INDEPENDENT AUDITOR'S REPORT

The Members
Siemens Energy, Inc. Benefits Committee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Siemens Energy, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024 and for the years then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate to the best of the qualified institution's knowledge and belief.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Siemens Energy, Inc. Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Certain groups of employees who participated in pension plans that have been merged into the Plan may be subject to terms and conditions that differ from those described below.

General:

The Plan is a cash balance defined benefit plan sponsored by Siemens Energy, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was established on September 28, 2020 to accept a spin-off of the accumulated participant benefit liabilities and associated net assets related to employees of the Company that were held by other defined benefit plans sponsored by Siemens Corporation (an indirectly wholly-owned subsidiary of Siemens AG) (Prior Plans).

The Bank of New York Mellon (the Trustee) is the trustee of the Plan. The Trustee holds the Plan's assets and executes the Plan's transactions.

JPMorgan Chase Bank, N.A. (Former Trustee) was the trustee of the Plan through January 31, 2024. Accordingly, the Former Trustee held the Plan's assets and executed the Plan's investment transactions through January 31, 2024.

Plan participants primarily were originally enrolled and accrued benefits upon meeting the eligibility provisions of the Prior Plans. Participation in the Plan is closed to new entrants. Benefits under the Plan were generally frozen under the Prior Plans, except for interest credits under the cash balance formulas of the Plan.

Administration:

The Siemens Energy, Inc. Benefits Committee (Benefits Committee) is responsible for administering the Plan's operations and for selecting and monitoring investments held by the Plan.

Pension benefits:

Generally, benefits are determined using a cash balance formula and a final average pay formula as described herein.

Participants subject to the cash balance formula receive a monthly interest credit. The interest credit, which is a percentage of the participant's monthly beginning balance, is based on the annual interest rate of the 30-year U.S. Treasury bonds as of August of the previous year, subject to a minimum annual interest rate of 4.06% for non-union participants. There is no minimum annual interest rate for union participants. The annual interest rate of the 30-year U.S. Treasury bonds of 4.15% and 4.28% was provided in 2025 and 2024, respectively, to both union and non-union participants.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

Pension benefits (continued):

Prior to benefits being frozen under the Prior Plans, participants under the cash balance formula received pay credits based on the participant's years of vesting service, pay and the level of contribution applicable to their employing company. Pay credits increased as the participant's pay and service increased. Participants who have a vested benefit under the cash balance formula may elect either a lump-sum payment or, if the amount of the benefit is greater than \$5,000, monthly annuity payments.

Participants who have a benefit under the final average pay formula are entitled to an annual pension benefit beginning at normal retirement age, which is the later of (i) attainment of age 65 or (ii) generally the completion of at least five years of employment or at least five years of participation. The annual pension under the final average pay formula is the greater of (i) 1.125% of the first \$12,000 of the participant's average final compensation, as defined by the Plan, plus 1.5% of the portion of the participant's average final compensation in excess of \$12,000, multiplied by the number of years and completed months, expressed as a fraction of a year, of benefit service or (ii) the minimum benefit, as defined by the Plan, for employees entitled to such benefit, all based on compensation and years of service prior to the date benefits were frozen under the Prior Plans.

Alternate benefits are available to certain participants who qualify based on certain provisions, as specified in the Plan. If the present value of the vested benefit under the final average pay formula is less than \$5,000, the Plan provides for the automatic lump-sum payment of pension benefits to participants. If the amount of the distribution is between \$1,000 and \$5,000 and if the participant does not elect to receive the distribution directly or to have the amount distributed as an eligible rollover, the Plan Administrator will direct that the amount be directly rolled over to an individual retirement plan designated by the Plan Administrator.

The final average pay formula of the Plan permits early retirement at a reduced benefit provided the participant has reached age 55 and has completed at least ten years of employment at the time of retirement. The reduction factors for early retirement under the final average pay formula are shown in the table below. There is no reduction in benefits for early retirement for participants that are age 62 and older when payments start.

