d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒

Independent Auditor's Report

To the Plan Administrator
Ball Pension Plan
Broomfield, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Ball Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the statements of accumulated plan benefits and changes in accumulated plan benefits as of and for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

BALL PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 1 – DESCRIPTION OF THE PLAN

The Ball Pension Plan (the “Plan”) is a noncontributory defined benefit plan for qualified employees meeting certain requirements, as defined in the Plan Document and administered by Ball Corporation (the “Company” or “Plan Administrator”). The Global Pension Benefits Committee (“GPBC”) is the administrator of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Participation begins on the first day of employment and employees become fully vested after five years of service. Any individual who became an employee on or after January 1, 2022 is not eligible to participate in this Plan.

The Plan was amended and restated effective January 1, 2016. There were no significant changes to the provisions of the Plan due to this restatement.

On December 29, 2022, the Setting Every Community Up for Retirement Enhancement (“SECURE”) 2.0 Act was signed into law. Effective January 1, 2024, it required enhanced participant disclosures for lump sum windows, updated certain disclosures required to be included in the annual funding notice, and updated rules related to cash out provisions for the maximum amount that can be distributed without a participant’s consent from \$5,000 to \$7,000.

Effective February 15, 2024, pursuant to an agreement to sell Ball Aerospace & Technologies Corp. (“Aerospace business segment”), the Company transferred sponsorship of the Pension Plan As It Applies To Certain Salaried Employees of Ball Aerospace & Technologies Corp. (“Aerospace Plan”) to BAE Systems, Inc. Accordingly, the transaction resulted in the Company ceasing to be the Aerospace Plan sponsor, and the Aerospace business segment ceased to be a member of the Ball controlled group for purposes of Section 4043(c)(9) of ERISA and the corresponding regulations of the PBGC promulgated, effective as of the closing date of the transaction. The Plan was amended to provide full vesting of accrued benefits for all active employee participants of the Aerospace business segment effective on the closing date. There were no other amendments or changes to the Plan or to participants’ benefits related to this transaction.

Effective January 1, 2025, the Plan was amended to provide that members who terminate employment with the Company and its affiliated entities as a result of a divestiture will be deemed to have earned the greater of five years of vesting service or the actual vesting service under the Plan, effective as of the date of the divestiture.

The following description of the Plan provides only general information. A complete description of the Plan may be obtained by reference to the Plan Document and summary plan description, which are available from the Company.

Contributions

Employer contributions are made based upon the allowable or minimum required ERISA contribution. For 2025 and 2024, the ERISA minimum contributions were \$0 after consideration of any funding credit applications. The Company did not make any contributions to the Plan for the years ended December 31, 2025 and 2024, respectively.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Benefits

Benefit payments are payments made to participants for benefits accrued under the Plan and per the participant's election as to form of payment and timing of payments. The benefit amount is determined based on the years of service and pay under the Plan.

Termination Priorities

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan Document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan financial statements are reported on the accrual basis of accounting.

Valuation of Master Trust Investments and Investment Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities in the Ball Corporation Master Pension Trust (the "Master Trust") are recorded on the trade-date basis. Realized gains and losses on investments sold and unrealized appreciation or depreciation for investments of the Master Trust are combined and presented as investment income or (loss) from the Master Trust.

In addition, investment income or (loss) from the Master Trust includes interest, dividends and other income. Interest income from the Master Trust investments is recorded as earned. Dividends on the Master Trust investments are recorded on the ex-dividend date.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties

The Plan, through its investment in the Master Trust, provides for investment in various investment securities. Investment securities, in general, are exposed to various risks such as significant world events, interest rate, credit and market volatility. Included in the Master Trust investments are securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of those securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and may impact the funded status of the Plan.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Expenses

The Master Trust pays plan expenses on behalf of the Plan. Expenses related to the direct management of the Master Trust are shared on an equitable basis by the participating plans. Expenses specifically related to an individual plan are charged to the assets of the plan that incurred the charges.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates and could be material to the Plan's financial statements.

Benefits Paid

Benefits are recorded when paid.

