Independent Auditors' Report

To the Benefits Committee of
Keysight Technologies, Inc. Retiree Health Programs

Opinion

We have audited the financial statements of Keysight Technologies, Inc. Retiree Health Programs (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and benefit obligations of Keysight Technologies, Inc. Retiree Health Programs as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Keysight Technologies, Inc. Retiree Health Programs and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Keysight Technologies, Inc. Retiree Health Programs' ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Keysight Technologies, Inc. Retiree Health Programs' internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Keysight Technologies, Inc. Retiree Health Programs' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Keysight Technologies, Inc. Retiree Health Programs (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Prior to January 1, 2023, the Health Plan was established in 2014 by Keysight Technologies, Inc. (the Company or Keysight), to provide comprehensive health care benefits to eligible retirees, totally disabled former employees and their eligible dependents, and eligible dependents of deceased eligible employees. The Health Plan is designed to comply with the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2023, the Company executed a wrap Plan document to combine various retiree medical programs, with the Health Plan as the surviving plan. As a result, and effective January 1, 2023, the Keysight Technologies, Inc. Health Plan for Retirees (Health Plan for Retirees), the Keysight Technologies, Inc. Reimbursement Arrangement Plan (KRA), and the Keysight Technologies, Inc. Retiree Medical Account Plan (RMA) were combined into the Health Plan. Respective plan benefits continue and are referred to as Health Plan for Retirees, KRA, and RMA throughout the following disclosures.

The Health Plan’s assets are made up of interest-bearing cash held in a custodial trust account with Bank of New York Mellon, N.A. (Mellon), reported on the Form 5500 of this Plan (which is used for the Health Plan for Retirees), and an interest in the 401(h) Account held by the Keysight Technologies, Inc. Retirement Plan (the Retirement Plan) reported on the Form 5500 of the Retirement Plan. The 401(h) Account has an interest in the Keysight Technologies, Inc. Master Trust (the Master Trust). The assets of the 401(h) Account are included as assets of the Health Plan in these financial statements, but are used to fund the benefit obligations of the Health Plan for Retirees, the KRA, and the RMA.

Administration

The Company has appointed the Benefits Committee (the Committee) to manage the operation and administration of the Health Plan. The Company has contracted with Mellon to act as the custodian and trustee, and a third-party administrator, Fidelity Workplace Services, LLC (Fidelity), to process and maintain the records of participant data.

For the Health Plan for Retirees, the Company has also contracted with UnitedHealthcare (UHC) and Kaiser to administer the processing and payment of claims from the Health Plan’s assets.

The Company has also contracted with Willis Towers Watson and its wholly owned subsidiary Extend Health, Inc. (Extend Health), to administer the processing and payment of claims for health insurance premium reimbursements from the KRA and the RMA.

All eligible expenses incurred for administering the Health Plan are paid by the 401(h) Account.

Premiums for the Health Plan for Retirees are collected from participants and deposited by Fidelity into a trust account with Mellon for the benefit of the Health Plan for Retirees. The trust account is at all times subject to the condition that the assets are held for the exclusive purpose of providing benefits to the participants in the Health Plan for Retirees and their beneficiaries.

Funding Policy

The Health Plan is funded by participants' contributions held in a custodial trust and also assets held in the 401(h) Account. There were no contributions made by the Company to the 401(h) Account during the year ended December 31, 2024, and there were no minimum contributions by the Company required at December 31, 2024 and 2023.

401(h) Account

A separate account (the 401(h) Account) has been established and maintained in the Retirement Plan to fund certain postretirement obligations for eligible retirees and their eligible dependents for the Health Plan for Retirees, KRA, and RMA, in accordance with Section 401(h) of the Code. In accordance with Section 401(h) of the Code, the investments in the 401(h) Account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries under the Health Plan for Retirees, the KRA, and RMA. Benefits provided under the Health Plan are primarily funded with investments of the 401(h) Account and participants' contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company, as applicable. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Due to Plan Administrator

As of December 31, 2025, the Company paid on behalf of the Health Plan benefit payments and insurance premiums of approximately $65,000 and $30,000, respectively. As of December 31, 2024, the Company paid on behalf of the Health Plan, benefit payments and insurance premiums of approximately $227,000 and $48,000, respectively. The benefit payments and insurance premiums have been recorded as due to the Health Plan administrator on the statements of net assets available for benefits at December 31, 2025 and 2024.

