Independent Auditors' Report

To the Plan Administrator and Board of Directors of
Oetiker Retirement Plan
Marlette, MI

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Oetiker Retirement Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplementary Schedule Required by ERISA

The supplementary Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplementary schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary schedule, we evaluated whether the supplementary schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplementary schedule, other than the information in the supplementary schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplementary schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Oetiker Retirement Plan
Notes to the Financial Statements
December 31, 2025 and 2024

Note 1 – Description of the Plan

The following description of the Oetiker Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Oetiker, Inc., Oetiker Tool Corporation, and Oetiker NY, Inc. (Company), except for non-resident aliens, union employees, part-time employees whose regularly scheduled service is less than 20 hours per week, and temporary and seasonal employees whose regularly scheduled service is less than 1,000 hours. If the part-time, temporary, or seasonal employee actually completes 1,000 hours of service during the relevant eligibility computation period, the employee will become an eligible employee. The Plan was established effective January 1, 1986 and was most recently amended and restated effective May 1, 2024. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible for plan participation in employee and employer contributions after completing three months of service and are at least age 18. Upon becoming eligible, employees will enter the Plan immediately. In order to share in employer profit sharing contributions, eligible participants must be employed on the last day of the plan year, and have completed at least 1,000 hours of service during the plan year.

Contributions

Each year, participants may contribute a percentage of their annual compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4 percent of eligible compensation and their contributions invested in a designated low-risk investment until changed by the participant. In addition, the Plan includes an automatic escalation of salary reduction agreement. Unless the participant makes a contrary election after the automatic escalation provisions effective date, the amount withheld from each participant's paycheck will automatically be increased by 1% each Plan year until the amount withheld reaches 10% of their compensation.

The Company contributes 50 percent of the first 10 percent of salary deferrals that a participant contributes to the Plan, not to exceed 5% of the participants eligible compensation. Additional profit-sharing amounts may be contributed at the option of the Company's board of directors. During the year ended December 31, 2025, the Company did not make a profit-sharing contribution to the plan.

Participant Accounts

Each participant's account is credited with the participant's and employer contributions, as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their voluntary contributions, including any earnings thereon, immediately upon their effective date of participation. Participants are vested on employer contributions as follows:

Oetiker Retirement Plan
Notes to the Financial Statements
December 31, 2025 and 2024

Vesting Service (Years)	Vesting %
1	17
2	34
3	50
4	67
5	83
6 or more	100

Vesting Service (Years) - Rostra Tool Employees only	Vesting %
1	17
2 or more	100

Participants are credited with a year of service for vesting purposes upon completion of 1,000 hours of service during the year.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must bear reasonable rates of interest which are generally consistent with local borrowing rates as of the date of each loan. Principal and interest is paid ratably through payroll deductions over the term of the loan.

Payment of Benefits

The Plan provides for payment of 100% of the account balance to participants upon retirement, death, or disability. Participants terminating employment for any other reason are entitled to receive 100% of their vested account balances and any remaining non-vested portions would be forfeited. Participant distributions from the Plan can be made in a single lump payment or installments. If the participant's vested benefit under the Plan exceeds \$7,000, then the participant must consent to the distribution before it is made. However, if the participant's vested benefit under the Plan does not exceed \$7,000, then the benefit may be distributed as soon as possible following the event that entitles the participant to a distribution. There are minimum distribution requirements once a participant reaches a certain age as defined in the plan agreement. Generally, a participant may receive a distribution from the Plan prior to termination of employment if certain conditions are satisfied. A participant may be entitled to receive an in-service distribution from their vested account balance if they have reached the age of 59 ½. Participants may also request financial hardship distributions from their vested accounts if they meet certain conditions defined in the plan agreement.

