INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee and participants of the
Auto Driveaway Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Auto Driveaway Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from the qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of the report,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by the qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current Plan instrument, including all Plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by the qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auto Driveaway Retirement Plan

Notes to Financial Statements December 31, 2025 and 2024

1. Description of Plan

The following description of the Auto Driveaway Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document, copies of which are available from the plan administrator, for a more detailed description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Auto Driveaway Systems, LLC (the Company), except for non-resident aliens, residents of Puerto Rico, and employees covered under a collective bargaining agreement. Employees become eligible to participate in the Plan after completing 250 hours of service within the first 3-month period after being hired. The entry date is the first day of the quarter coinciding with or following the date the eligibility requirements are satisfied. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make pre-tax and/or Roth contributions of up to 100% of eligible compensation as defined by the Plan document, not to exceed a maximum of \$23,500 in 2025, plus up to an additional \$7,500 for participants who have reached at least 50 years of age by the end of the Plan year. Beginning in 2025, participants who turned age 60, but not older than age 63 by December 31, 2025 are eligible for catch-up contributions of \$11,250.

Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan also permits in-plan Roth rollover contributions, which allow participants to transfer eligible amounts from Plan accounts to a designated Roth account within the Plan. Amounts converted through an in-plan Roth rollover are generally subject to applicable income taxes in the year of the conversion.

All eligible employees who do not have an existing salary reduction agreement are automatically enrolled in the Plan at a deferral rate of 6% of eligible compensation, unless the participant elects otherwise. The automatic deferral is fixed at 6% and does not increase automatically in subsequent years. Participants who are automatically enrolled can withdraw automatic contributions within 90 days of their first automatic deferral.

The Company may make a discretionary employer matching contribution on behalf of eligible employees. The discretionary employer matching contributions are based on a uniform percentage or dollar amount as determined by the Company on an annual basis. For 2025, the Company made discretionary employer matching contributions equal to 50% of participant deferrals not to exceed 4% of the participants eligible compensation.

Auto Driveaway Retirement Plan

Notes to Financial Statements December 31, 2025 and 2024

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, any Company contributions and earnings and losses on the investments in their account and is charged with certain administrative expenses. Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan. Participants may change their investment options daily. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings and losses thereon. For Company discretionary employer match contributions and earnings and losses thereon, participants vest 20% per year of service and are fully vested in these contributions after 5 years of service. A year of service is earned upon completion of at least 1,000 hours of service during the Plan year. Participants become 100% vested in all accounts under the Plan if employed on or after the normal retirement age of 65. Participants also become 100% vested in all accounts upon death or disability.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested balance of their account. A participant may have one note outstanding at any time. The notes are secured by the balance in the participant's account and bear a reasonable rate of interest. At December 31, 2025, notes had fixed rates ranging from 4.25% to 9.50% for the term of the note, not to exceed 5 years. Principal and interest are paid through payroll deductions. Participant loans are due in full upon termination of employment.

Payment of Benefits

At the time of death, disability, termination of service, or retirement, the participant or their beneficiary may receive payment of the vested interest in their account in a lump-sum amount, equal to the value of the participant's vested interest in their account. In-service withdrawals of all or part of the participant's vested account, are also permitted for participants who have attained age 59½. The participant's contributions may also be withdrawn for certain hardship situations. If a participant terminates employment and has an account balance less than \$1,000, the participant will automatically receive a lump-sum payment equal to the value of their account. If a participant terminates employment and has an account balance greater than \$1,000 but less than \$7,000, the participant's balance will be rolled over to an individual retirement plan or annuity account.

Auto Driveaway Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

Forfeited Accounts

Forfeited non-vested account balances totaled \$19,492 and \$6,066 as of December 31, 2025 and 2024, respectively. These accounts may be used to pay reasonable Plan administrative expenses, reduce future Company discretionary employer match contributions, or allocated as additional matching contributions to participant accounts. During 2025, approximately \$5,000 of forfeitures were used to offset the Company's discretionary employer matching contributions.

Administrative Expenses

Certain transaction fees for withdrawals and loans are charged directly to the participant. Certain investment-related expenses are allocated to participants and are reflected in the net change in the fair value and contract value of investments. To the extent such investment fees are not offset by revenue-sharing credits, they are charged to participants on a pro-rata basis. These expenses are paid to service providers of the Plan, and therefore, qualify as party-in-interest transactions. All other administrative expenses were paid by the Company.

The Plan has an ERISA spending account where the qualified institution deposits revenue sharing payments that are used to pay administrative expenses. During 2025, \$7,508 was deposited to the account and \$7,500 used to pay administrative expenses during the year. Deposits to this account are included in the net change in fair value of investments in the accompanying statement of changes in net assets available for benefits. The account had a balance of \$39 and \$31 as of December 31, 2025 and 2024, respectively. Expenses are recorded in the year paid.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions

Participant contributions are considered payable to the Plan upon the withholding of contributions from the participant's paycheck. The Company discretionary employer match contributions are considered payable to the Plan when the related participant's contributions are payable to the Plan.

Auto Driveaway Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value, except for the guaranteed interest account, which is stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net change in fair value and contract value of investments includes realized and unrealized gains and losses on investments, interest, and dividends. Interest income is recorded when received.

Notes Receivable from Participants

Notes receivable from participants are carried at their outstanding balance. Interest income is recognized when received by the Plan. If a participant ceases to make note repayments, and the plan administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded. Notes receivable from participants also qualify as party-in-interest transactions.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through August 10, 2026, which is the date the financial statements were available to be issued.

3. Information Certified by the Qualified Institutions

All investment information in the accompanying financial statements and supplemental schedule of assets (held at end of year), including investments held and notes receivable from participants at December 31, 2025 and 2024, and the net change in fair value and contract value of investments and interest income for the year ended December 31, 2025, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Empower Trust Company, LLC and Empower Annuity Insurance Company (collectively, Empower), the Plan's qualified institutions.

Auto Driveaway Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

4. Investments

Plan investments include a Guaranteed Interest Account (GIA), which is managed by Empower. Empower is a service provider to the Plan; therefore, transactions in this investment qualify as party-in-interest transactions. Any fees incurred by the Plan for investment management services are included in net change in fair value or contract value of investments, as they reduce net investment returns credited to participant accounts.

The Plan's investments are susceptible to various market risks. Market risks include U.S. and global events that could impact the value of Plan investments. Such events may include public health emergencies such as a pandemic, as well as international conflicts, cybersecurity attacks, supply chain disruptions, global monetary policy decisions, inflation, significant economic influences, and other adverse credit and market events and conditions. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The FASB established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other observable data, including quoted prices for identical assets in inactive markets

Level 3 – unobservable inputs

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Investments in mutual funds are stated at quoted market prices for the identical security in an active market (Level 1).

Auto Driveaway Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

Investments in pooled separate accounts are valued daily at net asset value (NAV). The NAV is based on quoted prices determined daily based on the fair value of the equities and other securities in the fund. The pooled separate accounts may be traded daily at their NAV, but the market is considered inactive (Level 2).

The Plan invests in a GIA. The GIA is considered to be fully benefit responsive investment contract issued by Empower. The GIA is backed by the general account assets of Empower. The Plan's investment in this account is stated at contract value. Contract value represents deposits and transfers made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract value is the relevant measure for fully-benefit responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contracts. Investment income of this account is presented on a contract value basis. Interest is credited daily to the group contract holder on a portfolio basis. Under the terms of the contract, Empower Annuity Insurance Company of America guarantees repayment of principal and accrued interest credited to participants' accounts for permitted participant-initiated transactions, subject to the claims-paying ability of the insurer. The crediting interest rate may change or stay the same quarterly and applies to all money deposited in the group contract holders account regardless of when it was deposited. As of December 31, 2025 and 2024, the annualized net crediting rate was 2.45%. Participant transfers out of the fund are permitted without restriction or penalty; however, the Plan may not offer competing investment options to maintain full liquidity for participants.

The following table summarizes the Plan's investments at fair value based on the inputs used to determine their values as of December 31, 2025 and 2024:

Auto Driveaway Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their Company's contributions.

6. Income Tax Status

The Plan uses a Non-Standardized Pre-Approved Profit Sharing/Money Purchase/CODA plan sponsored by Empower Retirement, LLC (Empower Retirement), an affiliate of Empower. The Internal Revenue Service has opined and informed Empower Retirement by letter dated November 14, 2022, that the pre-approved plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has not received an individual determination letter and has been amended since Empower Retirement received the opinion letter. However, the Plan administrator believes that the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination.
