Independent Auditor's Report

To the Administrative Committee and Plan Participants of the
Stewart 401(k) Savings Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Stewart 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

The supplementary information listed in the table of contents as of and for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplementary information, other than the information in the supplementary information that agrees to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplementary information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Stewart 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The Stewart 401(k) Savings Plan (the Plan) is a defined contribution plan adopted effective January 1, 1986 and sponsored by Stewart Title Guaranty Company (STG). STG is a wholly owned subsidiary of Stewart Information Services Corporation (SISCO). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by STG (the Plan Administrator) and an administrative committee of executives (the Administrative Committee) has been appointed by the Board of Directors of STG to assist with the responsibility for overseeing the operation of the Plan, including the monitoring of the investment trustee and record keeper. Effective December 1, 2023, the Plan's investment trustee and recordkeeper have been Fidelity Management Trust Company and Fidelity Investments, respectively (collectively, Fidelity).

The following description of the Plan presented below provides only general information. Participants should refer to the *Plan agreement* for a more complete description of the Plan's provisions. Amounts quoted are in U.S. dollars.

Employee Participation

The Plan is made available to eligible employees of STG and its affiliates (collectively, the Company). All eligible employees, as defined by the Plan, are eligible to participate in the Plan immediately upon hire.

Contributions

Plan participants may defer up to 75% of considered compensation into the Plan, subject to certain limitations under the Internal Revenue Code (IRC). A participant may make deferrals on a pretax basis (401(k) contributions) or after-tax basis (Roth 401(k) contributions), or a combination of both, which will be accounted for in separate accounts. Highly compensated participants may be required to reduce the amount of contributions made in order to permit the Plan to satisfy the nondiscrimination requirements of Sections 401(k) and (m) of the IRC. Participants may designate the extent to which such reductions are made from pretax or after-tax accounts, subject to certain limitations. During 2025 and 2024, there were no excess contributions that were refunded to Plan participants.

The Plan includes an automatic enrollment feature of 3% of the participant's eligible compensation unless elected otherwise. Participants who are age 50 or older before the close of the Plan year may elect to make a catch-up contribution, subject to certain limitations under the IRC.

The Company's current discretionary matching contribution is equal to fifty cents for each one dollar of considered compensation contributed up to a maximum of 6% of each participant's considered compensation (pretax and after-tax), subject to a maximum defined by the Plan. The Company may utilize available forfeitures to offset matching contributions to the Plan. Also, the frequency of its matching contribution is determined at the Company's discretion. Starting in 2017, the Company elected to fund its matching contributions after the end of each quarter. As of December 31, 2025 and 2024, employer match contributions receivable balances of \$3,345,195 and \$3,129,303, respectively, primarily represented the Company's matching contributions (net of applied forfeited non-vested balances) for the fourth quarters of 2025 and 2024, which were funded during the first quarters of 2025 and 2024, respectively. Additionally, participant contributions receivables of \$0 and \$1,537 as of December 31, 2025 and 2024, respectively, primarily represented employee contributions and loan repayments withheld from compensation during the fourth quarters of 2025 and 2024, which were remitted to the respective trustee during the first quarters of 2026 and 2025, respectively.

Stewart 401(k) Savings Plan

Notes to Financial Statements

The Plan allows for a Company discretionary contribution as determined by STG's Board of Directors. The discretionary contribution, if any, shall be calculated quarterly or annually, as elected and allocated equally to all eligible participants, in accordance with the Plan's provisions. The Company may utilize available forfeitures to offset discretionary contributions to the Plan. During 2025 and 2024, the Company made no discretionary profit-sharing contributions to Plan participants.

Employees are permitted to rollover pretax or after-tax amounts with earnings held in other qualified plans or conduit individual retirement accounts (IRAs) into the Plan, subject to the provisions in the Plan document. During 2025 and 2024, a total of \$1,792,977 and \$476,985 in participant balances were transferred into the Plan primarily as a result of the Company's business acquisitions respectively.

Participant Accounts

Each participant's account is credited with the elected deferral amount and allocations of (a) the Company's employer matching contribution, (b) the Company's discretionary contribution, if any, and (c) Plan earnings, and charged with an allocation of administrative expenses. Net investment income (loss) is allocated to each participant's accounts daily based on the proportion that each participant's account balance bears to the participant account balances in each investment fund.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of service.

Notes Receivable from Participants

A participant may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of the vested account balance, subject to the Plan's provisions. The terms of the loan include interest at a commercially reasonable rate similar to the prime interest rate, as set quarterly by the Administrative Committee. Such earnings are shown as interest on notes receivable from Plan participants in the statement of changes in net assets available for benefits.

Payment of Benefits

Participants in the Plan are eligible to receive payment of the total vested account balance upon normal retirement at age 65, death, disability or other termination of employment. Participants who have attained age 59 1/2 may elect to withdraw all or a portion of their vested accounts while they are still employed by the Company in the form of an in-service distribution. The Plan also provides for a hardship withdrawal of all or any portion of a participant's vested accounts, subject to the provisions of the Plan.