Age When Payments Start	Total Monthly Reduction %
62 or later	0
61	5
60	10

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

Pension benefits (continued):

Under the cash balance formula, if a participant dies while employed, the participant's beneficiary can leave the benefit in the Plan until a later date, or can receive the benefit as a lump sum or as a single-life annuity payable for the life of the beneficiary based on the beneficiary's age when benefits begin.

Under the final average pay formula, if a participant dies while still employed or before the Plan benefits commence, the participant's spouse will receive an annuity payment for life equal to the 50% joint and survivor annuity benefit, not to be less than \$360 per year. If the spouse is more than 15 years younger than the participant, the minimum yearly pension benefit of \$360 is reduced by 1% for each year, or fraction thereof, by which the difference in age exceeds 15 years. If a retired participant receiving benefits dies, the surviving spouse or qualified domestic partner shall receive 50% of the pension which the participant would receive unless the participant has chosen one of the other optional forms of payment provided under the Plan.

If a participant becomes disabled and ends his/her employment, the cash balance account can be payable as a monthly annuity or a lump-sum payment. If a disabled participant begins to receive a benefit from the Plan while receiving a long-term disability benefit, the disability benefit will be reduced by the Plan benefit. If a lump-sum payment is elected from the Plan, the disability payment will be reduced each month by the single-life annuity value of the Plan benefit.

Prior to benefits being frozen under the Prior Plans, if a participant with a benefit under the final average pay formula incurred a total and permanent disability and (a) had workers' compensation payable in connection with the disability or (b) had completed at least ten years of service, the disability period was treated as benefit service and employment. Disability service ended on the earliest of the date on which the participant recovered, upon the participant's death, or upon the commencement of retirement benefits. Effective December 31, 2010, any participant who was out on a total and permanent disability ceased accruing any benefits under the Prior Plans but will, up to the earlier of the time the participant starts to receive his or her benefit or reaches age 65, continue to receive credit towards meeting any early retirement requirements under the final average pay formula.

Note 2. Summary of Accounting Policies

Basis of accounting:

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Accounting Policies (Continued)

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein in the financial statements and accompanying notes and supplemental schedules, as applicable. Actual results could differ from those estimates.

Risks and uncertainties:

The Plan invests in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Benefits Committee has diversified the net assets of the Plan with the intention of appropriately addressing significant concentrations of risk. Since the Plan's inception, the Plan's net assets were managed as separate investment funds by multiple investment managers.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment valuation and income recognition:

The investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee determines the Plan's valuation policies utilizing information provided by the Trustee and investment managers. See Note 9 for discussion of the Plan's fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Investment income is reduced for investment related fees and expenses.

Payment of benefits:

Benefit payments to participants are recorded when paid.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Accounting Policies (Continued)

Administrative expenses:

Only expenses of the Plan that are permitted to be charged to the Plan in accordance with applicable law and with the provisions of the Plan document are charged to the Plan. The Plan's administrative expenses primarily are related to recordkeeping, benefit processing and certain other administrative items. Expenses that are paid directly by the Company are excluded from these financial statements.

Subsequent events:

Subsequent events have been evaluated through September 18, 2026, which is the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan is generally funded solely by contributions made by the Company and its affiliates whose employees participated in the Plan. Employee contributions are not required or permitted by most participants under the Plan.

Contributions are determined annually based on actuarial valuations of the Plan by Willis Towers Watson US LLC (Willis Towers Watson), an independent consulting actuary. The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met for 2025 and 2024.

