Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: CLIFTONLARSONALLEN LLP

(2) EIN: 41-0746749

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		2000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Lane Construction Corporation Defined Benefit Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024 and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2024 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Lane Construction Corporation Defined Benefit Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Lane Construction Corporation Defined Benefit Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Lane Construction Corporation Defined Benefit Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Plan Administrator
The Lane Construction Corporation Defined Benefit Pension Plan

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Lane Construction Corporation Defined Benefit Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Lane Construction Corporation Defined Benefit Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

THE LANE CONSTRUCTION CORPORATION DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Lane Construction Corporation Defined Benefit Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a noncontributory, defined benefit pension plan covering a portion of salaried employees of The Lane Construction Corporation (the Corporation and Plan Administrator). The Corporation adopted the Plan effective January 1, 1953. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2006, the board of directors of the Corporation approved an amendment to the Plan. As a result of this amendment, no new participants were allowed to enter the Plan after December 31, 2006. The benefits for all hourly paid participants of the Lane Construction Corporation Master Field Pension Plan froze on December 31, 2006. All salaried paid participants of the Lane Construction Corporation Master Field Pension Plan and participants in the Lane Construction Corporation Defined Benefit Pension Plan as of December 31, 2006, continued to accrue benefits based on the existing terms of the Plan document, and therefore, this amendment had no impact to such participants.

Effective December 31, 2011, The Lane Construction Corporation Master Field Pension Plan was merged into the Plan. As both the Plan and The Lane Construction Corporation Master Field Pension Plan were previously held in The Lane Construction Corporation Master Trust (the Master Trust), the assets of The Lane Construction Corporation Master Field Pension Plan were merged with the assets of the Plan. The merger had no impact on Plan provisions. State Street Bank and Trust (the Trustee) holds the assets of the Master Trust.

Effective December 31, 2018, the Plan was amended to freeze credits for service and compensation for all participants.

The Plan is administered by the Corporation. Administrative expenses of the Plan, such as legal and auditing fees are paid by the Corporation, excluding actuarial fees. Investment management and actuarial fees are paid by the Master Trust as a reduction in the Master Trust investment income. Pension insurance premiums are also deducted from the Master Trust investment income.

Pension Benefits

Eligible participants with five or more years of continuous service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to one-twelfth of 1.5% of the participant's average compensation, as defined below, multiplied by the full period of his/her continuous service less the Social Security offset, as defined in the Plan document, and the reduction, if applicable, for spousal benefits. Average compensation is equal to the average of the participant's annual salary (excluding bonuses), subject to certain limits, as defined by the Internal Revenue Code (IRC), for the five highest consecutive years of service preceding the earliest of normal retirement date, early retirement date, or termination date. Credits for service and compensation were frozen effective December 31, 2018.

The Plan permits early retirement with reduced benefits for an eligible participant who has attained age 55 and completed ten years or more of continuous service.

THE LANE CONSTRUCTION CORPORATION DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Death Benefits

If a vested participant who has been married for more than one year dies while employed by the Corporation and has reached the early retirement date under the terms of the Plan, his/her spouse would receive a lifetime benefit in the amount that would have been paid if the employee retired one day prior to the date of his/her death and began to receive benefits in the form of a joint and survivor annuity (50% continued to spouse). If a vested participant satisfying the same provisions dies before reaching the early retirement date, the 50% joint and survivor annuity would be calculated as if the participant separated from service on the date of death and become payable on the earliest date on which the participant could have retired under the Plan, however, the surviving spouse may elect to have the death benefit begin immediately. For participants receiving benefits from the Plan, the death benefit, if any, is payable to the designated beneficiary based on the benefit payment option in effect at the time of death.

Vesting

A participant does not become vested until accumulating five years of qualifying service. At that time, the participant becomes 100% vested. There is no partial vesting of benefits.

Annuity Buy-Out

The Company entered into a contract with American United Life Insurance Company (AUL) to purchase annuities of certain retirees and beneficiaries whose monthly annuity did not exceed \$2,000 in order to satisfy the benefit obligations of these participants. The Plan made a payment to AUL totaling \$40,592,189 in order to satisfy these liabilities in December 2025, subject to a true-up which was completed in April 2026, resulting in a refund due back to the Plan totaling \$482,950. This refund and the net payment made to AUL totaling \$40,109,239 are reflected on the accompanying statements of net assets available for benefits and changes in net assets available for benefits as of and for the year ended December 31, 2025, respectively. AUL assumed the liabilities of these participants as of December 23, 2025 for annuity payments to commence effective January 1, 2026. However, in order to ensure that there would be no delays in processing annuity payments to affected participants, the Plan agreed to continue to make the January and February 2026 payments which would be reimbursed by AUL. In December 2025, the Plan received an advanced reimbursement for the January 2026 payment totaling \$339,051 and has been reflected as a liability on the accompanying statement of net assets available for benefits as of December 31, 2025.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

As of December 31, 2025 and 2024, all the assets of the Plan were invested in the Master Trust. The Master Trust invests in common/collective trusts. The interest in the common/collective trust is valued at fair value by the Trustee at the last reported net asset value.

The Plan's interest in the Master Trust at the end of the year is based on beginning of year fair value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions.

THE LANE CONSTRUCTION CORPORATION DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

The investment income (loss) from the Master Trust for the years ended December 31, 2025 and 2024, represents the Plan's share of the total earnings and losses from investments including interest, dividends, and net appreciation or depreciation, which are netted with investment advisory fees. Net appreciation or depreciation in the fair value of investments consists of the realized gains and losses and the changes in unrealized gains and losses on those investments.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the dates of the financial statements, the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting periods, the change in accumulated plan benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the dates of the financial statements. These significant estimates include the accumulated plan benefits and market values of investments. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 3 - INTEREST IN THE LANE CONSTRUCTION CORPORATION MASTER TRUST

The Plan's proportionate and undivided interest in the Master Trust's net assets at December 31, 2025 and 2024, was 100%. The fair value of the net assets in the Master Trust as of December 31, 2025 and 2024, was \$100,990,636 and \$139,277,144, respectively. The Master Trust has been set up to facilitate the investment of the Plan's assets on a diversified basis in accordance with the applicable ERISA requirements.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Fair Value Measurement and Disclosure Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) defines fair value, expands disclosure requirements around fair value and specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Master Trust's market assumptions.

The two types of inputs create the following fair value hierarchy:

- Level 1** Unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2** Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

THE LANE CONSTRUCTION CORPORATION DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

When quoted prices in active markets for identical assets are available, these quoted market prices are used to determine the fair value of investments and classify these assets as Level 1. In other cases, where a quoted market price for identical assets in an active market is either not available or not observable, the fair values are estimated using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets would then be classified as Level 2. If quoted market prices are not available, fair value is determined using an analysis of each investment's financial performance and cash flow projections. In these instances, financial assets will be classified based upon the lowest level of input that is significant to the valuation. Therefore, financial assets may be classified as Level 3 even though there may be some significant inputs that may be readily available.

The following is a description of the valuation methodology used for Master Trust assets measured at fair value.

Common/Collective Trust Funds

Common/collective trust funds are valued based on the readily determinable market price that the fund manager publishes on a daily basis.

Interest-Bearing Cash

Interest-bearing cash is valued at its stated account balance.

There have been no changes in the methodologies used at December 31, 2025 and 2024.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables provide the investments carried by the Master Trust at fair value measured on a recurring basis as of December 31, 2025 and 2024:

	2025

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service rendered by employees. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits payable are included to the extent they are deemed attributable to employee service rendered to the valuation date. The computations of the actuarial present value of Plan benefits were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024, there would be no material differences.

The actuarial present value of accumulated plan benefits is determined by actuaries from Mercer. These amounts result from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2024, are as follows:

- Assumed discount rate of return of 5.69%
- Assumed employee withdrawal rates range from 5.44% at age 20 to 0% at age 55;
- Assumed retirement at normal retirement age of 65; and
- Assumed mortality rates based on PRI-2012 mortality table and projected forward with the MP-2021 projection scale.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable (see Notes 6 and 7).

The change in actuarial assumptions on the statement of changes in accumulated plan benefits for the year ended December 31, 2023 is due to the change in the discount rate from 5.16% as of December 31, 2023 to 5.69% as of December 31, 2024.

THE LANE CONSTRUCTION CORPORATION DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

The impact of the increase in interest cost due to the decrease in the discount period on the statement of changes in accumulated plan benefits is the adjustment calculated by the Plan's actuary to reflect the time value of money.

Subsequent to the benefit information date, the Plan purchased an annuity buy-out for certain participants currently receiving benefits, as further discussed in Note 1. The annuity buy-out reduced accumulated plan benefits by approximately \$40,100,000.

NOTE 6 - FUNDING POLICY

The Plan is funded by the Corporation in an annual amount as determined by the Plan's actuary using an actuarial cost method. The minimum required contribution is calculated subject to the Internal Revenue Service's full funding limitation and is the basis for the current year contribution. The Corporation has elected not to make a contribution to the Plan for the years ended December 31, 2025 or 2024. The Plan has met ERISA's minimum funding requirements for the years ended December 31, 2025 and 2024.

Although it has not expressed any intent to do so, the Corporation has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth by ERISA (see Note 7).

NOTE 7 - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or the benefits those employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency), up to the applicable limitations (see below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions up to specified limitations of \$7,432 per month in 2025 for benefits at age 65.

However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. The extent to which a participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. That guaranteed limit applies to those who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some

THE LANE CONSTRUCTION CORPORATION DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

form other than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Benefit improvements made from time to time attributable to Plan amendments may not be fully guaranteed even though total benefit entitlements fall below the aforementioned ceilings. For example, none of the improvements would be guaranteed if the Plan were to terminate within one year of the effective date of an amendment. After one year, the PBGC would guarantee 20% of any benefit improvements that resulted in benefits below the ceiling, with an additional 20% guaranteed each year the Plan continued beyond that point. If the amount of the benefit increase is also less than \$100, \$20 of the increase (rather than 20%) becomes guaranteed by the PBGC each year following the effective date of the amendment. As a result, only the primary ceiling would be applicable five years after the effective date of the amendment.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC. Remaining Plan assets, if any, would be returned to the Corporation.

NOTE 8 - CERTIFICATION BY THE INVESTMENT TRUSTEE

Information presented in the statement of net assets available for benefits and statement of changes in net assets available for benefits as of and for the years ended December 31, 2025 and 2024, for investments and investment income was derived, without audit, from information certified to be complete and accurate by State Street Bank and Trust, the trustee, as permitted by the election made by the Plan Administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 9 - INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan, by a letter dated June 6, 2017, that the Plan is designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2022.

NOTES TO FINANCIAL STATEMENTS

NOTE 10 - PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of common/collective trust funds managed by affiliates of Mercer. Mercer is the Plan's actuary and also performs recordkeeping functions, and, therefore, these transactions qualify as party-in-interest transactions. Certain employees of the Corporation who participate in the Plan perform administrative services to the Plan at no cost to the Plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2025**

Discount rate sponsor elections	
• Segment rates or full yield curve	Full yield curve
Mortality sponsor elections	
• Healthy participants	Section 430(h)(3) prescribed generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1.
• Pre-1995 disabilities	Same as healthy.
• Post-1994 disabilities	Same as healthy.
Other economic assumptions	
• Salary increases	N/A
• Social Security wage base	N/A
• Inflation	N/A
• Expected investment return	5.85% per year for the 2024 plan year 5.20% per year for the 2025 plan year
• Expenses	\$ 590,000 added to current year normal cost

Rationale for Economic Assumptions

- Discount Rate – Assumptions prescribed by the IRS.
- Expected investment return – The expected investment return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix, and the median (50th percentile) simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment for investment management fees assumed to be paid from plan assets.
- Expenses – This assumption is based on anticipated administrative expenses, adjusted for expected changes in PBGC premium levels to be paid by the trust this year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for Demographic Assumptions**

- Mortality rates – Assumptions prescribed by the IRS.
- Withdrawal – This is an historical assumption whose reasonableness is evaluated each year as part of the valuation processes by determining whether there are consistent gains or losses each year. This assumption has been used for the recent past and does not produce large gains/losses.
- Retirement age – This is an historical assumption whose reasonableness is evaluated each year as part of the valuation processes by determining whether there are consistent gains or losses each year. This assumption has been used for the recent past and does not produce large gains/losses.
- Benefit commencement age for future and current vested deferred – This is an historical assumption whose reasonableness is evaluated each year as part of the valuation processes by determining whether there are consistent gains or losses each year. This assumption has been used for the recent past and does not produce large gains/losses.
- Spouse assumptions – Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- Form of payment – This is a historical assumption whose reasonableness is evaluated each year as part of the valuation processes by determining whether there are consistent gains or losses each year. This assumption has been used for the recent past and does not produce large gains/losses.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Participant Methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2025, the limit is \$285,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through December 31, 2018 are included in this valuation:

- **Most recent plan amendments included:** The most recent amendments of the plan are included because they were adopted by the valuation date and were effective by the end of the plan year.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond the Minimum Required Distribution date (MRD). This valuation includes increases for current participants beyond their MRD.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase from their age at termination date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding

Additional benefits included or excluded

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2024 to 2025.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by ARPA took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.
