Report of Independent Auditors

Plan Administrative Committee and Participants
Fox Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Fox Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

A member firm of Ernst & Young Global Limited

Shape the future
with confidence

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

1. PLAN DESCRIPTION

The following description of the Fox Pension Plan (the "Plan") is provided for general information only. Participants should refer to the Plan document for more complete information.

General

The Plan is a non-contributory defined benefit pension plan sponsored by Fox Corporation (the "Company" or "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan Administration

The Plan Administrative Committee is a named fiduciary with responsibility for administration of the Plan, other than with respect to the management of the Plan's assets. The Fox Investment Committee (the "Investment Committee") is a named fiduciary with responsibility for the management of the Plan's assets, appointment of trustees, and trust administration. The Plan's investments are held in the Fox Master Trust (the "Master Trust").

Eligibility

The Plan is frozen to new participants and rehires. Benefits under the Plan are frozen for all participants, except those who had incurred a disability as of December 31, 2013, and those who were age 40 or older as of their last birthday prior to or on December 31, 2013 and did not make a one-time election to freeze their benefit accruals in the Plan and instead receive an employer contribution into a defined contribution plan.

Pension Benefits

The Plan provides for monthly retirement benefits based on a formula related to the highest five-year average participant compensation and the average of wage bases for Federal Insurance Contributions Act taxes over a 35-year period through the year preceding termination and years of credited service. The highest five-year average participant compensation can consist of any of the last ten years of service of the participant. The maximum annual retirement benefit payment to any one participant in 2025 and 2024 is the lesser of $280,000 and $275,000, respectively, subject to annual cost-of-living adjustments made pursuant to Internal Revenue Service ("IRS") regulations or the participant's average annual compensation, as defined in the Plan document, for the highest three consecutive years. Participants become eligible to receive benefits at ages ranging from 55 to 65 if they have completed at least five years of vesting service. Effective December 1, 2025, the Plan was amended so that optional forms of benefit payments are calculated using either the actuarial equivalence assumptions under the prior terms of the Plan or assumptions used to calculate lump sum benefits, whichever produces a greater benefit.

Death Benefits

In certain circumstances, surviving spouses and designated beneficiaries are eligible for survivor benefits.

Vesting

Participants become fully vested in the Plan after attaining five years of service as defined in the Plan document or upon the attainment of age 65.

Employer Contributions

All contributions are made by the Company. The Company's funding policy is to contribute all amounts required under ERISA. The required minimum contributions are actuarially determined under the provisions of the Pension Protection Act of 2006. The Company may choose to contribute additional amounts to the Plan, above the required amounts, based on other relevant factors.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of the Plan's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

The Plan retains an interest in the Master Trust, which holds all the Plan's investments. The investments are stated at fair value as further disclosed in Note 3.

Purchases and sales of securities are recorded on a trade-date basis. Investment income includes interest income, dividends and other. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Master Trust's gains and losses on investments bought and sold, as well as held, during the year.

Administrative Expenses

Plan administrative expenses consist primarily of actuarial, trustee, audit, legal and Pension Benefit Guaranty Corporation ("PBGC") fees and are reported as plan administrative expenses in the Statements of Changes in Net Assets Available for Benefits. Expenses paid directly from Master Trust assets consist primarily of investment management, trustee, audit and legal fees and are reported as Master Trust expenses within the Master Trust net investment income in Note 3. Certain investment management fees are reflected through reductions in the net asset values of the related investment funds and are included in net appreciation (depreciation) in fair value of investments in the Master Trust net investment income in Note 3. Master Trust expenses are allocated to the Plan and reflected in the Plan's interest in net investment income (loss) of the Master Trust. The Company may pay certain administrative expenses on behalf of the Plan.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. The Master Trust's exposure to credit loss in the event of non-performance of investments is limited to the carrying value of such investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect the amounts reported in the accompanying financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the accompanying financial statements.

