Ballinger Company Cash Balance Plan

Financial Statements and Supplemental Schedules

Including Independent Auditors' Report

December 31, 2025 and 2024

Independent Auditors' Report

To the Plan Administrator of Ballinger Company Cash Balance Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Ballinger Company Cash Balance Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Responsibilities of Management for the Financial Statements (continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Supplemental Schedules Required by ERISA (continued)

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Ballinger Company Cash Balance Plan

Notes to Financial Statements

December 31, 2025 and 2024

1. Description of Plan

The following description of the Ballinger Company Cash Balance Plan ("the Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2015 as a cash balance defined benefit plan to provide retirement benefits to eligible employees of The Ballinger Company (the "Employer"). Employees are eligible to participate in the Plan upon attaining 21 years of age, completing one month of service, being a citizen or resident of the United States of America, and being designated as a "Senior Principal" or "Staff" by the Employer, as defined in the Plan document, ("Participants"). Temporary or seasonal employees become eligible to participate in the Plan upon attaining 21 years of age, completing one year of service, and being designated as a "Staff" by the Employer.

Principal Life Insurance Company ("PLIC") serves as the Plan's trustee that holds the Plan's investments and provides recordkeeping services for the Plan. The Plan is subject to the provisions of the Internal Revenue Code ("IRC") and the Employee Retirement Income Security Act of 1974 ("ERISA"). All investments are non-Participant directed.

Subsequent Events

Subsequent to year end the, Employer made the decision to terminate the Plan, effective 10/31/2026. The Employer is working with PLIC to distribute the Plan's assets.

Plan Administration

The Employer is the Plan administrator and has the authority to appoint person(s) or entities to carry out the operations of the Plan. The Plan administrator, along with investment advisors, determines the appropriateness of the Plan's investment offerings and monitoring of investment performance. The Board of Directors of the Employer serve as the Plan's trustees.

1. Description of Plan (Continued)

Participant accounts

Under the Plan provisions, amounts are credited by the Employer to the Participants' hypothetical cash balance accounts. The accounts are allocated a cash balance credit and an earnings credit at the end of each Plan year in which a Participant completes a year of service. A Participant is credited with a year of service upon completing 1,000 hours of service with the Employer during the Plan year.

Participants designated as "Staff" receive a cash balance credit in the amount of 2.40% of their base compensation for the Plan year. Participants designated as "Senior Principal" receive cash balance credits based on criteria specific to each individual, as defined in the Plan document. Earnings are credited daily based upon the rate of return earned by Plan assets. The maximum earnings credit is the amount determined by applying a 6.00% annual rate to the maximum account, as defined in the Plan document.

Funding policy

The Plan's funding policy is for the Employer to make annual contributions to the Plan that equal or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. For the years ended December 31, 2025 and 2024, the Employer made contributions of \$248,446 and \$1,266,751, respectively. The Employer's contributions for both 2025 and 2024 exceeded the minimum funding requirements of ERISA.

The Pension Protection Act of 2006, as amended by the Worker, Retiree, and Employer Recovery Act of 2008, imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At Risk" status is referred to as the Funding Target Attainment Percentage. A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The AFTAP for the Plan for the years ended December 31, 2025 and 2024 were 129.87% and 136.47%, respectively. Because the Plan's AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

1. Description of Plan (Continued)

Vesting

Participants vest in his or her hypothetical cash balance account based on completed years of service in accordance with the following schedule, unless the Participant's termination of service is due to death, disability, or retirement, at which time the Participant becomes fully vested.

<u>Years of service</u>	<u>Vested Service</u>
Less than 3 years	0%
3 or more years	100%

Pension benefits

Participants are eligible for their plan benefit after terminating service with vested rights or due to attaining normal retirement age. A Participant or beneficiary receives a qualified joint survivor annuity, life annuity, or may elect to receive other optional forms of benefit, as defined, in an amount equal to the value of the Participant's hypothetical cash balance account. If the cash balance account is \$7,000 or less, the Plan administrator will distribute the benefit to the Participant in a lump-sum distribution.

The normal retirement age under the Plan is age 62. Specific terms of the Plan provide other retirement options with a combination of factors of age and completed years of service.

Death and disability benefits

If a Participant with vested benefits dies while actively employed by the Employer or after termination but before benefit payments begin, a death benefit is paid to the Participant's beneficiary based upon the Participant's hypothetical cash balance account. The death benefit is distributed to the beneficiary according to the provisions of the Plan document for the specific situation.

