Independent Auditors' Report

To the Plan Administrator of Staten Island Academy Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Staten Island Academy Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Staten Island Academy Defined Contribution Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institutions).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Staten Island Academy Defined Contribution Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Staten Island Academy Defined Contribution Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Staten Island Academy Defined Contribution Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Staten Island Academy Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2025

1. Description of Plan

The following description of the Staten Island Academy Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective September 1, 1978, and most recently restated effective January 1, 2022. The Plan covers all eligible employees of Staten Island Academy (the School or Employer). For purposes of elective deferrals, employees who normally work less than 20 hours per week and student employees are excluded. For purposes of employer matching contributions, employees who have not completed one year of service and student employees are excluded. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Participants may elect to contribute a percentage of their eligible compensation to the Plan on a pretax basis, subject to the limitations of the Internal Revenue Code (IRC). Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants who have completed at least 15 years of service with the School may also be eligible to make qualified organization catch-up contributions, subject to applicable IRC limitations. The Plan also permits participants to make rollover contributions from other eligible retirement plans and certain individual retirement accounts. Participants direct the investment of their Plan accounts among the investment options offered under the Plan. The School contributes a matching contribution equal to 5% of eligible compensation for participants whose elective deferrals equal or exceed 5% of eligible compensation. The Plan also provides for matching contributions on eligible age-50 catch up deferrals and qualified-organization catch-up deferrals. Catch-up contributions are included in determining whether the participant has satisfied the required elective-deferral percentage. To receive a matching contribution, a participant generally must complete at least 1,000 hours

of service during the Plan year, subject to certain exceptions provided by the Plan. Prior service with a nonprofit educational institution immediately preceding employment and enrollment in the Plan is counted toward satisfaction of the service requirement for Employer matching contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts

Each participant's account is credited with the participant's contributions, Employer matching contributions and an allocation of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan Document.

Vesting

Participants are vested immediately in their contributions and the School's contributions plus actual earnings thereon.

Plan loans

Certain loans under Teachers Insurance and Annuity Association of America (TIAA) annuity contracts were funded directly by TIAA rather than from the participants' Plan accounts. Principal and interest payments on these collateralized loans are payable to TIAA. Because TIAA, rather than the Plan, funded the loan proceeds, these loans are not assets of the Plan and are not reported in the statements of net assets available for benefits. Under the terms of the applicable TIAA contracts, a portion of the participant's TIAA Traditional Annuity account is maintained as collateral equal to 110% of the outstanding loan balance. The collateral continues to earn interest but is unavailable for transfer, withdrawal, retirement income benefits, or survivor benefits while pledged as security for the loan.

1. Description of Plan (continued)

Interest rates on collateralized loans may be fixed or variable, as provided under the applicable TIAA contract. The initial interest rate, subsequent rate adjustments, and frequency of adjustment are determined in accordance with the terms of the applicable contract.

At December 31, 2025 and 2024, there were 2 collateralized loans outstanding with aggregate principal balances due of \$2,096 and \$4,073 respectively, which represents a collateralization of participant accounts. One active participant loan had an outstanding principal balance of \$530 and one loan with an outstanding balance of \$1,566 had been deemed distributed. At December 31, 2025 and 2024, interest rates on these loans ranged from 4.29% to 5.09% with maturities through 2026.

TIAA no longer offers new collateralized loans under the Plan. New loans are funded from the borrowing participant's Plan account and are treated as participant-directed investments. Such loans are reported as notes receivable from participants in the statements of net assets available for benefits at their unpaid principal balances plus accrued interest. Repayments of principal and interest are credited to the borrowing participant's account in accordance with the participant's investment elections.

Notes receivable from participants

The Plan permits participants to borrow from their accounts, subject to the terms of the applicable investment arrangements. The minimum loan amount is \$1,000. The maximum loan amount is the lesser of (1) \$50,000, reduced by the excess, if any, of the participant's highest outstanding loan balance during the preceding 12-month period over the participant's outstanding loan balance on the date of the new loan, or (2) 50 percent of the participant's vested account balance. Participant loans are secured by the participant's vested account balance. Participants may not have more than two outstanding loans at any time. The interest rate is determined when the loan is originated, is fixed for the life of the loan, and is set at the Federal Reserve Board Bank Rate plus 1%, as defined in the Plan document. Principal and interest are repaid in accordance with a level amortization schedule through payroll deductions, ACH, or another repayment method permitted under the applicable investment arrangement.

1. Description of Plan (continued)

General-purpose loans must be repaid within five years. Loans used to acquire a participant's principal residence may have repayment terms of up to 10 years.

Payment of benefits

Upon severance from employment, a participant may elect to receive the participant's vested account balance in a form permitted under the Plan and the applicable investment arrangements, including a lump-sum payment, installment payments, an annuity, or periodic distributions. The Plan's normal form of payment is a qualified annuity; however, a participant may elect an alternative form of payment, subject to the applicable participant and spousal consent requirements. Upon a participant's death, the participant's vested account balance is payable to the designated beneficiary in accordance with the terms of the Plan and the applicable investment arrangements. The Plan also permits certain in-service distributions, including distributions upon attainment of age 59½, distributions upon disability, withdrawals of rollover contributions, and hardship distributions, subject to the terms of the Plan Document and applicable legal requirements.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The TIAA Traditional Annuity consists of unallocated fixed-rate guaranteed annuity contracts. Certain TIAA Traditional Annuity contracts are fully benefit-responsive and are reported at contract value. Contract value represents accumulated contributions and transfers into the contracts, plus interest credited in accordance with the contracts, less withdrawals and transfers out. Contract value is the relevant measurement attribute because it represents the amount participants would normally receive if they initiated permitted transactions under the terms of the Plan. TIAA Traditional Annuity contracts that are not fully benefit-responsive are reported at fair value. Because quoted market prices are not available for these contracts, the Plan estimates fair value using contract value, which management has determined approximates fair value based on valuation information provided by TIAA. TIAA's valuation methodology considers risk-adjusted market interest rates and a discounted cash flow approach. See Note 3 for additional information regarding fair value measurements. Registered investment companies are valued at published net asset value per share, which represents quoted market prices in active markets and is classified within Level 1 of the fair value hierarchy.

