Independent Auditor's Report

To the Plan Administrator
The Original Mattress Factory Employee Stock
Ownership Plan

Opinion

We have audited the financial statements of The Original Mattress Factory Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficiency in net assets) as of December 31, 2025 and 2024 and the related statement of changes in net assets (deficiency in net assets) for the year ended December 31, 2025 and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024 and the changes in net assets available for benefits for the year ended December 31, 2025 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 5, the financial statements include an investment valued at \$60,959,620 (99 percent of investments) at December 31, 2025 and \$55,830,091 (99 percent of investments) at December 31, 2024, whose fair value has been estimated by management in the absence of a readily determinable market value. Management's estimate is based on independent appraisals, management projections, and guideline market data. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
The Original Mattress Factory Employee Stock
Ownership Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The Original Mattress Factory Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2025 and 2024

Note 1 - Plan Description

The Original Mattress Factory Employee Stock Ownership Plan (the "Plan") is an employee stock ownership plan and trust covering generally all full-time employees, other than certain former stockholder employees, of The Original Mattress Factory, Inc. (the "Company") who have completed 1,000 or more hours of service and are age 21 or older.

The Plan was established effective January 1, 2011. The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an advisory committee, as determined by the Company. An independent third-party trust company is the Plan's trustee (the "Trustee").

The loans payable are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the Plan. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Accordingly, the financial statements of the Plan for the year ended December 31, 2025 present separately the assets and liabilities and changes therein pertaining to the accounts of employees in allocated common stock (allocated) and common stock not yet allocated (unallocated) to employees.

These notes will be funded through company contributions or corporate distributions to the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and discretionary employer contributions. Only those participants who are eligible employees of the Company as of the last day of the plan year and have completed 1,000 or more hours of service in the plan year will receive an allocation. For the plan year ended December 31, 2024 only, the hours requirement is 250 or more hours of service in the plan year. Allocations are based on a participant's eligible compensation relative to total eligible compensation.

Vesting

Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service in which the participants have completed 1,000 or more hours of service. Participants vest in contributions made by the Company 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

Diversification

Participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to diversify up to 25 percent of the value of their accounts, less any prior diversification distributions for a 6-year period. During the last year of the 6-year diversification period, participants are eligible to diversify up to 50 percent of the value of their accounts, less any prior diversification distributions. The Plan permits participants to diversify their accounts and offers at least three investment options for participants to choose from.

December 31, 2025 and 2024

Note 1 - Plan Description (Continued)

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment. If a participant's vested accrued benefit is equal to or less than \$5,000, the benefit shall be made in a lump-sum payment of cash. If the vested accrued benefit exceeds \$5,000, then the benefit shall be paid in installments not to exceed five years, with payments equal to 20 percent of the vested benefit or \$5,000, whichever is greater. In no event shall any amounts allocated to a participant's account be distributed until the end of the plan year in which the loans detailed in Note 6 for such financed shares are repaid in full, except to make required minimum distributions and pay death benefits, as required by Section 401(a)(9) of the Code. Due to some benefit payments being paid out over the span of five years, there are approximately \$3,994,000 worth of benefit payments that have been elected to be withdrawn but have not yet been paid as of December 31, 2025.

Under the provisions of the Plan, the Company is required to distribute a participant's benefit in cash in accordance with the plan document. Cash may be obtained from the subaccounts of the remaining participants who would receive an allocation of the Company's stock equal to the cash used to make the distribution. The Plan may also use cash obtained from the sale of the Company's stock or from the Company's contributions to the Plan.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to participants based on the participants' compensation, as defined. Allocations of forfeitures are considered additional contributions and are subject to the vesting provisions of company contributions. At December 31, 2025 and 2024, forfeited account balances totaled \$236,733 and \$55,892, respectively. During the year ended December 31, 2025, the Plan used approximately \$65,336 to reduce employer contributions.

Termination

The Company may terminate the Plan at any time, although its expectation is to continue the Plan. Upon termination of the Plan, participants become 100 percent vested in their account balances. Furthermore, all liabilities, trustee fees, and other operating expenses incurred after the termination date may, at the discretion of the Company, be paid by the Plan. Additionally, shares of financed stock held in the loan suspense account are to be sold to the extent such a sale is determined to be necessary in order to repay the loan. In the event of termination of the Plan, net assets would be distributed to the participants according to participants' account balances.

