To the Plan Administrator
Eastern Industrial Automation
401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Eastern Industrial Automation 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of October 31, 2025 and the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of October 31, 2025 and for the year then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of October 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Report on Prior Year Financial Statements

Tonneson & Company, PC performed an audit of the 2024 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified to by a qualified institution. Their report dated August 8, 2025 indicated that (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2024 supplemental schedule, other than the information in the 2024 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and the information in the 2024 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Eastern Industrial Automation 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees, other than leased employees and interns, are eligible to participate after they have completed a 12-month period of employment with at least 1,000 hours of service and have attained the age of 21 or, as provided for in the SECURE 2.0 Act, completion of 500 hours of service within each of the prior three years. Eastern Industrial Automation (the "Company") is the plan administrator. John Hancock Trust Company LLC (John Hancock) is the trustee.

The Plan includes an employees' thrift savings plan established under the provisions of Internal Revenue Code Section 401(k). Under the savings plan, a certain percentage of employees' wages, as defined in the Plan, can be deferred as an employee contribution to the Plan.

Automatic Enrollment

Employees who first become eligible to participate in the Plan and who fail to affirmatively make any deferral election (including an election to contribute 0 percent of eligible compensation) within the time prescribed by the administrator shall be deemed to have elected to defer 3 percent of eligible compensation as a pretax contribution, which will be increased by 1 percent annually up to a maximum of 7 percent unless participants elect otherwise. Contributions received under the automatic enrollment feature are invested in the appropriate American Funds Target Date Retirement Fund based on the participant's year of birth until changed by participant.

Contributions

Participants may generally contribute up to 70 percent of pretax annual compensation, as defined in the Plan. Deferrals can be designated as either pretax contributions or as Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make rollover contributions representing distributions from other qualified plans. Each year, a discretionary matching contribution may be made at the option of the plan sponsor. Effective November 1, 2018, the Company shall make a safe harbor matching contribution equal to 100 percent of 1 percent of eligible compensation that a participant contributes to the Plan and 50 percent of the next 6 percent of eligible compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the plan sponsor. Contributions are subject to certain limitations, and eligibility requirements apply to such contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's discretionary matching contributions, and allocations of the Company's profit-sharing contributions and charged with an allocation of administrative expenses, if any. Allocations of the Company's discretionary profit-sharing contributions are based on participants' compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may reallocate their funds or redirect new contributions on a daily basis among any of the offered funds.

October 31, 2025 and 2024

Note 1 - Plan Description (Continued)

Vesting

Participants are immediately 100 percent vested in their salary deferral contributions, plus actual earnings thereon. Participants are also 100 percent vested in the safe harbor matching contributions and related actual earnings, which began effective November 1, 2018. In addition, participants who were not terminated as of November 1, 2018 became 100 percent vested in all employer matching contributions and related actual earnings made prior to November 1, 2018. For participants who were terminated prior to November 1, 2018, vesting in the employer matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of service and is 100 percent vested after six years of credited service.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances. The notes are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1 percent, fixed at the time of issuance. Principal and interest are paid ratably through weekly payroll deductions. Generally, notes must be repaid within five years unless being used to purchase a principal residence. If a participant terminates employment with an outstanding loan balance, the participant may continue to make loan repayments directly to John Hancock. Participants may have only one note outstanding at a time.

Revenue Sharing

The Plan has a revenue-sharing agreement where certain revenue generated by the Plan's investments is credited to an unallocated account. These amounts are used for the benefit of the Plan to pay administrative expenses or to allocate to participants. As of October 31, 2025 and 2024, there were unallocated amounts of \$11,539 and \$8,331, respectively, in the revenue-sharing account. An amount of \$1,107 was allocated to participants from the October 31, 2024 balance during the year ended October 31, 2025.

Benefit Payments

On termination of service, including upon retirement, disability, or death, a participant (or the participant's beneficiary in the case of death) may elect to receive the value of the vested account in a lump-sum cash payment, a rollover distribution to an eligible retirement account, or a combination of both payout options. Partial withdrawals are allowed for terminated participants. If the balance is greater than \$7,000, the participant or beneficiary may elect to defer payment of benefits until a minimum distribution is required. If the vested balance is less than \$7,000 but greater than \$1,000, the account will be rolled over to an IRA unless an alternative distribution election is made by the participant. For vested balances less than \$1,000, benefit payments are automatically made to the participant in the form of a lump-sum payment unless an alternative distribution election is made by the participant.

Participants may request withdrawal from their vested accounts be distributed in the case of financial hardship, as defined in the plan document, or upon attainment of age 59½.

Forfeitures

Forfeitures of matching contributions are used to pay the administrative costs of the Plan or to reduce future matching contributions. During the years ended October 31, 2025 and 2024, no forfeitures were used to pay the administrative costs of the Plan. At October 31, 2025 and 2024, there were no forfeited nonvested amounts.

October 31, 2025 and 2024

Note 1 - Plan Description (Continued)

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. In the event of termination of the Plan, participants are 100 percent vested in their account balances.

Administrative Expenses

Generally, expenses not paid by forfeitures or from a revenue-sharing account are paid by the plan sponsor. Fees for origination of notes receivable from participants, qualified domestic relation orders, and certain other administrative expenses are paid by the participants.

Party-in-interest Transactions

During the year ended October 31, 2025, John Hancock Retirement Plan Service, LLC was the recordkeeper and its related entity, John Hancock Trust Company LLC, was the trustee of the Plan. Expenses paid to John Hancock qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value except as noted below. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

The fully benefit-responsive unallocated contract is valued at contract value. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances, plus any accrued interest. Delinquent participant notes receivable are reclassified as distributions in accordance with the terms of the plan document.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

October 31, 2025 and 2024

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 6, 2026, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

John Hancock Trust Company LLC (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related investment income and interest from participant notes included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Tax Status

The Plan uses a preapproved plan. The preapproved plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter. The Plan has been amended since receiving the determination letter; however, the plan administrator and the Plan's tax counsel believe that the Plan in effect is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is generally subject to potential examination by taxing jurisdictions for the prior three years. Currently, there are no audits in progress for any tax periods.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

Note 5 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at October 31, 2025 and 2024:

Assets Measured at Fair Value on a Recurring Basis at October 31, 2025				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual funds	\$ 34,707,918	\$ 34,707,918	\$ -	\$ -

Assets Measured at Fair Value on a Recurring Basis at October 31, 2024				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual funds	\$ 28,520,446	\$ 28,520,446	\$ -	\$ -

Note 6 - Investment Contract

The Plan has a benefit-responsive guaranteed interest account with New York Life Investment Management LLC (New York Life). The guaranteed account is a traditional guaranteed interest contract and is part of the general assets of New York Life. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

In determining the net assets available for benefits, the traditional guaranteed interest account is recorded at contract value. Because the guaranteed interest account is fully benefit responsive, contract value is the relevant measurement attribute for the portion of net assets available for benefits attributable to the guaranteed interest account. Contract value, as reported to the Plan by New York Life Investment Management LLC, represents contributions made under the contract, plus earnings, less participants' withdrawals or transfers of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rate is subject to adjustment every six months and is based on a formula agreed upon with the issuer, but it may not be less than the lesser of 3 percent or a rate determined by the six-month average of the five-year Constant Maturity Treasury Rate, as more fully defined in the contract.

Certain conditions may limit the ability of the Plan to transact at contract value with New York Life. Such circumstances include, but are not limited to, plan termination, plan merger, and certain other employer-initiated events. The Plan administrator does not believe that the occurrence of such events that would limit the Plan's ability to transact at contract value is probable. The net interest crediting rates ranged from 2.70 percent to 3.00 percent during the year ended October 31, 2025.

Note 7 - Participant Notes Receivable

As of October 31, 2025 and 2024, participant notes receivable bear interest at rates ranging from 4.25 percent to 9.50 percent and mature at various dates through December 2030.