3. MASTER TRUST

The assets of the Plan are held in the Master Trust and commingled for investment purposes with the assets of the Pension Plan for Union Employees of Fox Television Stations, LLC and the Pension Plan of Locals 794 & 819, I.A.T.S.E.

The Master Trust is structured with multiple investment pools (the "pools") each representing a different category of assets. The participating plans do not have a right or title to any specific assets of the Master Trust but retain an undivided beneficial interest in one or more of the pools. JPMorgan Chase Bank, N.A. (the "Trustee") determines the value of each pool and each plan's beneficial interest in each pool, which is represented by a proportional dollar interest. Net appreciation (depreciation), investment income (loss) and Master Trust expenses are allocated to each participating plan based on each plan's proportionate dollar interest in the respective pool or the Master Trust as appropriate. Contributions, benefit payments and plan level expenses are credited or debited directly to each plan.

As of December 31, 2025 and 2024, the Plan's interest in the net assets of the Master Trust was approximately 86.8%. The following table presents the net assets available to participating plans of the Master Trust and the Plan's interest in those net assets:

Fair Value Measurements

The Plan's valuation methodologies were applied to all the Trust's investments carried at fair value. Mutual funds are valued at the quoted closing price reported on the active market in which they are traded. Common collective trusts are valued using the net asset value ("NAV"), which is determined daily, published and is the basis for current transactions with the fund's investment manager or issuer. Partnership interests are valued using the NAV as a practical expedient which is provided by the fund's investment manager or issuer.

There have been no changes in the methodologies used at December 31, 2025 or 2024.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Valuation Hierarchy

In accordance with ASC 820, Fair Value Measurement, investments are categorized based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2: Not traded on an active market, but significant observable inputs are readily available
- Level 3: Significant unobservable inputs

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are the estimated future periodic benefit payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered as of the valuation date. These benefits include those expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of deceased employees, and present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits was determined by the Plan's actuary and is the amount as of the valuation date that results from applying actuarial assumptions to the accumulated plan benefits. This figure represents the time value of money (through discounts for interest) and the probability of payment (based on actuarial assumptions including mortality, termination of employment, retirement and disability) between the valuation date and the expected date of payment.

The following table presents the actuarial present value of accumulated plan benefits of the Plan as of December 31, 2024, as determined by the Plan's actuary as reported under ASC 960, Plan Accounting – Defined Benefit Plans:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 140,552,206
Other participants	458,764,276
Total vested benefits	599,316,482
Non-vested benefits	18,139,550
Total actuarial present value of accumulated plan benefits	$ 617,456,032

The following is a rollforward of the actuarial present value of accumulated plan benefits of the Plan for the year ended December 31, 2024:

Actuarial present value of accumulated plan benefits as of December 31, 2023	$ 623,589,467
Increase (decrease) during the year attributed to:	
Benefits accumulated	31,964,942
Actuarial (gains)losses	(3,988,723)
Interest	36,513,725
Benefits paid	(41,066,220)
Change in actuarial assumptions	(29,557,159)
Net decrease	(6,133,435)
Actuarial present value of accumulated plan benefits as of December 31, 2024	$ 617,456,032

The significant actuarial assumptions as of December 31, 2024 are as follows:

- Discount Rate (Expected Rate of Return on Plan Assets): 6.25% per annum, compounded annually
- Mortality: Plan specific adjustment factor of 75% applied to the Pri-2012 mortality table with contingent survivor adjustments for existing survivors, projected generationally with scale MP-2021
- Retirement Age: The average retirement age is 65. Ranges from 55 to 70

The change in actuarial assumptions from 2023 to 2024 was primarily driven by a change in the discount rate from 5.75% to 6.25% offset by changes in lump sum conversion rates.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the plan document to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire in the three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

- Other vested benefits insured by the PBGC up to the applicable limitations

- All other vested benefits not insured by the PBGC

- All non-vested benefits

- Any surplus assets of the Plan remaining after the payment of all expenses and liabilities shall revert to the Company in the proportion determined by the Plan Administrator.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC.

