INDEPENDENT AUDITOR'S REPORT

To the Trustee, Plan Administrator, and Participants
Young Manufacturing Company, Incorporated Employee Stock Ownership Plan

Opinion

We have audited the financial statements of the Young Manufacturing Company, Incorporated Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

YOUNG MANUFACTURING COMPANY, INCORPORATED

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 1 – PLAN DESCRIPTION

The following description of the Young Manufacturing Company, Incorporated Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Young Manufacturing Company, Incorporated (Company) established the Plan effective as of January 1, 2023. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and it's designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company. The directed Plan Trustee is an independent third party appointed by the Company's Board of Directors.

On August 31, 2023, the Plan purchased 750,000 shares of the Company's common stock using the proceeds of a borrowing issued by the Company (see Note 5) and holds the common stock in a trust established under the Plan.

The borrowing is collateralized by the unallocated shares of common stock of the Company. The Company as the lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

- a) the accounts of employees with vested rights in allocated common stock (allocated), and
- b) common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company, not covered by a collective bargaining agreement who have completed 1 year of service and are 21 years old are eligible to participate. Once eligibility is met, participants enter the Plan on the next entry day, either January 1 or July 1. Participants who do not have at least 1,000 hours of service during such Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional contributions may be made at the Company's discretion. Employee contributions are not permitted.

YOUNG MANUFACTURING COMPANY, INCORPORATED
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

Payment of Benefits

Distributions on account of death, disability, or retirement (age 65) are made in a lump-sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in 5 annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in the form of cash. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited, as of the last day of each Plan year as the note payment is made to release shares, with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Participants may also receive an allocation of shares related to the repurchase of shares from distributions. Generally, only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a combination of the participant's eligible compensation, relative to total eligible compensation, as well as length of service. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Vesting begins at 20% after 2 years of service with participants becoming fully vested after 6 years of service.

YOUNG MANUFACTURING COMPANY, INCORPORATED

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of 5 years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the participant's shares at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based on a combination of the participant's eligible compensation, relative to total eligible compensation, as well as length of service. Forfeitures allocated to participants during the Plan year ended December 31, 2025, totaled 52 shares.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

YOUNG MANUFACTURING COMPANY, INCORPORATED

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and, (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income, if any, is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. The Company paid the administrative expenses for the Plan for the year ended December 31, 2025.

NOTE 3 – INVESTMENTS

The Plan's investments in Company common stock, at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Young Manufacturing Company, Incorporated common stock:				
Number of shares	104,471	645,529	87,024	662,976

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Assets at Fair Value as of December 31,	2025	2024
	Level 3	Level 3
Young Manufacturing Company, Incorporated common stock	\$ 1,327,500	\$ 1,260,000

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2025 and 2024.

YOUNG MANUFACTURING COMPANY, INCORPORATED

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

Company common stock: Reported at fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques as illustrated in the following table.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Young Manufacturing Company, Incorporated common stock	\$1,327,500	Income	EBITDA Net Income Weighted average cost of capital Discount rate Discount for lack of marketability
		Market	Comparable public companies Revenue multiple EBITDA multiple Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value of Level 3 Assets

During the year ended December 31, 2025, the Company did not repurchase or redeem any shares from the Plan.

NOTE 5 – NOTE PAYABLE

On August 31, 2023, the Company's former owners sold 750,000 shares of stock, representing 100% of the issued and outstanding shares, to the Plan under an ESOP Stock Purchase Agreement. Upon this transaction, the Plan entered into a \$16,750,000 note payable with the Company. During the Plan year ended December 31, 2024, the purchase price was adjusted to \$21,800,000, resulting in an increase to the note payable.

The agreement provides for the note to be repaid over 40 years. The loan bears interest of 4.03%.

Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 17,447 shares being released and allocated for the Plan year ended December 31, 2025.

Thereafter	<u>16,777,445</u>
	<u>\$ 17,961,219</u>

NOTE 6 – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness with the Company. These are related party and party-in-interest transactions. As described in Note 2, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company’s common stock, which is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the investment in the common stock, it is at least reasonably possible that changes in the value of the stock could occur in the near-term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 – PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Company directs the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

YOUNG MANUFACTURING COMPANY, INCORPORATED

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

NOTE 9 – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 7, 2024, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and; therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

NOTE 10 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through July 29, 2026, the date the financial statements were available to be issued.

Effective January 1, 2026, the Plan was amended to revise certain Plan provisions. The amendment reduced the minimum age requirement for participation from age 21 to age 18. Under the amended provisions, eligible employees who were employed on January 1, 2026, had attained age 18, and had completed one Year of Service as of December 31, 2025, automatically became participants effective January 1, 2026.

The amendment also revised the allocation provisions. Company contributions and forfeitures will be allocated to eligible participants based on points earned for Length of Service. Allocations will be made according to the ratio that points allocated to each participant bear to the total points allocated to all participants.

The amendment increased the mandatory cash-out threshold from \$5,000 to \$7,000. Under the amended provisions, if a participant's vested account balance does not exceed \$7,000, the vested benefit may be distributed in a single lump sum.

The Plan was also amended to provide for good faith compliance with the SECURE 2.0 Act of 2022. For distributions required to be made after December 31, 2022, the amendment updated the required beginning date provisions for mandatory distributions, including replacing certain references to age 72 with the applicable age as defined under the SECURE 2.0 Act of 2022.
