REPORT

Independent Auditor's Report

To the Plan Administrator of the Stone Services Holdings, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Stone Services Holdings, Inc. Employee Stock Ownership Plan (formerly Concrete Supply Co., Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Stone Services Holdings, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years ended December 31, 2025 and 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Stone Services Holdings, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Stone Services Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Stone Services Holdings, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Stone Services Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Stone Services Holdings, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Effective January 1, 2025, the Board of Directors established Stone Services Holdings, Inc. as a holding company in the Company structure. Effective January 1, 2025, the Plan was restated and renamed Stone Services Holdings, Inc. Employee Stock Ownership Plan.

General

The Plan is a leveraged employee stock ownership plan (ESOP) established effective January 1, 2019 formerly Concrete Supply Co., Inc. Employee Stock Ownership Plan, as restated January 1, 2025 to Stone Services Holdings, Inc. Employee Stock Ownership Plan. The Plan covers eligible employees of Stone Services Holdings, Inc. (the Company) and its wholly owned subsidiaries who have attained age 21 and completed at least 500 hours of service, excluding employees covered by a collective bargaining agreement, nonresident aliens, independent contractors, and leased employees, as defined in the Plan document. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Benefits Committee (the Committee) comprising persons appointed by the Company's Board of Directors. The Plan entered into a trust agreement (the Trust) with an appointed Trustee. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Committee. Plan assets in company stock and cash are held and managed by a trustee and is a qualified institution, which invests contributions and Plan earnings. The third-party administrator for the Plan, performs certain plan administration and annual ERISA compliance testing.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Participant contributions are not permitted. Participants who are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts.

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20 percent vested after two years of credited service and continues to vest in increments of 20 percent until 100 percent vested after six years of credited service.

Voting rights

If the Company does not have a registration-type class of securities, each participant or beneficiary is entitled to direct the Trustee as to the manner in which voting rights of the shares of Company stock which are allocated to the Company stock account of such participant or beneficiary are to be exercised with respect to any corporate matter which involves the voting of such Company stock with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business or such similar transaction as the Secretary of the Treasury may prescribe in regulations. On all other matters, except the election of directors, the Trustee will vote at the direction of the Committee. On pass through voting matters, the Committee will instruct the Trustee on the voting of any allocated shares for which no instructions are received, and on any unallocated shares, on behalf of the collective best interests of Plan participants and beneficiaries. Directors are elected in a two-step process. First, the Board approves a "slate" of directors, by majority vote, for election by the Trustee. Next, the slate is presented to the shareholders at the annual shareholder meeting for approval or disapproval. If necessary, the Board will present a new slate until the Trustee approves the slate in entirety.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to \$7,000, the amount may be automatically distributed in the form of lump sum cash payment. Distributions are made in cash or, if the participant elects, in the form of Company common stock plus cash for any fractional share of common stock. The amount to be distributed is based upon the immediately preceding valuation date.

Participants who have attained Normal Retirement Age and have completed 10 years of service may request a distribution of up to 20 percent of their vested balance. In-service distributions will be paid in five annual installments.

Forfeited accounts

Forfeitures of terminated participants' nonvested accounts may be used to restore forfeitures to the accounts of participants who are re-employed in the Plan year. Any remaining forfeitures may be used to pay Plan expenses, to reduce future expenses or allocated as additional contributions in the same manner discretionary contributions are allocated. Forfeitures cannot be used to satisfy the Company's obligation to make contributions to the Plan to enable it to repay the loan. At December 31, 2025 and 2024, there were no remaining forfeited nonvested account balances. During 2025 and 2024, approximately 2,400 and 1,100 forfeited shares, respectively, were allocated to participant accounts, in accordance with plan provisions.

Put option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification of Benefits

Each active participant who has attained age 55 and has at least 10 years of participation in the Plan may elect in each qualified election period to diversify up to 25% of the qualified participant's ESOP stock account balance eligible for diversification. With respect to the last year of the qualified election period, 50% will be substituted for 25% in determining the amount subject to the diversification election. The election to diversify can be made within 90 days after the last day of each Plan Year, provided that the fair value of the Company Stock is known. If the fair value is unknown, the election can be made within 30 days after the fair value is communicated to participants. The election is based on the total number of shares of Company Stock allocated to the participant at year end.

2. Summary of Accounting Policies*Basis of Accounting*

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the Accounting Standards Codification (ASC) and related Accounting Standards Updates (ASUs).

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are recorded at fair value, which is determined by an independent appraisal. Increases or decreases in the appraised fair value of investments held at the end of the year are reflected in the statements of changes in net assets available for benefits as appreciation (depreciation) in the fair value of investments. Realized gains or losses on the sale of investments are recorded based on the difference between the proceeds and the fair value of investments at the beginning of the Plan year. The basis of the investment is determined by the specific identification method. Investment income is recognized when earned.

Investments generally are reported at fair value but may also be reported at contract value or net asset value (NAV). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See fair value measurement footnote for further discussion of fair value measurements and NAV. The Plan's Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Subsequent Events

Subsequent events were evaluated through August 27, 2026, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

Company common stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the discounted cash flow, market, and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

Investments measured at net asset value: Consisting of common-collective trusts, valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Assets at Fair Value as of December 31, 2025	Level 1		Level 2		Level 3	Total
Interest-bearing cash	\$	183,166	\$	-	\$ -	\$ 183,166

Total investments at fair value	\$	515,628	\$	-	\$ 49,230,000	\$ 49,745,628

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. Management evaluated the significance of transfer between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2025 and 2024, there were no significant transfers in or out of Levels 1, 2 or 3.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, the significant unobservable inputs and the quantitative information about those inputs.

Instrument			Principal Valuation	Significant Unobservable Inputs
	2025	2024	Technique	
Company common stock	\$ 58,860,000	\$ 49,230,000	Income	EBITDA, net income, weighted average cost of capital, discount rate, discount for lack of marketability

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of December 31, 2025. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2025	Fair Value	Unfunded Commitments	Redemption Frequent (if currently eligible)	Redemption Notice Period
Common collective trusts	\$ 943,505	\$ -	Daily	None

4. Investments in Common Stock

The Plan's investments in the Company's common shares at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	140,000	860,000	120,000	880,000
Cost	\$ 65,060	\$ 399,657	\$ 55,766	\$ 408,951
Estimated fair value	\$ 8,240,400	\$ 50,619,600	\$ 5,907,600	\$ 43,322,400

The appraisal values per share were \$58.86 and \$49.23 as of December 31, 2025 and 2024, respectively.

5. Note Payable

On December 17, 2019, the Trust purchased 1,000,000 shares of the Company's common stock with a loan of \$464,717. The common stock is held in a trust established under the Plan. The Trust issued to the Company a promissory note in the total amount of \$464,717. The note has a 50-year term and requires annual principal and interest payments of \$14,773. Interest is payable at a rate equal to 2.09%. The loan matures on December 31, 2068. The borrowing is collateralized by the unallocated shares of common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 20,000 shares being released and allocated for the plan years ended December 31, 2025 and 2024, respectively.

The scheduled amortization of the loan for subsequent years is as follows:

For the years ending December 31,		
2026	\$	6,070
2027		6,197
2028		6,327
2029		6,459
2030		6,594
Thereafter		384,771
Total	\$	416,418

6. Related Party and Party In Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock. These are related party and party in interest transactions. As described in Note 2, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

7. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Benefits Committee directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100 percent vested.

8. Tax Status

The IRS has determined and informed the Company by a letter dated July 9, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
