INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
OwnersEdge Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of OwnersEdge Employee Stock Ownership Plan ("the plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the plan's ability to continue as a going concern for one year after the date that the financial statements were available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings and certain internal control related matters that we identified during the audits.

ERISA-Required Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2025 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including the form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

OwnersEdge Employee Stock Ownership Plan

Notes to Financial Statements
December 31, 2025 and 2024

1. NATURE OF PLAN

OwnersEdge, Inc. ("OE" or "the company") established OwnersEdge Employee Stock Ownership Plan ("the ESOP" or "the plan") effective January 1, 1995 as a defined contribution plan that is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments. The plan owns 100% of the outstanding shares of the company's common stock.

The company is obligated to fund the plan's annual benefit payments due to participants ("repurchase obligations"). At the discretion of the company's board of directors, the repurchase obligations can be funded via (a) the company repurchasing these shares directly from the participants ("stock redemption"); (b) the company funding the ESOP to allow the ESOP to repurchase these shares directly by making contributions to the ESOP ("re-cycling"); or (c) the company repurchasing these shares directly from the participants and re-issuing the repurchased shares back to the ESOP in exchange for a note payable due to the Company (see Note 8) ("stock redeem and re-leveraging"). In a stock redemption event, the shares are retained by the company after processing the benefit payments and held in treasury. In a re-cycling event, the shares are retained by the plan after processing the benefit payments and are reallocated among the remaining plan participants on an annual basis based on the annual ratio of participant eligible compensation paid in the plan year to total plan eligible compensation paid in the plan year. In a stock redeem and re-leveraging event, the shares are re-issued to the ESOP after processing the benefit payments and are considered unallocated, held as collateral for the related outstanding note payable. The company elected to fund the 2025 repurchase obligations via a combination of re-cycling and stock redeem and re-leveraging events.

The financial statements of the plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated assets and liabilities ("allocated") and (b) assets and liabilities not yet allocated to employees ("unallocated"). The unallocated shares are held as collateral for the notes payable due to the company.

The company is obligated to make contributions to the plan at least equal to the amount necessary to enable the plan to make its scheduled annual debt obligation payments to the company. As the plan makes debt obligation payments, a pro rata portion of the shares of the company's common stock purchased with the proceeds of the notes payable are allocated to participant investment accounts based on the ratio of participant eligible compensation paid in the plan year to total plan eligible compensation paid in the plan year. Proceeds received in 2026 from the unallocated contributions receivable recorded as of December 31, 2025 were used to make an additional discretionary principal and interest payment in 2026, which comprised of \$353,712 of principal and \$2,288 of interest. Proceeds received in 2025 from the unallocated receivable recorded as of December 31, 2024 were used to make additional discretionary principal and interest payments in 2025, which comprised of \$447,115 of principal and \$4,477 of interest.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The plan follows the accrual method of accounting wherein additions and deductions are reflected in the period earned or incurred.

Key parties of the plan - The company is the employer, plan sponsor and plan administrator. Principal Financial Group is the third party administrator that maintains plan documents and participant records and tax counsel that performs various compliance tests. First Business Bank ("FBB") holds custody of the plan's interest-bearing cash and certificates of deposit. Professional Fiduciary Services LLC serves as the plan trustee.

OE is a management and holding company for its wholly owned subsidiaries; Asche & Spencer, LLC, BAYCOM, Inc., Communications, Cabling and Networking, Inc., Communications Direct, Inc., Implecho, LLC and QComp Technologies, Inc. These subsidiaries are participating employers. Effective July 1, 2026, EmbedTek, LLC became a participating employer of the plan.

Accounting estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates. The most sensitive estimate is the plan's estimate of the fair value of the company's common stock, the plan's primary investment, as described under the fair value measurements section.

OwnersEdge Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2025 and 2024

Subsequent events - The financial statements include management's evaluation of the events and transactions occurring subsequent to December 31, 2025 through August 22, 2026, which is the date the financial statements were available to be issued.

Risks and uncertainties - Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with the plan's investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participant investment account balances and the amounts reported in the statements of net assets available for benefits.

Investments - The plan's investments are nonparticipant directed and recorded at fair value. Separate investment accounts are maintained for each participant. Annual net appreciation (depreciation) in fair value of investments held is reflected in the statement of changes in net assets available for benefits. A participant who is no longer employed by the company has no right to keep their account invested in the company's common stock. In the event that the plan has excess cash, any participant who was terminated in that year may be segregated and have their common stock transferred out of their account in exchange for cash, based on the most recent share price. The common stock transferred out of their accounts is then allocated to eligible participants.

Fair value measurements - GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Valuation is based upon quoted prices in active markets for identical investments.
- Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).
- Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following are descriptions of the investments and valuation methodologies used to measure fair value.

OE common stock - Valued by an independent appraisal, using methods consistent with prior years, based upon a combination of the market, income, asset and market valuation techniques. The appraiser took into account the company's financial information and also performed an industry and economic analysis (significant unobservable inputs). The independent appraisal determined a per share fair value of \$913.00 and \$805.00 as of December 31, 2025 and 2024.

