Independent Auditor's Report

Board of Trustees
Metcut Research Associates Inc.
Employee Stock Ownership Plan
Cincinnati, Ohio

Opinion

We have audited the financial statements of Metcut Research Associates Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Metcut Research Associates Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of Metcut Research Associates Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Metcut Research Associates Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Metcut Research Associates Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Metcut Research Associates Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

General

The following description of the Metcut Research Associates Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

Metcut Research Associates Inc. (Company) established the Plan effective as of January 31, 1976. As of February 1, 1991, the Plan was amended and operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA). The Plan is administered by a board of trustees comprised of two persons appointed by the Metcut Research Associates Inc. Board of Directors (these individuals are collectively referred to as the Trustee in the trust agreement covering the Plan). The Company maintains the required employment records for all participants.

On May 9, 2019, the Plan entered into a stock purchase agreement with the Company with a loan of \$1,579,660. Subsequently, the Plan purchased 190 shares of the Company's stock using the proceeds of the Company's loan at a price of \$8,314 per share for an aggregate purchase price of \$1,579,660.

On May 31, 2022, the Plan entered into a stock purchase agreement with the Company with a loan of \$2,308,280. Subsequently, the Plan purchased 230 shares of the Company's stock using the proceeds of the Company's loan at a price of \$10,036 per share for an aggregate purchase price of \$2,308,280.

On May 31, 2023, the Plan entered into a stock purchase agreement with the Company with a loan of \$1,366,335. Subsequently, the Plan purchased 145 shares of the Company's stock using the proceeds of the Company's loan at a price of \$9,423 per share for an aggregate purchase price of \$1,366,335.

On May 30, 2024, the Plan entered into a stock purchase agreement with the Company with a loan of \$2,117,510. Subsequently, the Plan purchased 194 shares of the Company's stock using the proceeds of the Company's loan at a price of \$10,915 per share for an aggregate purchase price of \$2,117,510.

On May 30, 2025, the Plan entered into a stock purchase agreement with the Company with a loan of \$919,308. Subsequently, the Plan purchased 78 shares of the Company's stock using the proceeds of the Company's loan at a price of \$11,786 per share for an aggregate purchase price of \$919,308.

The Plan purchased Company common shares and holds the stock in a trust established under the Plan.

Unallocated and Allocated Shares

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

- (A) The accounts of employees with vested rights in allocated common stock (Allocated), and
- (B) Common stock not yet allocated to employees (Unallocated)

**Metcut Research Associates Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024**

Participation

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year and are 21 years or older. Participants who do not have at least 1,000 hours of service during such Plan year are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans. The Company may make additional contributions in cash or in employer shares to the Plan at its discretion each Plan year. In 2025 and 2024, Company contributions were made in cash.

Participant Accounts

The Plan is a defined-contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

Participants are 100% vested after three years of service. Participants terminating due to normal retirement, death or disability will be 100% vested.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Payment of Benefits

The total amount of any distribution will depend on a number of factors such as the number of years the individual has been a participant, the extent of Company contributions during those years and the earnings (losses) of the trust fund during the period. The distribution of a participant's vested benefits may occur after retirement, separation from service or death. All distributions will be made in a lump-sum manner and paid in cash.

**Metcut Research Associates Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024**

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the value of his or her account. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

At December 31, 2025 and 2024, Plan assets include \$6,725,867 and \$5,180,809, respectively, allocated to accounts of terminated or retired participants who have not yet been paid.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. There were \$62,926 and \$85,478 in forfeitures of terminated nonvested account balances allocated to remaining participants during the years ended December 31, 2025 and 2024, respectively. There were no forfeited nonvested accounts to be allocated to participant accounts in future years as of December 31, 2025 and 2024.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the ESOP Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and all participants will become 100% vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value. Fair value is determined by annual independent appraisals.

**Metcut Research Associates Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024**

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Plan Tax Status

The Plan obtained its latest determination letter on August 8, 2016, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore not subject to tax. Although the Plan has been amended since receiving its determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 3. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist principally of Metcut Research Associates Inc. common shares.

Company contributions are held and managed by the Trustee, who invests cash received, interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loans, which is reimbursed to the Trustee through contributions as determined by the Company.

Officers or employees of the Company or its subsidiaries perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

**Metcut Research Associates Inc.

Notes to Financial Statements
December 31, 2025 and 2024**

Note 4. Dividends

To the extent dividends are not used by the Plan for debt service, participants are given the funds to leave in the Plan to be invested in Company stock as provided by the Plan.

Note 5. Investments

The Plan's investments, at December 31, 2025 and 2024, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Metcut Research Associates Inc.				
Common Shares				
Number of shares	2,124	621	2,150	595

Cost (approximates fair value)	\$ 737,779	\$ -	\$ 969,071	\$ -

Interest realized on the Plan's cash account for 2025 and 2024 was \$16,355 and \$6,075, respectively. Dividends realized on the Plan's investments for 2025 and 2024 were \$727,425 and \$713,700, respectively.

Note 6. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

**Metcut Research Associates Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024**

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2025 and 2024. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include interest-bearing cash. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. The Plan held no Level 2 securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Level 3 securities include Metcut Research Associates Inc. common stock. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Activity

There were no purchases, issues or transfers into or out of Level 3 investments in 2025 or 2024. The only change in the Level 3 investments represent unrealized gains related to assets held at December 31, 2025 and 2024.

Unobservable (Level 3) Inputs

The following table presents qualitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31,		Valuation Technique	Unobservable Inputs
	2025	2024		
Company common stock	\$ 35,372,070	\$ 32,352,570	Adjusted book value Adjusted earnings	Weighted-average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for various operating factors Discount for lack of liquidity of publicly available information

The valuation process involves Plan management's selection of an independent appraiser under contract for a one-year term. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary.

Notes to Financial Statements
December 31, 2025 and 2024

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7. Loans Payable

The Plan has entered into term loan agreements with the Company, as discussed in Note 1. The proceeds of the loans were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 52.00 and 37.99 shares being released and allocated for the Plan years ended December 31, 2025 and 2024, respectively.

The agreements provide for the loans to be repaid over terms ranging from ten to twenty-five years. The fair value of the notes payable as of December 31, 2025 and 2024, was \$6,086,936 and \$6,086,007, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates and nonperformance risk. The fair value of the notes approximate their face value. The loans bear interest at rates ranging from 3.5% to 5.5%.

The scheduled amortization of the loans for the next five years and thereafter is as follows:

2026	\$	429,832
2027		445,713
2028		462,029
2029		479,932
2030		382,075
Thereafter		<u>4,409,355</u>
	\$	<u><u>6,608,936</u></u>

Note 8. Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan has loans totaling \$6,608,936 and \$6,086,007 outstanding with the Company at December 31, 2025 and 2024, respectively, and incurred interest expense of \$307,215 and \$373,837 during the years ended December 31, 2025 and 2024, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 9. Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as market and credit risk. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 10. Subsequent Events

On June 15, 2026, the Plan entered into a loan agreement with the Company in the amount of \$3,814,256 as part of the acquisition of 296 shares of Company stock. The loan is payable \$270,631 annually through 2051, including interest at a rate of 5.0%.

Subsequent events have been evaluated through August 18, 2026, which is the date the financial statements were available to be issued.

Board of Trustees
Metcut Research Associates Inc.
Employee Stock Ownership Plan
Cincinnati, Ohio

Opinion

We have audited the financial statements of Metcut Research Associates Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Metcut Research Associates Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of Metcut Research Associates Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Metcut Research Associates Inc. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Metcut Research Associates Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Metcut Research Associates Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

General

The following description of the Metcut Research Associates Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

Metcut Research Associates Inc. (Company) established the Plan effective as of January 31, 1976. As of February 1, 1991, the Plan was amended and operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA). The Plan is administered by a board of trustees comprised of two persons appointed by the Metcut Research Associates Inc. Board of Directors (these individuals are collectively referred to as the Trustee in the trust agreement covering the Plan). The Company maintains the required employment records for all participants.

On May 9, 2019, the Plan entered into a stock purchase agreement with the Company with a loan of \$1,579,660. Subsequently, the Plan purchased 190 shares of the Company's stock using the proceeds of the Company's loan at a price of \$8,314 per share for an aggregate purchase price of \$1,579,660.

On May 31, 2022, the Plan entered into a stock purchase agreement with the Company with a loan of \$2,308,280. Subsequently, the Plan purchased 230 shares of the Company's stock using the proceeds of the Company's loan at a price of \$10,036 per share for an aggregate purchase price of \$2,308,280.

On May 31, 2023, the Plan entered into a stock purchase agreement with the Company with a loan of \$1,366,335. Subsequently, the Plan purchased 145 shares of the Company's stock using the proceeds of the Company's loan at a price of \$9,423 per share for an aggregate purchase price of \$1,366,335.

On May 30, 2024, the Plan entered into a stock purchase agreement with the Company with a loan of \$2,117,510. Subsequently, the Plan purchased 194 shares of the Company's stock using the proceeds of the Company's loan at a price of \$10,915 per share for an aggregate purchase price of \$2,117,510.

On May 30, 2025, the Plan entered into a stock purchase agreement with the Company with a loan of \$919,308. Subsequently, the Plan purchased 78 shares of the Company's stock using the proceeds of the Company's loan at a price of \$11,786 per share for an aggregate purchase price of \$919,308.

