INDEPENDENT AUDITOR'S REPORT

To the Trustee and Participants of the
Holden Industries, Inc. Employee Stock Ownership Plan
Deerfield, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Holden Industries, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 3, investments amounting to $201,650,736 and $208,062,669 as of December 31, 2025 and 2024, respectively, have been reported at estimated fair value as determined by independent appraisals which have been reviewed and approved by Plan management. These amounts represent 99% of net assets available for benefits as of December 31, 2025 and 2024. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

(Continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following is a general description of the Holden Industries, Inc. Employee Stock Ownership Plan ("the Plan"). Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – In 2007, Holden Industries, Inc. and subsidiaries ("the Company") adopted the Plan and the Holden Industries, Inc. Employee Stock Ownership Trust ("the Trust"). The Company established the Plan to enable the Company's eligible employees to accumulate a beneficial equity interest in the Company. The Trust is administered under the terms of a certain trust agreement between the Company and TI-Trust, Inc. ("the Trustee"). The trust agreement provides, among other things, that the Trustee shall maintain records of all investments, receipts and disbursements, and other transactions and shall provide annually a report setting forth such transactions and the status of the fund at the close of the period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility – Employees need to attain 18 years of age and complete 90 days of service to be eligible and begin participating on the first day of the calendar quarter following 90 days of service. Union employees, leased employees, co-op and intern students, and employees of foreign subsidiaries are not eligible to participate in the Plan.

Employer Contributions – Contributions made under the Plan are at the discretion of the Company's Board of Directors. On an annual basis, the Company decides whether to make a contribution. Contributions made to the Trust will be allocated to the participants' company contribution account and may be made in the form of Company common stock or cash. The amount may vary from year to year and may not be made in some years. For the year ended December 31, 2025, the Company committed to Employer contributions of $2,862,634 in Company common stock, to be contributed to the Trust in 2026.

Participant Accounts – An individual investment election account, company contribution account, transfer account, company stock proceeds account, and other investment account are maintained for each plan participant. Each participant's investment election account is credited annually with unrealized appreciation (depreciation) in the Company's stock value and stock dividends. The company contribution account is adjusted for the participant's share of the Company's stock contribution, adjustments and forfeitures of terminated participants' non-vested portion of accounts and unrealized appreciation (depreciation) in the Company's stock value and stock dividends. The transfer account is credited for all amounts transferred to the Plan after the initial investment election period and earnings (losses) and unrealized appreciation or (depreciation) in fair value of investments. The company stock proceeds account is credited for the participant's share of any proceeds

1. DESCRIPTION OF THE PLAN (Continued)

from an exchange of shares of Company common stock allocated to his or her accounts for cash or other liquid assets and earnings (losses) and unrealized appreciation or (depreciation) in fair value of investments. Each participant's other investment account is adjusted for the participant's share of the Company's cash contribution, adjustments and forfeitures of terminated participants' non-vested portion of accounts, earnings (losses) and unrealized appreciation (depreciation) in fair value of investments. Allocations are based on participant compensation or account balances, as defined. The Plan's investments and allocations are 100% nonparticipant-directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's accounts.

Vesting – Participants are immediately vested in their investment election account, which includes all amounts transferred to or rolled into the Plan in connection with the initial stock purchase, as well as a one-time Company contribution that was made at the inception of the Plan, plus actual earnings thereon. Participants are also immediately vested in all amounts transferred to or rolled into the Plan subsequent to the initial stock purchase. All future Company contributions will vest according to a participant's years of service based upon a five-year graded schedule at 20%, 40%, 60% and 80% for one year, two years, three years and four years of service respectively, and 100% after completion of five years of service. In addition, participants who attain normal retirement age, die, or become disabled while in the employment of the Company are also 100% vested in all accounts.

Forfeitures – The Plan provides that non-vested portions of terminated participants' accounts plus earnings thereon be forfeited if the participant is not reemployed before incurring five consecutive one-year breaks in service. Forfeitures can be used to reduce the amount of future Employer contributions or to pay Plan expenses. At December 31, 2025 and 2024, forfeited non-vested accounts totaled $441,684 and $274,146, respectively, and the $441,684 of forfeited non-vested accounts at December 31, 2025 was used to offset the 2025 Employer contribution made after year-end.

