Agri-King Inc. Employee Stock Ownership Plan
Fulton, Illinois

Opinion on the 2025 Financial Statements

We have audited the accompanying financial statements of Agri-King Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of November 30, 2025, and the related statement of changes in net assets available for benefits for the year ended November 30, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Agri-King Inc. Employee Stock Ownership Plan as of November 30, 2025, and the changes in its net assets available for benefits for the year ended November 30, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2025 Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Agri-King Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Agri-King Inc. Employee Stock Ownership Plan 's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Responsibilities of Management for the 2025 Financial Statements (Continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Agri-King Inc. Employee Stock Ownership Plan ’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Agri-King Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2025 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of November 30, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2024 Financial Statements

The 2024 financial statements of the Plan were audited by predecessor auditors whose report dated September 9, 2025, expressed an unmodified opinion on those financial statements.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Agri-King Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Agri-King Inc., (the Company) established the Plan as of November 30, 1975. The Plan operates and is designed to comply with Section 4975(e)(7) and the regulations thereunder the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a non-leveraged employee stock ownership plan covering substantially all employees of Agri-King Inc., (the Company). The Plan excludes leased employees, independent contractors, nonresident aliens, as well as employees whose employment is governed by a collective bargaining agreement. Employees of the Company are eligible to participate in the Plan if at least 18 and after one year of service. To complete a year of service, an employee must be credited with at least 1,000 eligible hours within a 1-year period of service during an eligibility computation period. Participation by eligible employees is voluntary and begins retroactive to the beginning of the Plan year in which the employee first satisfies the eligibility requirement.

Participants must complete 1,000 eligible hours within a 1-year period and be employed on the last day of the Plan year to receive an employer discretionary ESOP contribution.

Contributions

The Company may contribute discretionary employer ESOP contributions, at the option of the Company's Board of Directors. Contributions may be paid to the Plan in the form of cash or stock. For the year ended November 30, 2025, the Company made a discretionary cash contribution of $550,000 to the Plan. Participant contributions are not permitted.

Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the allocation of a) the Company's discretionary contributions, b) Plan earnings, and c) forfeitures of terminated participants' nonvested accounts.

Each participant's account is credited as of the last day of each plan year with the employer contributions made for that plan year, allocation of shares of the Company's stock released by the Trustees from the unallocated account (as applicable), and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. ESOP plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting

A participant is vested through a six-year graded scale of credited service. A participant will also become 100% vested due to death, permanent or total disability or attainment of the Plan's normal retirement age of 60, termination or partial termination of the Plan affecting the participant, or complete discontinuance of employer contributions.

Participants are considered to have completed one year of service for purposes of vesting upon the completion of 1,000 hours of service at any time during 12 consecutive months.

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump sum payment or in substantially equal periodic payment not less frequently than annually over a period no longer than five years.

If a participant terminates employment before reaching normal retirement age and his or her account exceeds $1,000 but does not exceed $30,000, the account balance will be rolled over directly to an individual retirement account unless the participant timely elects otherwise. If the account balance is less than $1,000 the account balance will be distributed in a lump sum as soon as administratively feasible after the last day of the Plan year. If the account balance is more than $30,000 the distribution will be delayed until five years after the close of the Plan year in which an employee terminates. Normal retirement age is 60 for participants. Hardship withdrawals are not permitted in this Plan.

Under the provisions of the Plan, the Company is obliged to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Forfeited Accounts

Forfeitures are the amounts by which a participant's account balance exceeds the participant's vested interest occurring on the earliest date of which (1) the participant receives a distribution of their vested interest; or (2) the participant incurs a five-year consecutive break in service after termination of employment.

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the year ended November 30, 2025 and 2024 were $13,448 and $27,285, respectively.

Voting Rights

The Trustee, is required to vote all shares as directed by the Administrator. The Trustee is not permitted to vote any shares for which instructions have not been given by the Administrator. As of November 30, 2025 and 2024, there were no unallocated shares.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Put Options

Under federal income tax regulations, company common stock that is held by the Plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of the stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant could ultimately obtain cash.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Contributions Received and Receivable

Contributions from ESOP contributions from the Company are recorded in the year in which they are earned.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expense for the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

The Plan has evaluated subsequent events through September 8, 2026, the date the financial statements were available to be issued.