Participants that become disabled prior to reaching retirement age are entitled to a disability benefit to be distributed by the Plan administrator in accordance with the Plan document.

1. Description of Plan (Continued)

In-Service Distributions

A Participant that has attained the age of 59.5 may elect to receive a distribution in accordance with the Plan's provisions.

Forfeitures

If a non-vested Participant terminates service with the Employer, other than by death, disability, or retirement, the non-vested Participant's cash account balance becomes forfeited on the last day of the Plan year in which the termination occurred. Forfeited amounts bring a Participant's balance to zero when forfeited. Forfeited amounts are accounted for with the actuarial valuation and affect the required employer contributions.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results could vary from the estimates that were used.

December 31, 2025 and 2024

2. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. When applicable, interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Unit Values

Pooled separate investment accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds but do have an interest therein represented by units which are valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined.

Payment of Benefits

Benefit payments to Participants are recorded during the period they are paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Employer as provided by the Plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in the administration of the Plan are paid by the Plan and are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through August 28, 2026, the date the financial statements were available to be issued.

December 31, 2025 and 2024

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services rendered by the Participants. Accumulated plan benefits include benefits expected to be paid to (a.) retired or terminated Participants or their beneficiaries, (b.) beneficiaries of Participants who have died and (c.) present Participants or their beneficiaries. Benefits under the Plan are accumulated based on a Participant's base salary or principal points earned during each year of service, as defined in the Plan document. The accumulated plan benefits for active Participants equal the accumulation, with earnings, of the benefit accruals as of the benefit information date. Benefits payable under all circumstances; retirement, death, disability, and termination of employment, are included, to the extent they are deemed attributable to Participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary using the unit credit cost method and the amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material differences.

The significant actuarial assumptions used in the valuations for the Plan were as follows at December 31:

	2024	2023
Mortality base	IRS 2025 Static Mortality Table	IRS 2024 Static Mortality Table
Weighted average retirement age	Age 64	Age 64
Interest crediting rate	3.5%	3.0%

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024

4. Fair Value Measurements (Continued)

Pooled separate investment accounts: December 31, 2025 and 2024, pooled separate investment accounts amounted to \$2,128,654 and \$2,173,173, respectively. Valued at the net asset value ("NAV") of the units of the separate account. The NAV, as provided by PLIC, is used as a practical expedient to determine fair value for these accounts. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. These units are not traded on a securities exchange but are redeemable only by the issuer. The rate of return varies based upon each fund's experience. These accounts do not distribute dividends or interest to the Plan, rather investment performance is reflected in the change in the unit value. Pooled separate accounts that are measured using the NAV practical expedient are exempt from categorization within the fair value hierarchy. Due to the nature of these accounts, there are no unfunded commitments or redemption restrictions and redemption frequency is daily.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial assets and liabilities could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Level 1	Level 2	Level 3	Total

4. Fair Value Measurements (Continued)

(a) In accordance with FASB ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

5. Information Certified by Custodian

The plan administrator has elected to have an audit performed pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, certain information in the Plan's financial statements and supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, was agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company, the Plan's Trustee and a qualified institution. The certified information includes the Plan's investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the accompanying supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity (including net appreciation in fair value of investments) reported in the accompanying Statements of Changes in Net Assets Available for Benefits and the information reported in the accompanying supplemental Schedule H, Line 4j - Schedule of Reportable Transactions for the years ended December 31, 2025 and 2024.

6. Related Party and Party-In-Interest Transactions

Plan investments include pooled separate investment accounts managed by PLIC. Accordingly, these transactions qualify as exempt party-in-interest transactions. The Plan paid administrative expenses of \$3,350 and \$50 to PLIC during the years ended December 31, 2025 and 2024, respectively.

7. Plan Termination

The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the Plan's net assets generally will not be available on a pro-rata basis to provide Participants' benefits. Whether an individual Participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at the date of termination. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

The net assets of the Plan will be allocated as described by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Participants who were receiving retirement income or who were eligible to receive retirement income at least three years prior to the date of Plan termination, and each spouse and beneficiary who was receiving retirement income or who was eligible to receive retirement income at least three years prior to the date of Plan termination, will receive an amount which will provide for them the amount of retirement income then accrued to them under the Plan, but not in excess of the benefit insured by the PBGC.
- b) There shall next be credited to each Participant who was receiving retirement income or who was eligible to receive retirement income on the date of the Plan's termination and to each spouse and beneficiary who was receiving retirement income or who was eligible to receive retirement income on the date of the Plan's termination an amount which will provide for him or her the amount of retirement income then accrued to him or her under the Plan, but not in excess of the benefit insured by the PBGC.
- c) There shall next be credited to each other Participant who, on the date on which the Plan shall terminate, is eligible for retirement income in accordance with the provisions of the Plan document, an amount which will provide for him or her the amount of the retirement income then accrued to him or her under the Plan, but not in excess of the benefit insured by the PBGC.