Claims Incurred but not Reported

Health Plan obligations at December 31, 2025 and 2024, for claims incurred by participants but not paid at that date, are estimated by the Health Plan's actuary in accordance with accepted actuarial principles. The actuarial computations are based on historical payments and claim statistics. Estimated amounts reported are subject to change over time and these changes could have a material impact on the Health Plan's financial statements.

Subsequent Events

Subsequent events were evaluated through August 27, 2026, the date the financial statements were available to be issued.

Reclassification

Certain amounts from the prior year statement of net assets of the Master Trust have been reclassified in order to conform to the current year presentation.

3. Plan Benefits

The Health Plan for Retirees is comprised of two separate programs: The Pre-Medicare Medical Plan (self-funded) and the Alternative Health Care Options (HMOs) offered by the Company. Furthermore, effective August 1, 2015, the Health Plan for Retirees was closed to new entrants who did not meet the eligibility requirements at some time on or after August 1, 2014, and before August 1, 2015.

Self-Insured Health Care Benefits

The Pre-Medicare Medical Plan provides for reimbursement of certain medical and prescription drug expenses incurred by eligible retirees, totally disabled former employees and their eligible dependents, and eligible dependents of deceased Electronic Measurement Group (EMG) employees or deceased EMG members who died prior to January 1, 2009, if such individuals are not eligible for and/or enrolled in Medicare Part A and/or Part B.

Other Benefits

The Alternative Health Care Options are fully insured health maintenance organizations (HMOs) with Kaiser. The Health Plan pays monthly premiums to the HMOs and the HMOs provide services to the participants who have elected this option. Payment of all benefits is made by the related insurance companies. Participants are also required to pay monthly contributions to the Health Plan in order to receive these benefits. The terms of coverage under HMOs are determined in accordance with the provisions of each HMO. An individual must be eligible to otherwise participate under the terms of the Pre-Medicare Medical Plan in order to participate in an HMO offered by the Company.

Participant Contributions

In addition to deductibles and copayments, participants pay monthly premium amounts based on their respective benefit elections, for the Health Plan for Retirees. The costs of the postretirement benefits are shared by the Company and participants.

KRA and RMA Benefits

For KRA and RMA benefits, participants are eligible if they’re not eligible under the Agilent Technologies, Inc. Retiree Medical Account Plan (the Agilent RMA), or the Agilent Technologies, Inc. Reimbursement Arrangement Plan (the ARA), The RMA and KRA also have eligibility provisions by various groups, and participants should refer to the applicable plan documents for further details for eligibility into the various benefits.

The KRA benefits provide for reimbursement up to a specified monthly amount of eligible health insurance premium costs incurred by participants and their eligible spouse or domestic partner.

The reimbursement of eligible health insurance premium costs incurred by participants and their eligible spouse or domestic partner is limited to a monthly amount based on the participants’ years of full-time equivalent service. Any monthly amount not entirely used by a participant in a particular month carries over to the next month within the same calendar year. Unused amounts at the end of the same calendar year will not carry over from year to year.

The RMA benefits provide for reimbursement up to a specified amount of eligible health insurance premium costs incurred by participants and their eligible spouse.

The reimbursement of eligible health insurance premium costs incurred by participants and their eligible spouse is limited to a specified amount. Any amount not entirely used by a participant is carried forward from year to year until it is exhausted or otherwise terminated in accordance with the RMA provisions.

4. Postretirement and Postemployment Benefit Obligations

The postretirement benefit obligation is based on actuarial assumptions that are subject to change over time and could have a material impact on the Health Plan’s financial statements. As a result of the Health Plan only reimbursing certain medical and prescription drug expenses incurred by the participants up to predetermined levels. The effects of health care cost trends are included in calculating this obligation.

The postretirement benefit obligation represents the actuarial present value of those estimated future fixed monthly subsidy benefits that are attributed to employees' service rendered to the date of the financial statements. Postretirement benefits include future benefits expected to be paid on behalf of: (1) currently retired employees and their eligible dependents prior to their turning age 65 and (2) active employees and their eligible dependents after retirement from service with the Company and certain related entities and prior to their turning age 65. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date. The postretirement benefit obligation represents the amount that is to be funded by contributions from the 401(h) Account.

The actuary determines the actuarial present value of the postretirement benefit obligations by discounting pre-65 fixed monthly subsidy amounts for the time value of money, and the probability of payment between the valuation date and the expected date of payment.

Significant assumptions used in the valuations as of December 31, 2025 and 2024, are a discount rate of 5.25% and 5.50%, respectively, and a mortality table using 80% of Pri-2012 White Collar from 2012 with MP-2021 Projection Scale.

