Independent Auditors' Report

**Advisory Committee
Boyd Company 401(k) Plan
Louisville, Kentucky**

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Boyd Company 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audits of the Financial Statements* section of our report:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

(1) Description of plan

The following description of the Boyd Company 401(k) Plan (the "Plan") provides only general information. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all eligible employees of Boyd Company and Boyd Truck Centers, LLC (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of the Company are eligible to participate in the Plan after 30 days of employment.

(b) Contributions

Each year, participants may contribute up to 100% of their annual compensation. All eligible participants are automatically enrolled contributing 3% with an automatic annual increase of 1% until the Plan's maximum automatic default percentage of 10% is reached, unless they expressly decline participation or elect to contribute greater than 3% upon enrollment. Participants may also contribute amounts representing distributions from other qualified plans. Participants may also contribute to a Roth and there is no limit on the amount of Roth contributions other than statutory limits. Total annual deferrals of both pretax and Roth contributions combined may not exceed the maximum salary deferral set by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company makes contributions using a tiered system, contributing 100% of the first 1% of the employee's compensation and 50% of the next 5% of the employee's compensation, up to a maximum of 3.5% of the employee's compensation. The Company contribution is deposited bi-weekly with the employee's contribution. The Company has the ability to make additional discretionary contributions to the Plan.

Participants are automatically invested in an American Funds Target Date Retirement Fund based on their current age unless they instruct otherwise. Participants may direct the investment of their contributions into various other investment options offered by the Plan. The Plan currently offers various registered investment companies' funds and an investment contract as investment options for participants.

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

(c) Participant accounts

Voya Institutional Trust Company ("Voya") maintains a separate account in the name of each participant reflecting their interest in the Plan. Each participant account is credited with participant's contributions and the Company's matching contributions. Investment earnings (losses) are allocated based on each participant's proportionate share of the fair market value of the appropriate funds as of the valuation date, decreased by any distributions to the participant and charged with an allocation of administrative expenses. Investment valuations are determined on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants will be 100% vested after two years of service in the Company's safe harbor contributions made prior to July 1, 2020. Effective July 1, 2020, the Company's nonelective profit sharing contributions are 100% vested after six years of service. An employee's interest in Company contributions will remain 100% vested in cases of normal retirement at age 65, total disability or death. Participants' contributions plus actual earnings thereon are fully vested and nonforfeitable at all times.

(e) Participant notes receivable

A participant may borrow between \$1,000 and \$50,000 as limited by Plan rules and the existing account balance. Participants may have up to two loans at any point in time and the maximum total amount of loans is equal to the lesser of \$50,000 or 50% of the participant's eligible vested balance. The interest rate charged on loans is the prime rate as published in the Wall Street Journal plus 1% at the time the loan is initiated. Participants do not share in the earnings from the Plan's investments to the extent of any outstanding loan, except that the interest paid by them on such loans is allocated directly to the participant's account. The loans are secured by the balance in the participant's account. Principal and interest is collected through payroll deductions.

(f) Payment of benefits

Benefits paid upon termination, retirement, death, or attaining age 59 ½ may be in lump-sum or installment payments as permitted by the Plan. Participants may also be permitted to receive a distribution from their account prior to termination of employment if they experience a financial hardship. Hardship distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount, if the participant is younger than 59 ½, unless certain exceptions apply. Any distribution would be limited to actual employee contributions not previously withdrawn.

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

(g) Forfeited accounts

Amounts forfeited by participants were \$65,880 and \$54,576 during 2025 and 2024, respectively. The Company may use forfeitures to offset employer contributions, during the years ended December 31, 2025 and 2024, the Company applied \$14,269 and \$51,878, respectively. The Company may also utilize forfeitures to reduce plan expenses.

(2) Summary of significant accounting policies

The Plan follows generally accepted accounting principles as outlined in Financial Accounting Standards Board's *Accounting Standards Codification*. Significant accounting policies are as follows:

(a) Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contract. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

(b) Investment valuation and income recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(c) Participant notes receivable

Participant notes receivable are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest on participant notes receivable is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. If a participant does not make loan repayments and the Plan Administrator considers the participant note receivable to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment per the terms of the Plan document.

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

(d) Payment of benefits

Benefits are recorded when paid.

