Independent Auditor's Report

Audit and Compliance Committee
of the Board of Directors
New York Independent System Operator, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the New York Independent System Operator, Inc. Health and Welfare Benefits Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Aduit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The New York Independent System Operator, Inc. Health and Welfare Benefits Plan (Plan) and the New York Independent System Operator, Inc. Health and Welfare Benefits Trust (Trust) were established effective January 1, 2010. The Plan is sponsored by New York Independent System Operator, Inc. (NYISO) and was most recently restated effective January 1, 2014.

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is an employee welfare benefits plan providing certain insured and self-insured medical benefits to former employees of NYISO, and to the extent available, their eligible dependents. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan assets are held by Comerica Bank, the Trustee of the Plan, who invests cash received and income from investments based on written instructions from NYISO. The Retirement Board is responsible for administration of the Plan, recommending investment policy to the Board of Directors and monitoring investment performance. The Retirement Board reports to NYISO's Board of Directors.

b. Benefits

The Plan provides medical benefits to retired employees and their spouses and dependents. NYISO employees who have completed ten or more years of service (five or more years of service if hired prior to January 1, 2005) and who retired from NYISO on or after age 55, are eligible for Plan benefits. Medical coverage becomes secondary upon Medicare eligibility. The Plan's medical coverage also includes prescription drug coverage.

c. Contributions

The Plan is funded through contributions from participants and, when deemed appropriate by the Retirement Board, discretionary contributions from NYISO. Based on years of service, participants contribute a percentage of their premiums ranging from 50% to 77.5% for retired employees and 75% to 87.5% for eligible dependents. Contributions are held in Trust in accordance with the Plan document, are invested in accordance with the Plan's investment policies, and are used to provide benefits and pay administrative expenses of the Plan.

Note 2. Summary of Significant Accounting Policies

a. Basis of Accounting

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for health and welfare benefit plans.

b. Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein; and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies (Continued)

c. Investment Valuation and Income Recognition

Investments are reported at fair value which is defined as the price that would be received to sell an asset in an orderly transaction between market participants on the measurement date. The Plan Trustee determines the Plan's valuation policies utilizing information provided by the investment advisors.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Actuarial Present Value of Accumulated Plan Benefits

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to the date of the financial statements (Note 5). Postretirement benefits include future benefits expected to be paid to or for: (1) currently retired employees and their dependents; and (2) active employees and their dependents after retirement from service with NYISO. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims cost per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as those for death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2025, are as follows:

Mortality	Pri-2012 Mortality Table for employees and healthy annuitants, headcount weighted, and projected on a generational basis using MP-2021 mortality improvement scale.
Retirement Age	Age 55 with 10 years of service (five years for hires before January 1, 2005). The retirement rates used in the valuation vary by age.
Discount Rate	5.60% (2025) and 5.00% (2024) per annum.
Health Care Cost Trend Rate	2025: Initial pre-Medicare health care cost trend rate is 8.50% decreasing to an ultimate of 4.00% in 2043; initial post-Medicare health care cost trend is 8.75% decreasing to an ultimate of 4.00% in 2044. 2024: Initial pre-Medicare health care cost trend rate is 7.50% decreasing to an ultimate of 4.00% in 2038; initial post-Medicare health care cost trend is 8.00% decreasing to an ultimate of 4.00% in 2040.
Expected Rate of Return	7.30% (2025) and 6.56% (2024)
Amortization	Gains and losses in excess of the 10% corridor are amortized over 13.46 years (2025) and 13.06 years (2024). Corridors for medical and life insurance determined separately.

Note 2. Summary of Significant Accounting Policies (Continued)

d. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The weighted-average health care cost-trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the obligation as of December 31, 2025 and 2024, by approximately $1,302,000 and $1,213,000, respectively. If the assumed rates decreased by one percentage point in each year, it would decrease the obligation as of December 31, 2025 and 2024, by approximately $1,088,000 and $1,008,000, respectively.

e. Payment of Benefits

Benefits are recorded when paid.

f. Administrative Expenses

Administrative expenses of the Plan, to the extent such expenses are not paid or withdrawn from the Plan, are paid directly by NYISO (Note 8).

g. Subsequent Events

Management has evaluated subsequent events for potential recognition or disclosure through July 8, 2026, the date the financial statements were available to be issued.

Note 3. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held and accrued interest and dividends at December 31, 2025 and 2024, and net appreciation in fair value of investments, and interest and dividends for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee of the Plan.

Note 4. Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3).

The following three levels of inputs may be used to measure fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Note 4. Investments and Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the major categories of the Plan's assets measured at fair value:

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,453,458	$ -	$ -	$ 7,453,458
Money market funds	186,682	-	-	186,682
	$ 7,640,140	$ -	$ -	$ 7,640,140

See Independent Auditor's Report.

Note 4. Investments and Fair Value Measurements (Continued)

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,374,848	$ -	$ -	$ 6,374,848
Money market funds	61,570	-	-	61,570
	$ 6,436,418	$ -	$ -	$ 6,436,418

Note 5. Benefit Obligations

The actuarial present value of accumulated Plan benefits is as follows:

	January 1,	
	2025	2024
Accumulated postretirement benefit obligation		
Retirees	$ 2,345,662	$ 2,272,100
Actives eligible to retire	2,847,081	2,588,767
Other actives	7,849,288	7,581,842
Total accumulated postretirement benefit obligation	$ 13,042,031	$ 12,442,709

The schedule of changes in the actuarial present value of accumulated postretirement benefits is as follows:

	January 1,	
	2025	2024
Accumulated postretirement benefit obligation, beginning of year	$ 12,442,709	$ 9,772,382
Increase (decrease) attributable to		
Benefits earned	638,946	508,744
Benefits paid	(609,572)	(522,765)
Interest	612,414	504,445
Other actuarial gains and losses	(149,215)	1,366
Participant contributions	215,922	190,721
Changes in assumptions	(109,173)	1,987,816
Accumulated postretirement benefit obligation, end of year	$ 13,042,031	$ 12,442,709

The Plan's deficiency of net assets over benefit obligations at December 31, 2025 and 2024, relates primarily to the postretirement benefit obligation. It is expected that the deficiency will be funded through future contributions by NYISO.

Note 6. Tax Status

The Plan received an exemption letter from the Internal Revenue Service dated September 13, 2010, stating that the trust is tax-exempt under the provisions of Section 501(c)9 of the Internal Revenue Code (IRC). However, as a result of the Plan's funding policy, from time to time the trust may be subject to income taxes. No federal or state income taxes have been recorded in 2025 or 2024 for unrelated business taxable income.

In addition, the Plan and the trust are required to operate in conformity with the IRC to maintain the tax-exempt status of the trust. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related Party and Party-In-Interest Transactions

Administrative expenses paid by NYISO on behalf of the Plan totaled approximately $74,350 and $90,400 for the years ended December 31, 2025 and 2024, respectively. Certain Plan administrative functions are performed by employees of NYISO who do not receive compensation for such functions from the Plan.

Investments in money market funds are held with the Trustee, which is a party-in-interest of the Plan.

Note 8. Plan Termination

NYISO has the right under the Plan to modify the benefits provided to, and contributions required of, participants, or to discontinue its contributions at any time and to terminate the Plan. In the event of termination of the Plan, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for or on account of the participants. No assets of the Plan may revert to NYISO or be used for purposes other than for the exclusive benefit of the Plan's participants.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.
