Independent Auditor's Report

To the Plan Administrator
Dykema Gossett PLLC Cash Balance Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Dykema Gossett PLLC Cash Balance Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024 and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of December 31, 2025 and reportable transactions for the year ended December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Dykema Gossett PLLC Cash Balance Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all eligible employees of Dykema Gossett PLLC (the "Firm") who are considered percentage equity members of the Firm. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Firm is the plan sponsor of the Plan.

Eligibility and Vesting

Each person who is classified as a percentage equity member of the Firm as of the effective date of the Plan, January 1, 2007, became a participant on that date. Any other person shall become a participant on the January 1 that coincides with or follows the date of his or her election to equity status.

A member who became a participant in the Plan on January 1, 2007 shall be fully vested as of that date. Any member who first becomes a participant on or after January 1, 2008 shall become 100 percent vested after the completion of three years of service. Effective January 1, 2012, the Plan was amended where all participants are immediately fully vested without regard to years of service.

Cash Balance Accounts

A notional account referred to as the cash balance account has been established and will be maintained for each participant. A participant's cash balance account shall be credited with cash balance credits and interest credits in accordance with the plan document.

A cash balance credit shall be credited to the cash balance account of each participant who has completed one year of benefit service for such plan year. The cash balance credit for a plan year shall be based on the participant's attained age as of the end of the plan year and the participant's highest ownership interest in the Firm during the plan year. This cash balance credit is subject to certain maximum credit amounts set forth in the plan document.

An interest credit shall also be credited to the cash balance account of each participant annually. For plan years beginning on January 1, 2011, the interest credit under the Plan is based upon the market rate actually experienced by the investment portfolio of the Plan's trust fund, not to exceed the cumulative maximum 7.5 percent compounded annually.

The cash balance account shall be equal to the sum of the cash balance credits and the interest credits.

Retirement Benefits

Eligible members with three or more years of service are entitled to retirement benefits beginning at the normal retirement age (62). Effective January 1, 2012, the Plan was amended to eliminate the years of service requirement to be entitled to retirement benefits. The payment of benefits may be delayed if the participant continues to serve as a member of the Firm.

Pension benefits may be payable in the following forms: a qualified joint and survivor annuity, a single life annuity, a qualified optional survivor annuity, or a lump sum. Members should refer to the plan document for a more complete description of these benefit options.

A participant who has attained normal retirement age may elect to receive his or her vested accrued benefit in a single lump-sum payment at any time following the date he or she attains normal retirement age or at any time during any later plan year, even though the participant has not had severance from employment. Effective January 1, 2020, participants may elect to receive a lump-sum payment at any time after attaining age 59½.

December 31, 2025 and 2024

Note 1 - Plan Description (Continued)

Termination of Employment Benefits

A participant who terminates employment prior to his or her normal retirement age may elect to receive a distribution of his or her vested accrued benefit as of the first day of any month following such termination of employment. The participant will be entitled to receive a single lump sum or an annuity payment at this time.

Death Benefits

If a participant dies prior to commencement of benefits, a death benefit equal to the actuarial equivalent of the participant's cash balance account will be paid to the participant's surviving spouse in a single lump sum or an annuity, as elected by the spouse. If the beneficiary is not the participant's surviving spouse, a lump-sum payment will be made to the beneficiary on the first pension starting date following the participant's death.

Funding

Contributions are made by the Firm in actuarially determined amounts. The Firm's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. All contributions to the Plan are made by the Firm. No voluntary employee contributions are allowed.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by SEI Private Trust Company or its affiliates. SEI Private Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines, but are not prohibited transactions under ERISA.

In addition, various administrative costs are paid by the Firm that also qualify as party-in-interest transactions.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Firm.

During 2025, no administrative costs were paid by the Firm on behalf of the Plan. During 2024, the Firm paid administrative costs of \$9,954 on behalf of the Plan.

December 31, 2025 and 2024

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits are based on the lump-sum amount equal to the participant's cash balance account.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from October Three LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2025 are summarized as follows:

Actuarial cost method	Unit credit cost method
Weighted-average retirement age	64 years old
Interest crediting rate	2.00 percent

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 16, 2026, which is the date the financial statements were available to be issued.

