Independent Auditors' Report

To the Board of Directors and Investment Committee
Apyx Medical Corporation 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of Apyx Medical Corporation 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors’ Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

APYX MEDICAL CORPORATION 401(K) PLAN

Notes to Financial Statements

December 31, 2025 and 2024

(1) **Description of the Plan**

The following description of the Apyx Medical Corporation 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

(a) **General**

The Plan Sponsor is Apyx Medical Corporation, formerly Bovie Medical Corporation, (the “Company”, “Plan Sponsor” or “Plan Administrator”). The Plan, which was established on January 1, 1995, is a defined contribution plan covering substantially all employees of the Company who have attained age 18 and completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Board of Directors (“Board”) is responsible for oversight of the Plan, however has delegated such authority to the Investment Committee. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance, and reports to the Board.

On December 7, 2021, the Plan entered into an agreement with Fidelity Management Trust Company (“Fidelity”) as trustee and plan administrator. The plan was entirely amended and restated November 10, 2022.

(b) **Contributions**

Each year, participants may contribute up to 90% of eligible compensation, as defined in the plan document on a pre-tax or Roth after-tax basis, subject to Internal Revenue Code limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan accepts rollovers and direct transfers from other tax-qualified plans.

The Plan document allows participants of the Plan to be automatically enrolled, once meeting eligibility requirements, at a deferral percentage of 1% of eligible compensation, with no escalation, unless they opt out or choose a different percentage.

The Company may make discretionary matching contributions. For the year ended December 31, 2025, the Company made discretionary matching contributions of 50% of the first 6% of eligible compensation that participants contributed to the Plan.

In January 2025, the Setting Every Community Up for Retirement Enhancement ("SECURE") 2.0 Act was amended and included provisions related to enhanced catch-up contributions for certain participants. The SECURE 2.0 Act permits increased catch-up contribution limits for participants attaining ages 60 through 63 during the taxable year. This provision became effective beginning January 1, 2025.

(1) **Description of the Plan - Continued**

(c) **Participant Accounts**

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions, if any, and plan earnings and expenses. The Plan allows participants to direct their contributions to any investment option available to the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) **Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Company matching and discretionary profit sharing contributions and earnings thereon is based on years of continuous service.

Participants' contributions plus actual earnings are 100% vested. Employer contributions become 100% vested after the participant reaches the early retirement age of 59½ and completes one year of service. All other employer contributions are subject to the following vesting schedule:

<u>Completed Years of Service</u>	<u>Percentage Company Contributions Vested</u>
1	33%
2	66%
3	100%

(e) **Forfeitures**

At December 31, 2025 and 2024, forfeited nonvested accounts totaled \$76 and \$65, respectively. These accounts will be used to reduce future employer contributions and pay administrative expenses of the Plan. For the year ended December 31, 2025, employer contributions and administrative expenses were reduced by \$15,900 from forfeited nonvested accounts.

(f) **Payment of Benefits**

Participants are immediately 100% vested in their entire account balance upon termination of the Plan, upon reaching the early retirement age of 59½ and completing at least one year of service, or upon disability or death while an employee of the Plan Sponsor. Normal retirement age under the Plan is 65. The Plan provides for benefit distributions by lump-sum payment. The Plan also allows for in-service withdrawals for those 59 ½ or older. Benefits are recorded when paid.

(1) **Description of the Plan - Continued**

(g) **Hardship Withdrawals**

The Plan allows participants to withdraw a portion of their account balance in the event of immediate and heavy financial need. Any hardship withdrawal is limited to the amount needed to meet the financial need and must qualify with respect to plan provisions.

(h) **Notes Receivable from Participants**

Participants may borrow from their vested account balance a minimum of \$1,000 and maximum of the lesser of \$50,000 or 50% of the participant's vested account balance. Loan terms are for a period not exceeding five years unless for the purchase of a principal residence, in which case the term may be longer. Loans are secured by the balance in the participant's account and bear interest at an agreed-upon percentage based on prevailing market rates.

Principal and interest is paid ratably through payroll deductions. Participants are allowed one outstanding loan. The interest rates on all outstanding loans ranged from 8.50% to 9.50% at December 31, 2025.

(2) **Summary of Significant Accounting Policies**

(a) **Basis of Accounting**

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

(b) **Use of Estimates**

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(2) **Summary of Significant Accounting Policies - Continued**

(d) **Contributions**

Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

(e) **Notes Receivable from Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

(f) **Payment of Benefits**

Benefits are recorded when paid.

(g) **Administrative Expenses**

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(3) **Information Prepared and Certified by the Trustee**

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Dividend and interest income
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

APYX MEDICAL CORPORATION 401(K) PLAN

(4) **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- (a) Quoted prices for similar assets or liabilities in active markets;
- (b) Quoted prices for identical or similar assets or liabilities in inactive markets;
- (c) Inputs other than quoted prices that are observable for the asset or liability;
- (d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2025 and 2024.

Money Market Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

APYX MEDICAL CORPORATION 401(K) PLAN

Notes to Financial Statements - Continued

(4) Fair Value Measurements - Continued

The methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Description	Assets Measured at Fair Value at December 31, 2025	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market funds	\$ 5,903	5,903	-	-
Registered investment companies	13,494,922	13,494,922	-	-
Total assets in the fair value hierarchy	13,500,825	13,500,825	-	-
Common/collective trust funds at NAV	164,389 (a)			
Total investments at fair value	\$ 13,665,214			

Description	Assets Measured at Fair Value at December 31, 2024	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market funds	\$ 6,490	6,490	-	-
Registered investment companies	12,362,875	12,362,875	-	-
Total assets in the fair value hierarchy	12,369,365	12,369,365	-	-
Common/collective trust funds at NAV	454,864 (a)			
Total investments at fair value	\$ 12,824,229			

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value ("NAV") per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of the net assets available for benefits.

APYX MEDICAL CORPORATION 401(K) PLAN

Notes to Financial Statements - Continued

(5) **Parties-in-Interest Transactions**

During 2025, the Plan paid approximately \$33,000 in expenses to Fidelity for recordkeeping services with an additional \$34,000 paid to other service providers for investment advisory services. Notes receivable from participants transactions are also considered to be party-in-interest transactions, because they are transacted with plan participants. While these transactions qualify as party-in-interest transactions as defined in Section 3(14) of ERISA, they are expressly exempted from the prohibited transaction rules.

(6) **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(7) **Tax Status**

The Plan has adopted the Fidelity pre-approved profit sharing plan which obtained a favorable opinion letter dated June 30, 2020, in which the Internal Revenue Service stated that the pre-approved profit sharing plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The pre-approved profit sharing plan has been amended; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) **Subsequent Events**

The Plan's management has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 16, 2026, the date the financial statements were available to be issued.

To the Board of Directors and Investment Committee
Apyx Medical Corporation 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of Apyx Medical Corporation 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors’ Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

APYX MEDICAL CORPORATION 401(K) PLAN

Notes to Financial Statements

December 31, 2025 and 2024

(1) **Description of the Plan**

The following description of the Apyx Medical Corporation 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

(a) **General**

The Plan Sponsor is Apyx Medical Corporation, formerly Bovie Medical Corporation, (the “Company”, “Plan Sponsor” or “Plan Administrator”). The Plan, which was established on January 1, 1995, is a defined contribution plan covering substantially all employees of the Company who have attained age 18 and completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Board of Directors (“Board”) is responsible for oversight of the Plan, however has delegated such authority to the Investment Committee. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance, and reports to the Board.

On December 7, 2021, the Plan entered into an agreement with Fidelity Management Trust Company (“Fidelity”) as trustee and plan administrator. The plan was entirely amended and restated November 10, 2022.

(b) **Contributions**

Each year, participants may contribute up to 90% of eligible compensation, as defined in the plan document on a pre-tax or Roth after-tax basis, subject to Internal Revenue Code limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan accepts rollovers and direct transfers from other tax-qualified plans.

The Plan document allows participants of the Plan to be automatically enrolled, once meeting eligibility requirements, at a deferral percentage of 1% of eligible compensation, with no escalation, unless they opt out or choose a different percentage.

The Company may make discretionary matching contributions. For the year ended December 31, 2025, the Company made discretionary matching contributions of 50% of the first 6% of eligible compensation that participants contributed to the Plan.

In January 2025, the Setting Every Community Up for Retirement Enhancement ("SECURE") 2.0 Act was amended and included provisions related to enhanced catch-up contributions for certain participants. The SECURE 2.0 Act permits increased catch-up contribution limits for participants attaining ages 60 through 63 during the taxable year. This provision became effective beginning January 1, 2025.