Note 4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for employee services already rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries; (ii) beneficiaries of employees who have died and (iii) present employees or their beneficiaries. Benefits under the Plan are based on employees' average compensation during the last five years of credited service or the total cash compensation during the year. The accumulated plan benefits for active employees are based on their average compensation during the four years ending on the date as of which the benefit information is presented (the valuation date) or the total cash compensation during the year. Benefits payable under all circumstances (i.e., retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employees' service rendered and compensation received up to the valuation date.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits for the Plan was determined by Willis Towers Watson, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the December 31, 2024 and 2023 valuation were:

1. Life expectancy of active participants – the Pri-2012 mortality table with a fully generational projection from the 2012 base tables using the 2026 and 2025 US SSA Intermediate long-term rate of improvement scales for December 31, 2024 and 2023, respectively. A blue collar adjustment to the Pri-2012 was made for union participants.
2. Expected Rate of return – 5.60% and 6.10% as of December 31, 2024 and 2023, respectively.
3. Weighted-average retirement age – 63 for the Plan.
4. Cash balance interest crediting rate of 4.06% for salaried and 3.50% for union employees for 2025, and 4.87% for salaried and union employees for 2026 and thereafter.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue even though benefits are frozen. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits as of December 31, 2024 were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024, there would be no material differences.

The actuarial present value of accumulated plan benefits as of December 31, 2024 is as follows:

Vested benefits:	
Active participants	\$ 149,090,453
Participants and beneficiaries currently receiving payments	314,576,469
Terminated vested participants	60,999,121
Nonvested benefits	<u>1,173,144</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 525,839,187</u>

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2024 are as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2023	<u>\$ 522,991,608</u>
Increase (decrease) during the period attributable to:	
Benefits accumulated	753,158
Actuarial gains	(2,409,589)
Decrease in discount period	30,614,314
Benefits paid	(44,398,721)
Assumption changes	<u>18,288,417</u>
Net increase	<u>2,847,579</u>
Actuarial present value of accumulated plan benefits as of December 31, 2024	<u><u>\$ 525,839,187</u></u>

The changes in the assumptions are generally related to the change in mortality improvements and a change in the expected rate of return.

Note 5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (b) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding the Plan's termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations.
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

NOTES TO FINANCIAL STATEMENTS

Note 5. Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 6. Parties-in-Interest

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of a plan, any party rendering services to a plan, the employer, certain participants, and others.

The Trustee serves as the custodian for certain investments in which the Plan participates. Therefore, transactions within these investments and transactions with the Trustee qualify as party-in-interest transactions.

Alight Solutions, LLC provides recordkeeping services to the Plan and, in addition to various other service providers, provides certain other administrative services to the Plan. Willis Towers Watson provides actuarial services to the Plan. The Plan receives investment advisory services and certain other trust and custodial administrative services from various service providers. Therefore, transactions with these various service providers qualify as party-in-interest transactions.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 5, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision has been made for Federal income taxes.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is subject to income tax examinations for all tax years since the Plan's inception.

Note 8. Information Certified by the Plan's Trustee

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by the Trustee. The Plan Administrator has obtained a certification from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedules related to the following assets:

	2025	2024
Investments, at fair value	<u>\$ 519,154,155</u>	<u>\$ 527,500,448</u>

The Trustee has also certified to the completeness and accuracy of the following information for the year ended December 31, 2025 and the period from February 1, 2024 through December 31, 2024 to the best of their knowledge and belief:

	2025	2024
Investment income:		
Net appreciation in fair value of investments	\$ 31,580,078	\$ 4,641,394
Interest	12,038,731	11,549,484
Dividends	73,079	57,790
	<u>\$ 43,691,888</u>	<u>\$ 16,248,668</u>

The Former Trustee was unable to certify investment income for the month of January 2024, when it was trustee during 2024. The certified investment income for 2024 reflects only activity for the period from February 1, 2024 through December 31, 2024, which was certified by the Trustee.

NOTES TO FINANCIAL STATEMENTS

Note 9. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority level to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- observable inputs other than quoted prices that are used in the valuation of the asset or liability (e.g., interest rate and yield curve quotes at commonly quoted intervals); and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used by the Plan at December 31, 2025 and 2024 for assets measured at fair value. There have been no changes in the methodologies used by the Plan at December 31, 2025 and 2024.

Interest-bearing cash: Interest-bearing cash is classified as Level 1 as these financial instruments are highly liquid.

Equity Securities: Equity securities primarily consist of common and preferred stocks in which the Plan holds a share directly. These assets are valued at the closing price reported on the active market on which the individual securities are traded.

Fixed Income Securities: Investments are valued utilizing data furnished by an independent pricing service, incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, model processes such as the Option Adjusted Spread model to assess interest rate impact and develop prepayment scenarios. Both models and processes take into account market conventions.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 9. Fair Value Measurements (Continued)

Registered Investment Funds: Registered investment funds are open-end mutual funds valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The funds held by the Plan are deemed to be actively traded.

Collective Trust Funds: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is primarily based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. These investments have no redemption restrictions or unfunded commitments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes their valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total

Economic Assumptions

Interest rate basis

- Applicable month December
- Interest rate basis Full Yield Curve

Interest rates

- 10-year rate 5.20%
- 20-year rate 5.56%
- 30-year rate 5.58%
- Effective interest rate 5.26%

As permitted by law, a yield curve reflecting returns on high quality corporate bonds (A, AA and AAA) is used to determine the funding target and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are prescribed by law and reflect current market conditions (specifically, the average market conditions for the month preceding the valuation date) they may from time to time be inconsistent with other economic assumptions used in the valuation, which may reflect both current economic conditions and assumed future conditions.

Annual rates of increase

- Cash balance interest crediting rate (Salaried Employees) 4.15% for 2025 and 4.06% for 2026 and thereafter
- Cash balance interest crediting rate (Union Employees) 4.15% for 2025 and 3.50% for 2026 and thereafter
- Employee contribution interest rate 2.00%
- Compensation (Union Employees) 3.00%
- Future Social Security wage base (Union Employees) 2.00%
- Statutory limits on compensation N/A

Administrative expenses \$2,848,000 Based on prior year's actual expenses, adjusted for the change in expected PBGC premium from the prior to current year.

Form of payment for active participants (Salaried)

For Cash Balance participants who terminate after retirement age eligibility, 30% are assumed to elect an immediate lump sum payment, 7% elect an immediate life annuity, 48% elect a lump sum payable at age 62, and 15% elect a life annuity payable at age 65. Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

For Cash balance participants who terminate prior to retirement age eligibility, 20% are assumed to elect an immediate lump sum payment, 65% elect a lump sum payment at age 62, and 15% elect a life annuity payable at age 65. All other participants are assumed to elect a single life annuity. Annuities were calculated from the cash balance accounts using the required methodology in IRS regulation §1.430(d)-1(f)(5).

For former Dresser-Rand employees, it is assumed that the participant elects the single life annuity.

Form of payment for active participants (Union)

For Cash Balance participants who terminate after retirement age eligibility, 30% are assumed to elect an immediate lump sum payment, 15% elect an immediate life annuity, and 50% elect a lump sum payment payable at age 62 and 5% elect a life annuity payable at age 65. Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

For Cash balance participants who terminate prior to retirement age eligibility, 25% are assumed to elect an immediate lump sum payment and 75% elect a lump sum payment at age 62. All other participants are assumed to elect a single life annuity. Annuities were calculated from the cash balance accounts using the required methodology in IRS regulation §1.430(d)-1(f)(5).

For former Dresser-Rand participants, it is assumed that the participant elects the single life annuity.

Form of payment for terminated vested participants (Salaried)

For Cash Balance participants, 70% of those who terminated within two years of the valuation date are assumed to elect an immediate lump sum payment, 25% elect a lump sum payable at age 62, and 5% elect a life annuity payable at age 65.

All other participants are assumed to elect a life annuity payable at age 65.

For former Dresser-Rand participants, it is assumed that the participant elects the single life annuity.

Form of payment for terminated vested participants (Union)

For Cash Balance participants, 80% of those who terminated within two years of the valuation date are assumed to elect an immediate lump sum payment and 20% elect a lump sum payment payable at age 62.

For all other Cash balance participants, it is assumed that 100% elect a lump sum payment at age 62.

All other participants are assumed to elect a life annuity payable at age 65.

