INDEPENDENT AUDITOR'S REPORT

The Benefits Committee
Georgia Farm Bureau Companies
Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the **Georgia Farm Bureau Companies Employee Savings Plan**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Georgia Farm Bureau Companies Employee Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Georgia Farm Bureau Companies Employee Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Georgia Farm Bureau Companies Employee Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Georgia Farm Bureau Companies Employee Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Georgia Farm Bureau Companies Employee Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**GEORGIA FARM BUREAU COMPANIES
EMPLOYEE SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

(1) Description of Plan

The following description of the Georgia Farm Bureau Companies Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for the exclusive benefit of eligible employees and their beneficiaries. Employees become eligible after attainment of age 18 and completion of three months of service. All accounts are participant-directed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Benefits Committee is responsible for oversight of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings, monitors the investment performance, and reports to the Plan's Board of Directors.

Contributions

Under the provisions of the Plan, each participant may contribute up to 100 percent of the qualified participant's eligible compensation. Participant contributions may be traditional 401(k) deferrals (pre-tax) or Roth 401(k) deferrals (after-tax). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6 percent of eligible compensation if they do not elect an alternative deferral amount, and this percentage will be automatically increased each April 1st by one percent up to a maximum of 10 percent. Georgia Farm Bureau, Inc.'s (the Company) contribution is a safe harbor match of 100 percent up to 6 percent of eligible compensation. The Company may also make discretionary contributions each plan year. An employee is eligible for the discretionary contribution if they were an active participant on the last day of the Plan year. The amount allocated shall be based on a compensation formula. For the Plan year ended December 31, 2025, the Company made a discretionary contribution of \$150,903. Contributions are subject to certain limitations.

(1) Description of Plan (Continued)

Participant Accounts

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contribution, the Company's contributions, and qualified rollover contributions, and adjusted for gains and losses based on the investment performance of a participant's account, and less any withdrawals and distributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The participant is entitled to a benefit equal to their vested account balance.

Vesting

Participants are immediately vested in all contributions plus earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Only one loan may be outstanding at a time. The loans are secured by the balance in the participant's account and bear fixed interest rates commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money. Interest rates ranged from 4.25 percent to 9.50 percent as of December 31, 2025. Principal and interest payments are made through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or their beneficiary may elect to receive a single-sum amount equal to the value of the participant's vested interest in their account as of the valuation date. On termination of service due to other reasons, a participant may elect to have all or any part of their vested account distributed at any time. If a participant's vested interest in their account does not exceed \$5,000, a distribution shall be made in a single-sum payment or through direct rollover as soon as administratively possible following the termination of service date.

Hardship Withdrawals

In the event funds are needed because of extreme financial hardship, as defined by law, the participant may be allowed to make a withdrawal of their vested account balance from eligible accounts, as defined by the Plan. In accordance with the Internal Revenue Code (the Code), benefits withdrawn prior to age 59½ may be subject to additional taxes.

Investment Options and Investments

Participants direct the investment of all contributions into various investment options offered by the Plan. Participants may change their investment options at any time. Employees who do not make an investment selection from the available options are automatically enrolled in a collective investment trust option.

(2) Summary of Significant Accounting Policies

The accounting policies of the Plan are maintained in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the *Accounting Standards Codification (ASC)* and related Accounting Standards Updates (ASUs). The following describes the more significant of those policies:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustees, and recordkeeper. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Participant contributions and employer matching contributions are recorded in the period in which the related employee compensation is earned. Discretionary employer contributions are recorded in the period authorized and funded in accordance with the provisions of the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

(2) Summary of Significant Accounting Policies (Continued)

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions when applicable. The Plan distributes excess contributions to the applicable participants prior to March 15 of the subsequent year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to participants' benefit payments and administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

(3) Information Prepared and Certified by the Trustee (Unaudited)

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments and notes receivable from participants held as of December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Trust Company, a qualified institution.