(e) Administrative expenses

Certain administrative services are provided by the Company at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Company and are therefore excluded from these financial statements. Fees related to the administration of the Plan, notes receivable from participants and distributions to participants are included in administrative expenses and are charged directly to the participant's account.

(f) Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

(g) Events occurring after reporting date

The Company has evaluated events and transactions that occurred between December 31, 2025, and September 2, 2026, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Certified information

The December 31, 2025 and 2024, statements of net assets available for benefits, the investment activity included on the statements of changes in net assets available for benefits for the years then ended, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by Voya in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes investments and participant notes receivable totaling \$225,159,951 and \$204,430,246 at December 31, 2025 and 2024, respectively, and related investment income and interest on participant notes receivable totaling \$29,945,465 and \$23,422,887, respectively, for the years then ended.

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

(4) Fair value measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 3 or Level 2 inputs for the years presented.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Level 1 fair value measurements

Registered investment companies' mutual funds, including money market and cash reserve funds are valued at the closing net asset values of the shares held by the Plan as of the last business day of the Plan year. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

The following table presents, by level within the fair value hierarchy, the fair value of investments at December 31, 2025 and 2024:

Fair Value Measurements as of December 31, 2025 Using the Following Inputs				
	Fair Value	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Registered investment companies	\$ <u>182,600,431</u>	\$ <u>182,600,431</u>	\$ _____ -	\$ _____ -
Total assets in the fair value hierarchy	\$ <u>182,600,431</u>	\$ <u>182,600,431</u>	\$ _____ -	\$ _____ -

Fair Value Measurements as of December 31, 2024 Using the Following Inputs				
	Fair Value	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Registered investment companies	\$ <u>161,291,619</u>	\$ <u>161,291,619</u>	\$ _____ -	\$ _____ -
Total assets in the fair value hierarchy	\$ <u>161,291,619</u>	\$ <u>161,291,619</u>	\$ _____ -	\$ _____ -

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2025 and 2024, are reported in net appreciation in fair value of investments. The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstance that caused the transfer. For the years ended December 31, 2025 and 2024, there were no transfers between Levels 1 and 2 and no transfers into or out of Level 3.

(5) Investment contract with insurance company

The APEX Guaranteed Fixed Interest Fund (the "Contract") is a fully benefit-responsive investment contract with The Standard Insurance Company ("The Standard"). The Standard maintains the contributions in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Standard is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

Because the investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statements of net assets available for benefits at contract value. The Plan and The Standard believe that contract value is an appropriate measurement for the Plan's Investment Contract for financial statement reporting purposes, and that the contract value approximates fair value. Contract value, as reported to the Plan by The Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value at December 31, 2025 and 2024, was \$37,943,875 and \$38,788,315, respectively.

The average yield earned by the Plan for the years ended December 31, 2025 and 2024, was 2.89% and 3.18%, respectively, based on actual investment income earned by the Contract. The average yield earned by the Plan, adjusted to reflect the interest rate credited to participants, was 2.83% and 3.03% for the years ended December 31, 2025 and 2024, respectively.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than one percent. Such interest rates are reviewed on a quarterly basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include, (a) an unsecured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(6) Plan termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

BOYD COMPANY 401(K) PLAN

Notes to the Financial Statements

December 31, 2025 and 2024

(7) Income tax status

The Company adopted a pre-approved plan, which received a favorable opinion letter from the Internal Revenue Service (IRS) on June 30, 2020, which stated that the pre-approved plan was designed in accordance with the applicable sections of the IRC. The Plan itself has not received an opinion letter from the IRS stating that the Plan is qualified under Section 401(a) of the IRC. However, the Plan Administrator believes that the Plan is designed, as amended, and is currently being operated, in compliance with the applicable requirements of the IRC and is, therefore, qualified and exempt from taxation.

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

(8) Risks and uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

(9) Related party and party-in-interest transactions

Administrative expenses paid by the Plan to Voya qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping and other administrative expenses amounted to \$195,975 and \$168,273 for the years ended December 31, 2025 and 2024, respectively. Fees paid by the Plan to an investment advisor and IQPA audit fees totaled \$214,066 and \$186,297 for the years ended December 31, 2025 and 2024, respectively. The Plan holds notes receivable from participants which also qualify as party-in-interest transactions.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