NOTE 3 – ANNUITY CONTRACTS EXCLUDED FROM PLAN ASSETS

GA-499 is a Group Annuity Contract purchased from Aetna Life Insurance Company in 1951. The contract provides an annuity to each salaried and hourly employee of the former Kent Plastics Corporation who was in service of the Company on or after October 1, 1951, completed three years of continuous service, and was under age 65. The value of the annuity is based on compensation and years of service. The contract was indefinitely suspended October 1, 1958, which meant that no future benefits would be purchased, but that all benefits previously purchased would remain in force.

NOTE 3 – ANNUITY CONTRACTS EXCLUDED FROM PLAN ASSETS (CONTINUED)

On August 22, 2017, the Company completed the purchase of nonparticipating group annuity contracts from an insurance company. This annuity buyout shifted the Company's obligations irrevocably to an insurance company, who provides annuities for the participants affected (retirees who received amounts not greater than \$300 per month in pension payments). Assets of approximately \$20.9 million were transferred to the Prudential Insurance Company of America. The accumulated benefit obligation associated with the group annuity purchase was approximately \$19.6 million and impacted approximately 1,000 participants of the Plan. Funds under these contracts have been allocated and applied to purchase these annuities and are excluded from the Plan's assets.

On September 7, 2018, the Company completed the purchase of nonparticipating group annuity contracts from an insurance company. This annuity buyout shifted the Company's obligations irrevocably to an insurance company, who provides annuities for the participants affected. Assets of approximately \$150 million were transferred to Prudential Financial. The accumulated benefit obligation associated with the group annuity purchase was approximately \$149 million and impacted approximately 3,000 participants. Funds under these contracts have been allocated and applied to purchase these annuities and are excluded from the Plan's assets.

On September 24, 2020, the Company completed the purchase of nonparticipating group annuity contracts with an insurance company. This annuity buyout shifted the Company's obligations irrevocably to an insurance company, who provides annuities for the participants affected. Assets of approximately \$77.5 million were transferred to Athene Annuity and Life Company. The accumulated benefit obligation associated with the group annuity purchase was approximately \$82.5 million and impacted approximately 1,800 participants. After the purchase was finalized, the Plan received a refund of approximately \$1.2 million. Funds under these contracts were allocated and applied to purchase these annuities and are excluded from the Plan's assets.

NOTE 4 – MASTER TRUST (UNAUDITED)

Effective February 28, 2002, the Company established the Master Trust for the purpose of investing assets of the Company's defined benefit pension plans as follows:

- Ball Pension Plan
- Ball Corporation Pension Plan as it Applies to Certain Salaried Employees of Ball Aerospace & Technologies Corp.
- Ball Corporation Consolidated Hourly Pension Plan
- ANCC Consent Order Plan

As of January 1, 2020, the plans within the Master Trust hold a divided interest in the Master Trust. Sponsorship of the Aerospace Plan was transferred to BAE Systems, Inc. effective February 15, 2024. As of December 31, 2024, the Aerospace Plan ceased participation in the master trust. The Plan has a divided interest of 83.95 and 85.55 percent in the net assets of the Master Trust as of December 31, 2025 and 2024, respectively. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investment income (loss), investment management fees and other direct expenses relating to the Master Trust are allocated to the individual plans based on the average daily balances.

NOTE 5 – FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures* are described using the following definitions (from highest to lowest priority):

- Level 1—Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2—Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3—Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value:

Cash and cash equivalents: Cash and cash equivalents consist of cash on deposit with brokers and short-term U.S. Treasury money market funds and are net of receivables and payables for securities traded at the period end but not yet settled. All cash and cash equivalents are stated at cost, which approximates fair value.

Corporate bonds and notes: Assets are valued using market inputs including benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Inputs may be prioritized differently at certain times based on market conditions. Liabilities reflect pending trade purchases for corporate bonds and notes.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

Corporate equity securities: Valued at the closing price reported on the active market on which the individual security is traded. The Master Trust participated in short selling of certain equity securities. A short sale is the sale of a stock that an investor does not own or a sale which is consummated by the delivery of a stock borrowed by, or for the account of, the investor. Investments in securities and securities sold short that are freely tradable and are listed on major securities exchanges are valued at their last reported sales price as of the valuation date. Many over-the-counter (“OTC”) contracts have bid and ask prices that can be observed in the marketplace. Bid prices reflect the highest price that the marketplace participants are willing to pay for an asset. Ask prices represent the lowest price that the marketplace participants are willing to accept for an asset. For securities whose inputs are based on bid-ask prices, the Master Trust’s valuation policies do not require that fair value always be a predetermined point in the bid-ask range. The Master Trust’s policy for securities traded in the OTC markets and listed securities for which no sale was reported on that date are generally valued at their last reported bid price if held long, and last reported ask price if sold short. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. The objective of the use of a short equity strategy is to achieve consistent, positive absolute returns by hedging the risk of an economic long position in the same security or in a related security.