Interest-bearing cash and certificates of deposit - The plan maintains its interest-bearing cash deposits and certificates of deposit at FBB, a Federal Deposit Insurance Corporation ("FDIC") insured bank. The FDIC provides limited insurance on such deposit accounts. As employee benefit plan accounts, the deposits are insured up to the FDIC insurance limit for each participant's account balance rather than the aggregate account balance. Certain participant accounts may exceed this limit; however, the plan does not expect to experience any losses on such deposits. Interest-bearing cash and certificates of deposit are stated at cost plus accrued interest, which approximates fair value.

3. PLAN DESCRIPTION

The following brief description of the plan is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

Eligibility - The plan covers substantially all employees of the company. Employees are eligible once they have completed one year of service with 1,000 hours of service and have reached age 18. Individuals enter the plan on the January 1 or July 1 immediately following completing the eligibility requirements. To receive an allocation of contributions, a participant must work 1,000 hours of service during the plan year and be employed on the last day of the year to which the contribution relates. Such requirements are waived upon death, disability or attainment of normal retirement age while still employed. Normal retirement age is defined as a participant that attains age 65.

Vesting - Participants become 20% vested in their account balances after two years of vesting service and then vest an additional 20% for each additional vesting year of service. A year of vesting service is defined as a year for which an employee completes 1,000 hours of service. Upon death, disability, attainment of normal retirement age while still employed, a participant becomes 100% vested.

Put option - The company's common stock is not readily tradable on an established market and includes a put option. The put option provides each participant the right to require the company or the ESOP to repurchase the common stock at the fair value as determined by independent appraisals. The purpose of the put option is to ensure that participants ultimately receive benefit payments in the form of cash.

Diversification - Participants who have been employed for ten years and have attained age 55 enter a qualified election period in which an employee may diversify their accounts. The qualified election period is a six year period beginning when the noted requirements are met. Participants may diversify up to 25% of their account out of OE common stock during the first five years and up to 50% of their account in the sixth year. The diversification payments are made in accordance with the benefit payment methods available to participants who have terminated employment.

Payment of benefits - Benefits are recorded when paid. Benefit payments may commence upon termination of employment, death or disability. Subject to certain requirements as described in the plan document, and at the discretion of the company's board of directors, benefits will be paid in the form of a lump-sum distribution or in substantially equal annual installments over a period of time as further described in the plan documents.

Notes to Financial Statements

December 31, 2025 and 2024

Forfeitures - Any forfeitures of nonvested account balances are allocated on an annual basis as additional employer contributions for the year based on the ratio of individual eligible compensation paid during the plan year to total eligible compensation paid during the plan year. Forfeited nonvested accounts allocated to participants were \$121,000 in 2025.

Administrative expenses - Generally all administrative expenses incurred to maintain the plan are paid by the company and excluded from these financial statements.

Voting rights - Generally, the plan trustee will vote the shares of the company's common stock held by the plan, including shares allocated to participant accounts. Participants have the right to vote the shares of the company's common stock allocated to their account in situations requiring a vote of the company's stockholders with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of the trade or business or similarly significant corporate transactions, as determined by the company's board of directors. With respect to unallocated shares, or allocated shares for which the plan trustee does not receive direction from the participants, the plan trustee shall, in its sole discretion, vote the shares relating to the approval or disapproval of the aforementioned corporate matters.

4. TAX STATUS

The Internal Revenue Service has determined and informed the plan sponsor by a letter dated September 30, 2016, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The plan administrator and the plan's tax counsel believe that the plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the plan is qualified, and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize tax liabilities (or assets) for any uncertain tax positions taken by the plan that more likely than not would not be sustained upon examination by the applicable authorities. Plan management analyzed the requirements for accounting for such uncertain tax positions taken and determined the plan was not required to recognize any tax liabilities (or assets) related to uncertain tax positions taken as of December 31, 2025 and 2024.

The plan is subject to routine audits by taxing jurisdictions and the Department of Labor. The plan administrator received notification from the Internal Revenue Service in March 2026 that the 2023 Form 5500 was scheduled for examination. The examination was completed during 2026 with no findings, and the plan's tax-qualified status was not affected. There are currently no other audits in progress.

5. TERMINATION OF PLAN

The company reserves the right to terminate the plan at any time, subject to plan provisions. Upon termination of the plan, participants would become 100% vested in their account balances and the plan sponsor would direct the plan to pay any liabilities and expenses of the ESOP and to sell the shares of the company's common stock that are held as collateral to the extent it determines such sale to be necessary in order to repay the related outstanding loans. Subsequently, the interest of each participant in the plan would be distributed to such participant at a time as prescribed by the plan terms and the IRC.

6. PARTY-IN-INTEREST TRANSACTIONS

The plan holds shares of the company's common stock as its primary investment. The company is also the plan sponsor. As such, transactions between the plan and the company qualify as party-in-interest transactions. Interest expense recorded by the plan due to the company (see Note 8) was \$361,126 in 2025.

The plan's interest-bearing cash and certificates of deposit are managed by FBB. FBB also holds custody of and executes transactions in these investments. As such, transactions between the plan and FBB qualify as party-in-interest transactions. In addition, the plan has a number of other service providers. Any transactions between these other service providers, the company and the plan qualify as party-in-interest transactions.

All such party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
