INDEPENDENT AUDITORS' REPORT

September 1, 2026

Plan Participants and Plan Administrator
Data Monitor Systems Savings Incentive Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Data Monitor Systems Savings Incentive Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended, and the related notes to financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Data Monitor Systems Savings Incentive Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Data Monitor Systems Savings Incentive Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Data Monitor Systems Savings Incentive Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Data Monitor Systems Savings Incentive Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Data Monitor Systems Savings Incentive Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing

procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DATA MONITOR SYSTEMS SAVINGS INCENTIVE PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

Note 1 - Description of Plan

The following description of the Data Monitor Systems Savings Incentive Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was initially adopted January 1, 1997 and was last amended April 18, 2022. The Plan is a defined contribution plan covering all full-time employees of the employer who have reached age 18 with an entrance date as of the first of the month after attaining eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

The Plan was amended and restated effective April 1, 2022, in accordance with the Cycle 3 Restatement, in order to bring the Plan into compliance with legislative and regulatory changes set forth in IRS Notice 2017-37 and other legal requirements.

On December 29, 2022, the Consolidated Appropriations Act of 2023 was signed into law, which includes the package of retirement provisions commonly referred to as "SECURE 2.0." These provisions build upon the reforms introduced in the SECURE Act of 2019, focusing on increasing retirement plan participation and encouraging greater retirement savings. SECURE 2.0 contains provisions with various effective dates beginning in 2023 and extending forward.

The provisions include both required and optional elements. The Plan administrator has adopted the required provisions and continues to evaluate optional provisions for future adoption.

Participant Contributions

Each year participants may contribute up to 90% of eligible compensation not to exceed the limits of the IRC Section 401(k) of pretax annual compensation as defined in the Plan. Pursuant to collective bargaining agreements and related participation agreements the Plan sponsor pays in a prevailing wage contribution that is included in other contributions. These amounts are based on the contribution rates and covered work requirements specified in those agreements and represent contributions due to the Plan, rather than employee compensation. At the discretion of the Administrator, participants may also

contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contribution into various investment options offered by the plan. The plan currently offers numerous mutual funds as options.

Employer Contributions

The Company may elect to contribute matching contributions to the Plan. For the years ended December 31, 2025 and 2024, the Company elected not to contribute a match to participant contributions.

Participant's Account

Each participant's account is credited with the participant's contribution and allocation of the employer matching and non-elective contributions (if applicable), Plan earnings or losses, and forfeitures of terminated participants' non-vested accounts. Allocations are based on provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions and the prevailing wage contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. Vesting accrues at 25% for four years and a participant is 100 percent vested after four years of credited service. A year of service is deemed to be any year in which a participant has 1,000 hours of service.

Payment of Benefits

Upon termination of service, death, disability or retirement, or other reasons, a participant with a vested balance under \$5,000 will receive a lump-sum distribution. If the vested balance exceeds \$5,000, the plan permits the participant to elect a distribution under any one of the following methods, (1) lump sum, (2) part lump sum and part installments, as described in (3), (3) installment payments (annually, quarterly or monthly over a specified period of time, not exceeding the participant's life expectancy or the joint life expectancy of the participant and his or her designated beneficiary.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

Forfeitures

Participants' accounts that are forfeited because of termination prior to vesting are allocated to remaining participant accounts as if the forfeitures were additional employer non-elective contributions for the plan year in which the forfeiture occurs. There were no forfeitures during the plan years ended December 31, 2025 and 2024.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.50%, which are commensurate with local prevailing prime rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. Participant loans are valued at their outstanding balances, which approximates fair value.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments are stated at fair value. Quoted market prices and inputs that are unobservable are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

Purchases and sale of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable may be reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

The trustee will pay from the Trust all fees and expenses reasonably incurred by the Plan, to the extent such fees and expenses are for the ordinary and necessary administration and operation of the Plan, unless the Sponsor pays such fees and expenses. For 2025 and 2024, the Sponsor paid only selected administrative expenses.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

The Plan sponsor has evaluated subsequent events through August 31, 2026 the date which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available at year end to the Plan for the years ended December 31, 2025 or 2024.