6. TAX STATUS

The Plan has received a determination letter from the IRS, dated September 26, 2016, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related Master Trust is tax-exempt. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2025, there are no uncertain positions taken or expected to be taken.

The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. INFORMATION CERTIFIED BY THE TRUSTEE

Certain investment information disclosed in the accompanying financial statements, including the Plan's interest in the Master Trust as of December 31, 2025 and 2024, and the Plan's interest in the net investment income from the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

8. PARTY-IN-INTEREST TRANSACTIONS

As described in Note 2, the Plan paid certain expenses related to operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

9. RECONCILIATION OF THE FINANCIAL STATEMENTS TO THE FORM 5500

Benefits payable are amounts requested by participants prior to December 31 but paid subsequent to that date. Benefits payable are not included in net assets available for benefits in the accompanying financial statements. However, benefits payable are included as an obligation of the Plan in the net assets available for benefits of the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2025	2024
Net assets available for benefits per the financial statements	$ 802,873,423	$ 771,281,594
Benefits payable	(1,905,667)	(899,459)
Net assets available for benefits per the Form 5500	$ 800,967,756	$ 770,382,135

The following is a reconciliation of benefits paid included in the statement of changes in net assets available for benefits in the financial statements to the Form 5500 for the year ended December 31, 2025:

Benefits paid to participants per the financial statements	$ 53,606,527
Current year benefits payable	1,905,667
Prior year benefits payable	(899,459)
Benefits paid to participants per the Form 5500	$ 54,612,735

10. SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through September 3, 2026, the date the accompanying financial statements were available to be issued.

SCHEDULE SB ATTACHMENTS

Schedule SB, Part V
Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month: November
- Interest rate basis: Segment Rates from Second Month Preceding Valuation Date

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
First segment rate	5.03%	5.03%
Second segment rate	5.28%	5.28%
Third segment rate	5.50%	5.36%
Effective interest rate	5.37%	5.31%

Annual rates of increase

- Future Social Security wage bases: 3.50%
- Statutory limits on compensation: 2.50%

Expected investment return for asset smoothing

2024: 5.75%
2023: 6.15%

Salary increases

Attained Age	Salary Increase
Under 45	5.6%
45 – 49	4.8%
50 – 54	4.4%
55 – 59	4.3%
60 – 64	4.2%
65 – 69	3.9%
70 and over	0.0%

Plan-related expenses

$1,036,000 added to current year normal cost.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may

differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

- Healthy

Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination

Rates at which participants are assumed to withdraw by age are shown below.

Percentage assumed to terminate during the year	
Age	**Termination Rate**
Under 40	7.0%
40-49	5.0%
50-54	4.0%

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage assumed to retire during the year	
Age	**Retirement Rate**
Under 55	0.0%
55-59	6.0%
60-61	8.0%
62-64	13.0%
65-69	23.0%
70 and above	100%

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

- Preretirement death benefit — The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit — The later of age 65 or termination of employment
- Retirement benefit — Upon termination of employment

Form of payment

Form of Payment	Lump Sum	Single Life	50% J&S	100% J&S
Active	50%	30%	10%	10%
Future death	N/A	50%	50%	0%
Current deferred vested	N/A	50%	25%	25%

Percent married — 70% of both males and females participants

Spouse age — Female spouse assumed 2 years younger than male spouse

Timing of benefit payments — Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date — First day of plan year

Funding target — Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost — Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement timing — The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its plan administrator, has furnished participant data as of January 1, 2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2025

See Schedule SB, Part V - Statement of Actuarial Assumptions/Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

Retirement Age (1)	*Retirement Rate (2)*	*Lx (3)*	*Number of Retirement: (2)x(3) (4)*	*(1)*(4) (5)*

Summary of Plan Provisions

Plan Provisions

The plan was restated effective January 1, 2021 with amendments effective through June 25, 2023.

