To the Plan Administrator
Pension Plan for Employees of the Charles Stewart
Mott Foundation

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Pension Plan for Employees of the Charles Stewart Mott Foundation (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024 and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator
Pension Plan for Employees of the Charles Stewart
Mott Foundation

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

To the Plan Administrator
Pension Plan for Employees of the Charles Stewart
Mott Foundation

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of December 31, 2025 and reportable transactions for the year ended December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Pension Plan for Employees of the Charles Stewart Mott Foundation

Notes to Financial Statements

December 31, 2025 and 2024

Note 1 - Plan Description

The following description of Pension Plan for Employees of the Charles Stewart Mott Foundation (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan and was established by the Charles Stewart Mott Foundation (the "Foundation") effective July 1, 1970 for the benefit of its employees and their beneficiaries under Section 401(a) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility and Vesting

Employees of the Foundation are eligible to participate in the Plan after attaining age 21 and completing 1,000 hours of service. Participants are immediately 100 percent vested upon entry into the Plan if hired before January 1, 2025. Participants hired after January 1, 2025 are 100 percent vested after five years of vesting service.

Pension Benefits

Participating employees are entitled to annual lifetime pension benefits, beginning at normal retirement age of 65, equal to 2 percent of their highest five consecutive years' average annual compensation for each year of service after becoming a participant. The Plan permits early retirement at ages 55-64. Employees will receive their benefits as a monthly life annuity. However, if the value of the accumulated plan benefits is \$5,000 or less upon retirement or termination, the benefit will be paid in a single lump sum at that time. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. The Plan also provides death benefits to the employee's surviving spouse.

Additionally, effective April 1, 2025, the Plan was amended to allow for a single-sum payment window beginning on April 1, 2025 and ending on May 15, 2025. The single-sum payment window allowed for inactive participants to receive a distribution of their benefit in a single sum. Approximately \$2.4 million in lump-sum distributions were taken as a result of the lump-sum payment window. The effect of the amendment was not included in the estimate for the actuarial present value of accumulated plan benefits.

Death Benefits

If an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit equal to the benefit the employee would have received under the qualified joint and survivor annuity form had the employee retired on the day immediately preceding the date of his or her death will be paid to the surviving spouse.

Payment of Benefits

Distributions are payable upon retirement, death, or termination of employment subject to certain restrictions.

Contributions

All contributions are made by the Foundation in actuarially determined amounts. The Foundation's policy is to make contributions necessary to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. The Foundation's contributions exceeded the minimum funding requirements of ERISA for the years ended December 31, 2025 and 2024. Contributions by participants are not permitted by the Plan.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Plan assets are in investment funds managed by Principal Life Insurance Company or its affiliates. Principal Life Insurance Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Foundation.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to the following:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Financial Group and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2024 are summarized as follows:

Actuarial cost method	Aggregate
Discount rate	6.00 percent per annum
Assumed age of retirement	Inactive participants: Various rates ranging from 10 percent at age 61 to 100 percent at age 65 Active participants: Various rates ranging from 2 percent at age 55 to 100 percent at age 67
Mortality basis	Society of Actuaries (SOA) Pri-2012 total dataset base rate mortality table projected generationally using MP-2021

December 31, 2025 and 2024

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including July 29, 2026, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

Principal Life Insurance Company (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information certified by the Custodian.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits attributable to participants in the Plan as of December 31, 2024 is as follows:

Actuarial present value of accumulated plan benefits - Vested benefits:	
Participants currently receiving benefit payments	\$ 35,843,671
Other vested participants	<u>21,432,486</u>

Note 4 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2024 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 54,439,185
Increase (decrease) during the year attributable to:	
Benefits accumulated and plan experience	3,288,101
Interest	3,159,607
Benefits paid	<u>(3,610,736)</u>
Net increase	<u>2,836,972</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 57,276,157</u>

Note 5 - Tax Status

The Plan uses a preapproved plan. The preapproved plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 6 - Plan Termination

Although it has not expressed any intention to do so, the Foundation has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. All other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to substantial owners of Section 4022(b)(5))
3. All other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. All other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 7 - Reconciliation of the Financial Statements to Form 5500

Assets allocated for retirees in payout at December 31, 2025 and 2024 have been included in the statement of net assets available for benefits on the financial statements but are excluded from Form 5500. As a result, the net decrease in net assets available for benefits per Form 5500 includes an adjustment for increases or decreases to the amounts allocated for retirees in payout.

Assumptions prescribed by law

Mortality	Before benefit payment period
	IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
	During benefit payment period
	IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	6.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Age	Probability of retirement	
	Active	Inactive
55-60	2%	0%
61	10%	10%
62-63	15%	15%
64	20%	50%
65	25%	remaining participants
66	25%	
67	remaining participants	

This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 55.

Upcoming year salary increase	The preceding year's salary is increased by 5.00% at each age. Note: not used for Plan accounting calculations. Expected salary increase is composed of salary inflation, a real wage growth and a merit increase.
-------------------------------	---

Disability None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

Marriage 75% married; husbands are 3 years older than wives.
This assumption is based on the results of recent experience analysis and anticipated future experience. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal 2003 Society of Actuaries Small Plan Age Table, multiplied by 0.50.
We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.50 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Form of benefit Participants are assumed to receive their benefits on the following form of payment at the assumed retirement age.

Status	Life annuity	50% J&S	100% J&S
Active	60%	20%	20%
Terminated vested	100%	0%	0%

Methods prescribed by law

Liability measure Funding target is the present value of the benefits accrued on the valuation date.
Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Benefit accrual All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.

The portion based on the plan's definition of accrued benefit.

The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.

The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2008 plan year

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.65%	5.28%	5.63%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 White collar base rate mortality table projected generationally using MP-2021.

Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.
Mortality improvement	MP-2021 is the most recent improvement scale published by the SOA in October 2021. In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.
Interest rate used to value liabilities	6.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
