INDEPENDENT AUDITOR'S REPORT

Barry Isett & Associates, Inc.
Employee Stock Ownership Plan
Allentown, PA 18106

Opinion

We have audited the accompanying financial statements of Barry Isett & Associates, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Barry Isett & Associates, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Barry Isett & Associates, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Barry Isett & Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Barry Isett & Associates, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Barry Isett & Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at the End of Year is presented for purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

1. Plan Description

The following brief description of the Barry Isett & Associates, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for complete information.

Barry Isett & Associates, Inc. (the "Company") established the Barry Isett & Associates, Inc. Employee Stock Ownership Plan effective January 1, 1998. The Plan operated as a leveraged employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986 ("IRC"), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administered by an employee benefits administration committee appointed by the Company's board of directors.

The Plan purchased Company common shares using the proceeds of a bank borrowing and holds the stock in a trust established under the Plan. As the Plan made each principal payment against the borrowing, an appropriate percentage of stock was allocated to eligible employee's accounts in accordance with applicable regulations under the Code. The borrowing was fully repaid in 2003. Accordingly, all Plan shares are allocated to participants.

Eligibility

Employees who have attained 21 years of age are eligible to participate upon hire.

Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

Company contributions are determined each year at the discretion of the Company's Board of Directors, subject to certain Internal Revenue Code limits, and may be made in the form of Company stock or cash.

The Plan does not allow for employee contributions.

Payment of Benefits

Distributions on account of retirement, death or disability are made in a lump sum in the Plan year following the event. Distributions for other separations from service are made in a lump sum in the fifth Plan year following the separation from service. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

1. Plan Description (Continued)

Payment of Benefits (Continued)

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. In 2025 and 2024, the Company repurchased from participants 2,229.8221 and 3,180.0092 shares, respectively, at prices determined from the annual independent appraisals.

Voting Rights

Except as provided below, all Company stock held in the Trust shall generally be voted by the Trustee. Each participant may be entitled to direct the Trustee as to the exercise of any voting rights attributable to shares of Company stock then allocate to his/her ESOP Stock Account with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all of the assets of a trade or business, or such other transactions which may be prescribed by applicable Treasury regulations promulgated under Code section 409(e).

Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account, if any, and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% upon two years of service and 20% each additional year and are 100% vested after six years of service.

1. Plan Description (Continued)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limits, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who have attained age 55 with at least 10 years participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Segregated Accounts for Terminated Participants

As of December 31, 2025 and 2024, the Plan had segregated accounts totaling \$712,260 and \$377,765 respectively, for participants who have terminated employment. These segregated accounts are invested separately from the accounts of active participants and are not eligible for further allocation of employer contributions or forfeitures. The Plan's policy is to segregate the accounts of terminated participants in accordance with the Plan document and ERISA requirements, when the Plan has sufficient cash available. Distributions to terminated participants are made in accordance with the Plan's distribution policy, which provides for lump sum payment. The amounts in segregated accounts continue to be adjusted for investment gains and losses until fully distributed.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. As of each of December 31, 2025 and 2024, the forfeiture balance was \$0. During the years ended December 31, 2025 and 2024, forfeitures allocated to the remaining participants consisted of 854.6526 and 511.7357 shares and \$11,433.15 and \$3.09 of cash, respectively, of terminated non-vested account balance.

Plan Amendment

In October 2024, the Plan was amended to include a provision to distribute segregated participant account balances as soon as administratively possible, effective January 1, 2024.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan investment consists of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value. Fair value is determined by annual independent appraisals. See Note 3 for discussion of fair value measurements.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

Date of Management Review

Management has evaluated subsequent events through August 26, 2026, the date on which the financial statements were available to be issued, and has determined that no material subsequent events exist that require recognition or disclosure.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The three levels of fair value hierarchy under FASB ASC 820 are as follows:

Fair Value Measurements-Level 1:

Fair values of assets which are readily determinable by reference to quoted market prices and other relevant information generated by market transactions are included as Level 1 Fair Value Measurements.

Fair Value Measurements-Level 2:

Fair values determined using significant observable data due to the lack of specific quoted market values or recent transactions from which to ascertain their fair value are included in Level 2 Fair Value Measurements.

Fair Value Measurements-Level 3:

Fair values determined without the use of significant observable data, quoted market values or recent transactions from which to ascertain their fair value are included in Level 3 Fair Value Measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Investments classified within Level 3 whose fair value measurements consider several inputs may include Level 1 and/or Level 2 inputs as components of the overall fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets at fair value as of December 31, 2025 and 2024, consisting of sponsor company common stock, are categorized as Level 3.

Level 3 Fair Value Measurements

The fair value of the sponsor company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation methods consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities.

3. Fair Value Measurements (Continued)

Level 3 Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,976,160</u>	<u>\$ 5,976,160</u>

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following table sets forth a summary of certain changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2025 and 2024.

4. Tax Status

The Plan adopted a pre-approved non-standardized, non-mass submitter employee stock ownership plan which received a favorable opinion letter dated June 30, 2020. Although the Plan has been amended since receiving the determination letter, the Company believes that the Plan is designed, and is currently being operated in compliance with applicable requirements of the Internal Revenue Code, and therefore believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions generally for three years after their respective filing dates; there are currently no audits for any tax periods in progress.

5. Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee which invests cash received and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Company has historically paid the operating expenses for the Plan.

6. Investments

The Plans investments, at December 31, are presented in the following table:

	<u>2025</u>	<u>2024</u>
Company Common Shares:

7. Repurchase Obligations

Employees who leave the Company prior to retirement are entitled to receive their vested account balance five years after their termination date. Account balances of participants whose accounts have been segregated, are paid out as soon as administratively possible. The following is a schedule of future repurchase obligations, valued as of December 31, 2025:

2026	\$ 158,116
2027	-
2028	55,174
2029	305,889
2030	11,420
2031	110,720
	<u>\$ 641,320</u>

8. Related Party and Party in Interest Transactions

The Plan invests in Company common stock and may have indebtedness guaranteed by the Company. These are related party and party in interest transactions. As described in Note 2, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

9. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.
