The Plan Administrator
Akamai Technologies, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(c) Audit

We have performed the audits of the financial statements of the Akamai Technologies, Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, (1) Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2025 and (2) Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

AKAMAI TECHNOLOGIES, INC. 401(k) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Akamai Technologies, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan with a cash deferred 401(k) arrangement sponsored by Akamai Technologies, Inc. (the “Employer”) covering all employees who have met certain eligibility requirements (“Participants”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Substantially all of the investments are participant directed.

Eligibility

All employees are eligible to participate immediately in the Plan, regardless of age, with the exception of those covered by a collective bargaining agreement, certain leased employees, independent contractors not entitled to benefits under the Plan, certain nonresident aliens and employees who are residents of Puerto Rico.

Participant Contributions

The Plan allows participants to contribute up to 80% of eligible annual compensation in a calendar year on a pre-tax, Roth or after tax contribution. Newly eligible employees are automatically enrolled in the Plan at an initial 8% deferral unless they affirmatively elect otherwise. Subsequent year contributions are increased 1% per year to a maximum of 10%. The Plan allows for rehired employees to be eligible for automatic enrollment. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans (“rollovers”). Participants who reached the age of 50 before the end of the Plan year are eligible to make additional catch-up contributions.

Employer Contributions

Each Plan year, the Employer, at its sole discretion, may make matching contributions to the Plan. For the Plan year ended December 31, 2025, the Employer’s matching contribution was 75% of the Participants’ elective deferrals up to the annual contribution limit on the first 8% of eligible compensation deferred by each participant, subject to an annual maximum matching contribution of \$9,000 per participant. Effective January 1, 2025, the matching contribution is invested directly in the Company’s common stock.

Each Plan year, the Employer, at its sole discretion, may make non-elective Employer contributions to the Plan. Allocations are made to participants, as defined in the Plan. To be eligible, a participant must be either employed as of the last day of the Plan year or have terminated during the year after attaining the normal retirement age, as defined, or due to death or disability. There were no non-elective Employer contributions made to the Plan during the Plan year ended December 31, 2025.

AKAMAI TECHNOLOGIES, INC. 401(k) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Employer Contributions (Continued)

The Employer may make additional qualified matching contributions to non-highly compensated participants, as defined in the Plan, in the event the Plan does not pass non-discrimination testing. For the year ended December 31, 2025, it was not necessary to make this contribution.

All contributions are subject to Internal Revenue Service (“IRS”) limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, any discretionary Employer contributions and Plan earnings/losses and is charged with administrative fees. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balances. The Plan allocates amounts held in the revenue credit account after paying Plan expenses to participants based on participant balances.

Vesting

Participants are vested immediately in their deferral, Employer matching, and rollover contributions adjusted for actual earnings or losses thereon. Participants become vested in any non-elective Employer contributions, at a rate of 25% vested for each year of service, becoming fully vested after four years.

Forfeitures

Upon termination of service, any non-vested portion of the account will be forfeited as of the date on which the participant has five consecutive one-year breaks in service. Any forfeited amounts will be restored to a participant’s account if re-employed by the Employer before incurring five consecutive one-year breaks in service or if, after the participant received a distribution of the vested account, the participant repays the full amount of the distribution before the end of the five-year period. Such forfeitures are used to pay the Plan’s administrative expenses, if any, and reduce future Employer contributions. Any forfeitures remaining after administrative expenses have been paid shall be applied to reduce any discretionary Employer contributions. At December 31, 2025 and 2024, the forfeiture balances were \$84,814 and \$3,717, respectively. During the year ended December 31, 2025, the Plan did not utilize the forfeiture account to offset a portion of the Employer matching contributions or pay Plan administrative expenses.

AKAMAI TECHNOLOGIES, INC. 401(k) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Withdrawals and Distributions

Upon normal retirement (presently age 60), disability, retirement, death or termination, the participant or beneficiary, in conjunction with terms of the Plan, may elect to receive a lump-sum amount equal to the value of the funds allocated to the participant account or an in-kind distribution of Company stock in the form of shares. In lieu of a lump-sum payment, the participant or beneficiary may elect to receive installment payments. The Plan also allows for partial payments. In-service withdrawals from the participant's account are permitted upon reaching age 59½, as defined.

In-service withdrawals are also permitted from the participant's rollover account at any time or during Qualified Military Service, as defined. If a participant's vested interest in their account is less than \$7,000, it shall be distributed in a lump sum as soon as practical as determined by the Plan administrator. The Plan allows for hardship withdrawals to meet a participant's immediate and heavy financial needs, as defined. Participants may take a hardship withdrawal from only their deferral account. The minimum hardship withdrawal is \$500.