(c) **Participant Accounts**

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions, if any, and plan earnings and expenses. The Plan allows participants to direct their contributions to any investment option available to the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) **Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Company matching and discretionary profit sharing contributions and earnings thereon is based on years of continuous service.

Participants' contributions plus actual earnings are 100% vested. Employer contributions become 100% vested after the participant reaches the early retirement age of 59½ and completes one year of service. All other employer contributions are subject to the following vesting schedule:

<u>Completed Years of Service</u>	<u>Percentage Company Contributions Vested</u>
1	33%
2	66%
3	100%

(e) **Forfeitures**

At December 31, 2025 and 2024, forfeited nonvested accounts totaled \$76 and \$65, respectively. These accounts will be used to reduce future employer contributions and pay administrative expenses of the Plan. For the year ended December 31, 2025, employer contributions and administrative expenses were reduced by \$15,900 from forfeited nonvested accounts.

(f) **Payment of Benefits**

Participants are immediately 100% vested in their entire account balance upon termination of the Plan, upon reaching the early retirement age of 59½ and completing at least one year of service, or upon disability or death while an employee of the Plan Sponsor. Normal retirement age under the Plan is 65. The Plan provides for benefit distributions by lump-sum payment. The Plan also allows for in-service withdrawals for those 59 ½ or older. Benefits are recorded when paid.

(g) **Hardship Withdrawals**

The Plan allows participants to withdraw a portion of their account balance in the event of immediate and heavy financial need. Any hardship withdrawal is limited to the amount needed to meet the financial need and must qualify with respect to plan provisions.

(h) **Notes Receivable from Participants**

Participants may borrow from their vested account balance a minimum of \$1,000 and maximum of the lesser of \$50,000 or 50% of the participant's vested account balance. Loan terms are for a period not exceeding five years unless for the purchase of a principal residence, in which case the term may be longer. Loans are secured by the balance in the participant's account and bear interest at an agreed-upon percentage based on prevailing market rates.

Principal and interest is paid ratably through payroll deductions. Participants are allowed one outstanding loan. The interest rates on all outstanding loans ranged from 8.50% to 9.50% at December 31, 2025.

(2) **Summary of Significant Accounting Policies**

(a) **Basis of Accounting**

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

(b) **Use of Estimates**

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(d) Contributions

Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(3) Information Prepared and Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Dividend and interest income
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- (a) Quoted prices for similar assets or liabilities in active markets;
- (b) Quoted prices for identical or similar assets or liabilities in inactive markets;
- (c) Inputs other than quoted prices that are observable for the asset or liability;
- (d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2025 and 2024.

Money Market Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

(4) Fair Value Measurements - Continued

The methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

<u>Description</u>	<u>Assets Measured at Fair Value at December 31, 2025</u>	<u>Fair Value Measurements at Reporting Date Using</u>		
		<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
Money market funds	\$ 5,903	5,903	-	-
Registered investment companies	13,494,922	13,494,922	-	-
Total assets in the fair value hierarchy	13,500,825	13,500,825	-	-
Common/collective trust funds at NAV	164,389 (a)			
Total investments at fair value	\$ 13,665,214			

<u>Description</u>	<u>Assets Measured at Fair Value at December 31, 2024</u>	<u>Fair Value Measurements at Reporting Date Using</u>		
		<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
Money market funds	\$ 6,490	6,490	-	-
Registered investment companies	12,362,875	12,362,875	-	-
Total assets in the fair value hierarchy	12,369,365	12,369,365	-	-
Common/collective trust funds at NAV	454,864 (a)			
Total investments at fair value	\$ 12,824,229			

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value ("NAV") per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of the net assets available for benefits.

(5) **Parties-in-Interest Transactions**

During 2025, the Plan paid approximately \$33,000 in expenses to Fidelity for recordkeeping services with an additional \$34,000 paid to other service providers for investment advisory services. Notes receivable from participants transactions are also considered to be party-in-interest transactions, because they are transacted with plan participants. While these transactions qualify as party-in-interest transactions as defined in Section 3(14) of ERISA, they are expressly exempted from the prohibited transaction rules.

(6) **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(7) **Tax Status**

The Plan has adopted the Fidelity pre-approved profit sharing plan which obtained a favorable opinion letter dated June 30, 2020, in which the Internal Revenue Service stated that the pre-approved profit sharing plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The pre-approved profit sharing plan has been amended; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) **Subsequent Events**

The Plan's management has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 16, 2026, the date the financial statements were available to be issued.
