INDEPENDENT AUDITOR'S REPORT

To the Trustee and the Plan Administrators
GRACE STAKEHOLDER INVESTMENTS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
Russellville, Arkansas

Opinion

We have audited the accompanying financial statements of Grace Stakeholder Investments, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974 (ERISA)*, which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Plan management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Plan management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due, or which may become due, to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by plan management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H – Line 4(i) – Schedules of Assets (Held End of Year) as of December 31, 2025 (the Supplemental Schedule) on page 16, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's (DOL) *Rules and Regulations for Reporting and Disclosure Under ERISA*. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the Supplemental Schedule has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the Supplemental Schedule, we evaluated whether the Supplemental Schedule, including its form and content, is presented in conformity with the DOL's *Rules and Regulations for Reporting and Disclosure Under ERISA*.

In our opinion, the information in the Supplemental Schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's *Rules and Regulations for Reporting and Disclosure Under ERISA*.

Emphasis of Matter

The primary asset of the Plan is its investment in the common stock of Grace Stakeholder Investments, Inc. (the Company). As described in Notes 2, 3, and 4 to the financial statements, based on an independent appraisal, the Trustee has determined the fair value of the investment in Grace Stakeholder Investments, Inc. common stock recorded in the accompanying financial statements.

GRACE STAKEHOLDER INVESTMENTS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE 1 SUMMARY DESCRIPTION OF THE PLAN

The following brief description of the Grace Stakeholder Investments, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

General

The Plan is a defined contribution plan covering certain employees of Grace Stakeholder Investments, Inc. (the Company). The purpose of the Plan is to enable participating employees to acquire a beneficial interest in the Company in order that they may share in the growth and prosperity of the Company and accumulate capital for future economic benefit.

The Plan became effective January 1, 2018, with the most recent amendment December 23, 2022. The Plan is subject to the applicable provisions of the Department of Labor's (DOL) *Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974 (ERISA)*, as amended. The Plan is qualified as a leveraged Employee Stock Ownership Plan (ESOP) and is designed to comply with Section 4975(e)(7) and regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and also qualifies for preferred tax treatment under Section 401(a) of the IRC. The Plan is administered by the Company's external Trustee (the Trustee). The Trustee has overall responsibility for the operation and administration of the Plan. The Trustee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan purchased certain company common stock through a loan payable (see Note 5) to the Company, which is held in a trust established under the Plan. The borrowings are to be repaid over a period of 40 years by fully deductible company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowings are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the years then ended, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with vested rights in allocated common stock (allocated)
2. Common stock not yet allocated to employees (unallocated)

Eligibility and Participation

Substantially all employees over the age of 21 of the Company and certain wholly owned subsidiaries, specifically, Grace Manufacturing, Inc., Act Two, Inc. dba Arkansas Sign and Banner, Grace Sign Group, LLC, and Kensington Medical Holdings, LLC, become participants in the Plan on or after the entry dates (January 1 or July 1 of each year) coinciding with or next following the completion of one year of service, defined as the completion of 1,000 hours of service. Participants who have not worked at least 1,000 hours of service during a plan year, or are not employed on the last working day of a plan year, are generally not eligible for an allocation of company contributions for such year.

NOTE 1 SUMMARY DESCRIPTION OF THE PLAN – Continued

Employer Contributions

The Company may make regular or matching contributions as determined by the Company's Board of Directors. These employer contributions may be paid in cash or shares of company common stock. Generally, it is the Company's intention to make annual contributions to the Plan in the amount necessary to, at a minimum, satisfy the Grace Holdings, Inc. Employee Stock Ownership Trust's (the Trust) annual exempt loan payment obligation.

Voting Rights

For certain corporate matters, participants are entitled to voting rights attributable to the shares allocated to his or her account and are notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year, with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Regular contribution allocations are based on a participant's eligible compensation, relative to total eligible compensation. Matching contribution allocations are based on participant deferral contributions to the Grace Manufacturing, Inc. 401(k) Profit Sharing Plan and Trust (the 401(k) Plan) by the participants of the 401(k) Plan. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. Since inception of the Plan and through the date of this report, only regular contributions have been made to the Plan.

Vesting and Distribution of Benefits

Vesting in the either type of the Company's contribution portion of participants' accounts is based on continuous years of service and increases to 100 percent after six years of service as defined by the Plan document. Plan participants become fully vested if employment is terminated after age 65 regardless of the number of years of service, or as a result of death or total disability at any age.

Upon termination of employment, a participant is eligible for payment of their vested account balance. If a participant leaves employment, due to retirement, death, or disability, they become 100 percent vested in their account balance. Benefit distributions are paid in cash.

In the event of a participant's termination of service, the vested account balance will be distributed. The Trust maintains a mandatory cash-out of benefits threshold for vested amounts of \$1,000 or less. If the balance exceeds \$1,000, at the direction of the participant, the mandatory cash-out may be made in the form of a cash payment, or a direct rollover to another qualified plan or an individual retirement account. In certain instances, the Trust may elect to delay payment according to the terms of the distribution policy.

Diversification

Diversification is offered to participants close to retirement age so that they may have the opportunity to move part of the value of their investment in company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the value of the participant's company stock account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive either a cash distribution, or it may be transferred to another retirement account.

Rights and Options on Distributed Shares of Common Stock

Under federal income tax regulations, the Company's common stock that is held by the Plan and its participants and is not readily tradeable on an established market or is subject to trading limitations, includes a put option or mandatory buy-back provision. The Trust or the Company, as the case may be, must purchase the shares distributed to a participant or to a beneficiary at their fair value effective on the same day as the distribution occurs. Fair value is representative of the current appraised value of the stock. The terms of payment for the shares to be purchased may be either in lump sum, or in up to five equal annual installments (plus interest), as determined by the Trustee.

Forfeitures

During the year in which a participant experiences a termination of employment, the nonvested portion of their benefit is forfeited. If the participant transfers classification as an eligible employee to an ineligible employee, the participant continues to vest until the account is distributed. If a terminated participant is re-employed by the Company, the participant is subject to the break in service rules, as defined by the Plan and may be eligible to have the forfeited amounts restored. Forfeited amounts may be used to pay administrative expenses incurred by the Plan, reduce future contributions, restore forfeitures of participants' accounts, or may be allocated to the remaining active participants in the same manner as employer regular contributions are allocated. Forfeitures allocated to participants during the years ended December 31, 2025 and 2024 totaled \$68,024 and \$46,534, respectively. There were no forfeited nonvested accounts that remained unallocated as of December 31, 2025 and 2024.

Administration

The Plan is administered by the Trustee. Company contributions are held and managed by the Trustee, who invests cash received, interest, and dividend income, and makes distributions to participants. Certain administrative functions are performed by a compensated third party administrator, while other administrative functions are performed by officers or employees of the Company, for which no such officer or employee receives compensation from the Plan. Administrative expenses of the Plan are paid by the Company. The Plan assets are invested and controlled by the Trustee.

Dividends

Dividends on company stock, at the discretion of the Company, may be paid directly to plan participants. During the years ended December 31, 2025 and 2024, there were no dividends paid by the Company to the Plan.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Fair Value of Financial Instruments

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest level of priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the FASB ASC 820-10 are as described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the assets or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

The Trust has certain financial instruments, which are carried at their fair value, but are not held for trading purposes. The Company's common stock is valued at each year-end at fair value as determined by the Trustee, based on an annual independent appraisal.

The appraisal was based on a combination of various valuation techniques, including the guideline public company method, the merger and acquisition method, and the discounted cash flow method, taking into account unobservable inputs, such as historical and projected cash flows, net income, return on net assets, return on equity, market comparables, weighted average cost of capital, discount for lack of marketability, and estimated fair value of company assets and liabilities. The change in value of the common stock is recognized as investment income on the accompanying Statements of Changes in Net Assets Available for Benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value, or reflective of future fair values. Furthermore, while the Trustee believes the value concluded by the annual appraisal is appropriate and consistent with all governing rules and regulations, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

DECEMBER 31, 2025 AND 2024

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES – Continued

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting. Benefits are recorded when paid.

Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, requires management and/or the Trustee to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein, and the disclosures of contingent assets and liabilities. The valuation of investment assets and income include significant estimates, which may change in the near term. It is also at least reasonably possible that actual results could differ from other estimates used.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral, and become allocated generally in the period in which debt service is actually paid.

Uncertain Tax Positions

The Plan follows recognition requirements for uncertain income tax positions as required by the FASB ASC 740-10. Income tax benefits are recognized for income tax positions taken, or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Plan has analyzed tax positions taken for filing with the Internal Revenue Service (IRS), the DOL's Employee Benefits Security Administration, and the state jurisdiction where it operates. The Plan believes that income tax filing positions will be sustained upon examination, and does not anticipate any adjustments that would result in a material adverse effect on the Plan's financial condition, results of operations, or cash flows. Accordingly, the Plan has not recorded any reserves or related accruals for interest and penalties for uncertain income tax positions at December 31, 2025 and 2024.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any open tax periods.

Pending Accounting Pronouncements

From time to time new accounting pronouncements are issued by the FASB that are adopted by the Plan as of the specified effective date. If not discussed, the Plan Administrator believes that the impact of recently issued standards, which are not yet effective, will not have a material impact on the Plan's financial statements upon adoption.

Subsequent Events

Subsequent events have been evaluated through September 17, 2026, which is the date the financial statements were available to be issued.

NOTE 5 LOAN PAYABLE

On December 31, 2018, the Plan purchased 1,000,000 shares of the Company's common stock from the Company for \$1,500,000 (\$1.50 per share as valued in an independent valuation as of December 31, 2018). The entire purchase was financed with a loan payable bearing interest at 3.31 percent requiring yearly payments of principal and interest totaling \$65,220. The loan is to be repaid over a period of 40 years, which is anticipated to be funded by company contributions. The loan is collateralized by the unallocated shares of common stock associated with the loan.

The Company intends to make cash contributions to enable the Plan to make its regularly scheduled payments of principal and interest due on the loan payable. As the Plan makes principal and interest payments, an appropriate percentage of stock will be allocated to eligible employees' accounts. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year principal and interest payments, divided by the total of the current year principal and interest, plus all future years' principal and interest payments. This resulted in 24,390.24 shares being released and allocated in both the Plan years ended December 31, 2025 and 2024, in accordance with applicable regulations under the IRC. For financial reporting purposes, the shares pledged as collateral are reported as unallocated ESOP shares in the Statements of Changes in Net Assets Available for Benefits.

The scheduled amortization of the loan payable for the next five years and thereafter as of December 31, 2025 is as follows:

Year Ending December 31,	Amount
2026	\$ 22,268
2027	23,005
2028	23,767
2029	24,553
2030	25,366
Thereafter	<u>1,178,690</u>
Total	<u>\$ 1,297,649</u>

NOTE 6 RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock, and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 7 TAX STATUS

The IRS has determined and informed the Company by a letter dated April 2, 2020, that the Plan (as originally formed January 1, 2018) and the related trust, are designed in accordance with the appropriate sections of the IRC. The Plan has since been amended, and although the Company has not updated the determination letter, the Plan believes the amendments are designed in accordance with the applicable sections of the IRC.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company reserves the right to discontinue contributions or terminate the Plan at any time, subject to plan provisions. In the event of termination, if the Plan is not replaced by a comparable plan qualified under Section 401(a) of the IRC, the accounts of all participants become nonforfeitable. After termination of the Plan, the Trust will continue until the Plan benefits of each participant are distributed to such participant or his or her beneficiary at the time prescribed by plan terms and the IRC.

Upon termination of the Plan, the Trustee shall pay all liabilities and expenses of the Trust, and sell shares of financed common stock held in the loan suspense account, to the extent it determines such sale to be necessary to repay any loan.

NOTE 9 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in company common stock and has indebtedness to the Company collateralized by the Company's unallocated common stock. These are related party and party-in-interest transactions. The Plan has a number of service providers and certain employees perform administrative functions. Such parties are parties-in-interest under *ERISA*.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of *ERISA*.
