Independent Auditor's Report

To the Plan Administrator
Ohio CAT Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Ohio CAT Employees' Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of November 30, 2025 and 2024 and the related statement of changes in net assets available for benefits for the year ended November 30, 2025 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of November 30, 2025 and 2024 and for the year ended November 30, 2025 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the plan sponsor of Ohio CAT Employees' Retirement Plan purchased an annuity contract for participants receiving benefit payments to relieve the Plan of the liability as of September 1, 2025. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

To the Plan Administrator
Ohio CAT Employees' Retirement Plan

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of November 30, 2025 and reportable transactions for the year ended November 30, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Ohio CAT Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement and related union agreements, if applicable, for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all employees of Ohio Machinery Company d/b/a Ohio CAT (the "Company") who are part of the Company's eastern region and who are members of the International Union of Operating Engineers (the "Union"). Eligible employees become participants on their date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2025, the Plan purchased an annuity contract from Minnesota Life Insurance Company (MLIC). Under the agreement, MLIC assumed the obligation to pay future pension benefits, starting on September 1, 2025, for participants who have retired and who are currently receiving their established benefit payments. The purchase price of the annuity contract was approximately \$19,876,000 and is reported in the accompanying statement of changes in net assets available for benefits for the year ended November 30, 2025.

No continued obligation will be recorded related to these participants within the accumulated plan benefits for the actuarial information as of and for the plan year ended November 30, 2025. The related reduction in accumulated plan benefits of approximately \$19,876,000 is reflected in the statement of changes in net assets available for benefits for the year ended November 30, 2025, included within Note 4 to the financial statements.

Pension Benefits

Employees with 5 or more years of service are entitled to annual pension benefits equal to the accrued benefit, which is years of credited service times the benefit rate, beginning at normal retirement age (65), with 60 monthly payments guaranteed. The Plan permits early retirement after age 60, as defined, with 10 years of service. If employees terminate before rendering 5 years of service, they forfeit the right to receive their accumulated plan benefits. Upon retirement or termination, employees may elect to receive their entire benefit as a joint and survivor annuity or life annuity. Employees who have retired may elect to receive the present value of their plan benefits accrued through November 30, 1996 as a lump-sum distribution, with the remainder paid out as an annuity payable monthly from retirement. Employees whose accrued benefits are \$5,000 or less at the time of termination will receive involuntary distributions. In the event employees receiving involuntary distributions between \$1,000 to \$5,000 do not elect rollovers to other qualified plans or lump-sum distributions, the amounts will be distributed in the form of direct rollovers to individual retirement accounts, as designated by the plan administrator.

Death and Disability Benefits

If an active employee dies before receiving benefits, the employee's spouse will receive the qualified joint and survivor annuity of the employee's accrued benefit. If an employee dies after beginning to receive payments, the balance of the employee's vested benefit will be paid to the employee's beneficiaries, at least as rapidly as it was being paid to the employee.

Active employees who become totally and permanently disabled become 100 percent vested and receive the actuarial equivalent of their accrued benefits. In the event of terminated participants' total and permanent disability subsequent to their termination of employment, they shall receive the benefits as though they had retired.

November 30, 2025 and 2024

Note 1 - Plan Description (Continued)

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. There was no minimum required contribution under ERISA funding guidelines for the year ended November 30, 2025.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by U.S. Bank National Association or its affiliates. U.S. Bank National Association is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Actuarial Assumptions

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' years of service times the effective rate. The accumulated plan benefits for active employees are based on their years of service preceding the valuation date. Benefits paid under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at November 30, 2025 and 2024 are summarized as follows:

Actuarial cost method	Pure unit credit
Assumed rate of return	6.75 percent per annum
Mortality basis	Pri-2012 Blue Collar Mortality Table projected with Scale MP-2021

November 30, 2025 and 2024

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 10, 2026, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

U.S. Bank National Association (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information certified by the Trustee.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, as of November 30, 2025 and 2024, the most recent actuarial valuations, are as follows:

	2025	2024
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefit payments	\$ 8,499,761	\$ 19,057,566
Other participants	2,795,634	10,433,981
Total vested benefits	11,295,395	29,491,547
Nonvested benefits	392,471	375,479
Total actuarial present value of accumulated plan benefits	\$ 11,687,866	\$ 29,867,026

November 30, 2025 and 2024

Note 4 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended November 30, 2025 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 29,867,026
Increase (decrease) during the year attributable to:	
Benefits accumulated	2,005,553
Interest due to the decrease in the discount period	1,302,667
Benefits paid	(1,611,229)
Annuity purchase (Note 1)	<u>(19,876,151)</u>
Net decrease	<u>(18,179,160)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 11,687,866</u>

Note 5 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

November 30, 2025 and 2024

Note 7 - Fair Value Measurements (Continued)

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at November 30, 2025 and 2024:

		Assets Measured at Fair Value on a Recurring Basis at November 30, 2025	
		Investments (at Fair Value)	Level 1

Mortality

Funding:

Healthy: Mortality as provided in Notice 2023-73 male and female, with different rate for annuitants and nonannuitants (as prescribed by IRC 430).

Disabled: PBGC Tables 5B and 6B Disableds Receiving Social Security in 2006 and later as adopted by the Plan Sponsor.

Rationale: As selected by the Plan Sponsor to reflect the most recent mortality assumption published by the Society of Actuaries.

Rates of Retirement

Based on age as follows:

<u>Age</u>	<u>Rates</u>
60-61	3.0%
62-63	10.0
64	30.0
65-66	50.0
67+	100.0

Weighted Average Retirement Age is 65. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Rationale: As selected by the Plan Sponsor based on advice from the plan actuary as a result of the experience study conducted in 2022.

Rates of Turnover

Based on employee's age and length of service as follows:

<u>Age</u>	<u><3 Years</u>	<u>4 Years</u>	<u>5+ Years</u>
20-24	20.00%	14.00%	14.00%
25-29	20.00	14.00	12.00

Rates of Disability

Select rates based on age and sex with sample rates as follows:

<u>Age</u>	<u>Male</u>	<u>Female</u>
25	0.11%	0.16%
40	0.17	0.25
55	0.55	0.83

Assumptions Made In Valuing Spouse's Benefit

Eighty-five percent of the employees included in the valuation are assumed to be married. These percentages are used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.

Optional Form Selection

40% of active and terminated participants are assumed to take their November 30, 1996 benefit as a lump sum distribution when they retire. The remaining 60% will take this portion of their benefit in the normal form.

All active and terminated participants will take their benefits earned after November 30, 1996 in the normal form.

Provision for Expenses

The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual expenses during the prior year, were included in the Target Normal Cost for minimum contribution purposes.

Standing Elections

The client has not signed an election that provides for the automatic use of the Carryover Balance and/or Prefunding Balance if necessary to meet the minimum funding requirement.

Asset Method

Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date.

Funding Method

Pure Unit Credit

The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.

Appendix B (Continued)

Employees Valued

Only participants as of the valuation date were valued.

Changes in Assumptions and Methods since the Last Actuarial Valuation

The interest rates used for determining the funding target were 4.75%, 5.00% and 5.74%. These rates were updated to the rates required for the current plan year.

The mortality table for the funding target was changed as required under PPA '06.

Justification for Changes in Actuarial Assumptions

The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."

Schedule SB, Line 22 – Description of Weighted Average Retirement Age
Ohio CAT Employees' Retirement Plan
December 1, 2024 Valuation
EIN/PN: 34-0672363 / 002

Rates of Retirement

Based on age as follows:

Age	Rates
60-61	3.0%
62-63	10.0
64	30.0
65-66	50.0
67+	100.0

Weighted Average Retirement Age is 65. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Rationale: As selected by the Plan Sponsor based on advice from the plan actuary as a result of the experience study conducted in 2022.

Appendix A

Summary of Principal Plan Provisions

Plan Sponsor	Ohio Machinery Co.
EIN/PN	34-0672363/002
Effective Date	March 1, 1955; amended and restated effective December 1, 2019. Last amended effective December 1, 2024.
Plan Year	The 12-month period beginning each December 1.
Participation	Employees of the Eastern Region whose employment is governed by the terms of a collective bargaining agreement between the Company and the International Union of Operating Engineers, Local No. 18C. Employees become participants on their date of employment.
Vesting Service	One year is earned for each plan year with at least 1,000 hours of service.
Credited Service	One year is earned for each plan year with at least 1,700 hours of service. Partial service is granted in months by dividing the number of hours worked by 142 and rounding to the whole month.
Accrued Benefit	A monthly life annuity with 60 months guaranteed equal to credited service multiplied by the appropriate benefit unit:

<u>Earned Service Dates</u>	<u>Service</u>	<u>Parts</u>	<u>Bolivar</u>
Pre 12/01/2012	\$ 57.24	\$ 42.10	\$ 42.10
12/01/2012 to 11/30/2015	59.00	44.00	44.00
12/01/2015 to 11/30/2018	59.40	44.40	44.40
12/01/2018 to 11/30/2021	62.00	47.00	47.00
12/01/2021 to 12/01/2024	63.00	48.00	48.00
12/01/2024 and after	64.00	49.00	49.00

Normal Retirement Benefit	<u>Eligibility:</u> Age 65 or, if later, the fifth anniversary of joining the Plan. <u>Monthly Benefit:</u> The Accrued Benefit.
---------------------------	---

Appendix A (Continued)

Late Retirement

Eligibility:

After age 65 and five years of participation.

Monthly Benefit:

The Accrued Benefit calculated using the credited service accrued through the actual retirement date and the benefit unit in effect at termination.

Early Retirement

Eligibility:

Age 60 and 10 years of Vesting Service

Monthly Benefit:

The Accrued Benefit reduced actuarially for commencement prior to normal retirement date.

Disability Retirement

Eligibility:

Permanent and total disability.

Monthly Benefit:

The Accrued Benefit at the time of disability is payable immediately and reduced actuarially for commencement prior to the participant's normal retirement date

Termination Benefit

Eligibility:

Termination after five years of Vesting Service.

Monthly Benefit:

The Accrued Benefit commencing at age 65. If the participant has at least 10 years of Vesting Service, they can retire after age 60 under the Early Retirement provisions.

Appendix A (Continued)

Death Benefit

Eligibility:

100% vested and not eligible for the Surviving Spouse's Benefit.

Monthly Benefit:

50% of the benefit the employee would have received if he would have elected the 50% Joint and Survivor benefit the day before his death. If the employee has not yet attained age 60, the benefit is calculated using service on the date of death and assuming the employee survived to age 60. The benefit is payable at the later of when the employee would have been age 60 or at the employee's death.

Optional Forms of Payment

Life Annuity – monthly payments for the life of the participant.

Joint and 50%, 66-2/3%, 75%, or 100% Survivor Annuity – monthly payments for the life of the participant with the appropriate percentage of the benefit continuing to the surviving spouse (if any).

10 Year, 15 Year Certain and Continuous – monthly payments for the life of the participant with no less than 120 or 180 guaranteed payments.

Lump Sum – a single sum payment equal to the present value of benefits accrued through 11/30/1996.

Actuarial equivalence for annuity forms of payment is made using 5.00% interest and the RP-2000 Combined Mortality Table blended 50% male/50% female. Actuarial Equivalence for lump sum determinations is made using the Applicable Interest Rate with a 5-month look back and the Applicable Mortality Table.

Benefits Available as Lump Sums

Other than accrued benefits as of 11/30/1996, this plan pays only small benefit amounts (those less than \$5,000).

Maximum Benefit Limit

The Internal Revenue Code Section 415 Maximum Benefit payable as a life annuity at Social Security Normal Retirement Age.

Funding of the Plan

Employer pays all costs.

Changes in Plan Provisions

The benefit multiplier was increased.