Prior to June 27, 2014, plan participants participated in either the 21st Century Fox America Employees' Pension Plan or the Fox Pension Plan (legacy plans). After the June 27, 2014 restructuring, active participants and any alternate payee of active participants from either the legacy plans participated in the plan. The provisions specific to Legacy 21st Century Fox America Employees' Pension Plan are per Appendix A of the plan document and provisions specific to Legacy Fox Pension Plan are in Appendix B of the plan document.

Covered employees	Any person employed by the employer who is an eligible employee.
Participation	Anyone who is eligible for a benefit under one or both of the Legacy plans, who was still accruing a benefit under such plan(s) as of June 27, 2014.

Definitions

Vesting service	**Legacy Fox Pension Plan:** Years of service means the number of days the Employee's Service with the Company, commencing as of the employee commencement date, divided by 365 and ignoring any resulting fraction. **Legacy 21st Century Fox America Employees' Pension Plan:** One (1) year of Vesting Service is earned for each Plan Year in which an employee accrues 1,000 or more Hours of Service.
Credited service	**Legacy Fox Pension Plan:** Effective January 1, 1992, a Participant's days of service while a Participant divided by 365 rounded to the nearest hundredth. **Legacy 21st Century Fox America Employees' Pension Plan:** One (1) year of Benefit Service is earned for each Plan Year during which an employee completes 1,000 or more Hours of Service with a Participating Employer or Affiliate. Partial years of Benefit Service are also granted.
Early Retirement	**Legacy Fox Pension Plan:** Age 55 and completion of 5 years of service

Benefits Paid Upon the Following Events

Normal retirement

Legacy Fox Pension Plan:

• The monthly accrued benefit is equal to 1.2% of the Final Average Compensation up to the Average Wage Base plus 1.6% of the Final Average Compensation in excess of the Average Wage Base times the credited service.

• The benefit is reduced by any other benefit accrued under any other retirement-type plan based on service also credited under this plan.

Legacy 21st Century Fox America Employees' Pension Plan:
The monthly accrued benefit equals the sum of (1) and (2) below:

(1) The accrued benefit calculated under the Plan as in effect on June 30, 1989, based on Years of Benefit Service as of such date and NAPI (prior plan) Average Monthly Compensation as of such date, but multiplied (updated) by a fraction (not less than one), the numerator of which is Average Monthly Compensation at date of determination and the denominator of which is NAPI Average Monthly Compensation as of June 30, 1989; and

(2)(a) One percent of Average Monthly Compensation multiplied by Years of Benefit Service after June 30, 1989; Plus

(b) 6/10 of one percent of Average Monthly Compensation in excess of Monthly Covered Compensation multiplied by Years of Benefit Service after June 30, 1989.

For purposes of this (A)(2)(b), Years of Benefit Service after June 30, 1989 are subject to a maximum of 35 less the number of Years of Benefit Service as of June 30, 1989.

Early retirement

Legacy Fox Pension Plan: For employees who meet the Early Retirement eligibility at the time they leave the company, the Accrued Benefit payable at normal retirement age will be reduced by 1/3% for each month that the payment commences prior to age 62.
For other vested employees, the Accrued Benefit is actuarially reduced.

Legacy 21st Century Fox America Employees' Pension Plan: Benefit accrued to date of retirement, reduced in accordance with (i) or (ii) below:

(i) After having completed at least 10 Years of Vesting Service and attained age 55, a participant may elect to receive immediately his accrued benefit reduced by 5/9 of one percent for each of the first 60 months benefit payments commence prior to the Normal Retirement Date and 5/18 of one percent for each of the next 60 months.