Level 1 Fair Value Measurements

The fair values of mutual funds are available based on quoted market prices, when available. The fair values of mutual funds are based on the closing price reported on the active market where the individual securities are traded. Money market funds are valued at the net asset value (NAV) based on the daily closing price as reported by the fund. Money market funds are classified within Level 1 of the fair value hierarchy

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2025 and 2024, are reported in net appreciation (depreciation) in fair value of investments.

The following tables set forth, by level within the fair value hierarchy. The Plan's investments at fair value as of December 31, 2025 and 2024:

Note 4 - Information Certified by a Qualified Institution

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends income, and interest on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by the trustee, Fidelity Management Trust Company.

Note 5 - Income Tax Status

The Internal Revenue Service has determined in a letter June 30, 2020, that the volume submitter profit sharing plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). While the Plan itself has not obtained a separate determination letter from the IRS, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan is considered to be tax-exempt, and no provision for income taxes has been included in the financial statements. The Company adopted the revised and restated volume submitter plan on April 18, 2022. There was no interest or penalties to the Internal Revenue Service included in these financial statements. The Plans' tax returns are generally subject to examination by the Internal Revenue Service and various State agencies for a period of three years from the date they are to be filed.

Note 6 - Transactions With Parties in Interest

Certain Plan investments were shares of mutual funds managed by Fidelity Management Trust Company who is the trustee. Fees paid by the Plan for the investment management services amounted to \$51,873 and \$54,157 for the years ended December 31, 2025 and 2024, respectively. These fees are permitted party-in-interest transactions exempt from ERISA's prohibited transactions rules.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Correction of Delinquent Participant Contributions

During 2025, a total of \$79,181 of participant contributions were deemed delinquent. \$58,395 was due to the plan to correct delinquent contributions at December 31, 2025. See Schedule H, Line 4a – Schedule of Delinquent Participant Contributions. Calculations of lost earnings were not yet calculated.

Note 9 - Plan Termination

Although they have not expressed any intention to do so, the Company may elect to terminate the Plan or discontinue their contributions at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 10 - Excess Contributions

Contributions received from participants in 2025 are net of payments of \$22,941 made in 2026, to certain active participants to return excess deferral contributions as required satisfying the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable.

Contributions received from participants in 2024 are net of payments of \$32,083 made in 2025, to certain active participants to return excess deferral contributions as required satisfying the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable.

INDEPENDENT AUDITORS' REPORT

September 1, 2026

Plan Participants and Plan Administrator
Data Monitor Systems Savings Incentive Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Data Monitor Systems Savings Incentive Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended, and the related notes to financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Data Monitor Systems Savings Incentive Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Data Monitor Systems Savings Incentive Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Data Monitor Systems Savings Incentive Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Data Monitor Systems Savings Incentive Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Data Monitor Systems Savings Incentive Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing

procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DATA MONITOR SYSTEMS SAVINGS INCENTIVE PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

Note 1 - Description of Plan

The following description of the Data Monitor Systems Savings Incentive Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was initially adopted January 1, 1997 and was last amended April 18, 2022. The Plan is a defined contribution plan covering all full-time employees of the employer who have reached age 18 with an entrance date as of the first of the month after attaining eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

The Plan was amended and restated effective April 1, 2022, in accordance with the Cycle 3 Restatement, in order to bring the Plan into compliance with legislative and regulatory changes set forth in IRS Notice 2017-37 and other legal requirements.

On December 29, 2022, the Consolidated Appropriations Act of 2023 was signed into law, which includes the package of retirement provisions commonly referred to as "SECURE 2.0." These provisions build upon the reforms introduced in the SECURE Act of 2019, focusing on increasing retirement plan participation and encouraging greater retirement savings. SECURE 2.0 contains provisions with various effective dates beginning in 2023 and extending forward.

