INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Messick Farm Equipment, Inc.
Retirement Savings Plan
Mount Joy, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Messick Farm Equipment, Inc. Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Messick Farm Equipment, Inc. Retirement Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 11 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- The amounts and disclosures in the accompanying financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Messick Farm Equipment, Inc. Retirement Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate that raise substantial doubt about the Messick Farm Equipment, Inc. Retirement Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Messick Farm Equipment, Inc. Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events considered in the aggregate that raise substantial doubt about the Messick Farm Equipment, Inc. Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of the Schedule of the Assets Held for Investment Purposes as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying

accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Messick Farm Equipment, Inc. Retirement Savings Plan

Notes to Financial Statements

Note 1 – Plan Description

The following description of the Messick Farm Equipment, Inc. Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan, established as of January 1, 1998, is a defined contribution plan covering all employees of Messick Farm Equipment, Inc. (the “Company”). The Plan Administrator is responsible for oversight of the Plan and determines the appropriateness of the Plan's offerings and monitors investment performance. The Plan's investments are held in a trust fund administered by Principal Life Insurance Company (“Principal Life”) and Principal Trust Company (“Principal Trust”).

Contributions – Participants may contribute up to 100% of eligible compensation, not to exceed the annual amount permitted by Federal law. Catch-up contributions are permitted for eligible participants age 50 or older by the end of the calendar year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company may, at its discretion, decide to match participant contributions to the Plan. The Company contributed a matching contribution equal to 100% of the first 2% of each participant's compensation for which a 401(k) elective deferral had been made up to a maximum contribution of \$1,000. The Plan also permits the Company to make additional discretionary contributions. There were no such additional discretionary contributions during 2025 or 2024.

Participant Accounts – Each participant's account is credited with the participant's contribution and the participant's share of (a) the employer contributions, (b) an allocation of Plan earnings or losses based on the participant's directed investment accounts and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investments for their account.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Participants are vested in the Company's contributions of their account plus actual earnings based on years of service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	25%
2	50%
3	75%
4	100%

Note 1 – Plan Description – Continued

Payment of Benefits – Benefits are payable following retirement, disability, termination of service or death. A participant may elect to receive the value of the vested interest in his or her account as an annuity, single lump sum distribution or a series of annual payments. Automatic distributions will be made to terminated participants with vested balances of less than \$1,000. Participants with account balances between \$1,000 and \$5,000 upon termination will automatically have their distribution rolled over into an Individual Retirement Account (IRA) with an affiliate of the Trustees, unless they elect to receive a lump sum distribution or elect to roll over the account into an IRA or qualified plan specified by the participant. Additionally, the Plan allows for in-service and hardship withdrawals where a participant may elect to receive an amount equal to his or her deferral amount.

Forfeited Accounts – If a participant leaves the Company before becoming fully vested, the Company may allocate the non-vested portion of the participant's account balance to reduce Plan expenses. If forfeitures are not used to pay Plan expenses, they shall be applied to reduce employer discretionary contributions. Forfeitures used to reduce employer contributions totaled \$0 and \$200 for the years ended December 31, 2025 and 2024, respectively. Forfeitures used to reduce Plan expenses totaled \$714 and \$744 for the years ended December 31, 2025 and 2024, respectively. At December 31, 2025 and 2024, the forfeited non-vested accounts totaled \$0 and \$102, respectively.

Note 2 – Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value as determined and certified by the Plan's Trustees. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as those held during the year. The fair value is certified by Delaware Charter & Trust Company d/b/a Principal Trust Company.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – All administrative expenses will be paid by the Plan unless paid by the Company. Certain administrative expenses associated with the Plan were paid by the Company.

Subsequent Events – Events that occurred subsequent to December 31, 2025 have been evaluated by the Plan's management through September 2, 2026, which is the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3 – New Accounting Standards

Pronouncements issued by the Financial Accounting Standards Board (FASB) with future effective dates are either not applicable or are not expected to be significant to the Plan's financial statements.

Note 4 – Investments

During the years ended December 31, 2025 and 2024, the Plan's investments in pooled separate accounts (including gains and losses on investments bought, sold, and held during the year) appreciated in value by \$1,649,761 and \$1,330,885, respectively. The Plan's investments in mutual funds appreciated in value by \$1,323,432 and \$946,460 during the years ended December 31, 2025 and 2024, respectively. The Plan's investments in collective investment trusts appreciated in value by \$716,991 and \$0 during the years ended December 31, 2025 and 2024, respectively. The Plan's investments in the guaranteed option appreciated in value by \$17,617 and \$0 during the years ended December 31, 2025 and 2024, respectively.

Note 5 – Fair Value Measurements

Generally accepted accounting principles in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5 – Fair Value Measurements – Continued

Following is a description of the valuation methodologies used for assets measured at fair value.