Reclassifications

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

NOTE 3 - ADMINISTRATION OF PLAN ASSETS

The Plan trustees hold the Company common shares. The Plan trustees have designated Clinton National Bank as the custodian of the other investments and Company common shares. Company contributions are held and managed by the trustees, administrator, and custodian, who invest cash received, interest, and dividend income and make distributions to participants.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Observable inputs such as unadjusted quoted prices in active markets.

Level 2 - Inputs, other than quoted prices in active markets, which are observable either directly or indirectly; and,

Level 3 - Unobservable inputs where there is little or no market data, which requires the reporting entity to develop its own assumptions.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at November 30, 2025 and 2024.

Interest-Bearing Cash: Amounts are reported at cost, including accrued interest, which approximates fair value.

Company Common Stock: Value is based upon an independent third-party appraisal. This appraisal was based on a combination of the market and income valuation techniques consistent with prior years. The appraiser took into consideration historical and projected cash flow, net income, return on assets, assets under management, market comparables, and fair value of the Company's assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the trustees' selection of an independent third-party appraiser. The independent third-party appraiser was selected by the Plan's management and is under a contract with a right to cancel the contract at any time. Management accumulates data for the appraiser from financial statements of the Company. The appraiser prepares a preliminary report with the trustees to review in detail, discuss and approve. The results of this process are documented in the Company Board of Director minutes.

The following tables set forth by Level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2025 and 2024:

	Investments at Fair Value as of November 30, 2025			
Description	**Level 1**	**Level 2**	**Level 3**	**Total**
Interest-Bearing Cash	**$ 119,194**	**$ –**	**$ –**	**$ 119,194**
Agri-King, Incorporated Stock (411,510 Shares, $4,559,801 Cost)	**–**	**–**	**18,806,007**	**18,806,007**
Total Investments at Fair Value	**$ 119,194**	**$ –**	**$ 18,806,007**	**$ 18,925,201**

	Investments at Fair Value as of November 30, 2024			
Description	Level 1	Level 2	Level 3	Total
Interest-Bearing Cash	$ 41,749	$ –	$ –	$ 41,749
Agri-King, Incorporated Stock (411,510 Shares, $4,559,801 Cost)	–	–	16,995,363	16,995,363
Total Investments at Fair Value	$ 41,749	$ –	$ 16,995,363	$ 17,037,112

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended November 30, 2025:

Beginning Balance	$ 16,995,363
Unrealized Gains Relating to Instruments Still Held at Reporting Date	1,810,644
Ending Balance	$ 18,806,007
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.	$ 1,810,644

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended November 30, 2025, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended November 30, 2025, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs, and the ranges of values for those inputs.

Instrument	**2025 Fair Value**	2024 Fair Value	Principal Valuation Technique	Unobservable Inputs
Agri-King			Income Approach	Discount for Lack of Marketability
Corporation Common Stock	**$ 18,806,007**	$ 16,995,363	Market Approach	Control Premium
			Asset Approach	PastSales of Stock and Appraised values

NOTE 5 - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Clinton National Bank is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Company pays directly any fees related to the Plan's operations.

The Plan's ESOP assets, which consist primarily of Company common stock, are held by the trustees of the Plan. Discretionary company contributions to the ESOP are held and managed by the trustees, which invest cash received, interest and dividend income, and makes distributions to participants.

The officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan. The Company directly pays administration for the trustees' fees.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7 - TAX STATUS

The IRS has determined and informed the Company by a letter dated August 27, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan’s investments consist primarily of the Company’s common stock, which is exposed to various risks, such as interest rates, market, and credit risks, as well as valuation assumptions based on earnings and cash flow. Due to the level of risk associated with certain investment in the common stock, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants’ account balance and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - COMPANY ADVANCES

During the Plan year ended November 30, 2025, the Company advanced $250,000 in cash to the Trust to cover the Plan's distribution obligations. The advance was an interest-free loan to the Plan. No collateral has been taken for this loan. Plan management believes that the loan complies with the requirements of the Department of Labor Prohibited Transaction Class Exemption 80-26. The advance was converted to a contribution as of November 30, 2025.