Administration

The Plan's assets, which consist principally of the Company's common shares, are held by the Trustee of the Plan.

The Company's contributions are held and managed by the Trustee, which invests cash received, interest, and corporate distribution income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is funded through contributions or S corporation distributions, as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Note 1 - Plan Description (Continued)

Voting Rights

The Trustee shall vote any common stock held in the Plan, regardless of whether such stock has been allocated to participants or remains unallocated. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account, with respect to any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions.

Company Distributions

The Company is an S corporation. Distributions from the Company on allocated shares of stock must be allocated to each participant's account based on the number of shares of stock allocated to each participant's account as of the record date. Distributions from the Company on unallocated shares of stock may be allocated to each participant's account based on a ratio of each participant's adjusted compensation in relation to the adjusted compensation of all participants as of the end of the year, or they may be used to make payments on an acquisition loan or pay plan expenses.

Related Party and Party-in-interest Transactions

The Plan invests in company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from those estimates.

Included in the accompanying statement of net assets (deficiency in net assets) is an investment in the Company's common stock reported at fair value of \$60,959,620 and \$55,830,091 as of December 31, 2025 and 2024, respectively. This asset is valued based upon a third-party appraiser's estimation of the current market value of the common stock and is supported by the Company's financial statements. Due to estimates and assumptions made in developing such appraisals, it is at least reasonably possible that the market value of the investments may be different than reported.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 14, 2026, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan uses a preapproved plan. The preapproved plan has received a favorable opinion letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 4 - Investments in Common Stock

The Plan's investments in The Original Mattress Factory, Inc. stock at December 31, 2025 and 2024 are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	480,473	262,937	464,105	279,305
Cost	\$ 71,110,004	\$ 38,914,676	\$ 68,687,540	\$ 41,337,140
Fair value	\$ 39,398,744	\$ 21,560,876	\$ 34,854,276	\$ 20,975,815

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 5 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Company Stock

The fair value of the Company's common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, and market comparables. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The unobservable inputs for the discounted cash flow method were the weighted-average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the guideline company method was revenue growth.

Money Market Fund and Mutual Funds

The money market fund and mutual funds are valued at closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurements at the reporting date.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2025 and 2024:

Note 6 - Notes Payable

During 2017, the Plan issued a note payable in the amount of \$29,170,395 due to the Company to refinance the previous notes in 2011 and 2012. The note bears interest at 2.68 percent. The note is collateralized by a security interest in the financed shares of the Plan and is due on April 15, 2027. Payments of principal and interest were scheduled to begin in annual installments of \$3,673,536 starting in 2019. Per the note agreement, the Plan can make optional prepayments to the Company, and prepayments are applied to reduce the principal in the inverse order of maturity. Annual installment payments would be reduced by any optional principal prepayments made. For the year ended December 31, 2025, optional principal prepayments on the note in the amount of \$2,567,077 were made by the Plan. As of December 31, 2025 and 2024, the remaining balance on the note was \$1,783,436 and \$4,350,513, respectively.

During 2017, the Plan issued a note payable in the amount of \$44,297,436 due to the Company in exchange for 299,307 shares of common stock in the Company. The note bears interest at 2.68 percent. Interest begins accruing on the note during 2018, and payments of interest are due annually for the years 2019 through 2027. Annual payments of principal and interest commence in 2031 in the amount of \$2,911,934. The note is collateralized by a security interest in the financed shares of the ESOP and is due on April 15, 2046. Per the note agreement, the Plan can make optional prepayments to the Company, and prepayments are applied to reduce the principal in the inverse order of maturity. No prepayments were made during 2025 by the Plan. As of December 31, 2025 and 2024, the remaining balance on the note was \$42,884,404.

As of December 31, 2025 and 2024, the balance due to the Company from the Plan for the notes payable totaled \$44,667,840 and \$47,234,917, respectively.

Minimum principal payments due, as reduced by the past and present prepayments made, on the notes are as follows:
