<u>42,676,305</u>	<u>31,247,624</u>
Nonvested benefits	1,564,321	1,044,880
Total actuarial present value of accumulated plan benefits	<u>\$ 44,240,626</u>	<u>\$ 32,292,504</u>

Pension Plan of Stein Seal Company

Notes to Financial Statements

(4) Actuarial Present Value of Accumulated Pension Benefits, Continued

The change in the present value of accumulated plan benefits was as follows for the years beginning November 1:

	2024	2023
Actuarial present value of accumulated plan benefits, beginning of year	\$ 32,292,504	\$ 30,718,625
Benefits accumulated	1,984,453	1,930,076
Increase for interest due to the decrease in the discount period	2,028,068	1,890,911
Benefits paid	(2,217,586)	(942,383)
Change in assumptions	10,153,187	(1,304,725)
Net increase	11,948,122	1,573,879
Actuarial present value of accumulated plan benefits, end of year	\$ 44,240,626	\$ 32,292,504

The change in assumptions is primarily the result of the reduction to the interest rate used to discount the accumulated plan benefits as well as the July 31, 2025 plan termination.

The foregoing actuarial assumptions are based on the presumption that the Plan was terminated effective July 31, 2025. Had the valuation been performed as of October 31, 2025, the distributions that occurred during the period November 1, 2024 through October 31, 2025 would be reflected, and different actuarial assumptions would have been used to determine the actuarial present value of benefits as of October 31, 2025. The impact on the November 1, 2024 valuation would have resulted in a decrease of the actuarial present value of accumulated benefits of approximately \$6,377,000.

(5) Financial Information Certified by the Custodian

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at October 31, 2025 and 2024, and net appreciation in fair value of investments and interest and dividends for the years ended October 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company (Principal), a qualified institution.

(5) Financial Information Certified by the Custodian, Continued

The following types of investment assets held by the Plan as October 31, 2025 and 2024 and the related net appreciation and interest and dividend income for the years ended October 31, 2025 and 2024 are not included in the information certified by the qualified institution:

- all common stock, ETF, interest-bearing cash, and registered investment companies.

(6) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2025 and 2024.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Pension Plan of Stein Seal Company

Notes to Financial Statements

October 31, 2025 and 2024

(6) Fair Value Measurements, Continued

Exchange traded fund: Valued at the daily closing price as reported on the active market on which the individual securities are traded.

Interest-bearing cash: Valued at historical cost, which approximates fair value.

Pooled separate accounts: Valued at the net assets value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the market value of the underlying investments. This practical expedient would not be used if it determined to be probable that the funds will sell the investment for an amount different from the reported NAV.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end or closed-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2025 and 2024:

Description	Assets at Fair Value as of October 31, 2025			
	Level 1	Level 2	Level 3	Total

Certain investments that are measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

There were no significant transfers among investment levels during the years ended October 31, 2025 and 2024.

The following table summarizes investments measured at fair value based on the NAV per share as a practical expedient as of October 31:

(7) Tax Status

The Plan used a prototype plan document sponsored by Principal. The Internal Revenue Service (IRS) had determined and informed Principal by a letter dated March 30, 2018, that the prototype plan was designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Effective November 1, 2024, the Plan adopted a pre-approved nonstandardized plan document sponsored by Principal. The IRS determined and informed Principal by a letter dated February 28, 2023, the Plan and related trust were designed in accordance with applicable sections of the IRC.

(7) Tax Status, Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(9) Related Party Transactions and Party-In-Interest

Certain plan investments are shares of pooled separate accounts managed by an affiliate of Principal. Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. The Plan paid certain fees to Principal and various service providers during 2025 and 2024. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Assumptions prescribed by law

Mortality	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
-----------	---

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	3.75% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.
Upcoming year salary increase	No longer applicable since the plan is now frozen.
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female. We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.75. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.75 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit and basis	75% of active participants will elect a benefit paid in a lump sum at the assumed retirement age. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement age. Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience. The single sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.

