Independent Auditors' Report

To the Benefits Administration Office and the Audit and Compliance Committee of the Board of Trustees of the University of Miami
University of Miami Retirement Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of University of Miami Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical

requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information

to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

(1) Plan Description

The following description of the University of Miami Retirement Savings Plan (the Plan) is provided for general information purposes only. More detailed information may be found in the Summary Plan Description, which is distributed to all participants or in the Plan document, which is available to all participants upon request.

(a) General

The Plan is a defined contribution plan covering faculty and staff of the University of Miami (the University) hired on or after June 1, 2007, or who elected prior to June 1, 2007, to transfer participation to this Plan from the Defined Contribution Retirement Plan for Faculty of the University of Miami or from the Retirement Plan for Employees of the University of Miami except for individuals who are eligible to participate in the University of Miami Retirement Savings Plan II, leased employees, non-resident aliens, individuals who work less than 20 hours per week or students performing services, as described in the Plan document. The Plan was established on June 1, 2007, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Administration of the Plan

The Vice President and Chief Financial Officer of the University, together with HR Total Rewards, administer the Plan. The Retirement Plans Committee is responsible for monitoring the investment of Plan assets. Fidelity Management Trust Company (Fidelity), The Lincoln National Life Insurance Company (Lincoln), The Teachers Insurance and Annuity Association of America College Retirement Equity Fund (TIAA-CREF) and The Variable Annuity Life Insurance Company (VALIC) serve as custodians of the Plan.

(c) Participant Contributions

Participants may make a pre-tax contribution in any percentage of compensation or fixed dollar amount per payroll period subject to certain limitations, as described in the Plan document, or may elect to make no contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Service (IRS) limitations, as described in the Plan document.

If no election is made, the participant shall be automatically enrolled in the Plan and will be deemed to have authorized the University to reduce their compensation by 1.5%. Participants may opt out of automatic enrollment at any time.

(d) University Contributions

For each pay period, the University makes an automatic core contribution to the Plan of 5% of the participant's compensation up to certain limitations, as described in the Plan document. In addition, each payroll period, the University makes a matching contribution on behalf of each active participant in an amount equal to 100% of the participant's pre-tax contributions for such payroll period but not more than 5% of such participant's compensation for such payroll. University core and matching contributions are subject to limitations.

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

(e) Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the University's contributions and allocations of investment fund earnings, and charged with withdrawals and allocations of investment fund losses and administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Participants shall at all times be 100% vested in their pretax contribution account and the University matching contribution account. Vesting in the University core contribution account is based on the occurrence of the earliest of the following: after three years of vesting service, attainment of age 65 while an employee, upon death while an employee or upon partial or complete termination of the Plan.

(g) Investment Options

Upon enrollment in the Plan, a participant may direct contributions to a variety of investment options offered by the custodians, including mutual funds, pooled separate accounts, registered investment companies and guaranteed investment contracts. A participant may direct contributions in a variety of mutual fund options offered by Fidelity or a variety of registered investment companies offered by College Retirement Equity Fund (CREF) and an annuity offered by TIAA-CREF. In addition to the mutual fund options, participants can elect to invest in Fidelity's BrokerageLink consisting of investments purchased through a self-directed brokerage window administered by Fidelity. Through the Fidelity BrokerageLink, participants have access to additional mutual funds including Fidelity and non-Fidelity funds not available to other participants who have not selected the BrokerageLinks option. Participants may change their investment options at any time. New contributions are no longer allowed to be directed to investments offered by VALIC or Lincoln; however, participants with existing balances with these custodians are allowed to transfer among VALIC or Lincoln investment options.

(h) Notes Receivable from Participants

Each participant may borrow from their fund account up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms are usually a maximum of five years except for the purchase or construction of a primary residence, which may be more than five years. The loans are secured by the balance in the participant's account. Interest rates are fixed at the date of each loan and are commensurate with local prevailing rates, as determined by the Plan Administrator at the date of the loan, ranging from 4.25% to 9.50% maturing through 2045. Principal and interest are paid ratably through automatic debits as set up by the participant through payroll deductions.

(i) Policy Loans

Loans issued by TIAA-CREF, Lincoln and VALIC are policy loans issued directly from TIAA-CREF, Lincoln and VALIC. Participants are no longer able to obtain new policy loans from either Lincoln or VALIC. The minimum TIAA-CREF loan is \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's account balance. Loan terms are usually a maximum of five years except for the purchase or construction of a primary residence, which may be more than five years. To obtain a policy loan, a participant must transfer 110% of the requested loan amount into the provider's designated annuity investment to serve as collateral. For all policy loans, interest is paid to the provider and the provider does not charge any significant loan fees. As of December 31, 2025 and 2024,

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

participants had \$72,519 and \$71,983 of policy loans outstanding, respectively. Policy loans are not assets of the Plan. Appropriate collateral was maintained in guaranteed investment contracts by each provider to guarantee outstanding policy loan balances.

(j) *Payment of Benefits*

Participants may elect to receive either a lump sum amount equal to the value of the participant's vested interest in their contribution account, or any other form of payment offered by the custodians upon termination of employment or termination due to death or disability. A participant may elect to receive the University matching contribution account and his or her vested account balance in the University core contribution account in the form of a monthly lifetime annuity or lump-sum distributions as offered by the custodians if the participant meets the retirement requirements of the Plan. An employee may elect to receive the University matching contribution account and vested University core contribution account in the forms noted above if they have attained age 55 and completed at least 10 years of service.

(k) *Forfeited Accounts*

As of December 31, 2025 and 2024, forfeited non-vested accounts totaled \$208,352 and \$1,631,736, respectively. These accounts are used to reduce future University contributions. The non-vested portion of a participants account is forfeited after five consecutive one-year breaks in service. Forfeited amounts used to reduce University contributions for the year ended December 31, 2025 totaled \$2,645,937.

(2) Significant Accounting Policies

(a) *Basis Of Accounting*

The financial statements of the Plan have been prepared on the accrual basis of accounting.

(b) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent net assets available for benefits. Actual results could differ from those estimates.

(c) *Investment Valuation and Income Recognition*

Investments are reported at fair value, except for fully benefit responsive investment contracts, which are reported at contract value (Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plans Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for discussion of fair value measurements.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measurement attribute for fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid, interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Transfer of Assets to/from the Plan

Participants or beneficiaries who are current or former employees of the University are permitted to transfer their account assets to or from another 403(b) plan sponsored by the University as long as the benefit immediately before the transfer is at least equal to the benefit immediately after the transfer.

(g) Administrative Expenses

Investment management service fees are paid directly from the Plan's assets. Other administrative expenses are paid directly by the University and include audit fees and legal fees.

(3) Information Certified or Provided by Custodians

The following is a summary of the Plan's investment information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by the custodians of the Plan as defined in Note 1, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that the information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by ERISA section 103(a)(3)(C) pursuant to 29 Code of Federal Regulations (CFR) 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, except for comparing such certified information to information included in the Plan's financial statements and supplemental schedule.

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

The following table presents the assets in the Plan that were certified by the custodians as of December 31, 2025 and 2024:

	<u>2025</u>	<u>2024</u>
Investments, at fair value:		
Mutual funds	\$ 2,225,500,188	1,807,770,786

Fully benefit-responsive contracts	\$ 23,684,157	25,700,773
Notes receivable from participants	\$ 17,856,586	15,194,827

Contract value approximated fair value as of December 31, 2025 and 2024 for the TIAA-CREF non-fully benefit-responsive guaranteed investment contracts.

The custodians have also certified to the completeness and accuracy of investment results, interest and other income for the year ended December 31, 2025:

Statement of changes in net assets available for benefits

Investment results:		
Net appreciation in fair value of investments	\$	312,705,748
Interest and dividends		<u>57,073,799</u>
Total investments results	\$	<u>369,779,547</u>
Interest income on notes receivable from participants	\$	1,291,510
Other income		108,261

(4) Fair Value Measurements

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Plan for investments measured at fair value:

- Level 1 – Inputs to the valuation methodologies include unadjusted quoted or published prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

- Quoted prices for similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds and self-directed investments: Value is readily determinable based on quoted prices for the number of shares held by the Plan at year-end.

Pooled separate account: Value is readily determinable based on amounts reported by the insurance company for the number of shares held by the Plan at year-end. The shares are not publicly traded on a national exchange and have certain restrictions impacting participants' ability to transact.

Registered investment companies: Valued at the net asset value (NAV) of accumulation units held by the Plan at year end as reported by the insurance company. The funds have an established NAV, however they are not publicly traded on a national exchange and have certain restrictions impacting participants' ability to transact.

