INDEPENDENT AUDITOR'S REPORT

To the Trustee, Participants and Administrator of the
Pavement Recycling Systems, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Pavement Recycling Systems, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months from the date these financial statements were issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2025 AND 2024

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Pavement Recycling Systems, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

PRS Holdings, Inc. (the Company) established the Plan in 1990. The Plan is intended to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan had purchased shares of Company common stock using borrowed proceeds secured by the unallocated purchased shares, and holds the common stock in a trust established under the Plan. The Plan has paid off the debt and all Company common stock is fully allocated to participants as of December 31, 2025 and 2024.

Eligibility

Employees who have attained at least 21 years of age, have completed at least one year of eligible service in which at least 1,000 hours of service was completed and are employed on the last day of the plan year will become a participant in the Plan as of the first day of the Plan year in which the eligibility requirements are satisfied.

Company Contributions

The Company may make discretionary contributions as determined each year by resolution of the Company's Board of Directors. For the year ended December 31, 2025, the Company made discretionary contributions to the Plan equal to 15% of the participant's gross eligible compensation, as defined. Employee contributions to the Plan are not permitted.

Plan Administration

The Plan's assets, which consists primarily of Company common stock, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received, interest and dividend income, and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustees fees are paid directly by the Company.

Participant Accounts

Each participant's account is credited with allocations of the Company's contributions, forfeitures, net appreciation of Company common stock, and other investment earnings net of plan expenses.

The Company's contributions may consist of cash or Company common stock contributions and are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation.

Forfeitures of terminated participants' nonvested account balances are annually allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation. For the year ended December 31, 2025, \$617,990 of forfeitures were allocated to active participants.

Net appreciation of Company common stock, as determined by an independent appraiser, is allocated based on the number of shares held by the participants at year-end multiplied by the change in the per share value.

Other investment earnings (primarily earnings from registered investment companies), net of plan expenses are allocated to participants based on the percentage that their other investment account balance as of the first day of the plan year adjusted for distributions made, is representative to the total other investment account balance.

Vesting

Vesting in the Company's contributions is based on years of service and participants become 20% vested following two full years of service, as defined, and continue to vest at the rate of 20% for each successive year of service until 60% vested after four (4) years of service, then vest at the rate of 40% for one successive year of service until 100% vested after five (5) years of service, attaining normal retirement age, death or disability.

Payment of Benefits

Distribution of Plan benefits due to termination for retirement, disability, death or other reasons will be made in shares of Company common stock (see Put Option below), lump sum, or annual installments. Annual installments may be paid after a one to six year waiting period over no more than five years, unless the participants vested account balance exceeds the amount as defined under the IRC, in which case installments could exceed five years. The Plan provides for in-service distributions once a participant attains age 72. As of December 31, 2025, 295 participants who terminated employment have 141,989 vested shares and other investment assets valued at \$54,548,534. These amounts are scheduled to be paid commencing December 31, 2026 through December 31, 2035.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Diversification

Diversification will be offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of his or her account balance, less any amounts previously diversified. In the sixth year, the percentage changes to 50%. After the sixth year, participants continue to have the right to diversify the portion of their account balance that remained eligible for diversification at the end of the six-year election period until such time as they have fully exercised their diversification rights.

Participants who elect to diversify may receive a cash distribution, transfer the diversified amount to another qualified defined contribution plan maintained by the Company or the participant's directed investment subaccount. As of December 31, 2025, 18,508 shares of Company common stock were eligible for diversification.

Voting Rights

Participants may direct the voting of shares of the Company common stock allocated to their accounts on any matters on which shareholders are allowed to vote. Such matters are limited to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or other similar transactions. Each participant will be provided with notification of the shareholders meeting and the proxy voting instruction form, which will need to be returned to the trustees prior to said meeting. The trustees will vote all shares according to those instructions. The trustees will vote all shares for which no instruction was received in the same proportion of yeas and nays on the instructions received.

