Independent Auditor's Report

To the Plan Administrator
Timberline Manufacturing Company Employee Stock Ownership Plan
Marion, Iowa

Opinion

We have audited the financial statements of Timberline Manufacturing Company Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Timberline Manufacturing Company Employee Stock Ownership Plan

Notes to Financial Statements

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Timberline Manufacturing Company Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

Timberline Manufacturing Company (the Company) established the Plan effective January 1, 2012; the Plan was most recently restated on January 1, 2017. The Plan operates, in relevant parts, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). An independent third-party trust company is the Plan's trustee.

On December 21, 2012, the Plan purchased 1,295,493 shares of the Company's common stock with a loan of \$10,600,000 which was financed through the Company (see Note 5) and holds the common stock in a trust established under the Plan. As the Plan makes payments on the note, an appropriate percentage of common stock is allocated to eligible participants' accounts in accordance with applicable regulations under the IRC.

The borrowings are collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of participants with rights in allocated common stock ("Allocated") and
- (b) common stock not yet allocated to participants ("Unallocated")

Eligibility

Effective January 1, 2025, employees of the Company are generally eligible to participate in the Plan after attaining age 18 and completing one year of service if they worked at least 1,000 hours during such plan year. Prior to January 1, 2025, employees were eligible to participate in the Plan upon attaining age 21 and completing one year of service. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of the plan year are generally not eligible for an allocation of Company contributions for such plan year.

Contributions

The Company is obligated to make contributions to the Plan, at the discretion of the Company's board of directors, to enable the Plan to make its regularly scheduled payments of principal and interest due on the Plan's outstanding loans. Employees are not permitted to make contributions.

Timberline Manufacturing Company Employee Stock Ownership Plan

Notes to Financial Statements

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's stock released by the Trustee from the unallocated account, forfeitures of terminated participants' nonvested accounts, and shares of the Company stock purchased by contributions from the Company. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations of shares are based on a participant's eligible compensation, relative to total eligible compensation. Dividends are allocated to a participant's account based on the ratio of the participant's share balance after distributions and forfeitures to the total shares outstanding in the Plan. Plan earnings are allocated to a participant's account based on the ratio of the participant's account balance to the total account balance of all participants.

Vesting

Participants vest in the Company's contributions and earnings thereon based on years of credited service. Participants with less than one year of credited service will be 0% vested and for each of the next five years will become vested at a rate of 20%, becoming fully vested in their account balance after six years.

In the event of the participant's death or total disability while employed by the Company, the participant's account becomes fully vested.

Forfeitures

Forfeitures result when participants leave the Company before their accounts become fully vested. Forfeited balances of terminated participants' nonvested account balance may be used to reinstate previously forfeited account balances of former participants, satisfy any contribution that may be required or pay any administrative expenses of the Plan, with any remaining forfeitures allocated among the participant accounts in a similar manner as employer contributions. During 2025, \$67,335 of cash forfeitures were allocated to participants.

Diversification

Diversification is offered to participants close to retirement so that they have the opportunity to move part of the value of their investment in Company's common stock into investments that are more diversified. Participants who have reached the age of 55 and have at least ten years of participation in the Plan, may elect to diversify a portion of their account balance that is invested in Company stock. The participant has the option of investment diversification through the distribution of a portion of the account balance or the direct transfer of a portion of the account balance to another qualified plan. During 2025, 2,412 shares with a value of \$38,818 were diversified and transferred to the Company's 401(k) plan.

Timberline Manufacturing Company Employee Stock Ownership Plan

Notes to Financial Statements

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon a participant's retirement, termination of employment, death, or disability the vested account balance may be paid in a lump sum or installments. Effective January 1, 2025, if a participant's account balance is greater than \$30,000, the plan administrator shall liquidate the participant's account and invest the proceeds in the Plan's ESOP Conversion Account. Prior to December 31, 2024, participant account balances greater than \$10,000 were liquidated and the proceeds invested in the Plan's ESOP Conversion Account.

Distributions are made in cash, or if a participant elects, in the form of Company common stock with any fractional shares being paid in cash.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock, as determined by an independent appraiser. There are two 60-day periods in which a participant can sell back to the Company. The first period begins on the stock distribution date and ends 60 days thereafter. The second period begins on the first day of the fifth month of the plan year next following the stock distribution date and ends 60 days thereafter. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

The trustees will vote all shares of the Company's common stock held by the Plan. The participants are entitled to direct the trustee as to their vote on matters which involve a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which the debt service is actually paid.

Timberline Manufacturing Company Employee Stock Ownership Plan **Notes to Financial Statements**

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments, including the Company's common stock, are stated at fair value, using the valuation methods described in Note 4. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions are recorded in the year in which the Company's stock is released.

Payment of Benefits

Benefits are recorded when paid.

Administrative Costs

Expenses incurred in the administration of the Plan are paid by the Company and the Plan. Expenses incurred by the Company are excluded from these financial statements.

Subsequent Events

The plan administrator has evaluated subsequent events through August 10, 2026, the date which the financial statements were available for issue.

NOTE 3 - INVESTMENT IN COMMON STOCK

The Plan's investment in the Company's common stock as of December 31, 2025 and 2024, follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	452,959	769,488	429,616	806,130

NOTE 4 - FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. The hierarchy prioritizes the inputs into three broad levels as follows:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument.

Level 3: Inputs are unobservable inputs based on the Plan's own assumptions used to measure assets and liabilities at fair value.

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the fair value hierarchy the Plan's financial assets measured at fair value on a recurring basis as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,055,272	\$ -	\$ -	\$ 2,055,272

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds - The Plan's mutual funds are valued at the net asset value, based on quoted market prices in active markets, of the units held by the Plan at year end.

Common Stock - The Company's common stock is valued at fair value as determined based upon a valuation prepared by an independent appraisal company. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Timberline Manufacturing Company common stock	\$ 17,737,701	Income	EBITDA
			Net income
			Weighted average cost of capital
			Discount rate
			Discount for lack of marketability
		Market	Public comparables
			Revenue multiple
			EBITDA multiple
			Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - NOTE PAYABLE

	2025	2024
2.50% fixed rate note with the Company due in annual installments of \$442,757, including interest, with the final payment due December 31, 2046. The note is secured by unallocated shares of the Company's common stock	\$ 7,140,212	\$ 7,395,513

Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 36,642 shares being released and allocated for the Plan year ended December 31, 2025.

NOTE 5 - NOTE PAYABLE (CONTINUED)

The annual maturities of long-term debt are as follows:

<u>Year Ending December 31</u>	
2026	\$ 261,772
2027	268,408
2028	274,752
2029	282,175
2030	289,328
Thereafter	<u>5,763,777</u>
Total	<u>\$ 7,140,212</u>

NOTE 6 - INCOME TAX STATUS

The Plan obtained a determination letter on September 7, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has not been amended since receiving the determination letter.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the trustees may determine. The interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 8 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has a loan payable to the Company. These are related party and party-in-interest transactions. The Plan relies on service providers. Such parties are parties-in-interest under ERISA.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the Company's common stock and to the uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
