The Plan Administrator
Environmental Defense Fund Retirement Savings Plan
New York, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Environmental Defense Fund Retirement Savings Fund (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The ERISA-required Supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For

information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Environmental Defense Fund Retirement Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Environmental Defense Fund Retirement Savings Plan (the Plan) contained herein is provided solely for purposes of general information, and interested persons should refer to the Plan document for a complete description of the Plan's provisions. A copy can be obtained from Environmental Defense Fund, Incorporated (EDF), the Plan Sponsor. The Plan, at certain times, is amended and restated for regulatory and certain other administrative Plan changes.

General

The Plan is a defined-contribution plan under Section 403(b) of the Internal Revenue Code (IRC) and covers eligible employees of EDF, except for certain employees considered not eligible under the Plan as defined in the Plan document. Employees are eligible to participate in the Plan immediately, following commencement of employment, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

State Street Bank and Trust Company (State Street) is the trustee of the Plan, and Transamerica Retirement Solutions, LLC (Transamerica) is the Plan's recordkeeper.

Eligibility of Participants

Employee Contributions - Employees are eligible on the first day of employment to make voluntary participant contributions. Certain employees may be excluded from participation if they fall within the categories, as defined in the Plan agreement.

Employer Contributions - In order to become eligible to receive EDF's contributions, eligible employees must have attained six months of service. Employees who are eligible to receive EDF's contributions are required to participate in the Plan.

Contributions

Employee Contributions - Participants may elect to contribute a certain rate of their annual gross compensation, subject to limitations, as provided in the IRC. Catch-up contributions are permitted under the Plan for participants aged 50 and over. Participants may also roll over contribution amounts representing distributions from other qualified defined-benefit or defined-contribution plans. The Plan requires mandatory participant contributions equal to 2% of salary, starting at six months of service.

Effective January 1, 2025, participants ages 60-63 are allowed higher catch-up contributions based upon limits established by the SECURE Act 2.0.

Employer Contributions - EDF provides nonelective contributions that are based upon participants' years of service and job-band level, and range from 3% to 8% of eligible salaries. EDF's employer contributions are invested proportionately in the same investments as the employee contributions.

Participant Accounts

The Plan maintains individual accounts for each participant. Each participant's account is credited with the participant's contribution, EDF's contribution, and allocations of Plan earnings and charged

Environmental Defense Fund Retirement Savings Plan

Notes to Financial Statements

with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their contributions into any of several investment options offered by the Plan, which includes a guaranteed income fund and various mutual funds.

Payment of Benefits

A participant may elect to receive the value of the vested interest in his or her account in the form of: (a) a lump-sum distribution as of the most recent valuation date, (b) installment payments, (c) annuity payments, or (d) any other forms noted in the Plan document. Upon termination of service due to reaching retirement age, disability, or death, a participant is considered fully vested.

Vesting

Participants are immediately vested in their voluntary and rollover contributions, and any earnings thereon. Participants are vested in employer contributions, and any earnings thereon, according to the following schedule:

Years of Vesting Service	Vested (%)
One but less than two	20
Two but less than three	40
Three or more	100

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Each participant may not have more than one loan outstanding at any time. Loan terms range from one to five years; however, terms may exceed five years, as defined in the Plan document, for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the time the funds are borrowed, as defined by the Plan document. Principal and interest are repaid through a payroll deduction agreement, except to the extent to which the Plan administrator determines that payroll withholding is not practical given the level of participants' wages, the frequency with which the participant is paid, or other circumstances.

Forfeitures

Forfeited non-vested accounts are used to reduce future employer contributions or to pay for Plan expenses. Forfeitures totaling \$320,619 were utilized during the year ended December 31, 2025, of which \$79,905 was used to pay Plan expenses and \$240,714 was applied to reduce employer contributions. At December 31, 2025 and 2024, forfeited non-vested accounts totaled \$74,018 and \$306,327, respectively.

Environmental Defense Fund Retirement Savings Plan

Notes to Financial Statements

Plan Termination

Although it has not expressed any intent to do so, EDF has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. Upon termination of the Plan, participants become fully vested in their applicable employer contributions, and each participant's individual account balance will be held under the original Plan agreement and continue to accrue investment earnings or losses until it is used to provide benefits according to the terms of the Plan.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements and Note 5 for discussion on contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable are reclassified as a deemed distribution based on the terms of the Plan document. In 2025 and 2024, there were no deemed distributions. Fees charged by the trustee relating to notes receivable from participants are paid from the participants' accounts and are included in administrative expenses and expensed when incurred.