The foregoing assumptions are based on the presumption that the Health Plan will continue. In the event the Health Plan was terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

Effect of change in health care cost trend rate	**(in thousands) 2025**	**(in thousands) 2024**
Impact on total benefit obligations due to		
One-percentage-point increase	$ 309	$ 356
One-percentage-point decrease	$ (339)	$ (397)

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate debt instruments: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks, or a broker quote if available.

Preferred stocks and other investments – Valued using the market approach based on quoted exchange rates or at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded. When active market quotes are not available, the Master Trust uses industry standard valuation models. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, credit risk, foreign exchange rates, and forward and spot prices for currencies.

Investments measured at net asset value: Consisting of collective trusts, valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Master Trust to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Master Trust has a significant investment in the Ninety One Emerging Markets Equity Fund that is not a direct filing entity. The Fund’s investment objective is to achieve long term capital growth through primarily investment in equity securities issued by companies or equity-related securities of companies established and/ or listed on an exchange in emerging markets, or companies which are established and/or listed on exchanges outside emerging markets but which carry out a significant portion of their economic activity in emerging markets.

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the NAV practical expedient of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. There are no redemption restrictions on the Plan's investments in PSAs.

The Master Trust has a significant investment in the PRISA Core RE fund that is not a direct filing entity. The PSA seeks to provide capital appreciation and income by investing primarily in domestic real estate securities.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024 (in thousands), and does not include the Plan's interest in the Master Trust because that information is presented in a separate table (see Note 6):

6. Interest in Master Trust

The Master Trust was established on August 1, 2014, to hold substantially all of the Retirement Plan’s assets (including those of the 401(h) Account) and the assets of the Keysight Technologies, Inc. Deferred profit sharing Plan.

The Master Trust was established to achieve certain economies in the management of investments and to maximize the return on investments of participating plans. Each participating plan has a proportional interest in the Master Trust, as more fully described below. Assets of the Master Trust are invested by investment managers in accordance with guidelines established by the Committee.

Within the Master Trust, investments are segregated into investment pools based on the ownership and investment objectives of each participating plan. Three types of investment pools have been established in the Master Trust based on the principal types of investments held: an Equity pool, a Fixed Income pool, and a TIP pool. Each participating plan in the Master Trust has a proportional interest in each one of these pools. Within each of these pools, the net assets allocable to each plan are separately accounted for by Mellon. The net investment income (loss) of each investment pool is allocated monthly by Mellon between each of the participating plans based on their relative ownership of the net assets of that pool at the beginning of the month.

The 401(h) Account’s allocated interest in the net assets of the Master Trust at December 31, 2025 and 2024, was approximately $178,056,000 (17%) and $167,642,000 (17%), respectively.

A portion of the Plan's investments are held in a master trust (the Master Trust), which was established for the investment of assets of the Plan and several other sponsored retirement plans. Each participating retirement plan has an interest in the Master Trust. The assets of the Master Trust are held by .

The following table presents the investments and other assets and liabilities of the Master Trust as of December 31, 2025 and 2024:

7. Related-Party and Party in Interest Transactions

Certain investments held by the Master Trust are managed by the Custodian, and therefore, these transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. 401(h) Account

A portion of the Plan's obligations are funded through contributions to the Keysight Technologies, Inc. Retirement Plan in accordance with IRC Section 401(h). The following tables present the components of the net assets available for such obligations as of December 31, 2025 and 2024, and the related changes in net assets available for the year ended December 31, 2025.

10. Tax Status

The custodial trust funding the Health Plan has not received an exemption letter from the Internal Revenue Service (IRS) stating that it is tax-exempt under Section 501(a) of the Code. The Health Plan administrator believes the Health Plan and the custodial trust are operating in conformity with the Code and ERISA. Income tax obligations, if any, are paid by the Company.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Health Plan’s tax positions and does not believe the Health Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Health Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of the investment security such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

In the normal course of operations, assets in the Master Trust are invested in financial instruments that may give rise to off-balance sheet risk. These instruments involve, in varying degrees, elements of credit and market risk in excess of the amounts recognized on the statements of net assets available for benefits. The notional value provides a measure of the Master Trust’s involvement in such instruments but is not indicative of potential loss. The intent is to use these financial instruments to reduce, rather than increase, market risk. There were no significant off-balance sheet risks as of December 31, 2025 and 2024.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024, to Form 5500 (in thousands):

	(in thousands) 2025	(in thousands) 2024