Put Option

Under federal income tax regulations, the Company common stock held by the Plan and its participants, and that are not readily tradable on an established market, or that are subject to trading limitations, include a put option (liquidity put). The liquidity put is a right to demand that the Company buy shares of its common stock held by the participant for which there is no market. The put price is representative of the fair market value of the common stock. The Company may pay for the purchase with interest not exceeding a period of five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash. In addition, if the Company elects to pay the purchase price of the common stock option under the installment method then the Company shall give the participant who is exercising the put option the Company's promissory note for the full unpaid balance of the purchase price.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2025 AND 2024

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Right of First Refusal

The right of first refusal shall provide that prior to any subsequent transfer, the shares must first be offered for purchase in writing to the Company, then to the trustees, on behalf of the Plan, at the fair market value. The fair market value for these shares of Company common stock shall be the greater of the price offered to the participant by the prospective purchaser or the price per the most recent preceding valuation date of the Plan. The Company and the trustees have 14 days to exercise this right of first refusal.

Plan Termination

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate and/or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Interest income is recorded on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of Company common stock.

PAVEMENT RECYCLING SYSTEMS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2025 AND 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Risks and Uncertainties

The Plan invests primarily in the common stock of the Company, which is exposed to various risks, such as interest rate risk, credit risk and market risks, as well as valuation assumptions based on earnings, cash flows or other techniques. Due to the level of risk associated with this investment and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of this investment will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

PAVEMENT RECYCLING SYSTEMS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2025 AND 2024

3. FAIR VALUE MEASUREMENTS – (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

PRS Holdings, Inc. common stock: The fair value of the Company's common stock was determined by an independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques which is consistent with the prior year. The asset-based approach was not used as it provides no consideration of earnings. The appraiser took into account historical and projected cash flow and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using observable and unobservable inputs.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Interest bearing cash: Interest-bearing cash consists of funds held in a money market account and fixed income investments. The carrying value is believed to be representative of its fair value based on its short term nature and is classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS – (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

<u>Description</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2025 AND 2024

3. FAIR VALUE MEASUREMENTS – (Continued)

Starting in 2009, the Company has issued additional new shares of Company common stock and contributed these shares into the Plan in settlement for a portion of the Company contribution receivable that is recorded at each prior year end. Although the new issuances of shares create a dilution impact on existing shares, it also provides new additional shares to eligible participants. The net impact from these transactions is allowing newer employees to participate in receiving shares of Company common stock through ownership dilution of existing shares. During the Plan years 2009 through 2024, the Company has contributed a total of 274,910 shares of Company common stock to satisfy employer contributions. During the year ended December 31, 2025, the Company contributed 28,250 shares of Company common stock that resulted in share dilution of \$19.68.

4. INVESTMENT IN COMMON STOCK

The following table summarizes the investment in Company common stock at December 31, 2025 and 2024:

	<u>2025</u>	<u>2024</u>
PRS Holdings, Inc.		
Common stock shares:		
Number of shares	495,250	500,603
Cost	\$ 75,303,172	\$ 70,559,092
Fair Value	\$ 190,161,143	\$ 184,461,000

The Company common stock cost amounts above include cumulative basis adjustments of \$71,389,521 and \$64,116,933 as of December 31, 2025 and 2024, respectively.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. The Plan invests in Company common stock. The Plan paid \$426 in gross investment fees net of refunds received of \$612. The Company paid certain administrative expenses, including recordkeeping and audit fees of the Plan. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

6. TAX STATUS

The Company received a favorable determination letter from the Internal Revenue Service (IRS), on October 24, 2014, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

PAVEMENT RECYCLING SYSTEMS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2025 AND 2024

6. TAX STATUS – (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. NON-PARTICIPANT DIRECTED INVESTMENTS

Information about the net assets and the significant components of the changes in net assets relating to the non-participant directed investments are as follows:
