Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Parker University 403(b) DC Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be

independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

General

The following description of Parker University 403(b) DC Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code (IRC). The Plan is sponsored by Parker University (University or Plan Sponsor) to provide retirement benefits for participating employees. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), Massachusetts Mutual Life Insurance Company (MassMutual), and Empower Retirement (Empower) serve as plan custodians.

The Parker University 403(b) Committee is responsible for the oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Employees are eligible to participate in the salary reduction arrangement in the Plan (unless in an excluded class, including Student Employees, nonresident aliens with no U.S. source income, and employees eligible under another employer-sponsored 401(k) or 403(b) plan) as of their employment commencement date if they have a work schedule of 20 hours per week. Effective January 1, 2025, and in accordance with the long-term part-time (LTPT) employee provisions of the SECURE 2.0 Act, employees who complete at least 500 hours of service during each of two consecutive 12-month periods are also eligible to make elective deferrals. Employees hired must contribute at least 1% of eligible compensation to be eligible to receive a University contribution.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 403(b) of the IRC. Eligible participants are permitted to elect to have a percentage, limited by plan provisions, of their compensation contributed as pretax 403(b) contributions or as Roth contributions to the plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation with a 1% increase annually up to 10% and their contributions invested in the designated default fund until changed by the participant. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

The Plan also allows University matching contributions of 6% for participants deferring 1% or greater of eligible compensation.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover) or conduit IRAs. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Investment Account Options

Each participant has the option of directing their contributions into any of the various investment options offered by the Plan and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the University's contributions, and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the University's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable From Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in their account or annual installments. Upon termination of service for other reasons, a participant may receive the value of the vested interest in their account only as a lump-sum distribution. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to plan provisions.

Forfeited Accounts

At December 31, 2025 and 2024, forfeited nonvested accounts totaled approximately \$213,000 and \$168,000, respectively. These accounts will be used to reduce future employer contributions or pay administrative fees. Also, in 2025, employer contributions were reduced by approximately \$160,000 from forfeited nonvested accounts, and in 2024, employer contributions were reduced by approximately \$314,000 from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments. Mutual funds are valued at estimated fair value as provided by Empower.

Investment contracts, including the TIAA real estate and other pooled separate accounts, are valued at estimated fair value in accordance with the policies and procedures reviewed by the investment committee of TIAA and Empower. The value of the units held in the real estate pooled separate account is based on the market value of

Parker University 403(b) DC Plan
Notes to Financial Statements
December 31, 2025 and 2024

the underlying real estate holdings, which are valued principally utilizing external appraisals and involve significant judgment.

For investment contracts that are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The contracts, consisting of fixed return contracts, are included in the financial statements at contract value. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

Subaccounts of variable annuities are valued based on the market value of the underlying securities held within each separate account. These subaccounts are not legal entities but are treated as accounting entities within the insurance company. The valuation reflects the investment performance of the underlying assets, and contract holders assume the risk of investment gain or loss. Inputs may include contractual interest rates, market interest rates, and appraisals of underlying assets, including real estate and mortgage-backed securities.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Plan Loans

Participants with investments held by TIAA may borrow from TIAA a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of the vested portion of their account. These loans are direct loans between the participant and TIAA, the custodian, and as such they are not treated as a transfer from the investment funds to a note receivable from participant or as a plan asset. However, 110% of the outstanding loan balance is collateralized by the participant's account and this portion of their account is transferred at the time of the loan and maintained in the TIAA Traditional Annuity within the participant's account. Loans must be repaid to TIAA by the participant in accordance with the repayment terms of the agreement. In the event of default, foreclosure on the participant's account balance will not occur until a distributable event occurs in the Plan. Outstanding loans between plan participants and TIAA totaled approximately \$9,000 as of December 31, 2025 and 2024.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Plan Sponsor or the Plan, at the Plan Sponsor's discretion.

Note 3. Certification of Plan Custodians

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and Empower, qualified institutions, have certified the following investment information included in the financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024
- Investment income and interest income on notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024
- Investment information and notes receivable from participants included in the schedule of assets (held at end of year) as of December 31, 2025

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 4. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain plan investments are managed by the custodians, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. The University provides certain administrative services at no cost to the Plan.

Note 5. Plan Amendments

Effective January 1, 2025, the Plan was amended to (i) exclude student employees from salary deferrals and matching contributions and (ii) remove the deferral exclusion for employees who normally work less than 20 hours per week, extending eligibility for salary deferrals to LTPT employees who complete at least 500 hours of service in each of two consecutive 12-month periods, consistent with the SECURE 2.0 Act. The exclusion from matching contributions for employees working less than 20 hours per week was retained.

Effective September 4, 2025, the Plan was amended and restated under the Empower Retirement, LLC Volume Submitter 403(b) Basic Plan Document #08 and Adoption Agreement #001. The restatement was a required cyclical restatement and did not result in any substantive change to plan operations beyond the elective provisions described above.

Note 6. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of

Parker University 403(b) DC Plan
Notes to Financial Statements
December 31, 2025 and 2024

observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2025 and 2024. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a

Parker University 403(b) DC Plan
Notes to Financial Statements
December 31, 2025 and 2024

nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Valuation Process

Fair value determinations for Level 3 measurements of securities are the responsibility of the plan administrator. The plan administrator challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Activity

Activity transfers into and out of Level 3, and the reasons for those transfers are as follows:

2025		
Purchases	\$	19,300
Sales		(53,945)
Transfers out of Level 3		(1,332)
2024		
Purchases	\$	62,934
Sales		(228,384)
Transfers into Level 3		822
Transfers out of Level 3		(34,832)

Transfers into and out of Level 3 during the years ended December 31, 2025 and 2024 were the result of interfund transfers initiated by plan participants or the Plan Sponsor involving the TIAA Traditional Nonbenefit-Responsive investment option. These transfers represent reallocation activity between plan investment options and do not reflect changes in the valuation methodology or liquidity characteristics of the investment.

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31:

	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range</u>
2025				
TIAA traditional annuity contract	\$ 1,361,107	Discounted cash flow	Risk-adjusted discount rate applied	Retirement Annuities (RA) 3.25%–4.75%
2024				
TIAA traditional annuity contract	\$ 1,354,220	Discounted cash flow	Risk-adjusted discount rate applied	Retirement Annuities (RA) 3.25%–4.75%

Uncertainty of Fair Value Measurements

The following is a description of the uncertainty of the fair value measurement at the reporting date from the use of significant unobservable inputs, if those inputs reasonably could not have been different at the reporting date, the interrelationships between those inputs and other unobservable inputs used in recurring fair value measurement, and how those inputs might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement.

TIAA Traditional Annuity Contract

The significant unobservable input used in the fair value measurement of the Plan's TIAA traditional annuity contract is the interest rate of the investment contract. Changes in the contractual interest rate would have resulted in a significant change in fair value to the extent the change deviates from changes in market interest rates. Generally, an increase (decrease) in the difference between the contractual interest rate and the market interest rate would have been accompanied by a directionally opposed change in the fair value.

Note 7. Investment Contracts With Insurance Companies

TIAA Traditional Annuity Nonbenefit-Responsive

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through one contract type, Retirement Annuities (RA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. Upon termination of the investment contract, the lump-sum liquidation value of the general account portion of the participant's accumulation value shall be equal to the product of: (a) the participant's general account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides

the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

RA contracts may require withdrawals in the form of a lifetime payout annuity or in periodic installments over a 10-year period. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

TIAA Traditional Annuity Benefit-Responsive

The Plan entered into a fully benefit-responsive guaranteed investment contract with TIAA. The insurance company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by the issuer, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The fixed annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

MassMutual General Account

In 2017, the Plan entered into a fully benefit-responsive guaranteed investment contract with an insurance company. The insurance company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by the issuer, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator

Parker University 403(b) DC Plan
Notes to Financial Statements
December 31, 2025 and 2024

believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Guaranteed Interest Account (GIA) is a general account fixed investment option offered to retirement plans through a group annuity contract issued by MassMutual. The GIA guarantees principal and credited interest for eligible participant-initiated withdrawals and transfers.

Effective on December 31, 2020, Empower acquired the retirement business of MassMutual. Through this transaction, business written by MassMutual, including the GIA, is reinsured by Empower Annuity Insurance Company of America (EAIC) and in New York by Empower Life & Annuity Insurance Company of New York (ELAINY) and, as a consequence, GIA guarantees are subject to the terms and conditions of the group annuity contract and the claims-paying ability of EAIC. Depending on the terms of the group annuity contract, there may also be investment risks associated with certain plan sponsor actions. This includes, but is not limited to, a termination of the contract that could result in a negative market value adjustment to the proceeds paid to the Plan Sponsor from the GIA or an extended payment period. Empower administers the group annuity contract on MassMutual's behalf, with certain administrative services being performed by MassMutual and its affiliates during a temporary transition period. Empower refers to the products and services offered by EAIC and its subsidiaries. Empower is not affiliated with MassMutual or its affiliates.

Investment contracts held by the Plan consist of the following at December 31:

	<u>2025</u>	<u>2024</u>
Investment contracts		
Fully benefit responsive, at contract value	\$ 1,619,500	\$ 1,936,916
Nonbenefit responsive, at fair value	<u>1,361,107</u>	<u>1,354,220</u>
Total investment contracts	<u>\$ 2,980,607</u>	<u>\$ 3,291,136</u>

Note 8. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 9. Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered plan under Section 403(b) of the IRC of 1986, as amended. The Plan has not requested or obtained a determination letter, as the IRS does not currently provide that service for 403(b) plans. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and not subject to tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The financial statements are prepared on the accrual basis of accounting and include contributions receivable from both employees and the employer that relate to payrolls processed prior to year-end but remitted to the Plan subsequent to year-end. These amounts are included in the Plan's net assets available for benefits but are not reported on the Form 5500, which is prepared on a cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

	<u>2025</u>	<u>2024</u>
Net assets available for benefits per the financial statements	\$ 38,052,612	\$ 31,929,491
Less contributions receivable	<u>-</u>	<u>(142,146)</u>
Net assets available for benefits per Form 5500	<u><u>\$ 38,052,612</u></u>	<u><u>\$ 31,787,345</u></u>

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to Form 5500 for the years ended December 31:

Net increase per the financial statements	\$ 6,123,121
Contributions receivable at December 31, 2025	-
Contributions receivable at December 31, 2024	<u>142,146</u>
Net increase per Form 5500	<u><u>\$ 6,265,267</u></u>

Note 12. Subsequent Events

Subsequent events have been evaluated through August 17, 2026, which is the date the financial statements were available to be issued.