Methods prescribed by law

Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates could differ from actual plan lump sum rates.

Methods selected by plan sponsor

Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities

3.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same [mortality](#) assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Schedule SB, Part V - Summary of Plan Provisions
Pension Plan of Stein Seal Company
EIN 23-1729452 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the November 1, 2024 plan restatement and SECURE Act 2.0 Amendment both signed August 13, 2024, Amendment #1 signed October 30, 2024, and Amendment #2 signed May 27, 2025.

Plan eligibility

Age	Attained age 21.
Service	One year of service in which 1,000 hours worked. Effective October 31, 2024, no employee hired or rehired will become an active participant in the plan, and no inactive or former participant will again become an active participant.

Normal retirement benefit

Age	The later of age 65 or attained age on the date five years after the first day of the plan year in which plan entry occurs.
Form	Monthly annuity guaranteed for ten years and life thereafter (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	38% of average compensation times short service percentage and accrued benefit adjustment. Minimum benefit of \$20 or the accrued benefit as of October 31, 1997. Benefit accruals are frozen for all participants as of October 31, 2024.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

Termination benefit

Vesting percentage	20% after three years of service plus 20% for each year thereafter, up to 100%.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Service	10 years of service.
Form	Monthly income payable until normal retirement, death or recovery and a deferred annuity payable at the normal retirement date.
Amount	The immediate benefit payable is equal to the accrued benefit on date of disability reduced to reflect the fact that disability date precedes normal retirement date. The full accrued benefit is then payable at normal retirement date.

Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day. Retirement benefits will be reduced 0.25% each year an employee elects to receive the pre-retirement death benefit.

Definitions

Average compensation	The monthly average of total pay received over the five consecutive years of employment which give the highest average. Average compensation is frozen for all participants as of October 31, 2024.
Accrual Service	One year of accrual service is earned for each plan year in which an employee is credited with at least 1,000 hours of service. A partial year of accrual service is credited during the plan year where an employee completes less than 1,000 hours of service if they are credited with at least 1,000 hours of service in the next plan year. The partial service is equal to 1/12th of a year of accrual service for each calendar month during which the employee is credited with at least one hour of service. Accrual service is frozen for all participants as of October 31, 2024.
Vesting Service	One year of vesting service is earned for each plan year in which an employee is credited with at least 1,000 hours of service.

**Accrual benefit
adjustment**

The quotient of (a) divided by (b):

- (a) The member's accrual service as of such date.
- (b) The member's potential accrual service as of the date he reaches normal retirement age, if he remains an eligible employee between the date of determination and the date he reaches normal retirement age.

The accrued benefit adjustment cannot be greater than 1.0.

**Short service
percentage**

The percentage obtained by dividing the participant's potential accrual service as of the date the participant reaches normal retirement age by 15 (maximum 100%).

**Optional forms of
benefit payments**

The optional forms of benefit payments are:

- Monthly annuity payable for life, or 5, 10, or 15 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100.
- Single sum payment equal to the present value of the retirement benefit.

The optional form conversion basis is 7.50% interest and the 1983 Group Annuity Mortality table for payments other than lump sums.

Lump sum provisions

Small amount force out (SAFO) – allowed up to \$7,000.

Lump sums in excess of SAFO – are allowed at termination of employment and retirement.

Conversion – deferred rate based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the month that contains the payment start date.

Changes in Principal Eligibility or Benefit Provisions

The actuarial valuation for this plan year recognized the following eligibility and/or benefit changes:

The plan terminated effective July 31, 2025.

Significant Event

The following significant event occurred during the plan year:

The plan terminated effective July 31, 2025.

Schedule SB, Line 25 – Change in Method
Pension Plan of Stein Seal Company
EIN 23-1729452 Plan No. 001

A change in funding method has occurred since last year due to:
a change in the asset valuation method to use market value

This funding method change is granted automatic approval under IRS Revenue Procedure 2017-56

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Pension Plan of Stein Seal Company
EIN 23-1729452 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 7.50% to 3.75%.