(ii) If he retires prior to age 65 after having attained age 55 and completed 15 Years of Vesting Service and begins to receive benefits prior to age 65, he could receive the percentage of his accrued benefit in accordance with the following chart:

Age	Percentage of Accrued Benefit
65	100%
64	95%
63	90%
62	83%
61	79%
60	75%
59	70%
58	65%
57	60%
56	55%
55	52%

SCHEDULE SB ATTACHMENTS

Late retirement	**Legacy Fox Pension Plan:** The Accrued Benefit is calculated based on compensation and service at actual retirement. **Legacy 21st Century Fox America Employees' Pension Plan:** The greater of the actuarial equivalent of normal retirement benefit and the accrued benefit at date of retirement.
Deferred vested termination	**Legacy Fox Pension Plan:** The Accrued Benefit is calculated as of termination date payable on Normal Retirement Date. **Legacy 21st Century Fox America Employees' Pension Plan:** Vested portion of the accrued benefit at date of termination payable at Normal Retirement Date. If a participant has completed at least 10 Years of Vesting Service at date of termination, he may elect to have payments of his vested benefits begin at any date subsequent to his Early Retirement Date, subject to the appropriate reductions.
Disability	**Legacy Fox Pension Plan:** The Accrued Benefit is determined by assuming that the participant had continued to receive compensation during his period of total and permanent disability at the same rate of pay he was receiving at the time of termination due to total and permanent disability. The payment of such benefit payment commences at Normal Retirement Age, however the participant may also elect to commence a reduced benefit at Early Retirement. **Legacy 21st Century Fox America Employees' Pension Plan:** The participant shall continue to accrue benefits until the earliest of his: (a) Normal Retirement Date, (b) Early Retirement Date if he elects to commence receiving his benefit on such date, and (c) Recovery from his disability. Such benefits shall be based on his compensation at the date of disability.

SCHEDULE SB ATTACHMENTS

Preretirement death

Legacy Fox Pension Plan: If the eligible participant dies prior to his Early Retirement Date, the spouse will receive a benefit equal to 50% of the joint and 50% survivor annuity the participant would have received at his/her Early Retirement Date.

If the eligible participant dies after his Early Retirement Date, the spouse will receive a benefit equal to 50% of the joint and 50% survivor annuity the participant would have received if the participant had retired on the day of their death.

The beneficiary of an unmarried vested participant who dies while an active employee of the company will receive, as a one-time lump sum, two times the annual accrued benefit that the participant would have received on his/her Normal Retirement Date had the participant terminated employment on the date of his/her death.

Legacy 21st Century Fox America Employees' Pension Plan: A monthly life annuity payable to the spouse equal to 50% of the benefit the participant would have received if:

(a) For a participant who dies after attaining Earliest Retirement Age, the participant had retired with an immediate 50% joint and survivor annuity on the day before their death, or

(b) For a participant who dies prior to attaining Earliest Retirement Age, the benefit the participant would have received if the participant had separated from service on his date of death (if not already terminated), survived to Earliest Retirement Age, and retired at that time with an immediate 50% joint and survivor annuity.

Other Plan Provisions

Forms of payment

Legacy Fox Pension Plan:
Automatic form for unmarried participants
The normal form of retirement benefit payable to a retiree is a life annuity.

Automatic form for married participants
A participant with an eligible spouse at retirement will be deemed to have elected the Joint and 50% Survivor Option Annuity unless the participant specifically elects, with written spousal consent, some other optional form of payment.

Optional forms
The optional forms of retirement benefits available are a 5-year or 10-year Guaranteed Life Annuity, a Joint and Survivor Annuity (100%, 75%, 50% continuance) and a lump sum option for actives for a limited period following termination

Optional form conversion factors
For the purpose of converting life annuity benefits to optional forms, the following factors shall apply:

Option	Factor
50% Joint & Survivor	0.92
100% Joint & Survivor	0.85
Lump Sum	Present values based on segment rates for the fourth month preceding the quarter of the date of payment and the required mortality table under 417(e)(3).

Legacy 21st Century Fox America Employees' Pension Plan:
Automatic form

(a) For a participant not married when payments begin, the automatic form of payment is a single life annuity which is a monthly payment for his life.

(b) If a participant is married when payments begin, the automatic form of payment is a qualified joint and survivor annuity (QJSA) unless he and his spouse elect otherwise. The QJSA under this Plan is a monthly benefit which is of actuarially equivalent value to the single life annuity described in (a) above, payable during this lifetime with 50% of the reduced amount payable after his death to his surviving spouse for her lifetime