Guaranteed investment contracts: Non fully-benefit responsive guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

There have been no changes in the methodologies used as of December 31, 2025 and 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value:

Investments at fair value as of December 31, 2025				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,225,500,188	—	—	2,225,500,188
Self-directed investments	150,275,812	—	—	150,275,812
Non-fully benefit-responsive guaranteed investment contracts	—	—	12,150,545	12,150,545
Pooled separate account ⁽¹⁾	—	5,699,357	—	5,699,357

Total investments at fair value	\$ 2,382,553,078	87,978,296	12,150,545	2,482,681,919

Investments at fair value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,807,770,786	—	—	1,807,770,786
Self-directed investments	123,334,288	—	—	123,334,288

Total investments at fair value	\$ 1,937,283,440	82,470,584	11,490,624	2,031,244,648

(1) This category includes investments in a pooled separate account investing in real estate and real estate related investments. Although the underlying assets of the pooled separate account cannot be quickly sold and converted to liquid assets, the Teachers Insurance and Annuity Association of America (TIAA) general account provides a liquidity guarantee to meet participant redemption, transfer or cash withdrawal request varying from one to three days. Redemptions out of this investment are limited to once per quarter. Internal transfers to the TIAA Real Estate Account will be prohibited if the transfer causes the value of participant's total accumulation in the account to exceed \$150,000. The purpose of this limitation is to ensure more predictable account inflows and outflows, which is expected to facilitate efficient portfolio management over the long-term.

(2) Participants will be locked out of an account for 90 days if purchase, sale and repurchase within that variable annuity is made within a 60 day period. Trade settlement terms are 1-3 days.

Quantitative Information about Significant Unobservable Inputs Used in the Level 3 Fair Value Measurement

The purchases and issues of Level 3 assets were \$1,117,828 and \$810,380, respectively, for the year ended December 31, 2025. The change in net unrealized gains related to Level 3 assets still held at December 31, 2025 was \$214,056, and is recorded in net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

The following table represents the Plan's Level 3 financial instrument, the valuation technique used to measure the fair value of the financial instruments, and the significant unobservable inputs and values:

Type	Valuation techniques	Unobservable inputs	Significant unobservable input values
TIAA Traditional Annuity	Contract value	Risk-adjusted discount rate applied	RCP 3.05% to 6.00% RA 3.55% to 6.50% RC 3.80% to 6.75%

(5) Investment Contracts with Custodians

The Plan has investment contracts with three of its custodians, including TIAA-CREF, Lincoln and VALIC. Under these contracts are sub-contracts, some of which are fully benefit responsive while others are not. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

For investment contracts that are fully benefit responsive, which include TIAA-CREF, VALIC and Lincoln, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon by the issuers, and is generally not less than 3%. Investment contracts with a portion of the TIAA-CREF traditional account has been determined to be non-fully benefit-responsive and is recorded at fair value.

Certain events may limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

UNIVERSITY OF MIAMI RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2025 and 2024

TIAA-CREF has indicated that contract value approximates fair value for its funds as of December 31, 2025 and 2024. This determination is based on TIAA-CREF's credit rating and yield during 2025 and 2024 being comparable to similar alternative investments. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could be significant causing financial statements to become materially misstated.

(6) Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of such termination, participants will become 100% vested in all their employer contributions.

(7) Parties-in-Interest

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are shares of mutual funds, pooled separate accounts, registered investment companies, variable annuities and guaranteed investment contracts managed by the custodians, as defined in Note 1. The custodians are considered parties in interest. Fees paid by the Plan to the custodians for the investment management services amounted to \$1,540,449 and \$1,320,431 for the years ended December 31, 2025 and 2024, respectively.

Certain employees of the University provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the University on behalf of the Plan. These amounts are not material to the financial statements.

(8) Tax Status

The Plan terms have been drafted in reliance on the sample language provided by the Internal Revenue Service. The Plan is required to operate in conformity with the Internal Revenue Code (Code) to maintain the exclusion from tax for Plan participants. The Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements. The Plan Administrator intends to apply for a determination letter on the Plan when the government opens such a program.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Participant loans per the Form 5500	<u>\$ 16,472,023</u>	<u>13,972,316</u>

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market values may decline for a number of reasons, including changes in prevailing market and interest rate, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Subsequent Event

The Plan Administrator has evaluated subsequent events through August 21, 2026, the date the financial statements were available to be issued.