Percent married

80% of males; 80% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

For former Dresser-Rand participants, 85% of males and 55% of females are assumed to be married at retirement.

Spouse age

Wife three years younger than husband

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date

First day of plan year.

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets for determining minimum required contributions

The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the prior plan year, discounted using the effective interest rate for the prior plan year.

Benefits not valued

WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

SCHEDULE SB ATTACHMENTS

Decrement Timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of the year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with methodology generally used to create those rates.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of January 1, 2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance interest crediting rate for Salaried Employees

The plan credits interest to cash balance accounts using the 30-year Treasury rate for the August immediately preceding the plan year, but with a minimum interest credit rate of 4.06%. The long term estimate of the 30-year Treasury rate, based on current conditions, future economic expectations and the minimum interest credit rate results in a final assumed interest credit rate of 4.06%.

Cash Balance interest crediting rate for Union Employees

The plan credits interest to cash balance accounts using the 30-year Treasury rate for the August immediately preceding the plan year. The long term estimate of the 30-year Treasury rate, based on current conditions and future economic expectations results in a final assumed interest credit rate of 3.50%.

Lump sum conversion rate

As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in 2023 for the former Siemens Pension Plan and Siemens Pension Plan for Union Employees, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For former Dresser-Rand employees, the termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.</p>
Disability	<p>Disability rates are based on an experience study conducted in 2013 for the former Siemens Pension Plan and Siemens Pension Plan for Union Employees, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For former Dresser-Rand employees, the disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.</p>
Retirement	<p>Retirement rates were based on an experience study conducted in 2023 for the former Siemens Pension Plan and Siemens Pension Plan for Union Employees, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For former Dresser-Rand employees, the retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.</p>
Benefit commencement date for deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The full corporate bond yield curve used to calculate the funding target and target normal cost was updated to the current valuation date as required by IRC §430.

The cash balance interest crediting rate for Salaried Employees increased from 4.06% to 4.15% for 2025 and 4.06% for 2026 and thereafter, and for Union Employees increased from 3.50% to 4.15% for 2025 and 3.50% for 2026 and thereafter.

The assumed plan-related expenses added to the target normal cost were changed from \$2,247,727 for the prior valuation to \$2,848,000 for the current valuation to account for higher expected expenses to be paid from the trust.

1.3 Dresser-Rand Company Pension Plan for Salaried and Union-Free Hourly Employees (SubPlan 210)

Plan Provisions

January 1, 1989. Frozen as of March 31, 1998. Amended November 17, 2014 and most recently amended February 24, 2016.

Employees Covered

Any Employee with the following exceptions:

- A. Non-resident Aliens
- B. Collective bargaining unit employees who have not negotiated for the plan

Employees are included in the plan on the first of the month coincident with or next following completion of one year of service. There will be no new entrants into the plan after March 31, 1998.

Final Average Compensation (FAC)

The average of pensionable earnings for the highest paid seventy-two consecutive months out of the last 120 months worked.

Years of Credited Service

Years of credited service include all years of employment in a position covered by this plan, up to thirty-five years, including recognized past service with a partner company. For participation before January 1, 1987, in certain Dresser Industries plans for union-free hourly employees, the salary benefit formula includes only service after December 31, 1986. The \$19.00 monthly benefit multiplier applies for service before January 1, 1987. All benefits were frozen as of March 31, 1998.

Social Security Retirement Age

The government specifies Social Security retirement age which depends on year of birth shown in the following table:

Covered Compensation (CC)

This is the thirty-five-year average of Social Security taxable wage bases ending with the year the participant reaches eligibility for full Social Security retirement benefits (i.e., Social Security retirement age).

Normal Retirement Date

The first day of the month coincident with or next following the participant's sixty-fifth birthday.

Normal Retirement Pension

Benefit Formula:

.0075 x FAC up to CC x Credited Service

plus

.015 x FAC over CC x Credited Service

No more than 35 years of Credited Service is taken into account under this formula.