Distributions may be paid in a lump sum or in installments, subject to the provisions of the Plan, including taxation. Participants with account balances greater than \$5,000 may defer receipt of their distributions until they are required by law to receive minimum required distributions. If the participants' vested account balance is \$5,000 or less, payment must be made in a lump-sum distribution. Direct rollovers from the Plan to an IRA or other qualified plan are permitted for pretax and after-tax accounts, subject to certain limitations.

Forfeited Accounts

As of December 31, 2025 and 2024, total forfeited non-vested accounts were \$171,413 and \$280,115, respectively. These accounts may be used to pay Plan administrative expenses or may be used to offset future Company matching or discretionary contributions as determined allowable under the provisions of the Plan. During 2025 and 2024, forfeitures used to reduce employer contributions and plan administrative expenses totaled \$541,893 and \$660,060, respectively.

Stewart 401(k) Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Benefits are recorded when paid to participants.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are reported at fair value, with the exception of the stable value fund which is reported at contract value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4 for discussion of fair value measurements). Contract value reflects the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan and is the relevant measure for the portion of assets attributable to fully benefit-responsive investment contracts such as the stable value fund.

Purchases and sales of securities are recorded on a trade-date basis. In the statement of changes in net assets available for benefits, interest income is recorded as earned on the accrual basis and dividend and capital gain income is recorded on the ex-dividend date. Realized gains on investments sold during the year and unrealized appreciation of investments held at year end are combined and presented as net appreciation of investments. Certain other investment income is recorded and shown offset by related investment expenses.

Contributions

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments, such loans are considered delinquent loans, or delinquent participant notes receivable, as specified in the Plan. Delinquent participant notes receivables are reclassified as distributions based upon the terms of the plan document and presented as part of benefits paid to participants on the statement of changes in net assets. During 2025, an immaterial amount in delinquent loan balances were reclassified as distributions, which reduced the balance of notes receivable from plan participants at December 31, 2025. During 2024, a total of \$558,181 in delinquent loan balances were reclassified as distributions, which reduced the balance of notes receivable from plan participants at December 31, 2024.

Payment of Benefits

Benefits are recorded when paid.

Stewart 401(k) Savings Plan

Notes to Financial Statements

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through September 10, 2026, the date the financial statements were available to be issued.

Note 3. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplementary information, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity, the trustee of the Plan.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Stewart 401(k) Savings Plan

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price reported on the active markets on which the funds are traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV, as reported by the fund, and to transact at that price.

Collective trust funds: As a practical expedient to measure fair value, valued at the NAV per unit as determined by the fund's trustee based on the fair value of the underlying investments held by the fund less its liabilities. However, collective trust funds measured at NAV are not required to be classified in the fair value hierarchy table.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	2025	2024
Level 1:		
Mutual funds	\$ 364,138,424	\$ 331,857,320
Investments measured at net asset value:		
Collective trust funds	325,996,739	269,539,286
Investments at fair value	<u>\$ 690,135,163</u>	<u>\$ 601,396,606</u>

Fair Value of Investments that Calculate NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2025 and 2024, respectively:

	2025	2024
Collective trust funds		
Fair value	\$ 325,996,739	\$ 269,539,286
Unfunded commitment	None	None
Redemption frequency	Immediate	Immediate
Other redemption restrictions	None	None
Redemption notice period	None	None

Note 5. Stable Value Fund

During 2025 and 2024, the Plan held an interest in the New York Life Anchor Account (SVF), a stable value fund that is a pooled account with New York Life Insurance Company (New York Life), made available to participating plans through a group annuity contract. Contributions to the SVF are directed to a New York Life pooled separate account that invests primarily in a diversified portfolio of high-quality, fixed income securities, which are owned by New York Life. The SVF is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer, New York Life, is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Stewart 401(k) Savings Plan

Notes to Financial Statements

The SVF is a fully benefit-responsive investment contract and is reported at contract value in the statements of net assets available for benefits. The statement of changes in net assets available for benefits is also prepared on a contract value basis. Benefit responsiveness is defined as the extent to which a contract's terms and the Plan permit or require participant-initiated withdrawals at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by New York Life, represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuer of the SVF. However, the Plan Administrator is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants.

The crediting interest rate for the SVF is reset daily by the issuer but cannot be less than zero. The crediting interest rate is based upon a formula and is a function of timing of the cash flow activity, overall interest rates, the reinvestment of maturing proceeds and the impact of credit losses and impairments.

Note 6. Related Party Transactions and Party in Interest Transactions

Certain Plan investments are managed by Fidelity. Fidelity is the trustee and record keeper for the Plan and, therefore, these transactions qualify as party in interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

Note 7. Plan Termination

The Plan Administrator has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Plan Administrator has expressed no intent to terminate the Plan. In the event of Plan termination, the net assets would be allocated among the participants and beneficiaries of the Plan in accordance with the provisions of the Plan.

Note 8. Tax Status

The Company has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the form of the pre-approved plan document was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Plan.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