Notes Receivable from Participants

In accordance with the Plan document, participants may borrow a minimum loan amount of \$1,000 up to the lesser of \$50,000 or 50% of their vested interest in the account. A participant may have only one loan outstanding at any time. The maximum term of such loans is five years except for loans related to the purchase of a primary residence, in which case the loan repayment period may not extend beyond 10 years from the date of the loan. Loans are secured by the balance in the participant's vested account and bear interest at the prevailing rate charged for similar loans. Principal and interest are paid ratably through payroll deductions for active participants, and terminated participants are able to make payments after termination of employment.

Diversification

Participants have the opportunity to move the value of their investment in Company stock into investments that are more diversified. Participants may elect to diversify the balance in the Company stock portion of their account at any time. Participants who elect to diversify may invest diversified funds in any Plan investment option.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

AKAMAI TECHNOLOGIES, INC. 401(k) PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Contributions

Contributions from Plan participants and the Employer are recorded in the year in which the contributions are withheld from compensation.

Investments, Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the trustee and custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Unit Values

Individual participant accounts for the stable value common/collective trust are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the trust but do have an interest therein represented by units which are valued daily. The trust earns dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from the trust are converted to units by dividing the amounts of such transactions by the unit value as last determined, and the participants' accounts are charged or credited with the number of units attributable to each participant.

Benefits Paid

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Reclassifications

Certain reclassifications have been made to the 2024 financial statements to conform to the presentation used in 2025. The reclassification had no effect on the previously reported net assets available for benefits.

Subsequent Events

The Employer has evaluated subsequent events through September 11, 2026, the date that the financial statements were available to be issued. No significant matters for disclosure were identified during this evaluation.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in similar markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

AKAMAI TECHNOLOGIES, INC. 401(k) PLAN

Notes to Financial Statements

Note 3 - Fair Value Measurements (Continued)

Mutual funds and money market fund: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Stable value common/collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months’ notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common stocks (included in Self-directed brokerage): Common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

Exchange traded funds (included in Self-directed brokerage): Valued at the NAV of shares held by the Plan at year end, as quoted in the active market, and are classified within Level 1 of the valuation hierarchy.

Corporate Bonds and Obligations of the U.S. Government or Its Agencies (included in Self-directed brokerage): Valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Company Stock Fund: Valued at the closing price reported on the active market on which the individual securities are traded.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2025 and 2024. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Notes to Financial Statements

Note 4 - Administrative Expenses

The Plan's expenses related to the administration of notes receivable from participants are allocated to the participants with the exception of certain administration fees which are paid by the Employer. Fees are paid through revenue sharing, rather than a direct payment.

Note 5 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events such as an international conflict which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 6 - Information Certified by the Trustee and Custodian

Plan investments are held by the Plan's trustee and custodian, Fidelity Management Trust Company ("Fidelity"). The fair value of investments and notes receivable from participants as of December 31, 2025 and 2024, and all investment and notes receivable from participant transactions for the year ended December 31, 2025, including interest and dividends and net appreciation in fair value are certified as complete and accurate and reported to the Plan by Fidelity. Information contained in the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is also certified by Fidelity. Participants may direct their contributions as well as Employer contributions to any of several investment options.

The following is a summary of the information certified by Fidelity Management Trust Company, the trustee and custodian, as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 8 - Related-Party Transactions and Exempt Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee and custodian of the Plan and, therefore, these transactions are considered exempt party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. For the year ended December 31, 2025, \$903,507 was paid by the Plan for vendor and administrative services and received \$528,695 of revenue sharing credits were received from Fidelity. The revenue sharing credits were netted against expenses.

A portion of the Plan's assets are invested in the Company's common stock. Because the Company is the Plan Sponsor, transactions involving the Company's common stock qualify as related party transactions. For the year ended December 31, 2025, the Plan made purchases of \$28,190,026 and sales of \$8,675,146 in the Employer Stock Fund. Additionally, as of December 31, 2025, the Plan's held 19,479,001 shares of Company stock in the stock fund with a value of \$20,704,631.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

Note 10 - Tax Status

The Plan has adopted a Fidelity plan document using a standardized prototype adoption agreement, which received a favorable opinion letter dated June 30, 2020, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11 - Delinquent Participant Contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the Employer's general assets. During the year ended December 31, 2025, \$264 in participant contributions were remitted late to the Plan, after the Plan year end, resulting in delinquent contributions. The delinquent contributions and earnings on such contributions will be funded during 2026 to all the affected participants. During the year ended December 31, 2024, \$129,789 in participant contributions were remitted late to the Plan, after the Plan year end, resulting in delinquent contributions. The delinquent contributions and earnings on such contributions were funded during 2025 to all the impacted participants.

Note 12 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31:

	<i>2025</i>	<i>2024</i>
Net assets available for benefits per the financial statements	\$ 1,703,878,513	\$ 1,440,232,359
