Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Technatomy Corporation 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Technatomy Corporation 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Technatomy Corporation 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Technatomy Corporation 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Technatomy Corporation 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Technatomy Corporation 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held for investment purposes as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Technatomy Corporation 401(k) Plan

NOTES TO FINANCIAL STATEMENTS for Years Ended December 31, 2025 and 2024

NOTE A - DESCRIPTION OF PLAN

The following description of Technatomy Corporation (the Company) 401(k) Plan (the Plan) provides only general information. Readers of these financial statements should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees, who have completed three months of service and are age 21 or older. An employee is credited for each month in which the employee performs at least one hour of service, whether or not the months are consecutive. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to defer a portion, between 1% and 87% of pretax or post-tax eligible compensation into the Plan. Upon eligibility the participant is automatically enrolled into the Plan at 3% unless the participant opts out, there is no annual auto escalation after initial enrollment. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Contributions may not exceed the maximum allowable amount as defined by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan sponsor expects to formally adopt the applicable SECURE 2.0 Act provisions through a plan amendment during the applicable remedial amendment period. Effective January 1, 2025, eligible participants who attain ages 60 through 63 during the plan year are permitted to make increased catchup contributions, subject to the applicable Internal Revenue Code limits.

The Company contributes each pay period a fixed uniform matching contribution of 100% of the first 3% of eligible compensation that a participant contributes to the Plan. Employer contributions are invested in funds, as directed by participants. The Company made contributions of \$155,340 and \$84,620, net of forfeitures, for the years ended December 31, 2025 and 2024, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary contribution, Plan earnings, losses, and Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions, as well as actual earnings thereon. Vesting in the Company's contributions is based on years of continuous service. Participants vest ratably and are 100% vested after five years of credited service or in the event of death or total and permanent disability.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of (i) \$50,000 reduced by the highest outstanding balance of any prior loans from the Plan during the prior one-year period, or (ii) 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 10.50% and matures at various

dates through September 2030. Loans are to be repaid over a maximum term not to exceed 5 years except for loans used to purchase a principal residence which may be repaid over a term not to exceed 30 years. Principal and interest are paid ratably through semi-monthly payroll deductions.

Forfeited Accounts

Forfeited unused balance at December 31, 2025 and 2024 totaled \$2,365 and \$126,016, respectively. The forfeited accounts may be used at the discretion of the Company to reduce Company contributions. For plan years ended 2025 and 2024, forfeited accounts were used to reduce Company contributions totaling \$176,153 and \$51,004, respectively.

Payment of Benefits

On termination of service, death, or retirement, a participant is entitled to receive a distribution of the full amount in that participant's salary reduction and rollover contributions as well as his vested interest in the Company's contribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting where revenues are recognized when earned and expenses are recognized when incurred. The accrual basis of accounting conforms to accounting principles generally accepted in the United States.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

At December 31, 2025, all of the Plan's invested assets are held at ADP Retirement Trust Services, LLC which invests funds based on the recommendations of each fund's manager. Investments are reported at fair value. Fair value is the sale price that would be received to sell an asset or price paid to transfer a liability in a typical transaction between market participants at the date of measurement. Plan management assesses and establishes the Plan's valuation policies using information provided by the custodians of the investments. See Note I for discussion of fair value measurements. Investment assets, transactions, and income as presented in the financial statements and supplemental schedule were certified by the trustees to be complete and accurate.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold, as well as held, during the year.

Participant Loans

Participant loans in the Plan are recognized when granted to eligible plan participants. The Plan recognizes these loans as assets on its balance sheet. Participant loans are initially measured at the principal amount

disbursed to the participant and are subsequently measured based on the amortization of the loan balance. Interest is recognized using the effective interest rate method over the life of the loan.

Plan Expenses

Either the Plan or the Plan sponsor, as provided in the Plan document, pays administrative expenses of the Plan.

Payment of Benefits

Benefits are recorded when paid.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan in whole or in part subject to the provisions of ERISA. In the event of complete or partial Plan termination, the Plan assets shall be distributed in accordance with the terms of the Plan.

Technatomy Corporation 401(k) Plan

NOTES TO FINANCIAL STATEMENTS for Years Ended December 31, 2025 and 2024

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan accounts for uncertainty in income taxes in accordance with FASB ASC 740, Income Taxes. Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. Plan management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and had no uncertain tax positions requiring recognition or disclosure as of December 31, 2025 and 2024.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Technatomy Corporation 401(k) Plan

NOTES TO FINANCIAL STATEMENTS for Years Ended December 31, 2025 and 2024

NOTE I - FAIR VALUE MEASUREMENTS (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds

These funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are generally open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts

These funds are valued at the net asset value (NAV) as the practical expedient based on the collective trusts' underlying investments as determined by the funds' issuer.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits as of December 31, 2025.

	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 8,426,668	\$ 8,426,668	\$ 0	\$ 0
Total assets in fair value hierarchy	\$ 8,426,668	\$ 8,426,668	\$ 0	\$ 0
Common collective trusts measured at net asset value (NAV)	1,865,405			
Investments at fair value	\$ 10,292,073			

Total amount of gains and losses (realized and unrealized) included in the statement of changes in net assets available for benefits for the year ended December 31, 2025 are reported in net change in fair value of investments.

Technatomy Corporation 401(k) Plan

NOTES TO FINANCIAL STATEMENTS for Years Ended December 31, 2025 and 2024

NOTE I - FAIR VALUE MEASUREMENTS (continued)

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits as of December 31, 2024.

	<u>Fair Value</u>	<u>Quoted Prices In Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
Mutual funds	\$ 7,112,980	\$ 7,112,980	\$ 0	\$ 0
Total assets in fair value hierarchy	\$ 7,112,980	\$ 7,112,980	\$ 0	\$ 0
Common collective trusts measured at net asset value (NAV)	<u>2,381,513</u>			
Investments at fair value	<u>\$ 9,494,493</u>			

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2025, there were no significant transfers into or out of Levels 1, 2 or 3.

NOTE J - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 1, 2026, the date the financial statements were available to be issued.