December 31, 2025 and 2024

Note 3 - Certified Information

SEI Private Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, supplemental schedule of assets held at end of year, and supplemental schedule of reportable transactions are based solely on information certified by the Trustee.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from October Three LLC. The calculation of the actuarial present value of accumulated plan benefits attributable to vested participants in the Plan, which was made as of January 1, 2025, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated vested plan benefits	\$ 37,260,826
---	---------------

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2025 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 34,253,885
Increase (decrease) during the year attributable to:	
Benefits accumulated	3,711,000
Increase for interest	2,950,718
Benefits paid	<u>(3,654,777)</u>
Net increase	<u>3,006,941</u>
Actuarial present value of accumulated plan benefits - End of year	<u><u>\$ 37,260,826</u></u>

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

December 31, 2025 and 2024

Note 5 - Fair Value Measurements (Continued)

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

U.S. Government Securities

The U.S. government securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2025 and 2024:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2025				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual funds	\$ 37,327,922	\$ 37,327,922	\$ -	\$ -
Assets Measured at Fair Value on a Recurring Basis at December 31, 2024				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual funds	\$ 33,626,497	\$ 33,626,497	\$ -	\$ -
U.S. government securities	231	-	231	-
Total investments at fair value	<u>\$ 33,626,728</u>	<u>\$ 33,626,497</u>	<u>\$ 231</u>	<u>\$ -</u>

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

Upon termination or partial termination of the Plan, the accrued benefits of all affected participants, as of the date of termination, become fully vested, to the extent such benefit is funded. The assets of the Plan shall be used to pay the accrued benefits in accordance with ERISA requirements, as indicated in the plan document, and any remaining assets after paying all accrued benefits would be returned to the Firm. Certain benefits may be insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency.

Dykema Gossett PLLC Cash Balance Plan
EIN / PN 38-1446628 / 003
Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Actuarial Assumptions and Methods

Plan Sponsor Elections

Yield curve election: The plan sponsor did not elect to use the full yield curve under IRC section 430(h)(2)(D)(ii).

Applicable month: The plan sponsor elected to base the segment rates on the rates published in the first month prior to the month containing the valuation date.

Economic Assumptions

	Funding Target		PBGC Funding Target
	with stabilization	without stabilization	
First segment rate (years 0 to 4):	5.01%	5.01%	4.65%
Second segment rate (years 5 to 19):	5.26%	5.26%	5.28%
Third segment rate (years 20 and after):	5.50%	5.36%	5.63%
Effective interest rate (current year):	5.22%	5.21%	N/A
Interest crediting rate:	2.00%		

The interest rates listed above are compounded annually.

The cash balance interest crediting rate is equal to the rate of return on plan assets, subject to cumulative minimum and maximum interest crediting rates. Accordingly, the assets needed to provide future cash balance benefits are independent of interest rates and only dependent on the plan's asset allocation to the extent that the cumulative minimum or maximum interest crediting rates affect the cash balance accounts. This plan provision is difficult to measure using traditional deterministic valuation procedures. To account for this plan provision, the interest crediting rate was selected from a reasonable range based on the plan's asset allocation that, when combined with the segment interest rates, produced a funding target that was as close as possible to the economic value of the cash balance accounts.

Demographic Assumptions

RETIREMENT

All participants are assumed to retire according to the following schedule:

Assumed retirement age	Percent assumed to retire
62	40.00%
65	100.00%

WEIGHTED AVERAGE RETIREMENT AGE

The weighted average retirement age for the population during the current year, rounded to the nearest whole number, is 64.

WITHDRAWAL AND DISABILITY

None.

RATIONALE FOR RETIREMENT AGE, WITHDRAWAL AND DISABILITY ASSUMPTIONS

The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire according to the schedule above.

MORTALITY AND MORTALITY IMPROVEMENT

The mortality follows the IRS 2025 Static Mortality Table, as prescribed by Treasury regulation section 1.430(h)(3)-1. The mortality decrement is assumed to occur as of the beginning of the year.

Other Assumptions

FORM OF PAYMENT

Based on the experience of the plan and future expectations, all participants are assumed to elect a lump sum form of payment.

Actuarial Assumptions and Methods

EXPENSES

Assumed expenses are \$125,000 for 2025, based on actual prior year expenses, rounded to the nearest \$5,000. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Changes from Prior Year and Rationale for Changes

None.

Actuarial Methods

VALUATION DATE

The valuation date is January 1, 2025.

ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is equal to the market value of assets.

MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

Changes in Method from Prior Year and Rationale for Changes

None.