Environmental Defense Fund Retirement Savings Plan

Notes to Financial Statements

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by EDF. Expenses that are paid by EDF are excluded from these financial statements. Fees related to the administration of benefit payments and general service charges are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Contributions Receivable

Participant contributions are recognized in the period during which EDF makes the respective payroll deduction from the participant's compensation. Nonelective contributions are recorded in the relevant period in accordance with the terms in the Plan document.

3. Certified Investment Information

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedule, related to investments and notes receivable from participants held as of December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by State Street, a qualified institution.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used during 2025 and 2024.

Environmental Defense Fund Retirement Savings Plan

Notes to Financial Statements

The following is a description of the valuation methodology used for assets measured at fair value:

Mutual Funds - Mutual funds are maintained at their fair values, which represent unadjusted quoted market prices and are based on the fair values of the underlying portfolios valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Investment returns are recorded net of expenses in each fund. Plan management believes that the most appropriate classification for these investments is Level 1.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value:

December 31, 2025

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 182,621,096	\$ -	\$ -	\$ 182,621,096

December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 160,178,686	\$ -	\$ -	\$ 160,178,686

5. Group Annuity Contract with Prudential Retirement Insurance and Annuity Company and Transamerica Financial Life Insurance Company

Prior to January 15, 2025, the Plan offered participants the option to invest in a guaranteed income fund, which has full guarantee of principal and accumulated interest by Prudential Retirement Insurance and Annuity Company and its affiliates (PRIAC). Interest crediting rates are declared in advance and guaranteed for six-month periods (January 1 through June 30 and July 1 through December 31). Effective January 15, 2025, the Plan no longer offered the PRIAC guaranteed income fund as an active investment option. Participants with balances in the guaranteed income fund as of January 15, 2025 were allowed to maintain their balances; however, no future contributions are allowed.

Effective January 16, 2025, the Plan introduced a guaranteed investment option with Transamerica Financial Life Insurance Company (TFLIC). The interest crediting rate is set at 4.25% per annum, with a minimum guaranteed rate capped at 3.00%, and is guaranteed not to decrease for at least 12 months from the most recent declaration date, though it may be increased at any time. If the rate is reduced, TFLIC will provide the Plan with at least 45 days' advance notice. No advance notice is required for any increase in the rate.

Environmental Defense Fund Retirement Savings Plan

Notes to Financial Statements

The principal investments supporting the guarantee are in Transamerica's general account. The general account is invested in publicly traded and privately placed debt securities and mortgage loans and, to a lesser extent, real estate and other equity investments. The overall credit quality of the portfolio is investment-grade, and the exposure to high-yield assets is limited to 10%.

The account carries a crediting interest rate that is established monthly based on the market interest rates at the time that contributions are made into the contract and has an interest crediting rate not less than 3.00%. The crediting rate is a function of the timing of the cash flow activity, overall interest rates, and the reinvestment of maturing proceeds. These contracts meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by PRIAC and TFLIC, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of EDF or other EDF events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

6. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

Notes to Financial Statements

7. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by State Street, PRIAC, and TFLIC. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Notes receivable from participants also qualify as party-in-interest transactions.

8. Tax Status

The Plan has adopted a prototype plan document, which has received a favorable opinion letter from the Internal Revenue Service (IRS), dated March 31, 2017, which states that the Plan is acceptable under section 403(b) of the IRC for use by eligible employers for the benefit of their employees. The Plan has since been amended; however, it is the opinion of the Plan administrator that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and, therefore, qualifies for tax-exempt status.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Other Participant and Other Employer Contributions

EDF identified certain operational errors in the Plan. Corrective employer contributions of \$7,028 related to the year ended December 31, 2025 had not been corrected as of year-end and are recorded as other employer contributions receivable. Corrective employer contributions of \$7,881 related to the year ended December 31, 2024 were made during 2025. Such amounts were recorded as other employer contributions receivable in the respective financial statements.

10. Subsequent Events

The Plan has evaluated subsequent events through July 31, 2026, the date the financial statements were available to be issued, and there were no subsequent events identified requiring disclosure or adjustments to the financial statements.