Collective Investment Trusts: Valued using the net asset value (“NAV”) per unit, or its equivalent, as reported by the trustee or fund manager. The common collective trusts are measured at fair value using NAV as a practical expedient under ASC 820-10-35-59. NAV per unit is calculated daily on each day the NYSE is open, as of the close of business, as total fair value of assets less liabilities divided by units outstanding. Purchases and redemptions generally occur daily at NAV. Plan-directed withdrawals exceeding \$1 million require five business days’ advance written notice. The Plan had no unfunded commitments related to these investments, and no lockups, gates, or other redemption restrictions were identified other than the \$1 million/five-business-day notice requirement.

Guaranteed option account: Valued at contract value. See Note 6 for further information.

Investment Contract with Insurance Company: Valued at fair value as reported by the insurance company by assumed proceeds at discontinuation. This contract is not considered to be fully benefit responsive.

Mutual Funds: Valued at quoted market prices, which represent the NAV of shares held by the Plan at year-end.

Pooled Separate Accounts: Valued using NAV per unit, or its equivalent, as reports by the insurance company or investment manager. The pooled separate accounts are measured at fair value using NAV as a practical expedient under ASC 820-10-35-59.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2025 and 2024, respectively:

(a) This class invests primarily in a blend common stock of large, medium and small capitalization companies. The class's objective is capital appreciation. Investments in this class can be redeemed daily at the current net asset value per unit based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per unit of the underlying investments. There are no unfunded commitments and no redemption period notice required.

(b) This class invests primarily in equity securities of companies with large and medium market capitalizations. The class's primary objective is capital appreciation. Investments in this class can be redeemed daily at the current net asset value per unit based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per unit of the underlying investments. There are no unfunded commitments and no redemption period notice required.

- (c) This class invests primarily in fixed income securities. The class's objective is to provide current income. Investments in this class can be redeemed daily at the current net asset value per unit based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per unit of the underlying investments. There are no unfunded commitments and no redemption period notice required.
- (d) This class invests in equity securities of large, medium and small market capitalizations whose potential for growth and earnings is expected to be above average. The class's objective is long-term capital appreciation. Investments in this class can be redeemed daily at the current net asset value per unit based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per unit of the underlying investments. There are no unfunded commitments and no redemption period notice required.

Notes to Financial Statements

Note 6 - Principal Guaranteed Option

The Plan holds the Principal Guaranteed Option, a guaranteed general account backed group annuity contract issued by Principal Life Insurance Company. The Guaranteed Option is included in the Statement of Net Assets Available for Benefits at contract value because it is considered a fully benefit-responsive investment contract. Contract value represents contributions made under the contract, plus credited interest, less participant withdrawals, transfers, and administrative expenses, as applicable.

Participant benefit payments for plan events, including retirement, termination of employment, disability, plan termination, death, loans, and withdrawals, are made without surrender charges or early termination charges. Transfers to non-competing investment options are generally unrestricted. Direct transfers from the Guaranteed Option to competing investment options are prohibited, and indirect transfers to competing options are subject to a 90-day equity wash.

Certain events may limit the Plan's ability to transact at contract value with the issuer, including premature termination of the contract by the Plan, plan termination, bankruptcy, mergers, layoffs, plant closings, or early retirement incentives. Management believes the occurrence of events that would limit the Plan's ability to transact at contract value with participants is not probable.

If the Plan terminates its interest in the Guaranteed Option, the default payout is six installments, with the first installment paid six months after notice and the remaining installments paid annually. The Plan may elect an accelerated payout, which may be subject to an early termination charge. If the Plan changes recordkeepers and the equity wash cannot be enforced, Principal may impose a surrender charge if certain transfer thresholds are exceeded, subject to the contract terms.

At December 31, 2025 and 2024, the contract value of the Guaranteed Option was \$921,923 and \$0, respectively.

Note 7 – Investment Contract with Insurance Company

The Plan holds an investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and interest at a rate that is determined by Principal Life Insurance Company from time to time. As of December 31, 2025 and 2024, the rates were 0.11% – 5.60% and 0.1% – 5.60%, respectively. The account promises contract value for a benefit event; however, if the Plan terminates the contract before the account matures or transfers funds to other investment managers beyond the limits of the contract, Principal Life Insurance Company will apply an early withdrawal charge to the account balance.

Notes to Financial Statements

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 9 – Parties-In-Interest Transactions

The Plan paid administrative fees totaling \$32,182 and \$2,410 for the years ended December 31, 2025 and 2024, respectively, to Principal Life and Principal Trust, the Trustees of the Plan. The Plan had several investments managed by Principal Life and Principal Trust. The fair value of these investments totaled \$12,665,756 and \$11,046,270 as of December 31, 2025 and 2024, respectively.

Note 10 – Tax Status

The Company adopted a Non-Standardized Prototype Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on June 30, 2020. The opinion letter stated that the Prototype Plan, as then designed, is in accordance with applicable sections of the Internal Revenue Code (IRC). The prototype has been amended since receiving the determination letter for various amendments. However, the plan administrator and third-party administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan continues to be tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and the Department of Labor. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain tax positions expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 12 – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.