Forfeited Accounts

At December 31, 2025 and 2024, forfeited non-vested accounts totaled \$51,605 and \$54,314, respectively. These accounts are used first to pay certain administrative expenses of the Plan or will be allocated as an additional employer contribution. During 2025, the company reallocated \$52,032 to participants of the plan. The amount of forfeitures applied to reduce employer contributions in 2025 was \$29,624.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Plan's investment adviser, and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Contributions

Contributions from Plan participants and the employer contributions are recorded in the year in which the employee contributions are withheld from participant compensation is earned.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and recorded in the statement of changes in net assets available for benefits as a deemed distribution of participant notes receivable.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of benefit payments participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Fees for custodial and recordkeeping services are paid by the Plan. Investment related expenses are included in net appreciation fair value of investments.

Oetiker Retirement Plan
Notes to the Financial Statements
December 31, 2025 and 2024

Revenue Credits

The Plan receives revenue sharing amounts from Empower pursuant to an agreement. Unallocated revenue credits at December 31, 2025 and 2024 are \$110,397 and \$52,811, respectively. During 2025, the Plan received credits of approximately \$97,225, of which \$40,503 was used to pay administrative expenses. Revenue credits are presented in other income in the statement of changes in net assets available for benefits.

Subsequent Events

Management has evaluated subsequent events through July 15, 2026, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under US GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds – valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts – accounts primarily consist of mutual funds, certificates of deposit, exchange traded funds, and common stocks that are valued on the basis of readily determinable market prices.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are

Oetiker Retirement Plan
Notes to the Financial Statements
December 31, 2025 and 2024

appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024.

	Fair Value Measurements at Reporting Date Using			
	Fair Value	Level 1	Level 2	Level 3
<u>December 31, 2025</u>				
Mutual funds	\$ 49,693,919	\$ 49,693,919	\$ -	\$ -

	<u>\$ 46,229,448</u>	<u>\$ 46,229,448</u>	<u>\$ -</u>	<u>\$ -</u>

For the years ended December 31, 2025 and 2024, there were no significant transfers between levels.

Note 4 – Fully Benefit-Responsive Investment Contracts

The Plan holds a traditional investment contract with Empower Annuity Insurance Company of America. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the contract value for the investment contract held by the Plan.

	December 31,	
	2025	2024
Traditional investment contract	<u>\$ 5,597,653</u>	<u>\$ 5,195,366</u>

With traditional investment contracts, the Plan owns only the contract itself. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. The traditional investment contract held by the Plan is a guaranteed portfolio fund. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may vary depending on the contract. Examples of such events include, but are not limited to, the following:

Oetiker Retirement Plan
Notes to the Financial Statements
December 31, 2025 and 2024

- The Plan's failure to qualify under Section 401 (a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501 (a) of the Internal Revenue Code.
- Premature termination of the contract.
- Plan termination or merger.
- Changes to the Plan's prohibition on competing investment options.
- Bankruptcy of the Company or other Company events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may vary depending on the contract. Examples of such events include, but are not limited to, the following:

- An uncured violation of the Plan's investment guidelines.
- A breach of material obligation under the contract.
- A material misrepresentation.
- A material amendment to the agreements without the consent of the issuer.

Note 5 – Related-Party Transactions and Party-In-Interest Transactions

Certain Plan investments are managed by Empower Annuity Insurance Company of America or its subsidiaries and affiliates, which are parties in interest. Participants pay loan and distribution processing fees directly to Empower Annuity Insurance Company. The Plan pays third-party administrative, investment advisory, and issues participant loans secured by vested account balances. The Plan paid certain expenses related to plan operations and investment activity to various service providers. Certain management fees in the form of an expense ratio charged to each investment option are paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 6 – Certified Investments

Certain information in the accompanying financial statements and ERISA-required supplementary schedule related to investments and notes receivable from participants held as of December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Empower Annuity Insurance Company of America and Empower Trust Company, LLC, qualified institutions.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

Oetiker Retirement Plan
Notes to the Financial Statements
December 31, 2025 and 2024

Note 8 – Tax Status

The Company adopted a pre -approved profit plan, which received a favorable opinion letter from the Internal Revenue Service (IRS), dated November 14, 2022, indicating that the pre-approved profit plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the letter, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
