Employee Benefit Plan Audit Specialists

Independent Auditor's Report

To the Plan Administrator of The Charles Stark Draper Laboratory, Inc. Retired Employees Medical Benefits Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Charles Stark Draper Laboratory, Inc. Retired Employees Medical Benefits Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of plan benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and changes in plan benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025 and the Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the certified information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

A. PLAN DESCRIPTION:

The following description of The Charles Stark Draper Laboratory, Inc. Retired Employees Medical Benefits Plan (the "Plan") provides only general information. The Charles Stark Draper Laboratory, Inc. ("Draper") is the plan administrator and fiduciary. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan, established January 1, 2016, provides postretirement medical benefits to qualified retirees and eligible dependents. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan includes the following benefit features: The Charles Stark Draper Laboratory, Inc. Retiree Medical Benefit Plan ("Retiree Medical Feature") which merged with and into the plan effective January 1, 2016, and The Charles Stark Draper Laboratory, Inc. Post-Retirement Healthcare Premium Reimbursement Plan ("Retiree Health Premium Reimbursement Feature"), which was established January 1, 2016.

Effective November 4, 1993, The Charles Stark Draper Laboratory, Inc. Retiree Medical Payments Trust (the "Trust") was established as part of The Charles Stark Draper Laboratory, Inc. Retiree Medical Benefit Plan to be an additional funding vehicle for the Plan (see Note E). This Trust was established in accordance with applicable provisions of the Internal Revenue Code ("IRC") and the investments in this trust may not be used for any purpose other than providing health and welfare benefits. The related obligations for health and welfare benefits are included in these financial statements.

Benefits

Under the Retiree Medical Feature, each staff and non-staff employee who retires under one of the retirement plans of Draper upon or after attaining age 55 and completing ten years of service is eligible for medical benefits for him or herself and his or her spouse (including a domestic partner) and dependents. Coverage continues for the surviving spouse and dependents of a deceased retiree. Prior to age 65, the medical plans offered are the same as provided to active employees and their spouses and dependents. Participants may choose from a standard EPO or PPO health plan, or from a modified EPO or PPO plan with a health reimbursement component to offset the higher deductible.

Under the Retiree Health Premium Reimbursement Feature, participants age 65 and over are eligible to receive reimbursements for eligible healthcare premiums. The amount of the reimbursement is $1,054 per year. If a participant reaches age 65 during the year they will be eligible for a prorated amount.

The Plan also provides life insurance coverage for retirees. This benefit provides a single payment to beneficiaries of non-exempt and union employees who die after reaching age 70. Benefit payments for deceased employees range from $500 to $3,000, depending on retirement date.

CARON BLETZER

Retiree Contributions

Pre-65 retirees contribute specified amounts related to the same cost share provisions provided to active employees but subject to an "inflation cap", which is the maximum Draper contribution per participant. The inflation cap was determined based on the projected 1994 employer cost. In addition to deductibles and co-payments, participant contributions for monthly premiums in the current and prior year are illustrated below. Post-65 retirees do not contribute to the Plan.

Inflation Cap

The cap level for pre-65 retirees ranges based on plan selection from $172.79 per month for single coverage and $449.25 for family coverage.

Participant cost sharing is as follows:

Year ended December 31, 2025				Year ended December 31, 2024			
Participant Share		Company Share		Participant Share		Company Share	
Single Plan	Family Plan	Single Plan	Family Plan	Single Plan	Family Plan	Single Plan	Family Plan
$1,108-$1,596	$3,430-$4,903	$173	$ 449	$968-$1,401	$3,004-$4,315	$173	$ 449

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

CARON BLETZER

Postretirement Benefits

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered through December 31, 2025. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired or terminated employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents after retirement from service with Draper. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date. The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used to determine the medical costs as of December 31, 2025 and 2024 were as follows:

Long-Term Rate of Return on Assets	7.00% (2025 and 2024)
Discount Rate	5.45% and 5.58%, respectively
Turnover	In the first eight years of employment, 14.5%; otherwise turnover is based on age. Illustrative rates are 18.2% at age 25, 9.8% at age 35, 7.8% at age 45, 5.8% at age 55, and 4.8% at age 60 (2025 and 2024).
Retirement	Graded scale from age 55 to age 72 with an average retirement age for Staff and Nonstaff of age 70.55 for 2025 and 71.13 for 2024.
Mortality	Pri-2012 blue-collar table for non-exempt group, and Pri-2012 white collar table for exempt group using MP-2021 (2025 and 2024).
Participation	85% of future retirees and spouses are expected to elect retiree

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

CARON BLETZER

Stop Loss

Premiums for stop loss insurance are included in premium payments in the accompanying statement of changes in net assets available for benefits. During 2025, there were no stop loss refunds netted with claims paid in the accompanying statement of changes in net assets.