The provisions include both required and optional elements. The Plan administrator has adopted the required provisions and continues to evaluate optional provisions for future adoption.

Participant Contributions

Each year participants may contribute up to 90% of eligible compensation not to exceed the limits of the IRC Section 401(k) of pretax annual compensation as defined in the Plan. Pursuant to collective bargaining agreements and related participation agreements the Plan sponsor pays in a prevailing wage contribution that is included in other contributions. These amounts are based on the contribution rates and covered work requirements specified in those agreements and represent contributions due to the Plan, rather than employee compensation. At the discretion of the Administrator, participants may also

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contribution into various investment options offered by the plan. The plan currently offers numerous mutual funds as options.

Employer Contributions

The Company may elect to contribute matching contributions to the Plan. For the years ended December 31, 2025 and 2024, the Company elected not to contribute a match to participant contributions.

Participant's Account

Each participant's account is credited with the participant's contribution and allocation of the employer matching and non-elective contributions (if applicable), Plan earnings or losses, and forfeitures of terminated participants' non-vested accounts. Allocations are based on provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions and the prevailing wage contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. Vesting accrues at 25% for four years and a participant is 100 percent vested after four years of credited service. A year of service is deemed to be any year in which a participant has 1,000 hours of service.

Payment of Benefits

Upon termination of service, death, disability or retirement, or other reasons, a participant with a vested balance under \$5,000 will receive a lump-sum distribution. If the vested balance exceeds \$5,000, the plan permits the participant to elect a distribution under any one of the following methods, (1) lump sum, (2) part lump sum and part installments, as described in (3), (3) installment payments (annually, quarterly or monthly over a specified period of time, not exceeding the participant's life expectancy or the joint life expectancy of the participant and his or her designated beneficiary.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

Forfeitures

Participants' accounts that are forfeited because of termination prior to vesting are allocated to remaining participant accounts as if the forfeitures were additional employer non-elective contributions for the plan year in which the forfeiture occurs. There were no forfeitures during the plan years ended December 31, 2025 and 2024.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.50%, which are commensurate with local prevailing prime rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. Participant loans are valued at their outstanding balances, which approximates fair value.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments are stated at fair value. Quoted market prices and inputs that are unobservable are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

Purchases and sale of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable may be reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

The trustee will pay from the Trust all fees and expenses reasonably incurred by the Plan, to the extent such fees and expenses are for the ordinary and necessary administration and operation of the Plan, unless the Sponsor pays such fees and expenses. For 2025 and 2024, the Sponsor paid only selected administrative expenses.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

The Plan sponsor has evaluated subsequent events through August 31, 2026 the date which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available at year end to the Plan for the years ended December 31, 2025 or 2024.

Level 1 Fair Value Measurements

The fair values of mutual funds are available based on quoted market prices, when available. The fair values of mutual funds are based on the closing price reported on the active market where the individual securities are traded. Money market funds are valued at the net asset value (NAV) based on the daily closing price as reported by the fund. Money market funds are classified within Level 1 of the fair value hierarchy

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2025 and 2024, are reported in net appreciation (depreciation) in fair value of investments.

The following tables set forth, by level within the fair value hierarchy. The Plan's investments at fair value as of December 31, 2025 and 2024:

Note 4 - Information Certified by a Qualified Institution

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends income, and interest on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by the trustee, Fidelity Management Trust Company.

Note 5 - Income Tax Status

The Internal Revenue Service has determined in a letter June 30, 2020, that the volume submitter profit sharing plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). While the Plan itself has not obtained a separate determination letter from the IRS, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan is considered to be tax-exempt, and no provision for income taxes has been included in the financial statements. The Company adopted the revised and restated volume submitter plan on April 18, 2022. There was no interest or penalties to the Internal Revenue Service included in these financial statements. The Plans' tax returns are generally subject to examination by the Internal Revenue Service and various State agencies for a period of three years from the date they are to be filed.

Note 6 - Transactions With Parties in Interest

Certain Plan investments were shares of mutual funds managed by Fidelity Management Trust Company who is the trustee. Fees paid by the Plan for the investment management services amounted to \$51,873 and \$54,157 for the years ended December 31, 2025 and 2024, respectively. These fees are permitted party-in-interest transactions exempt from ERISA's prohibited transactions rules.

Notes to Financial Statements

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Correction of Delinquent Participant Contributions

During 2025, a total of \$79,181 of participant contributions were deemed delinquent. \$58,395 was due to the plan to correct delinquent contributions at December 31, 2025. See Schedule H, Line 4a – Schedule of Delinquent Participant Contributions. Calculations of lost earnings were not yet calculated.

Note 9 - Plan Termination

Although they have not expressed any intention to do so, the Company may elect to terminate the Plan or discontinue their contributions at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 10 - Excess Contributions

Contributions received from participants in 2025 are net of payments of \$22,941 made in 2026, to certain active participants to return excess deferral contributions as required satisfying the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable.

Contributions received from participants in 2024 are net of payments of \$32,083 made in 2025, to certain active participants to return excess deferral contributions as required satisfying the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable.

INDEPENDENT AUDITORS' REPORT

September 1, 2026

Plan Participants and Plan Administrator
Data Monitor Systems Savings Incentive Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Data Monitor Systems Savings Incentive Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended, and the related notes to financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Data Monitor Systems Savings Incentive Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Data Monitor Systems Savings Incentive Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Data Monitor Systems Savings Incentive Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Data Monitor Systems Savings Incentive Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Data Monitor Systems Savings Incentive Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing

procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DATA MONITOR SYSTEMS SAVINGS INCENTIVE PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

Note 1 - Description of Plan

The following description of the Data Monitor Systems Savings Incentive Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was initially adopted January 1, 1997 and was last amended April 18, 2022. The Plan is a defined contribution plan covering all full-time employees of the employer who have reached age 18 with an entrance date as of the first of the month after attaining eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

The Plan was amended and restated effective April 1, 2022, in accordance with the Cycle 3 Restatement, in order to bring the Plan into compliance with legislative and regulatory changes set forth in IRS Notice 2017-37 and other legal requirements.

On December 29, 2022, the Consolidated Appropriations Act of 2023 was signed into law, which includes the package of retirement provisions commonly referred to as "SECURE 2.0." These provisions build upon the reforms introduced in the SECURE Act of 2019, focusing on increasing retirement plan participation and encouraging greater retirement savings. SECURE 2.0 contains provisions with various effective dates beginning in 2023 and extending forward.

The provisions include both required and optional elements. The Plan administrator has adopted the required provisions and continues to evaluate optional provisions for future adoption.

Participant Contributions

Each year participants may contribute up to 90% of eligible compensation not to exceed the limits of the IRC Section 401(k) of pretax annual compensation as defined in the Plan. Pursuant to collective bargaining agreements and related participation agreements the Plan sponsor pays in a prevailing wage contribution that is included in other contributions. These amounts are based on the contribution rates and covered work requirements specified in those agreements and represent contributions due to the Plan, rather than employee compensation. At the discretion of the Administrator, participants may also

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contribution into various investment options offered by the plan. The plan currently offers numerous mutual funds as options.

Employer Contributions

The Company may elect to contribute matching contributions to the Plan. For the years ended December 31, 2025 and 2024, the Company elected not to contribute a match to participant contributions.

Participant's Account

Each participant's account is credited with the participant's contribution and allocation of the employer matching and non-elective contributions (if applicable), Plan earnings or losses, and forfeitures of terminated participants' non-vested accounts. Allocations are based on provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions and the prevailing wage contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. Vesting accrues at 25% for four years and a participant is 100 percent vested after four years of credited service. A year of service is deemed to be any year in which a participant has 1,000 hours of service.

Payment of Benefits

Upon termination of service, death, disability or retirement, or other reasons, a participant with a vested balance under \$5,000 will receive a lump-sum distribution. If the vested balance exceeds \$5,000, the plan permits the participant to elect a distribution under any one of the following methods, (1) lump sum, (2) part lump sum and part installments, as described in (3), (3) installment payments (annually, quarterly or monthly over a specified period of time, not exceeding the participant's life expectancy or the joint life expectancy of the participant and his or her designated beneficiary.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

Forfeitures

Participants' accounts that are forfeited because of termination prior to vesting are allocated to remaining participant accounts as if the forfeitures were additional employer non-elective contributions for the plan year in which the forfeiture occurs. There were no forfeitures during the plan years ended December 31, 2025 and 2024.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.50%, which are commensurate with local prevailing prime rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. Participant loans are valued at their outstanding balances, which approximates fair value.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments are stated at fair value. Quoted market prices and inputs that are unobservable are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

Purchases and sale of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable may be reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

The trustee will pay from the Trust all fees and expenses reasonably incurred by the Plan, to the extent such fees and expenses are for the ordinary and necessary administration and operation of the Plan, unless the Sponsor pays such fees and expenses. For 2025 and 2024, the Sponsor paid only selected administrative expenses.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

The Plan sponsor has evaluated subsequent events through August 31, 2026 the date which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Data Monitor Systems Savings Incentive Plan
Notes to Financial Statements
December 31, 2025 and 2024

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available at year end to the Plan for the years ended December 31, 2025 or 2024.

Level 1 Fair Value Measurements

The fair values of mutual funds are available based on quoted market prices, when available. The fair values of mutual funds are based on the closing price reported on the active market where the individual securities are traded. Money market funds are valued at the net asset value (NAV) based on the daily closing price as reported by the fund. Money market funds are classified within Level 1 of the fair value hierarchy

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2025 and 2024, are reported in net appreciation (depreciation) in fair value of investments.

The following tables set forth, by level within the fair value hierarchy. The Plan's investments at fair value as of December 31, 2025 and 2024:

Note 4 - Information Certified by a Qualified Institution

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends income, and interest on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by the trustee, Fidelity Management Trust Company.

Note 5 - Income Tax Status

The Internal Revenue Service has determined in a letter June 30, 2020, that the volume submitter profit sharing plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). While the Plan itself has not obtained a separate determination letter from the IRS, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan is considered to be tax-exempt, and no provision for income taxes has been included in the financial statements. The Company adopted the revised and restated volume submitter plan on April 18, 2022. There was no interest or penalties to the Internal Revenue Service included in these financial statements. The Plans' tax returns are generally subject to examination by the Internal Revenue Service and various State agencies for a period of three years from the date they are to be filed.

Note 6 - Transactions With Parties in Interest

Certain Plan investments were shares of mutual funds managed by Fidelity Management Trust Company who is the trustee. Fees paid by the Plan for the investment management services amounted to \$51,873 and \$54,157 for the years ended December 31, 2025 and 2024, respectively. These fees are permitted party-in-interest transactions exempt from ERISA's prohibited transactions rules.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Correction of Delinquent Participant Contributions

During 2025, a total of \$79,181 of participant contributions were deemed delinquent. \$58,395 was due to the plan to correct delinquent contributions at December 31, 2025. See Schedule H, Line 4a – Schedule of Delinquent Participant Contributions. Calculations of lost earnings were not yet calculated.

Note 9 - Plan Termination

Although they have not expressed any intention to do so, the Company may elect to terminate the Plan or discontinue their contributions at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 10 - Excess Contributions

Contributions received from participants in 2025 are net of payments of \$22,941 made in 2026, to certain active participants to return excess deferral contributions as required satisfying the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable.

Contributions received from participants in 2024 are net of payments of \$32,083 made in 2025, to certain active participants to return excess deferral contributions as required satisfying the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable.