7. Plan Termination (Continued)

d) There shall next be credited to each other Participant who would be entitled to additional retirement income in accordance with (a), (b), and (c) above, were such additional income not in excess of the amount insured by the PBGC, an amount which will provide for him or her the amount of retirement income then accrued to him or her under the Plan.

e) There shall next be credited to each other Participant an amount which will provide for him or her the amount of retirement income then accrued to him or her under the Plan.

Subsequent to year end the, Employer made the decision to terminate the Plan, effective 10/31/2026. The Employer is working with PLIC to distribute the Plan's assets.

8. Tax Status

The Plan obtained its latest determination letter on November 6, 2017, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan restated its plan document effective December 1, 2020, and is awaiting the IRS to issue a new determination letter.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. It is the Plan's policy to account for any uncertainties as described under the income tax laws. Under the income tax laws, the tax-exempt status of the Plan is considered a tax position. No such uncertain tax positions have been recognized by the Plan. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

9. Risks and Uncertainties (Continued)

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Plan Sponsor Elections

Yield curve election: The plan sponsor did not elect to use the full yield curve under IRC section 430(h)(2)(D)(ii).

Applicable month: The plan sponsor elected to base the segment rates on the rates published in the month containing the valuation date.

Economic Assumptions

	Funding Target		PBGC Funding Target
	with stabilization	without stabilization	
First segment rate (years 0 to 4):	5.00%	5.00%	4.65%
Second segment rate (years 5 to 19):	5.27%	5.27%	5.28%
Third segment rate (years 20 and after):	5.50%	5.40%	5.63%
Effective interest rate (current year):	5.41%	5.34%	N/A

Interest crediting rate: 3.50%

The interest rates listed above are compounded annually.

The cash balance interest crediting rate is equal to the rate of return on plan assets, subject to cumulative minimum and maximum interest crediting rates. Accordingly, the assets needed to provide future cash balance benefits are independent of interest rates and only dependent on the plan’s asset allocation to the extent that the cumulative minimum or maximum interest crediting rates affect the cash balance accounts. This plan provision is difficult to measure using traditional deterministic valuation procedures. To account for this plan provision, the interest crediting rate was selected from a reasonable range based on the plan’s asset allocation that, when combined with the segment interest rates, produced a funding target that was as close as possible to the economic value of the cash balance accounts.

Demographic Assumptions

RETIREMENT

All participants are assumed to retire according to the following schedule, but no earlier than one year from the valuation date of January 1, 2025:

Assumed retirement age	Percent assumed to retire
62	50.00%
65	100.00%

WEIGHTED AVERAGE RETIREMENT AGE

The weighted average retirement age for the population during the current year, rounded to the nearest whole number, is 64.

WITHDRAWAL AND DISABILITY

None.

RATIONALE FOR RETIREMENT AGE, WITHDRAWAL AND DISABILITY ASSUMPTIONS

The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire according to the schedule above.

MORTALITY AND MORTALITY IMPROVEMENT

The mortality follows the IRS 2025 Static Mortality Table, as prescribed by Treasury regulation section 1.430(h)(3)-1. The mortality decrement is assumed to occur as of the beginning of the year.

Other Assumptions

FORM OF PAYMENT

Based on the experience of the plan and future expectations, all participants are assumed to elect a lump sum form of payment.

Ballinger Company Cash Balance Plan

EIN / PN 23-1713492 / 002

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

EXPENSES

Assumed expenses are \$0 for 2025, based on the experience of the plan and future expectations. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Changes from Prior Year and Rationale for Changes

The Interest Crediting Rate was changed from 3.0% in 2024 to 3.5% in 2025 to better reflect expected experience under the plan.

Actuarial Methods

VALUATION DATE

The valuation date is January 1, 2025.

ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is equal to the market value of assets.

MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

Changes in Method from Prior Year and Rationale for Changes

None.