If the participant's Social Security retirement age is sixty-six and he retires at age sixty-five, the .015 in the formula changes to .0145. If the participant's Social Security Retirement Age is sixty-seven and he retires at age sixty-five, the .015 changes to .014.

If greater, the benefit accrued as of December 31, 1989, under the formulas in effect before January 1, 1990, is payable. For certain highly compensated employees, the accrued benefit as of December 31, 1988, is used rather than the accrued benefit as of December 31, 1989.

If the participant was covered under certain Dresser Industries plans for union-free hourly employees and participated on January 1, 1987, the \$19.00 monthly benefit multiplier applies for service before January 1, 1987, subject to the maximum thirty years of credited service.

Offsets:

The benefit amounts accrued under the respective Dresser and Ingersoll-Rand retirement plans up to December 31, 1986, will be offset from the above pension benefit amount at the participant's normal retirement date. This offset will be paid by the respective partner company plan.

Early Retirement Pension

A participant is eligible for an early retirement pension, if he has earned at least nine (9) years of service and reached age 55.

The early retirement benefit is determined the same way the normal retirement benefit is determined, but is reduced according to the factors below:

Late Retirement

Any employee who is not an executive class employee may continue in employment after his normal retirement date and receive a monthly pension at his late retirement date based on the normal retirement benefit formula and based on final average compensation at retirement.

Disability Benefit

If the participant is covered by the company's Long-Term Disability Program, he will continue to accrue at full rate based on compensation at time of disablement. Pension commences at age sixty-five.

Pre-Retirement Death Benefit

1. If Eligible for Early Retirement at Time of Death:

Spouse receives a monthly income equal to fifty percent of the amount the participant would have received had the retirement occurred the day before death with a fifty percent joint and survivor option in effect.

2. If Vested but not Eligible for Early Retirement:

Spouse receives a monthly income (beginning when the participant could have first retired) equal to fifty percent of the amount the participant would have received, based on accrued benefit at time of death, had the participant retired when first eligible with a fifty percent joint and survivor option in effect.

Termination of Service

A termination with less than five years of service is due no benefit. The benefit is 100% vested after five years of vesting service. Service recognized by the parent company before the effective date of this plan counts toward vesting. If the vested benefit is payable before age sixty-five, the benefit is reduced according to the factors that apply to early retirement.

Final Average Earnings

Average of highest five consecutive years out of the last ten years preceding the earlier of date of termination or normal retirement date.

Primary Social Security

Benefit payable at age sixty-five under the Social Security law in effect at date of termination assuming earnings continue level to age sixty-five.

Accrued Service

A monthly benefit equal to 40% of the participant's final average earnings, provided that if such participant's benefit accrual service does not equal thirty (30) years exactly, such percentage is to be: (i) increased by the product of 1% and the number of years (including fractions) by which the participant's Benefit Accrual Service exceeds thirty (30) years, or (ii) decreased by the product of 1% and the number of years (including fractions) by which the participant's Benefit Accrual Service is less than thirty (30) years. This benefit is then reduced by fifty percent of the monthly age sixty-five primary Social Security benefit. The Social Security offset is reduced for less than thirty years of service by the ratio of benefit accrual service over thirty.

If greater, the accrued benefit is calculated assuming the participant worked to age sixty-five with the same final average earnings multiplied by the ratio of actual years of benefit accrual service at age sixty-five.

The accrued benefit is reduced by forty percent of the excess, if any, of the contributions which the participant was entitled to make had he joined the Plan at his first opportunity over the actual amount of contributions made by the participant.

However, in the case of a participant in the Worthington Corporation Contributory Retirement Plan on December 31, 1969, the monthly retirement pension is not less than 110% of the monthly retirement pension to which the participant would have been entitled under the Worthington Corporation Contributory Retirement Plan and the Worthington Corporation Non-Contributory Pension Plan combined, assuming such Plans, as in effect on December 31, 1969, and the participant's monthly salary on May 1, 1969, had both continued unchanged. If the participant has not made all of the contributions permitted on and after January 1, 1970, such retirement pension is reduced according to the preceding paragraph.