Contributions

Employer contributions to the Trust are recorded and funded as determined by actuarial computations based on the aggregate cost method. Draper and participant contributions are recorded on the accrual basis based on benefit and premium payments due each month.

Benefit Payments and Premium Payments to Insurance Companies

Benefit payments are recorded upon payment. For the year ended December 31, 2025, all benefit and premium payments were paid directly to insurance companies or participants out of the general assets of Draper, the Trust, or participant contributions. Benefit and premium payments paid directly are accounted for as contributions to the Plan, unless paid using assets from the Trust. Amounts not yet paid to the claims processor to reimburse claims paid are recorded as a liability on these financial statements. As of December 31, 2025 and 2024, amounts due to claims processor were $24,675 and $0, respectively.

Expenses

The Plan is administered by Draper. In general, all administrative expenses of the Plan are paid by Draper except for certain trustee fees and claims administration fees which are borne by the Plan. Expenses that are paid by Draper are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make significant estimates and assumptions that affect the reported amounts of assets available for plan benefits at the date of the financial statements and the actuarial present value of the Plan's total benefit obligations during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

CARON BLETZER

C. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments and dividends for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA Trust, N.A., the trustee of the Plan.

D. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology that are unobservable and supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CARON BLETZER

Common collective trusts – Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

The following tables set forth by level and by investment class, within the fair value hierarchy, the Plan's assets at fair value:

	2025			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 13,890,118	$ 13,890,118	$ -	$ -
Total investments in the fair value hierarchy	13,890,118	$ 13,890,118	$ -	$ -
Investments measured at net asset value(1):				
Common collective trusts	16,719,303			
Investments at fair value	$ 30,609,421			

	2024			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 13,467,852	$ 13,467,852	$ -	$ -
Total investments in the fair value hierarchy	13,467,852	$ 13,467,852	$ -	$ -
Investments measured at net asset value(1):				
Common collective trusts	13,735,397			
Investments at fair value	$ 27,203,249			

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The Plan is subject to a 15 day redemption notice period for the common collective trusts held by the Plan. There are no unfunded commitments.

CARON BLETZER

E. FUNDING POLICY:

The medical benefits to be provided will be funded by participant contributions, Draper contributions, and The Charles Stark Draper Laboratory, Inc. Retiree Medical Payments Trust (the "Trust"). Draper contributions to the Plan to fund medical benefits are paid out of the general assets of Draper as they become due. In addition, Draper may make contributions to the Trust to fund future medical benefits. It is anticipated the deficit of assets related to the Plan's benefit obligation will be funded with future participant and Draper contributions, and the Trust.

F. CLAIMS INCURRED BUT NOT REPORTED:

The plan did not obtain an actuarial valuation of the claims incurred but not reported as of December 31, 2025 and 2024. Instead, the amounts shown in the Statements of Benefit Obligations represents the estimated liability based upon 2025 and 2024 claims reported by the Plan's insurance carriers. If an actuarial valuation had been obtained, the reported liabilities could have been significantly different.

G. TAX STATUS:

The Trust, which is a funding vehicle for the Plan, is tax-exempt under section 501(c)(3) of the IRC. The Trust obtained its exemption letter on July 3, 1996, in which the Internal Revenue Service ("IRS") stated that the design of the Trust was in compliance with the applicable requirements of the IRC. Accordingly, the plan administrator believes the Trust as designed is operating in accordance with the IRC. The Plan holds no income producing assets outside the Trust. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. TERMINATION PROVISIONS OF THE PLAN:

Although the Plan was established with the intent to maintain it indefinitely, and there is currently no intention to terminate it, Draper may amend or terminate the Plan at any time, in whole or in part, including, without limitation, modifying, eliminating or reducing benefits thereunder for any class of individuals, including present and/or future participants and their dependents and/or beneficiaries otherwise entitled to receive benefits.

Although it has not expressed any intention to do so, Draper has the right to terminate the Trust. Upon termination, the assets of the Trust, after the satisfaction of any benefits payable pursuant to the Plan and required administrative expenses, shall be used for the continuance of one or more of the benefits of the character contemplated by the Trust until all assets of the Trust are exhausted.

CARON BLETZER

I. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan.

Draper provides to the Plan certain accounting and administrative services for which no fees are charged.

Certain investments held by the Plan are managed by affiliates of TIAA Trust, N.A., the trustee. The Plan also pays certain fees to the trustee. These transactions represent party in interest transactions.

J. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

The actuarial present value of the Plan's total benefit obligations is reported based on certain assumptions pertaining to interest rates, inflation rates and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

K. SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events through August 24, 2026, the date the financial statements were available to be issued.
