DCS Corporation Restated Employee Stock Ownership Plan

Opinion

We have audited the financial statements of DCS Corporation Restated Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of DCS Corporation Restated Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of DCS Corporation Restated Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about DCS Corporation Restated Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of DCS Corporation Restated Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about DCS Corporation Restated Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

DCS Corporation Restated Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2025 and 2024

1. Description of plan

The following description of the DCS Corporation Restated Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a leveraged employee stock ownership plan ("ESOP") established effective December 1, 1986, as restated December 1, 2013. The Plan covers all employees, excluding union, nonresident aliens, foreign employees, and leased employees, of DCS Corporation (the "Company" or "Employer") who are age 18 or older. The Plan was most recently amended effective April 23, 2025. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code ("IRC") of 1986, as amended, and is subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974, as amended. The Plan is administered by a Board of Trustees ("Trustees") committee appointed by the Board of Directors of the Company.

The Plan's assets consist principally of common stock of the Company. Company contributions are managed by the Trustees, who invest cash received, interest, and dividend income and make distributions to participants. The Trustees also administer the payment of interest and principal on any outstanding loans of the Plan. As the Plan makes debt payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with the applicable regulations under the IRC.

Contributions

The Company is obligated to make contributions to the Plan in shares of Company stock or cash, as approved by its Board of Directors, which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. Active employees who are employed on the last day of the Plan year and who have completed 1,000 hours of service are eligible to participate in that year's contribution allocation.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Each participant's account is credited with an allocation of: 1) the stock released and cash, if any, from the Company's contribution; (2) forfeitures of terminated participants' nonvested accounts; and (3) dividends paid, if applicable. Allocations are based on compensation and length of service, as defined, and are weighted 80% and 20%, respectively. Plan earnings are allocated based upon the accumulated balances of the participants' stock and other investment accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

DCS Corporation Restated Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2025 and 2024

Vesting

If participants employed with the Company are terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. Participants vest at 25% after one year of credited service and an additional 25% for each year thereafter, becoming 100% vested after four years of credited service. Participants are also 100% vested if they die or become permanently disabled or attain the normal retirement age under the Plan (65th birthday and five years of participation in the Plan) while employed with the Company, regardless of whether they retire from the Company.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such vote can be cast with respect to approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as may be prescribed in Treasury regulations. The Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustees are required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Payment of benefits

No distributions from the Plan, with the exception of diversification payments, are made until a participant retires, otherwise terminates employment with the Company, or dies (in which case payment shall be made to his or her beneficiary, or, if none, his or her legal representatives). Distributions will be made based upon the fair market value of the Company's stock as of December 31 immediately preceding the date of distribution. Upon death or disability, the participant or the beneficiary will receive a lump-sum amount equal to the value of his or her account. Upon retirement, if a participant's current balance is greater than \$7,000, he or she will receive four annual installments subject to the Plan's distribution policy. If upon retirement, the participant has a current balance less than \$7,000, a lump-sum distribution will be subject to the Plan's distribution policy. If a participant terminates employment during a Plan year for reasons other than death, disability, or retirement, the distribution will begin within the following six Plan years.

Forfeited accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. At December 31, 2025 and 2024, forfeited nonvested accounts totaled \$0 and \$0, respectively. These accounts will be allocated to participant accounts of those employed on the last day of the plan year. During 2025, \$700,545 was allocated to participant accounts from forfeited nonvested accounts, in accordance with plan provisions.

Put option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

DCS Corporation Restated Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2025 and 2024

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a Qualified Participant). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of his or her investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end. For the year ended December 31, 2025, \$860,350 was transferred from the Plan to another qualified contribution plan sponsored by the Company.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Employer contributions are recorded in the Plan year as approved by the Board of Directors.

Payment of benefits

Benefits are recorded when paid.

DCS Corporation Restated Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2025 and 2024

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Subsequent events

Subsequent events were evaluated through September 22, 2026, the date the financial statements were available to be issued. Management concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

3. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under FASB ASC to Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement*, are described as follows:

- Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation technique include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

DCS Corporation Restated Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2025 and 2024

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024:

Company common stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of the discounted cash flow, discounted company and guideline transactions methods. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

Assets at Fair Value as of December 31, 2025

	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	\$ -	\$ 172,468,280	\$ 172,468,280
Total assets at fair value	\$ -	\$ -	\$ 172,468,280	\$ 172,468,280

Assets at Fair Value as of December 31, 2024

	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	\$ -	\$ 181,545,985	\$ 181,545,985
Total assets at fair value	\$ -	\$ -	\$ 181,545,985	\$ 181,545,985

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2025:

Balance, beginning of year	\$ 181,545,985
Net depreciation in fair value of investment	(5,371,728)
Sale of stock to fund benefit payments - 74,627 shares	(3,705,977)
Balance, end of year	<u>\$ 172,468,280</u>

In accordance with FASB Accounting Standards Update ("ASU") No. 2013-09, Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Accounting Standards Update No. 2011-04, the Plan has chosen to omit the disclosure of the quantitative unobservable input table for the years ended December 31, 2025 and 2024.

DCS Corporation Restated Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2025 and 2024

4. Investment in common stock

The Plan invests primarily in Company common stock as directed by the Trustees. The Trustees shall invest any Plan assets that are not invested in Company common stock in such assets where it would be held temporarily as cash or its equivalent. At December 31, 2025 and 2024, the share amount represents 88% and 88%, respectively, of the issued and outstanding stock of the Company. The cost of the shares is based on a first-in, first-out methodology. The Plan's investments in the Company's common shares at December 31, are presented in the following table:

	2025	2024
DCS Corporation common stock		
Number of shares	3,581,152	3,655,779
Cost	\$ 48,861,725	\$ 51,322,457
Estimated fair value	\$ 172,468,280	\$ 181,545,985
Fair value per share, end of year	\$ 48.16	\$ 49.66

5. Note payable

On November 1, 2017, the Plan entered into a \$2,917,720 term loan with the Company to purchase 224,440 shares of Company stock. The loan is for a term of eight years at an interest rate of 4.25%. The loan terms call for annual principal payments of \$364,715, commencing on November 1, 2018. During 2025, the balance of the note payable and interest was paid in full in the amounts of \$364,715 and \$2,584, respectively.

On October 24, 2018, the Plan purchased 224,440 shares of the Company's common stock with a loan from the Company in the amount of \$3,231,936. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. The note matures in October 2026 and bears interest at a fixed rate of 5.25%.

The borrowing is collateralized by the unallocated shares of common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 196,385 shares being released and allocated for the plan year ended December 31, 2025. As of December 31, 2025, 28,055 shares are unallocated. At December 31, 2025, the balance of the note payable is \$403,992, all of which is due by December 31, 2026, and accrued interest payable is \$3,951.

DCS Corporation Restated Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2025 and 2024

6. Related-party and party-in-interest transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and as discussed in Note 5 below, the Plan has entered into a term loan with the Company to purchase shares of Company common stock. These are related party and party in interest transactions. As described in Note 2, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

7. Plan termination

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions at any time after the liquidation of the stock acquisition loans and to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of unallocated Company common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100 percent vested.

8. Tax status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 17, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving this letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and uncertainties

Company stock

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Concentration of credit risk

As of December 31, 2025, the Plan's investment in the Company common stock was 97.9% of the Plan's total assets. This represents a concentration of credit risk.

Cash

Cash consists of bank accounts used for paying out distributions to participants and for holding beneficiaries' balances. The Plan maintains cash in a bank account which at times may exceed federally insured limits. The Plan has not experienced any losses in such account, and Plan management believes it is not exposed to any significant credit risk on cash balances.
