Opinion

We have audited the financial statements of UMB Profit Sharing and 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of UMB Profit Sharing and 401(k) Savings Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of UMB Profit Sharing and 401(k) Savings Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about UMB Profit Sharing and 401(k) Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of UMB Profit Sharing and 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about UMB Profit Sharing and 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required By ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

UMB PROFIT SHARING AND 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

1. Description of the Plan

The following description of the UMB Profit Sharing and 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan covering substantially all employees of UMB Financial Corporation and affiliates (collectively, the Company or UMB) and provides for retirement, disability and death benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Trustee is Fidelity Management Trust Company.

Eligibility and Participation

Employees are eligible to make elective deferral contributions and receive the Company matching contribution upon the first of the month following the date of hire. The Plan provides that employees with one year of service and 1,000 hours of service each year become eligible to participate in the profit sharing portion of the Plan. Employees are eligible to receive the Company profit sharing contribution on the earlier of the first day of the Plan year or the first day of the seventh month of the Plan year after satisfying eligibility requirements. With limited exceptions, participants must be actively employed on the last day of the Plan year to share in any Company profit sharing contributions. Through the acquisition of Heartland Financial USA, Inc. (HTLF) on January 31, 2025, individuals who became employees of the Company are eligible to participate in the Plan. The HTLF Retirement Plan was terminated on January 30, 2025, and participants in that plan had the option to rollover their balances to the Plan. The rollover process for employees who elected to move balances into the Plan was completed in September 2025.

Contributions

Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Employee Contributions:

Each year, participants may contribute up to a percentage of their annual compensation as defined in the Plan Agreement. Participants may also elect to designate their contributions as pretax contributions, Roth contributions, or a combination of pretax and Roth contributions. In addition, all employees who are eligible to make elective deferral contributions under the Plan and have attained age 50 shall be eligible to make catch-up contributions in accordance with the Plan Agreement. Beginning in 2025, employees turning age 60 to 63 during the calendar year may make additional catch-up contributions annually. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

All employees of UMB hired on or after January 1, 2008 who are otherwise eligible for the Plan, are subject to an "automatic election," under which the Company will withhold 3 percent of compensation from the new employee's paycheck each payroll period. That amount is contributed to the Plan as an elective deferral contribution, unless the employee completes a salary deferral agreement electing a different percentage. The automatic election is withheld from the paycheck following the employee's completion of eligibility for the Plan, which is the first of the month following completion of one month of employment. The automatic salary deferral will be invested in a target date fund with a maturity date that most closely corresponds to the participant's anticipated retirement date based on the participant's date of birth unless otherwise directed by the employee. The employee may modify the automatic election at any time to elect an alternative deferral amount or elect not to defer into the Plan. The Plan has an automatic escalation feature which increases an employee's contribution rate by 1 percent annually until the employee's contributions reach a maximum of 9 percent.

Employer Matching Contributions:

The Company will determine each year the amount, if any, that will be contributed to the Plan. The Company allows for matching contributions determined annually by the Chairman of the Board of Directors of the Company at his discretion. The matching contribution is based on the participant's eligible compensation for each payroll period and is funded during the year.

The Company makes an additional discretionary matching contribution equal to the true-up contribution that would be required as if the matching contribution was based on the participant's eligible annual compensation. After satisfying eligibility requirements, the Company matched 50 percent of the first 9 percent of a participant's contributions for both Plan years 2025 and 2024. For the 2025 Plan year, the Company contributed \$21,025,963, of which \$1,117,220 was included in employer contributions receivable at December 31, 2025. For the 2024 Plan year, the Company contributed \$15,045,793, of which \$815,955 was included in employer contributions receivable at December 31, 2024.

Employer Profit Sharing Contributions:

The Plan allows for profit sharing contributions by the Company to be determined annually by the Chairman of the Board of Directors of the Company at his discretion. The Company did not make a profit sharing contribution related to the 2025 Plan year. For the 2024 Plan year, the Company made total profit sharing contributions of \$2,000,000. Employer profit sharing contributions, as determined above, are divided between the Plan and The ESOP of UMB (the ESOP), at the discretion of the Board of Directors of the Company. Profit sharing contributions to the Plan amounted to \$1,000,000 for Plan year 2024. As of December 31, 2024, \$1,000,000 was included in employer contributions receivable.

Participant Accounts

A separate account is maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions and allocations of (1) the Company's contributions, (2) forfeitures of terminated participants' nonvested accounts, and (3) Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings, participant elective deferrals or account balances, as defined and subject to certain limits. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Qualified participants are able to transfer a portion of their account balances from the ESOP to the Plan.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. Additionally, all loans are made for a period not to exceed five years unless proceeds of such loan are exclusively used for the acquisition of a dwelling unit to be used as the principal residence of the participant. Interest rates for all loans are prime rate plus 2 percent. Principal and interest is paid ratably through payroll deductions. The loans bear interest ranging from 2.25 percent to 10.50 percent, with maturity dates through June 2041.

Vesting and Forfeitures

Participants are vested immediately in their contributions and the Company matching contribution plus actual earnings thereon. For profit sharing contributions participants are 50 percent vested after two years of service and 100 percent vested after three years of service.

The Company, at its discretion, determines how forfeited nonvested accounts will be used in accordance with the Plan. At December 31, 2025 and 2024, available forfeited nonvested accounts totaled \$27,290 and \$27,090, respectively. Forfeited nonvested amounts of \$26,387 and \$120,520 were used to reduce Company contributions in Plan year 2025 and 2024, respectively.

Benefits

A participant's account balance, to the extent it is vested, will be paid upon request to participants who have become disabled, retired or otherwise left the Company. Employees are not allowed to withdraw any portion of the Employer contributions prior to age 59½; however, subject to the Plan's restrictions, participants may withdraw all or a portion of their account balances from certain sources while remaining employed.

Terminated participants with a vested account balance not exceeding \$7,000, excluding amounts attributable to any rollovers, will receive a lump sum distribution. If the deferred vested account balance is less than \$1,000, the balance will be distributed to the participant in cash. If the deferred vested account balance is between \$1,000 and \$7,000, the participant's balance will be rolled over to an IRA account with Fidelity Investments, if the participant does not make a distribution election.

Participant Hardship Withdrawals

A participant may withdraw all or a portion of their contributions subject to hardship withdrawal provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared using the accrual method of accounting. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Valuation of Investments

Investments are stated at fair value. Securities traded in public markets are valued at their quoted market prices. Participants do not have beneficial ownership in specific underlying securities or other assets in the various funds, but have an interest therein represented by units valued as of the last business day of the period. The various funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Recognition of Investment Income

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Net change in fair value of investments and dividend and interest income are presented in the accompanying statement of changes in net assets available for benefits.

Allowance for Credit Losses

Amounts due for contributions are stated at the amount management expects to collect from outstanding balances less an allowance for expected credit losses. The expected credit losses amount reflects management's best estimate of amounts that will not be collected. This assessment considers historical experience, current conditions and, when appropriate, reasonable and supportable forecasts.

The Plan has concluded that no allowance for current expected credit losses was necessary at either December 31, 2025 or December 31, 2024.

Contributions

Contributions from participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Costs and Expenses

Fees related to certain terminated participant accounts, administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in investment income. The Plan used \$116,708 and \$345,924 of proceeds from a revenue sharing arrangement to pay administrative fees in 2025 and 2024, respectively. Proceeds remaining from the revenue sharing arrangement at the end of the year may be allocated on a pro-rata basis to participant accounts in the Plan. The proceeds from the revenue sharing arrangement are held in a Vanguard Cash Reserves Federal Money Market Fund.

