To the Investment Committee of
Vermont Energy Investment Corp. Tax Deferred Annuity Plan
Winooski, Vermont

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Vermont Energy Investment Corp. Tax Deferred Annuity Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

(1) Description of the Plan

The following description of the Vermont Energy Investment Corporation (the "Company") Tax Deferred Annuity Plan (the "Plan") provides only general information. Participants should refer to the Plan Adoption Agreement for a more complete description of the Plan's provisions.

(a) General – The Plan is a defined contribution 403(b) plan covering all full-time employees of the Company, excluding non-resident aliens. Participants may join the Plan upon their hire date.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Trustees.

(b) Employee Contributions – Participants may contribute up to 100% of eligible pre-tax compensation, as defined in the Plan, limited to a maximum amount as set by the Internal Revenue Service ("IRS"). Participants may also make after-tax Roth deferrals. Participants are automatically enrolled in the Plan at 5% upon hire. Participants who have attained the age of 50 before the end of the Plan year may contribute additional catch-up amounts as set by the IRS. Participants may also contribute amounts representing rollovers from other qualified plans.

(c) Employer Contributions – The Company contribution is a match, which is 20% of the first 5% deferred by participants upon hire; 60% of the first 5% deferred by participants from the second anniversary date to the third anniversary date; and 100% of the first 5% deferred by participants after the third anniversary date. A participant is eligible for the match upon attaining age 18. The match is made each pay period.

The Company may also make a discretionary non-elective contribution. A participant must be age 18 and complete 12 months of service following their date of hire to receive this contribution. The entry date for the non-elective contribution is the first day of the plan year or the first day of the seventh month of the plan year coinciding with or next following the date on which the employee satisfies the eligibility requirements. There was no discretionary non-elective contribution in 2025 or 2024.

(d) Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's contributions, and the Plan earnings. Earnings are allocated to participant accounts based on relative account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of the contributions into various investment options offered by the Plan.

(e) Vesting – All contributions and earnings thereon are 100% vested in the Plan.

(f) Payment of Benefits – Upon termination of service, a participant or beneficiary may elect to receive a lump-sum amount equivalent to their account balance. Upon termination of service due to death, the entire account balance shall be paid by the end of the fifth year to all beneficiaries.

Description of the Plan (continued)

If a participant's balance is less than $7,000, excluding rollovers, it is mandatory that the balance be distributed to the participant or beneficiary in a lump sum distribution.

Participants may take in-service distributions once they reach age 59½. Hardship distributions are permitted in an amount not to exceed the participant's total elective deferral amount. Participants can also withdraw from rollover contributions at any time.

(g) Notes Receivable from Participants – Participants may have one loan outstanding at any time. A participant is permitted to borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans can be for no longer than a 5-year term, except for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at the Wall Street Journal Prime Rate plus 1%. Loans are repaid through payroll deductions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Risks and Uncertainties – The Plan invests in securities, which in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

(d) Investments – Participants direct their contributions and the Company's contributions into various investment options, primarily mutual funds. Investments are valued at fair value except for fully benefit-responsive investment contracts which are reported at contract value. Contract value is the relevant measurement for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment transactions are recognized on the trade date. Dividend income is recorded on the ex-dividend date. Interest is accounted for on the accrual basis.

(e) Cash Equivalents – The Plan considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Summary of Significant Accounting Policies (continued)

(f) Payment of Benefits – Benefits are recorded when paid.

(g) Notes Receivable from Participants – Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

(h) Administrative Expenses – Certain expenses for maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Fees for the administration of notes receivable from participants and distributions are included in administrative expenses and are charged directly to the participant's account. Additionally, the Plan receives revenue sharing credits from mutual funds in which the Plan's assets are invested. The credits offset administrative expenses.

(i) Subsequent Events – The Plan evaluated subsequent events through September 24, 2026, the date the Plan's financial statements were available to be issued.

(3) Certification by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, LLC, the custodian, has certified to the completeness and accuracy of all amounts and types of investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, the schedule of assets held for investment purposes as of December 31, 2025, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024.

(4) Fair Value Measurements

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Fair Value Measurements (continued)

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	$ 73,047,757	$ -	$ -	$ 73,047,757
Total	$ 73,047,757	$ -	$ -	$ 73,047,757

Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2024			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	$ 61,203,510	$ -	$ -	$ 61,203,510
Total	$ 61,203,510	$ -	$ -	$ 61,203,510

(5) Plan Termination and Amendments

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Under the provisions of the Plan, if the Plan is terminated, the accounts of all participants will become non-forfeitable and the Plan custodian will distribute the assets to the Plan participants.

Additionally, the Company may amend the Plan at any time without the consent of any participant or any beneficiary, provided that no amendment deprives any participant of the participant's non-forfeitable accrued benefit.

(6) Investment Contract

The Plan has entered into a fully benefit-responsive guaranteed investment contract. The custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment income contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Investment Contract (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment option or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, (d) a material misrepresentation. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with plan participants are probable of occurring.

(7) Withdrawing Participants

There were no distributions requested but not paid as of December 31, 2025.

(8) Tax Status

The Plan is based on a prototype plan that received a favorable opinion letter from the IRS dated March 31, 2017, indicating that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"), and was, therefore, exempt from federal income taxes. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

(9) Related Party Transactions

The Plan has a number of service providers. Such providers are considered parties-in-interest under ERISA.
