INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Trideum Corporation Employee Stock Ownership Plan

Opinion

We have performed audits of the financial statements of Trideum Corporation Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control related matters that we identified during the audit.

Other Matter

Supplementary Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary schedule, we evaluated whether the supplementary schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF THE PLAN

The following description of the Trideum Corporation (the Company or Sponsor) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Company established the Plan effective as of January 1, 2020. As of January 1, 2020, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by Trideum Corporation. The Company has authority to control and manage the operation and administration of the Plan and has all powers necessary to enable it to carry out its duties. The Company is responsible for oversight and administering of the Plan. GreatBanc Trust Company is the Plan's Trustee.

The Plan purchased Company common stock using the proceeds of a borrowing from the Company (see Note 5) and holds the common stock in a trust (the Trust) established under the Plan. The borrowing is to be repaid over a period of 30 years by fully deductible Sponsor contributions to the Trust. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The Sponsor has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities, and changes therein, pertaining to:

1. The accounts of employees with vested rights in allocated common stock (allocated), and
2. Common stock not yet allocated to employees (unallocated).

Eligibility

Participants are eligible to enter the Plan upon attaining age 21, provided they are eligible employees as defined by the Plan. There is no service requirement for participation.

Contributions

The Company's Board of Directors determines the form (either in Company stock or cash) and amount of employer contributions. During any year in which the Company has elected to be treated as a "Subchapter S Corporation," the Trust may also receive its share of any distributed earnings (S Corporation Distributions) paid to the Company's stockholders.

Payments of Benefits
Distributions on account of death, disability or retirement are made in a lump sum or annual installments in the Plan year following the event. The method of payment will either be cash or stock distribution as required by the Plan Document.

Administrative Expenses
As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. Normal brokerage charges that are included in the cost of securities purchased (or charged to proceeds in the case of sales) will be paid by the Plan. The Company will pay all expenses in connection with the design, establishment or termination of the Plan. The Trust will pay all costs of administering the Plan and Trust unless those expenses are paid by the Company.

Voting Rights
All Company stock held by the Trust will be voted by the Trustee on behalf of the collective best interest of Plan participants and beneficiaries in accordance with the Employee Benefits Administration Committee. However, each participant is entitled to direct the voting of any voting shares of Company stock allocated to his or her account with respect to any vote required for the approval or disapproval of certain events as defined in the Plan Document. The Trustee will vote any unallocated shares held by the Trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Participant Accounts
The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account can be credited with an allocation of (1) the Company's contributions, (2) Plan earnings or losses based on changes in the price of the Company stock, and (3) forfeitures of terminated participant's nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Employer contributions are allocated based on each eligible participant's compensation relative to total compensation of eligible participants, as defined in the Plan document. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting
Employees entering the Plan on or after January 1, 2020, vest in the Company's contributions and related earnings at a rate of 20% per year after one year of service and are fully vested after six years. Employees are also fully vested upon reaching the normal retirement date, upon death of the participant, or total and permanent disability as defined by the Plan Document.

Put Option
Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of a put option is to ensure that the participant has the ability to ultimately obtain cash.

As a result of the put option provisions, the Company may be required to repurchase shares distributed to participants. Because the timing and amount of future distribution are not presently determinable, no liability has been recorded for this contingent obligation. The Company monitors future repurchase obligations as part of its long-term liquidity planning.

Diversification
Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with a minimum of ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. Participants eligible to diversify make their election after year end based on the number of shares of the employer's stock held in their account at year end.

Forfeitures
Plan forfeitures are allocated to each participant’s account based upon the relation of the participant’s compensation to total compensation for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2025, were $52,089.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations
The financial statements of the Plan present separately the assets and liabilities, and changes therein, pertaining to (1) the accounts of employees with rights in allocated stock (allocated), and (2) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition
The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Management has evaluated subsequent events through September 24, 2026, the date the financial statements were available to be issued.

3. INVESTMENTS

The Plan's investments, at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock:				
Number of shares	5,842.80	71,369.20	3,293.96	73,918.04
Cost	$ 414,349	$ 4,666,663	$ 247,685	$ 4,833,327
Fair market value	$ 160,502	$ 1,960,512	$ 63,145	$ 1,417,009
Interest-bearing cash	$ 1,029,519	$ -	$ 1,080,919	$ -

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

- Level 1 Fair Value Measurements – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Fair Value Measurements – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the net asset or liability; (4) inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Fair Value Measurements – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for assets measured at fair value at December 31, 2025.

The Trideum Corporation common stock: Held by the Plan and reported at fair value based on an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the table below.

Money market funds: Valued at daily closing price as reported by the fund.

This appraisal is based upon a combination of the market and income techniques as illustrated in the following table:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Trideum Corporation Common Stock	$ 2,121,014	Income	EBITDA, net income, weighted average, cost of capital, discount rate, discount for lack of marketability
		Market	Public comparables, revenue multiple, EBITDA multiple discount for lack of marketability

The valuation process involves the selection of an appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution, which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Common stock	$ -	$ -	$ 2,121,014	$ 2,121,014
Interest-bearing cash	1,029,519	-	-	1,029,519
Investment at fair value	$ 1,029,519	$ -	$ 2,121,014	$ 3,150,533

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Common stock	$ -	$ -	$ 1,480,154	$ 1,480,154
Interest-bearing cash	1,080,919	-	-	1,080,919
Investment at fair value	$ 1,080,919	$ -	$ 1,480,154	$ 2,561,073

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2025 and 2024:

	2025	2024
Beginning Balance	$ 1,480,154	$ 266,494
Acquisition of 76,467 common shares	-	5,000,000
Total gains or losses (realized or unrealized) included in changes in net assets available for benefits	640,860	(3,786,340)
Ending Balance	$ 2,121,014	$ 1,480,154

Gains and losses (realized and unrealized) included in changes in net assets available for the years above are reported in net appreciation in the fair value of investments in the statement of changes in net assets available for benefits.

5. LOAN PAYABLE

On July 24, 2024, the Plan entered into a loan agreement with the Company for $5,000,000. The proceeds of the loan were used to purchase common stock of the Company. Unallocated shares are collateral for the loan. Shares are released from the collateral and allocated to participants as payments of principal and interest are made.

The number of shares released in any year will be the number of shares held as collateral, times the ratio of the current year's principal and interest payments, divided by the total of this year's principal and interest payments, plus all future years' principal and interest payments. This resulted in 2,549 shares being released and allocated in the Plan for the year ended December 31, 2025.

The agreement provides for the loan to be repaid over 30 years. The fair value of the note payable as of December 31, 2025 and 2024, was $4,715,727 and $4,797,795, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates and nonperformance risk. For the years ended December 31, 2025 and 2024, the loan interest rate was 4.61%.

The following are the maturities of the loan for the remaining term:

2026	$	85,851
2027		89,809
2028		93,949
2029		98,280
2030		102,811
Thereafter		4,245,027
	$	4,715,727

6. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock guaranteed by the Company. This is a related party and party-in-interest transaction. As described in Note 1, the Company pays the expenses of the Plan. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

Principal Financial Group provides recordkeeping services for the Plan, and therefore qualifies as a party-in-interest. As described in Note 1, fees related to the Plan's operations were paid by the Sponsor directly to Principal Financial Group during 2025.

7. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the Trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

9. TAX STATUS

The Plan has adopted a pre-approved plan document for which the document sponsor has received a favorable IRS opinion letter indicating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code. The Plan Administrator believes the Plan is currently designed and operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified, and the related Trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.