3. UMB Retirement Master Trust

As of January 1, 2025, the UMB Retirement Master Trust (the Master Trust) was dissolved and the Plan no longer has an interest in the Master Trust. Prior to January 1, 2025, the assets of the Plan and the ESOP were combined into the Master Trust, a master trust established by the Company. Use of the Master Trust permits the commingling of Plan assets with the assets of the ESOP for investment and administrative purposes. At December 31, 2024, the Plan's assets related to its share of the allocated net assets of the Master Trust. Although assets of both plans were commingled in the Master Trust, the Trustee maintained supporting records for the purpose of allocating investment income or loss to the participating plans. The net investment income or loss of the investment assets was allocated by the Trustee to each participating plan on a basis proportionate to the Plan's share of net assets. All other activity was recorded in the Plan based on the elections of the individual participants in the Plan.

The following table presents the net assets of the Master Trust and the Plan's interest in the net assets of the Master Trust at December 31, 2024:

	2024	
	Master Trust	Plan's Interest in Master Trust
Investments, at fair value:		
Mutual funds	\$ 569,017,347	\$ 569,017,347
UMB company stock	91,095,797	20,948,215
Money market funds	29,916,843	29,916,843
Collective investment trust	87,567,734	87,567,734
Total investments	777,597,721	707,450,139
Receivables:		
Dividends receivable	322,230	72,755
Other	146	146
Total receivables	322,376	72,901
Cash	5,865	3,554
Net assets	<u>\$ 777,925,962</u>	<u>\$ 707,526,594</u>

Income of the Master Trust included net change in the fair value of investments and dividend and interest income. Net change in the fair value of its investments included the Master Trust's gains and losses on investments bought and sold, as well as held during the year.

The following is a summary of net investment income from the Master Trust for the year ended December 31, 2024:

	2024
Dividend and interest income	27,854,007
Net appreciation in the fair value of investments	100,441,291
Total Master Trust net investment income	<u>\$ 128,295,298</u>

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan and Master Trust have the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- | | |
|---------|---|
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
|---------|---|

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 or 2024.

Mutual Funds and Money Market Funds

Mutual funds and money market funds are valued at the daily closing price as reported by the fund. Mutual funds and money market funds held by the Plan are open end mutual funds and money market funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded.

UMB Company Stock

UMB Financial Corporation shares are valued at the daily closing price reported on the active market on which the individual securities are traded.

Collective Investment Trust

The collective investment trust is valued at the NAV, as provided by the Trustee, and is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the collective investment trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Redemptions for the collective investment trust are permitted daily with no other restrictions or notice periods. For the Plan years ended December 31, 2025 and 2024, there were no unfunded capital commitments, and the collective investment trust files an annual report on Form 5500 as a direct filing entity. In accordance with U.S. generally accepted accounting principles, the collective investment trust fund measured at NAV has not been classified in the fair value hierarchy. The fair value amounts presented in the table below are intended to permit reconciliation to the statement of net assets available for benefits for 2025 and the amounts presented in Note 3 for 2024.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2025:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 785,957,162	\$ —	\$ —	\$ 785,957,162

UMB company stock	21,348,783	—	—	21,348,783

Collective investment trust				117,202,380
Total investments at fair value				<u>\$ 957,000,119</u>

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets measured at fair value on a recurring basis as of December 31, 2024:

	Level 1	Level 2	Level 3	Total

Collective investment trust				87,567,734
Total investments at fair value				<u>\$ 777,597,721</u>

5. Plan Termination

Although it has not expressed any intention to do so, the Board of Directors of the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants become 100 percent vested in their accounts and the Plan provides that its net assets be used to pay all expenses and benefits due and will distribute the remaining assets among the Plan participants based upon their account balance.

6. Tax Status

The Plan uses a pre-approved defined contribution plan document sponsored by FMR, LLC. The sponsor received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, which states that the pre-approved defined contribution plan document satisfies the applicable requirements of the IRC.