Mortgage backed securities: Valued on the basis of their principal and interest payments discounted at prevailing interest rates for similar investments.

Bank loans: Valued based on a pricing vendor quote or broker quotes used by Northern Trust Company (“Trustee” of the Plan), or as determined by the investment manager.

Foreign government bonds: Valued based on market quotations, yields, maturities, and the bond’s terms and conditions in accordance with the region’s market convention.

Swaps: Consist of credit default swaps and interest rate swaps, and are valued based on pricing matrices or models from pricing vendors used by the Trustee. Credit default swaps are valued considering the basis point spread and recovery rate assumption. Interest rate swaps are valued considering par coupon (par yield) and the full terms of issue.

U.S. government and agency securities: Valued using the pricing of similar agency issues, live trading feeds from several vendors and benchmark yields.

Commingled funds: Valued at the net asset value (“NAV”) as a practical expedient of shares held by the Plan at year-end. Funds can also be valued using market inputs and NAV of shares held by the Plan at year-end.

Limited partnerships: Certain partnership investments receive fair market valuations on a quarterly basis. Certain other partnerships invest in market-traded securities, both on a long and short basis. These investments are valued using NAV as a practical expedient.

Real estate fund: Valued at the NAV as a practical expedient of shares held by the Plan at year-end. The fund can be valued using market inputs and NAV of shares held by the Plan at year-end. For real estate investments, for each calendar year, the fund follows a valuation policy whereby investment fair values are determined quarterly by one self-contained appraisal report and three limited restricted appraisals, in accordance with the Uniform Standards of Professional Appraisal Practice.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

Certain of these investments are considered illiquid and are meant to be held for the life of the funds but, if necessary, sales can be arranged through the secondary market. Distributions are received through the liquidation of the underlying assets of the funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

The levels assigned to the Plan's investments (at the Master Trust level) as of December 31, 2025 and 2024, respectively, are summarized in the tables below:

NOTE 6 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and have elected the joint and survivor option, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' eligible earnings and years of credited service. The accumulated plan benefits for active employees are based on their years of service rendered as of the date the benefit information is presented (valuation date). Benefits payable under all circumstances—retirement, death and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. The actuarial valuation was performed as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would have been no material difference.

Actuarial Assumptions

The significant actuarial assumptions used in the valuation as of December 31, 2024, are as follows:

Expected rate of return	6.935%
Mortality rates—active and retired	Non-annuitants – based on Pri-2012 “Employees” sex-distinct tables without collar adjustments, projected forward generationally with Scale MP-2021 and for Annuitants – based on Pri-2012 “Healthy Retirees” and “Contingent Survivors” sex-distinct tables without collar adjustments, projected forward generationally with Scale MP-2021.

Form of payment	70% lump sum, 30% annuity
Assumed retirement age	63

The assumed plan-related expenses added to the target normal cost were changed from \$7,084,000 for 2023 to \$3,419,000 for 2024.

The lump sum conversion rate changed from 5.45% for 2024 and 4.25% for 2025 and future years to 5.40% for 2025 and 4.25% for all future years. The lump sum conversion mortality used was the relevant Internal Revenue Service (“IRS”) prescribed mortality table for each year through 2025.

The plan accounting discount rate(s) changed from 7.35% for 2023 to 6.935% for 2024.

The mortality scale MP-2021 was not changed.

The effect of the above changes resulted in a increase in accumulated Plan benefits of \$22,625,782, at December 31, 2024.

NOTE 7 – CERTIFIED INVESTMENT INFORMATION

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2025 and 2024 and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2025 and 2024 (except for the investments and related investment income in limited partnerships and real estate fund) was certified as complete and accurate by Northern Trust Company (“Trustee” of the Plan), a qualified institution. This financial information was obtained or derived from the certified trust statements in accordance with ERISA Section 103 (a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. Information included in the accompanying financial statements as to investment in the Master Trust, investment income (loss) from the Master Trust, and investment information contained in Note 4 and Note 5 is derived from the certified investment information.

At the request of the Plan Administrator, the Plan’s independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

BALL PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 8 – TAX STATUS OF THE PLAN

IRS informed the Company by a letter dated May 11, 2016, that the Plan and related trust were designed in accordance with the applicable provisions of the Internal Revenue Code (“IRC”). Thus, contributions to the Plan and earnings thereon are not taxable until distributed to the participant.

The Plan has been amended since receiving this determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that likely would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

NOTE 9 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan, through its participation in the Master Trust, may invest in investment securities issued and/or managed by the Trustee and asset managers. As described in Note 2, *Summary of Significant Accounting Policies, Expenses*, the Plan paid fees related to Plan operations and investment activity to various service providers. These entities are considered parties-in-interest to the Plan. Certain Master Trust investments are shares of company common stock. Amounts held and transactions in those investments were immaterial to the Master Trust and Plan’s financial statements. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 24, 2026, the date these financial statements were available to be issued, and determined that there were no events or transactions which would require recognition or disclosure in these financial statements, other than those noted below.

Effective January 1, 2026, the SECURE 2.0 Act requires plans to provide participant contact information to the DOL for use in a retirement savings lost and found searchable database, and also requires that a paper statement be provided to participants at least once every three years, with some exceptions. The Plan will be amended to reflect all SECURE 2.0 Act related provisions by December 31, 2026, as required by the Act.

Economic Assumptions

Interest rate basis

- Applicable month September
- Interest rate basis 3-Segment Rates

Interest rates	Reflecting Corridors	Not Reflecting Corridors
• First segment rate	5.07%	5.07%
• Second segment rate	5.31%	5.33%
• Third segment rate	5.50%	5.36%
• Effective interest rate	5.32%	5.30%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, the PBGC FTAP, the PBGC 4010 FS, and the deductible limit.

Benefit commencement date:

- Preretirement death benefit
The later of the death of the active participant and earliest retirement date allowed under the plan.
- Deferred vested benefit
Legacy Ball Salaried – Later of age 65 and termination of employment for participants assumed to elect an annuity. Upon termination of employment for participants assumed to elect a lump sum.
Legacy Rexam – Later of age 62/65 (or 60/65 for OI hourly group) and termination of employment. Varies based on group and location.
- Disability benefit
Later of age 65 and date of disability.
- Retirement benefit
Upon termination of employment.

Form of payment

Ball Salaried - 70% of participants are assumed to elect a lump sum and 30% are assumed to elect an annuity. For participants assumed to elect an annuity, single participants are assumed to elect a life only annuity and married participants are assumed to elect a 50% joint and survivor annuity. Lump sums were valued using the general rule under Proposed IRC §1.430(d)-1(f)(4).

Legacy Rexam - For participants assumed to elect an annuity, single participants are assumed to elect a life only annuity and married participants are assumed to elect a 50% joint and survivor annuity. For participants in Plans #001 and #020, the percent of employees electing a lump sum for the cash balance portion of the benefit varies by age.

Actuarial Value of Assets

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date.

The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 5.59%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.35%, and the applicable limitation for the plan year, equal to 5.59%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 7.077%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.077%, and the applicable limitation for the plan year, equal to 5.74%.

Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Plan-related expenses

The amount included this year for plan-related expenses is \$3,419,000 for the Ball Pension Plan.

Tax policy

The actuarial valuation performed for the plan year ending December 31, 2025 is used to determine the maximum deductible contribution for the tax year ending December 31, 2025.

Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
PBGC premium funding target	The Alternative Premium Funding Target was determined using the assumptions described above without application of the segment interest rate corridors of HATFA.

Sources of Data and Other Information

The plan sponsor, through WTW as its third-party administrator, furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Ball Corporation, the data assumptions were documented in the final assumptions log provided on June 12, 2025.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Interest rates	Reflecting Corridors	Not Reflecting Corridors
• First segment rate	5.07%	5.07%
• Second segment rate	5.31%	5.33%
• Third segment rate	5.50%	5.36%
• Effective interest rate	5.32%	5.30%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, the PBGC FTAP, the PBGC 4010 FS, and the deductible limit.

Benefit commencement date:

- Preretirement death benefit
The later of the death of the active participant and earliest retirement date allowed under the plan.
- Deferred vested benefit
Legacy Ball Salaried – Later of age 65 and termination of employment for participants assumed to elect an annuity. Upon termination of employment for participants assumed to elect a lump sum.
Legacy Rexam – Later of age 62/65 (or 60/65 for OI hourly group) and termination of employment. Varies based on group and location.
- Disability benefit
Later of age 65 and date of disability.
- Retirement benefit
Upon termination of employment.

Form of payment

Ball Salaried - 70% of participants are assumed to elect a lump sum and 30% are assumed to elect an annuity. For participants assumed to elect an annuity, single participants are assumed to elect a life only annuity and married participants are assumed to elect a 50% joint and survivor annuity. Lump sums were valued using the general rule under Proposed IRC §1.430(d)-1(f)(4).

Legacy Rexam - For participants assumed to elect an annuity, single participants are assumed to elect a life only annuity and married participants are assumed to elect a 50% joint and survivor annuity. For participants in Plans #001 and #020, the percent of employees electing a lump sum for the cash balance portion of the benefit varies by age.

Actuarial Value of Assets

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date.

The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 5.59%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.35%, and the applicable limitation for the plan year, equal to 5.59%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 7.077%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.077%, and the applicable limitation for the plan year, equal to 5.74%.

Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Plan-related expenses

The amount included this year for plan-related expenses is \$3,419,000 for the Ball Pension Plan.

Tax policy

The actuarial valuation performed for the plan year ending December 31, 2025 is used to determine the maximum deductible contribution for the tax year ending December 31, 2025.

Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
PBGC premium funding target	The Alternative Premium Funding Target was determined using the assumptions described above without application of the segment interest rate corridors of HATFA.

Sources of Data and Other Information

The plan sponsor, through WTW as its third-party administrator, furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Ball Corporation, the data assumptions were documented in the final assumptions log provided on June 12, 2025.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Plan Segment: Ball Pension Plan for Salaried Employees

Plan effective date

The principal provisions of the Ball Pension Plan for Salaried Employees as amended and restated December 4, 1995, and further amended effective December 31, 2000, and January 1, 2016.

Coverage and participation

All employees hired prior to January 1, 2022 are eligible to participate under the plan on their date of hire or date of transfer to salaried status. The plan became closed to non-union hourly and salaried new entrants on December 31, 2021. "Employee" means any person on the payroll whose wages are subject to withholding for the purposes of federal income tax.

Vesting service

Through December 31, 2006, vesting service is, generally, the number of calendar years of employment with the Company in which at least 1,000 hours were worked, excluding any period of employment prior to September 1, 1983 during which the member was eligible to contribute but failed to contribute to the plan.

Certain participants who were former employees of Kraft or Metropak also receive vesting service for their period of employment with Kraft or Metropak.

Participants at Ball Glass will receive benefit service and vesting service for employment with Ball Glass and TBG. However, benefit service is only credited for the period when such employee was salaried.

Former Kerr employees will receive vesting service for employment with the prior employer. However, benefit service for such employees will be credited from the later of date of hire or March 1, 1992.

Former employees of Heekin Can, Inc. will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or May 1, 1993.

Former salaried employees of USCan, Inc. will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or March 27, 2006.

Former salaried employees of Alcan, Inc. will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or March 28, 2006.

Former salaried employees of Anheuser-Busch Companies, Inc. will receive vesting service and benefit service for employment with the prior employer.

Former salaried employees of Verona will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or January 1, 2012.

As of January 1, 2007 vesting service is determined based on the period of time a participant is employed with the Company. Fractional years of vesting service may be earned for a calendar year if a participant is not employed by the Company for the entire year. Vesting service includes service that was accrued as of December 31, 2006. For 2007 and 2008, employees hired prior to January 1, 2007 will receive the greater of the vesting service under this rule, and vesting service calculated using the 1,000 hour rule.

Benefit service

Through December 31, 2006, a year of benefit service is credited for each year a plan participant has 2080 or more hours of service. Fractional years of benefit service in proportion to 2080 are credited for years as a plan participant with less than 2080 hours. Additional rules for certain groups are described below in connection with vesting service.

As of January 1, 2007 benefit service will be determined based on the period of time a participant is employed with the Company until termination from the company. Fractional years of benefit service may be earned for a calendar year if a participant is not employed by the Company for the entire year. Benefit service includes service that was accrued as of December 31, 2006.

Final Average Compensation/Salary

The monthly average of the 60 consecutive months of compensation out of the last 120 that gives the highest average. Compensation includes base pay plus any compensation deferred under a Section 125 or Section 401(k) plan. As required by EGTRRA, compensation is limited to the maximum amount under the Internal Revenue Code Section 401(a)(17).

Covered Compensation

A 35-year average of the Maximum Taxable Wages (MTW) under social security. The MTW is the annual limit on wages subject to the FICA tax for social security. The 35-year period ends with the year the

employee reaches eligibility for an unreduced social security benefit (age 65, 66, or 67 depending on the year the employee was born). For years after the year of termination and prior to the end of the 35-year period, the MTW from the year of termination is used.

Social Security Wage Base

Social Security Wage Base is the Maximum Taxable Wages (MTW). The MTW is the annual limit on wages subject to the FICA tax for social security.

Normal Retirement Benefit

Normal retirement date: The first of the month coincident with or next following age 65 and five years of participation (the normal retirement age for individuals participating before 1989, age 65).

Benefit formula:

- Accrued benefit as of December 31, 2006 under prior plan provisions, plus
- Additional benefit based on the following table.

Full Years of Benefit Service	Formula
0 to 9	11.5% of base pay, plus 5% of base pay over 50% of Social Security Wage Base
10 to 19	13.0% of base pay, plus 5% of base pay over 50% of Social Security Wage Base
20 or more	15.0% of base pay, plus 5% of base pay over 50% of Social Security Wage Base

Benefits after December 31, 2006 are converted to an annuity based on IRC 417(e) rates and mortality.

Normal form of retirement income: The normal form of benefit is a single life annuity, if single and a joint and 50% survivor annuity, if married.

Late Retirement

If retirement occurs after the normal retirement date, the late retirement income will be the normal retirement benefit calculated using credited service and compensation as of the late retirement date.

Accrued Benefits

The participant's accrued benefit at any given date is determined under the normal retirement formula shown above, but is based on current Benefit Service, Compensation, Covered Compensation, and Social Security Wage Base.

Disability Benefit

Eligibility: Total and permanent disability (as defined under the Ball LTD plan) of participant prior to normal retirement date and five years of benefit service.

Benefit: This monthly benefit will be computed to include imputed future benefit service from date of disability to normal retirement age or date of death (if earlier). Benefits after December 31, 2006 will be computed using base pay at the date of disability. This benefit will commence upon attainment of normal retirement age.

Death of disabled participant prior to normal retirement: Prior to normal retirement, disabled participants are entitled to a death benefit identical to the one for active employees. This is determined as if the disabled participant had remained in service until his date of death.

Vested Benefits upon Termination of Service

Vesting: A participant is 100% vested upon completion of five years of vesting service.

Benefit: The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at normal retirement date. Optionally, the participant may elect to receive a reduced benefit commencing prior to normal retirement date. The participant may choose to take their total benefit as a lump sum (within 120 days of termination), a monthly payment, or a combination of the two.

Death Benefits for Participants in Active Service

Eligibility: Five years for vesting service.

Benefit: For benefits earned prior to December 31, 2006, the participant's spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the qualified joint and 50% contingent option. For benefits earned after December 31, 2006, the participant's spouse will receive a monthly retirement income payable for life in an amount equal to 100% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan.

Optional Forms of Retirement Income in Lieu of Normal Form

The plan provides that a member may elect one of the following optional forms of pension in lieu of the single life pension:

- 10-year certain and life pension.
- Guaranteed period pension.
- Joint and survivor pension.
- Level income option.
- Lump sum.
- Combo annuity/lump sum.

A member who has a spouse on the date of his retirement will be deemed to have elected the joint and 50% survivor pension unless the member rejects this option in writing.

Special Provisions for Top-heavy Plans

Not applicable; the plan has never been top-heavy.

Special Provisions for Alltrista Employees

Participants in this plan who became employees of Alltrista Corporation on April 2, 1993 ceased to receive service and benefit accruals in this plan on that date. All such employees were also deemed to be 100% vested in their accrued benefits under this plan on April 2, 1993.

Special Provisions for Efratom Employees

Plan

Ball Pension Plan

Plan year

The twelve-month period ending December 31, 2025.

Coverage and Participation

The plan covers various plan segments each with differing plan provisions. The following pages give provisions for the following major groups covered:

- Ball Pension Plan for Salaried Employees
- Other Inactive Locations from former Rexam Pension Plan

Plan Name: Ball Pension Plan
EIN / PN: 35-0160610/001
Plan Sponsor: Ball Corporation
Valuation Date: January 1, 2025

SCHEDULE SB ATTACHMENTS

Plan Segment: Ball Pension Plan for Salaried Employees

Plan effective date

The principal provisions of the Ball Pension Plan for Salaried Employees as amended and restated December 4, 1995, and further amended effective December 31, 2000, and January 1, 2016.

Coverage and participation

All employees hired prior to January 1, 2022 are eligible to participate under the plan on their date of hire or date of transfer to salaried status. The plan became closed to non-union hourly and salaried new entrants on December 31, 2021. "Employee" means any person on the payroll whose wages are subject to withholding for the purposes of federal income tax.

Vesting service

Through December 31, 2006, vesting service is, generally, the number of calendar years of employment with the Company in which at least 1,000 hours were worked, excluding any period of employment prior to September 1, 1983 during which the member was eligible to contribute but failed to contribute to the plan.

Certain participants who were former employees of Kraft or Metropak also receive vesting service for their period of employment with Kraft or Metropak.

Participants at Ball Glass will receive benefit service and vesting service for employment with Ball Glass and TBG. However, benefit service is only credited for the period when such employee was salaried.

Former Kerr employees will receive vesting service for employment with the prior employer. However, benefit service for such employees will be credited from the later of date of hire or March 1, 1992.

Former employees of Heekin Can, Inc. will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or May 1, 1993.

Former salaried employees of USCan, Inc. will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or March 27, 2006.

SCHEDULE SB ATTACHMENTS

Former salaried employees of Alcan, Inc. will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or March 28, 2006.

Former salaried employees of Anheuser-Busch Companies, Inc. will receive vesting service and benefit service for employment with the prior employer.

Former salaried employees of Verona will receive vesting service for employment with the prior employer. However, benefit service for these employees will be credited from the later of date of hire or January 1, 2012.

As of January 1, 2007 vesting service is determined based on the period of time a participant is employed with the Company. Fractional years of vesting service may be earned for a calendar year if a participant is not employed by the Company for the entire year. Vesting service includes service that was accrued as of December 31, 2006. For 2007 and 2008, employees hired prior to January 1, 2007 will receive the greater of the vesting service under this rule, and vesting service calculated using the 1,000 hour rule.

Benefit service

Through December 31, 2006, a year of benefit service is credited for each year a plan participant has 2080 or more hours of service. Fractional years of benefit service in proportion to 2080 are credited for years as a plan participant with less than 2080 hours. Additional rules for certain groups are described below in connection with vesting service.

As of January 1, 2007 benefit service will be determined based on the period of time a participant is employed with the Company until termination from the company. Fractional years of benefit service may be earned for a calendar year if a participant is not employed by the Company for the entire year. Benefit service includes service that was accrued as of December 31, 2006.

Final Average Compensation/Salary

The monthly average of the 60 consecutive months of compensation out of the last 120 that gives the highest average. Compensation includes base pay plus any compensation deferred under a Section 125 or Section 401(k) plan. As required by EGTRRA, compensation is limited to the maximum amount under the Internal Revenue Code Section 401(a)(17).

Covered Compensation

A 35-year average of the Maximum Taxable Wages (MTW) under social security. The MTW is the annual limit on wages subject to the FICA tax for social security. The 35-year period ends with the year the

employee reaches eligibility for an unreduced social security benefit (age 65, 66, or 67 depending on the year the employee was born). For years after the year of termination and prior to the end of the 35-year period, the MTW from the year of termination is used.

Social Security Wage Base

Social Security Wage Base is the Maximum Taxable Wages (MTW). The MTW is the annual limit on wages subject to the FICA tax for social security.

Normal Retirement Benefit

Normal retirement date: The first of the month coincident with or next following age 65 and five years of participation (the normal retirement age for individuals participating before 1989, age 65).

Benefit formula:

- Accrued benefit as of December 31, 2006 under prior plan provisions, plus
- Additional benefit based on the following table.

Full Years of Benefit Service	Formula
0 to 9	11.5% of base pay, plus 5% of base pay over 50% of Social Security Wage Base
10 to 19	13.0% of base pay, plus 5% of base pay over 50% of Social Security Wage Base
20 or more	15.0% of base pay, plus 5% of base pay over 50% of Social Security Wage Base

Benefits after December 31, 2006 are converted to an annuity based on IRC 417(e) rates and mortality.

Normal form of retirement income: The normal form of benefit is a single life annuity, if single and a joint and 50% survivor annuity, if married.

Late Retirement

If retirement occurs after the normal retirement date, the late retirement income will be the normal retirement benefit calculated using credited service and compensation as of the late retirement date.

Accrued Benefits

The participant's accrued benefit at any given date is determined under the normal retirement formula shown above, but is based on current Benefit Service, Compensation, Covered Compensation, and Social Security Wage Base.

Early Retirement Benefit

Eligibility: Age 55 and 10 years of vesting service.

Benefit: The monthly accrued benefit as of early retirement date reduced from multiplied by an early retirement factor due to commencement of payments. The accrued benefit earned through December 31, 2006 will be discounted according to the following table.

Age	Factor
65	100%
64	96%
63	92%
62	88%
61	84%
60	80%
59	74%
58	68%
57	62%
56	56%
55	50%

The benefit earned starting January 1, 2007 will be discounted at a rate of 5% per year compounded, as illustrated in the following table.

Age	Factor
65	100.0%
60	78.4%
55	61.4%
50	48.1%
45	37.7%
40	29.5%
35	23.1%
30	18.1%
25	14.2%

For former employees of Heekin Can, Inc. the portion of the normal retirement pension which is related to the April 30, 1993 frozen benefit is reduced with different early retirement factors than those shown above. Also, this portion of the benefit can be paid after the participant has completed 30 years of vesting service, regardless of his age.

Disability Benefit

Eligibility: Total and permanent disability (as defined under the Ball LTD plan) of participant prior to normal retirement date and five years of benefit service.

Benefit: This monthly benefit will be computed to include imputed future benefit service from date of disability to normal retirement age or date of death (if earlier). Benefits after December 31, 2006 will be computed using base pay at the date of disability. This benefit will commence upon attainment of normal retirement age.

Death of disabled participant prior to normal retirement: Prior to normal retirement, disabled participants are entitled to a death benefit identical to the one for active employees. This is determined as if the disabled participant had remained in service until his date of death.

Vested Benefits upon Termination of Service

Vesting: A participant is 100% vested upon completion of five years of vesting service.

Benefit: The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at normal retirement date. Optionally, the participant may elect to receive a reduced benefit commencing prior to normal retirement date. The participant may choose to take their total benefit as a lump sum (within 120 days of termination), a monthly payment, or a combination of the two.

Death Benefits for Participants in Active Service

Eligibility: Five years for vesting service.

Benefit: For benefits earned prior to December 31, 2006, the participant's spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the qualified joint and 50% contingent option. For benefits earned after December 31, 2006, the participant's spouse will receive a monthly retirement income payable for life in an amount equal to 100% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan.

Optional Forms of Retirement Income in Lieu of Normal Form

The plan provides that a member may elect one of the following optional forms of pension in lieu of the single life pension:

- 10-year certain and life pension.
- Guaranteed period pension.
- Joint and survivor pension.
- Level income option.
- Lump sum.
- Combo annuity/lump sum.

A member who has a spouse on the date of his retirement will be deemed to have elected the joint and 50% survivor pension unless the member rejects this option in writing.

Special Provisions for Top-heavy Plans

Not applicable; the plan has never been top-heavy.

Special Provisions for Alltrista Employees