The Plan's investment in the TIAA Real Estate Account, a pooled separate account, is valued at the net asset value per accumulation unit reported by TIAA. Net asset value is based on the fair value of the account's underlying investments, less its liabilities. The Plan uses net asset value as a practical expedient to estimate fair value. The practical expedient would not be used if it were probable that the investment would be sold for an amount different from its reported net asset value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation

2. Summary of Accounting Policies (continued)

or depreciation on investments held at year-end. Amounts reported by TIAA as appreciation or depreciation associated with TIAA Traditional Annuity contracts are included in interest income.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. If a participant ceases to make loan repayments and a distributable event occurs (retirement, termination, death), the participant loan balance is reduced, and a benefit payment is recorded. Until a distributable event occurs, the loan will continue to have a balance and accrue interest.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Expenses that are paid by the School are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in value of investments.

Reclassification

Certain prior-year amounts have been reclassified to conform to the current-year presentation. These reclassifications had no effect on net assets available for benefits or changes in net assets available for benefits previously reported.

There are no unfunded commitments on the Plan's investments.

TIAA Real Estate Account

The TIAA Real Estate Account generally invests in real estate properties and real estate-related investments. The TIAA Real Estate Account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The TIAA Real Estate Account sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. While redemptions from the TIAA Real Estate Account may occur daily, transfers out are limited to one per calendar quarter.

3. Investments (continued)

TIAA Traditional Annuity Account

The TIAA Traditional Annuity Account is comprised of six types of contracts. The fully benefit-responsive contracts are: the Group Supplemental Retirement Annuity ("GSRA"), the Supplemental Retirement Annuity ("SRA"), and the Retirement Choice Plus contracts. The non-benefit-responsive contracts are: the Group Retirement Annuity ("GRA"), Retirement Annuity ("RA") and Retirement Choice contracts. The plan administrator does not believe that any events would limit the Plan's ability to transact at contract value.

The Plan utilizes the GSRA and SRA contracts, which are reported at contract value, and the GRA and RA contracts, which are reported at fair value. Contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers in (if any), less any withdrawals and transfers out (if any). Contract value approximates a discounted cash flow value calculated using a risk-adjusted market discount rate which correlates closely with the TIAA Traditional Annuity's historical crediting rates. Unobservable inputs include the risk-adjusted discount rates applied and the ranges of significant input values are as follows: GSRA – 3.00% - 5.75%; SRA – 3.00% - 5.75%; GRA – 3.55% - 6.50%; and RA – 3.55% - 6.50%.

TIAA Traditional Annuity withdrawal and transfer provisions vary by contract type. Under RA contracts, lump-sum withdrawals are not available and, subject to the terms of the Plan, withdrawals and transfers generally must be paid in ten annual installments. Under GRA contracts, lump-sum withdrawals are available within 120 days following termination of employment, subject to a 2.5% surrender charge; all other withdrawals and transfers generally must be paid in ten annual installments. Under SRA and GSRA contracts, lump-sum withdrawals and transfers generally are available without restrictions or surrender charges, subject to the terms of the Plan.

The contracts use the vintage method to credit interest to the TIAA Traditional Annuity Account. Vintages are time periods that represent when money was initially invested in the TIAA Traditional Annuity Account and the corresponding interest rate during that distinct time period. The vintage method recognizes the fact that the level of prevailing

Staten Island Academy Defined Contribution Retirement Plan

Notes to Financial Statements

3. Investments (continued)

interest rates available on new long-term investments will vary over time and that as the long-term investments in a specific vintage mature, they will be reinvested at different rates. When funds flow into the TIAA Traditional Annuity Account, they are immediately invested at the prevailing pay-in-rate for new money. The funds earn interest at the prevailing vintage rates. The vintage will always consist of two parts: the guaranteed portion and the discretionary portion. The guaranteed portion represents the minimum amount of interest that will be credited to an account, regardless of the economic environment. The discretionary portion represents interest earned over and above the guaranteed rate.

The TIAA Traditional Annuity Account represents approximately 26% and 28% of the Plan's net assets available for benefits as of December 31, 2025 and 2024, and represents an obligation from TIAA to repay as amounts come due. The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (Aa1 as of February 2026), Standard and Poor's (AA+ as of August 2025), A.M. Best (A++ as of July 2025), and Fitch (AAA as of February 2026).

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

4. Information Certified by Custodian

The Plan administrator has elected to have audits performed pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting

4. Information Certified by Custodian (continued)

and Disclosure under ERISA for 2025 and 2024. Accordingly, certain information in the Plan's financial statements and supplemental schedule was agreed to or derived from information certified as complete and accurate by Teachers Insurance and Annuity Association and College Retirement Equities Fund, the Plan's Custodian and qualified institutions. The certified information includes the Plan's investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the accompanying supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity (including net appreciation in value of investments, interest, and dividends) and interest income on notes receivable from participants reported in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.

5. Related-Party and Party In Interest Transactions

Certain Plan investments are managed by the Custodian, and therefore, these transactions qualify as party in interest transactions.

The Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the School. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Staten Island Academy Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2025

7. Tax Status

The School has adopted a volume submitter plan document offered by TIAA that has received an IRS Opinion Letter dated August 7, 2017, stating that the form of the volume submitter plan document was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the IRS Opinion Letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