The Plan purchased Company common shares and holds the stock in a trust established under the Plan.

Unallocated and Allocated Shares

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

- (A) The accounts of employees with vested rights in allocated common stock (Allocated), and
- (B) Common stock not yet allocated to employees (Unallocated)

**Metcut Research Associates Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024**

Participation

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year and are 21 years or older. Participants who do not have at least 1,000 hours of service during such Plan year are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans. The Company may make additional contributions in cash or in employer shares to the Plan at its discretion each Plan year. In 2025 and 2024, Company contributions were made in cash.

Participant Accounts

The Plan is a defined-contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

Participants are 100% vested after three years of service. Participants terminating due to normal retirement, death or disability will be 100% vested.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Payment of Benefits

The total amount of any distribution will depend on a number of factors such as the number of years the individual has been a participant, the extent of Company contributions during those years and the earnings (losses) of the trust fund during the period. The distribution of a participant's vested benefits may occur after retirement, separation from service or death. All distributions will be made in a lump-sum manner and paid in cash.

**Metcut Research Associates Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024**

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the value of his or her account. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

At December 31, 2025 and 2024, Plan assets include \$6,725,867 and \$5,180,809, respectively, allocated to accounts of terminated or retired participants who have not yet been paid.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. There were \$62,926 and \$85,478 in forfeitures of terminated nonvested account balances allocated to remaining participants during the years ended December 31, 2025 and 2024, respectively. There were no forfeited nonvested accounts to be allocated to participant accounts in future years as of December 31, 2025 and 2024.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the ESOP Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and all participants will become 100% vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value. Fair value is determined by annual independent appraisals.

**Metcut Research Associates Inc.
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024**

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Plan Tax Status

The Plan obtained its latest determination letter on August 8, 2016, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore not subject to tax. Although the Plan has been amended since receiving its determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 3. Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist principally of Metcut Research Associates Inc. common shares.

Company contributions are held and managed by the Trustee, who invests cash received, interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loans, which is reimbursed to the Trustee through contributions as determined by the Company.

Officers or employees of the Company or its subsidiaries perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 4. Dividends

To the extent dividends are not used by the Plan for debt service, participants are given the funds to leave in the Plan to be invested in Company stock as provided by the Plan.

Note 5. Investments

The Plan's investments, at December 31, 2025 and 2024, are presented in the following table:

	2025		2024

Interest realized on the Plan's cash account for 2025 and 2024 was \$16,355 and \$6,075, respectively. Dividends realized on the Plan's investments for 2025 and 2024 were \$727,425 and \$713,700, respectively.

Note 6. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2025 and 2024. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include interest-bearing cash. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. The Plan held no Level 2 securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Level 3 securities include Metcut Research Associates Inc. common stock. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Activity

There were no purchases, issues or transfers into or out of Level 3 investments in 2025 or 2024. The only change in the Level 3 investments represent unrealized gains related to assets held at December 31, 2025 and 2024.

Unobservable (Level 3) Inputs

The following table presents qualitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31,		Valuation Technique	Unobservable Inputs
	2025	2024		
Company common stock	\$ 35,372,070	\$ 32,352,570	Adjusted book value Adjusted earnings	Weighted-average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for various operating factors Discount for lack of liquidity of publicly available information

The valuation process involves Plan management's selection of an independent appraiser under contract for a one-year term. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7. Loans Payable

The Plan has entered into term loan agreements with the Company, as discussed in Note 1. The proceeds of the loans were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 52.00 and 37.99 shares being released and allocated for the Plan years ended December 31, 2025 and 2024, respectively.

The agreements provide for the loans to be repaid over terms ranging from ten to twenty-five years. The fair value of the notes payable as of December 31, 2025 and 2024, was \$6,086,936 and \$6,086,007, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates and nonperformance risk. The fair value of the notes approximate their face value. The loans bear interest at rates ranging from 3.5% to 5.5%.

The scheduled amortization of the loans for the next five years and thereafter is as follows:

2026	\$	429,832
2027		445,713
2028		462,029
2029		479,932
2030		382,075
Thereafter		<u>4,409,355</u>
	\$	<u><u>6,608,936</u></u>

Note 8. Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan has loans totaling \$6,608,936 and \$6,086,007 outstanding with the Company at December 31, 2025 and 2024, respectively, and incurred interest expense of \$307,215 and \$373,837 during the years ended December 31, 2025 and 2024, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 9. Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as market and credit risk. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 10. Subsequent Events

On June 15, 2026, the Plan entered into a loan agreement with the Company in the amount of \$3,814,256 as part of the acquisition of 296 shares of Company stock. The loan is payable \$270,631 annually through 2051, including interest at a rate of 5.0%.

Subsequent events have been evaluated through August 18, 2026, which is the date the financial statements were available to be issued.