(4) Group Annuity Contract with Principal Life Insurance Company

The Plan's investments include a traditional fully benefit-responsive investment contract with Principal Life Insurance Company (Principal Life). Principal Life maintains the contributions in a general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Life is contractually obligated to repay the principal and the specified interest rate guaranteed to the Plan. The crediting rate is a composite weighted average of underlying guarantees provided in the contract. Each underlying guarantee is in effect for its full maturity. The maturity of each guarantee varies from 2 to 10 years at the establishment of the guarantee. The composite rate is reset semiannually based on the changing weighted average of the underlying guarantees and applies prospectively. The composite rate is subject to an indexed minimum guaranteed rate that is determined through a formula according to state insurance regulations. The minimum rate will range between one percent and three percent depending on prevailing market conditions.

The composite crediting interest rate history for the contract is as follows:

Time Period	Rate
December 1, 2023 - May 31, 2024	1.55%
June 1, 2024 - November 30, 2024	1.55%
December 1, 2024 – May 31, 2025	1.55%

There were no Plan-level recordkeeping expenses deducted from the above rates.

(4) Group Annuity Contract with Principal Life Insurance Company (Continued)

The contract provides for benefit payments at book value (i.e., no market value adjustments or surrender charge adjustments) for withdrawals due to retirement, termination of employment, disability, loans, plan termination, or death, including participant-directed transfers. Participant transfers, either directly or indirectly, to competing Plan investment options will generally be subjected to an equity wash. An equity wash generally requires that transfers must be directed to a noncompeting investment option under the Plan for 90 days before such transferred amounts may be directed to any competing Plan investment option available under the Plan. Competing Plan investment options include other guaranteed investment options or fixed income, money market, or bond funds that had an average duration of three years or less.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the Plan. Contract value as reported to the Plan by the trustees represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The contract value as of December 31, 2024, approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer. Based on ongoing credit evaluations of the investments, the Company does not expect payment defaults or delinquencies and has not recorded an allowance for credit losses for the investment as of December 31, 2024. There are no unfunded commitments associated with the contract.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

In March 2024, the Benefits Committee approved the addition of a Principal Money Market Fund and the freezing of the Group Annuity Contract. The Benefits Committee elected the one-year notification to terminate participation in the investment. The one-year notification and addition of the Principal Money Market Fund allows the Plan to avoid any surrender charges and enforcement of the stampede clause. The liquidation of the Group Annuity Account occurred in April 2025.

(5) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Pooled Separate Accounts: Fair value is measured daily and quoted to current investors based on the net asset value (NAV) of the underlying assets. The NAV is the basis for current transactions, and the investments can be redeemed at NAV as of the measurement date. Therefore, investments have a readily determinable value. Underlying assets may include, but are not limited to, stocks, bonds, mortgages, real estate, mutual funds, and cash or cash equivalents.

Collective Investment Trusts: Fair value is measured daily and quoted to current investors based on the NAV of the underlying assets. The NAV is the basis for current transactions, and the investments can be redeemed at NAV as of the measurement date. Therefore, investments have a readily determinable value. Underlying assets may include, but are not limited to, a variety of mutual funds and separate accounts.

Mutual Funds: Valued at the daily closing price as reported by the funds. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

(6) Income Tax Status

The Company adopted the Principal Life Insurance Company (the prototype sponsor) Non-Standardized Pre-Approved Profit Sharing Plan with CODA. The prototype sponsor has received a favorable opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, which states that its prototype plan, in form, meets the requirements of Section 401(a) of the Code and, therefore, is tax-exempt under the provisions of Section 401(a). The plan document has been amended since receiving the determination letter and the Plan has not received a determination letter specific to the Plan itself; however, the Benefits Committee believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. The Benefits Committee also maintains that the Plan has been administered in accordance with all applicable laws and, accordingly, no provision has been made for income taxes in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by Principal, a trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee, the recordkeeper, and the investment advisor for administrative services, including participant fees and withdrawal charges, totaled \$185,988 during the year ended December 31, 2025.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

(8) Plan Termination

Although it has not expressed an intent to do so, Georgia Farm Bureau, Inc. has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would continue to be 100 percent vested in their account balances.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market volatility, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(10) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2025 and 2024 to Form 5500:
