Independent Auditors' Report

To the Plan Administrator and Trustees of
MSA Professional Services, Inc. Employee Stock Ownership Plan

Opinion on the 2025 Financial Statements

We have audited the financial statements of MSA Professional Services, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2025 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - 2024 Financial Statement

The financial statements of the Plan as of December 31, 2024, were audited by other auditors whose report dated July 30, 2025, expressed an unmodified opinion on those statements.

MSA Professional Services, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2025 and 2024

1. Description of Plan

The following description of the MSA Professional Services, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a leveraged employee stock ownership plan (ESOP) established July 1, 2002, as restated January 1, 2022. The Plan covers all employees, excluding collective bargaining, leased employee and independent contractor employees, of MSA Professional Services, Inc. (the Company) who have completed one month of service and are age 18 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan's internal Trustees, at the appointment of the Board of Directors, are responsible for oversight of the Plan and determining the appropriateness of the Plan's investment offerings, monitoring investment performance, and reporting to the Company's Board of Directors.

The Plan purchased additional Company common stock using proceeds from three loans from the Company in the amount of \$2,841,203 in 2017, \$1,974,040 in 2023, and \$946,551 in 2025 and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a period of 15, 30 and 30 years, respectively, for the Company loans by fully deductible contributions to the trust fund. As the Plan makes each payment of the principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowings are collateralized by the unallocated shares of stock and are guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets, liabilities, and changes therein pertaining to the accounts of employees with allocated common stock (allocated) and common stock not allocated to employees (unallocated). The Plan holds 100% of the outstanding common stock of the Company as of December 31, 2025 and 2024.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its 2017, 2023, and 2025 term loans (the loans). There were obligated contributions of \$363,593 in 2025 related to the loans.

The Company's Board of Directors may authorize discretionary contributions. The Company made discretionary contributions of 1,219 shares, which amounted to \$1,287,574 for the year ended December 31, 2025. Additionally, the Company made contributions of \$945,732 in cash to pay for current year distributions of \$919,473 related to segregation and \$26,259 to pay for fractional shares. The Plan does not permit participant contributions.

MSA Professional Services, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2025 and 2024

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contributions and, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20% vested after two years of credited service and continues to vest in increments of 20% until 100% vested after six years of credited service.

Voting Rights

All stock held by the Plan is voted on by the Trustee. Each participant or his/her beneficiary is entitled, in certain instances, to exercise voting rights attributable to the shares of company stock allocated to the participant's account. Participants shall be entitled to direct the voting of allocated plan shares of stock with respect to any vote required for the approval and disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or other similar transactions prescribed by regulation. The Trustee is required, however, to vote for any unallocated shares on behalf of the best interest of collective plan participants and beneficiaries.

Payment of Benefits

A participant's vested account shall not be distributed prior to termination of employment, except as specifically authorized by the Plan. The Plan permits certain in-service withdrawals and distributions of dividends to participants. A participant may elect to have all or a portion of an eligible rollover distribution paid directly to an eligible retirement plan.

The amount to be distributed is based upon the applicable account valuation preceding the distribution. Distributions may be made in cash or, if elected by the participant and subject to the provisions of the Plan, in shares of Company common stock, with cash paid for fractional shares.

For a participant who terminates employment for reasons other than death, disability, or attainment of normal retirement age, a vested account attributable to Company common stock that is valued at \$25,000 or less may be distributed between June 1 and August 31 of the Plan Year following the Plan Year in which the participant terminates employment and elects to receive a distribution. If the vested account attributable to Company common stock exceeds \$25,000, distribution may be made between June 1 and August 31 of the Plan Year following the earlier of the fifth anniversary of the participant's termination of employment or the participant's attainment of age 65, subject to receipt of the participant's distribution election.

MSA Professional Services, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2025 and 2024

A vested account balance of \$1,000 or less is subject to mandatory distribution in a single lump-sum cash payment. A vested account balance in excess of \$1,000 but not in excess of \$7,000 is subject to mandatory distribution through an automatic rollover to an individual retirement account designated by the Plan Administrator if the participant has not attained normal retirement age. If the participant has attained normal retirement age, the distribution is made in a single lump-sum cash payment. Accounts valued at \$25,000 or less that are not subject to the mandatory distribution provisions are distributed in a single lump sum. For accounts valued in excess of \$25,000, the portion attributable to Company common stock is distributed in periodic payments in accordance with the Plan's distribution policy.

For a participant whose employment terminates due to death, disability, or attainment of normal retirement age, distribution of the vested account attributable to Company common stock shall commence no later than one year after the close of the Plan Year in which termination of employment occurs. Distributions upon death are made in accordance with the beneficiary and distribution provisions of the Plan.

Forfeited Accounts

Plan forfeitures remain in the Plan and are deemed to be a company contribution. Forfeitures shall be allocated to each participant's account based on a participant's eligible compensation relative to total eligible compensation. A participant must be employed on the last day of the plan year in order to receive an allocation. Forfeitures allocated to participants during 2025 totaled \$179,160.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company common stock into investments which are more diversified. Qualified participants are those who are at least age 55 with at least 10 years of participation in the Plan. Each eligible participant may redirect 25% of the value of his or her account during the first five years. In year six, the participant may redirect 50% of the value of his or her account. Participants who elect to diversify may receive a direct cash distribution, a transfer to an eligible retirement plan or a combination of both.

The Plan also allows for permissive diversification which may occur after the six-year qualified election period as described above expires. The amount available for permissive diversification elections may not exceed in the aggregate the value of up to 50% of the shares of company stock in a participant's plan account (less shares diversified and transferred to the participants 401(k) Plan account in prior years, if any). Company stock elected to be diversified by the participant will be immediately purchased by the Company, and the resulting cash will be transferred to the Company's 401(k) Plan, another eligible retirement plan and/or directly to the participant in accordance with the participant's election.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The determination of the fair value of the Company's common stock is made by an independent consulting firm based upon an independent appraisal. The market value assigned was \$1,056.19 and \$977.47 per share of common stock as of December 31, 2025 and 2024, respectively. The total investment in the Company's common stock by the Plan represents 100% of the Company's outstanding shares of common stock at December 31, 2025 and 2024.

Net appreciation in fair value of company stock included in the accompanying Statement of Changes in Net Assets Available for Benefits includes unrealized appreciation in fair value.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Transfers

During 2025 the Plan transferred \$919,473 to the Company's 401(k) Plan which represented segregated account balances of former participants who had terminated in previous years.

Subsequent Events

Subsequent events were evaluated through September 8, 2026, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Company common stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

The Trustees determine the fair value measurement policies and procedures which are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobserved inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

Changes in Level 3 investments measured at fair value during the year ended December 31, 2025 consisted of purchases of \$2,234,125, sales and distributions of \$3,149,408, and net appreciation in fair value of \$4,928,917.

4. Investment in Common Stock

Investments, in general, are subject to various risks, including credit risk, interest rate risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the financial statements.

Investments at December 31, 2025 and 2024 consist of the following:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	49,271	14,561	49,392	15,475
Cost	\$14,801,761	\$ 3,180,494	\$12,658,604	\$ 3,345,252

5. Amounts Owed to Participants Withdrawing From the Plan

There were amounts of \$3,974,108 and \$ 3,576,254 owed to participants who have withdrawn from the Plan as of December 31, 2025 and 2024, respectively.

6. Loan Payable

On June 23, 2017, the ESOP borrowed \$2,841,203 from the Company for the acquisition of the remaining shares owned outside of the ESOP. The ESOP will make annual principal and interest payments of \$234,579, with interest at a rate of 3%. Shares are allocated from unallocated shares proportionate to the total payments on the loan. This note matures in June 2032 with the pledge to pay in full on or before December 25, 2031. This loan was originally secured by the 26,778 shares of stock held by the ESOP. The balance of the 2017 loan payable was \$1,270,761 and \$1,461,496 as of December 31, 2025 and 2024, respectively.

Notes to Financial Statements

December 31, 2025 and 2024

On December 22, 2023, the ESOP borrowed \$1,974,040 from the Company for the acquisition of 3,130 treasury shares. The ESOP will make annual principal and interest installments of \$129,013, with interest at a rate of 5.03%. Shares are allocated from unallocated shares proportionate to the total payments on the loan. This note is due December 2053. The balance of the 2023 loan payable was \$1,915,808 and \$1,946,892 as of December 31, 2025 and 2024, respectively.

On December 22, 2025, the ESOP borrowed \$946,551 from the Company for the acquisition of 968 treasury shares. The ESOP will make annual principal and interest installments of \$58,518, with interest at a rate of 4.55%. Shares are allocated from unallocated shares proportionate to the total payments on the loan. This note is due December 2055. The entire original loan amount was payable and no shares had been allocated as of December 31, 2025.

Aggregate future maturities of the loan payable for years ending after December 31, 2025 are as follows:

Years ending December 31:

2026	\$	243,445
2027		252,743
2028		261,271
2029		270,101
2030		279,246
2031 and thereafter		2,826,314
Total	\$	4,133,120

7. Related-Party and Party In Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock. These are related party and party in interest transactions. As described in Note 2, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

8. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100% vested in Company contributions.

9. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 27, 2022, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving this letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2025 and 2024, 100% of the Plan's investments are concentrated in the stock of the Company.