Payment of Benefits – Subject to the limitations in the Plan, distribution of the balances credited to a participant's accounts will be made in the form of a lump-sum payment or by payment in a series of installments over a period not to exceed five years. Each participant shall select the method of distribution of their investment election and transfer accounts, and the Company will select the distribution method of the remaining account balances. Distribution of balances credited to a participant's accounts shall be made, as elected by the Company, in the form of cash or stock, subject to the requirement that the Company common stock must immediately be sold to the Company or back to the Trust. Distributions to participants who terminate due to retirement at or after age 65, die or become disabled, will be made or begin as soon as possible after the valuation is completed for the plan year in which the employment is terminated.

1. DESCRIPTION OF THE PLAN (Continued)

If employment is terminated for any other reason, the distribution will begin no earlier than after the valuation is completed for the year following the year of termination. The Company has the right to delay distribution for terminations other than retirement, death or disability, but in no event would distribution be delayed later than after the valuation is completed for the 5th year after the year of termination. Terminated participants may also elect to defer the distribution of his or her accounts if the balance is greater than $7,000, although the Company reserves the right to segregate the accounts into holdings other than Company common stock. Minimum required distributions are required on an annual basis for terminated participants that have reached age 73. For the year ended December 31, 2025, $30,981,946 and $124 was distributed to former participants in stock (2,753,951 shares) and cash, respectively, and are included in benefits paid to participants in the Statement of Changes in Net Assets Available for Benefits.

Diversification – Participants who have attained age 55 and have completed at least ten years of participation in the Plan have the right to elect a distribution of a portion of their account balance up to a cumulative 25% of their investment election, transfer, and company contribution accounts for each of the first five years in the election period and up to a cumulative 50% of these account balances in the sixth and last year of the election period. Participants who transferred funds into the Plan from the Holden Industries, Inc. Retirement Plan ("the Retirement Plan") are credited with the years of service in the Retirement Plan in determining years of participation in the Plan. In addition to the diversification rights described above, subject to the limitations in the Plan, participants who have participated in the original 2007 investment election have the right to elect a distribution up to 10% of their investment election account balance each year. Participants will no longer be eligible for this special diversification once they are eligible for the general diversification above. Effective January 1, 2015, the Company adopted a plan amendment that allows participants to elect a distribution of a portion of their account balances in-addition to rolling over a portion into the Retirement Plan or an individual retirement account upon the participant selling their shares. For the year ended December 31, 2025, participants elected to diversify $5,951,681 of stock and are included in benefits paid to participants in the Statement of Changes in Net Assets Available for Benefits. The distributions related to diversification consisted of $5,951,681 (529,038 shares), of which $615,726 was rolled into the Retirement Plan.

Put Option – Under Federal income tax regulations, the Company common stock held by the Plan includes a put option because it is not readily tradable on an established market. The put option provides participants with the right to demand that the Company buy shares of Company common stock distributed to them upon diversification and termination, at estimated fair value based upon independent appraisal.

1. DESCRIPTION OF THE PLAN (Continued)

Administrative Fees and Expenses – All direct administrative fees and expenses are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. The fair value of Company common stock is particularly subject to change in the near term. Actual results could differ from those estimates.

Valuation of Investments – The Plan's investments are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties – Substantially all of the Plan's investments consist of common stock of Holden Industries, Inc. These investment securities are exposed to various risks, such as interest rate, market, credit, liquidity risks and global events. Due to the level of risk associated with these securities and the sensitivity of their fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participant account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

3. FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Money market mutual fund: The fair value of the money market mutual fund investment is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

3. FAIR VALUE MEASUREMENTS (Continued)

Company common stock: The fair value of the Company's common stock is estimated annually, as of the financial statement date, based upon the results of an independent third party appraisal performed by a business appraiser selected by the Plan trustee. The appraisals are performed using a combination of the income approach using the discounted cash flows method and the market approach based upon valuation multiples of guideline public companies (Level 3 inputs). Under the discounted cash flows method, projections are based upon past performance as identified in audited and unaudited financial statements of the Company and management's projections of the Company's future performance. The resulting cash flow projections are discounted using a market related discount rate (which incorporates the Company's estimated weighted average cost of capital). The guideline public companies method identifies pricing multiples of public companies deemed to be comparable to the Company. Under both approaches a discount for a lack of marketability is applied, since the Company's stock is not readily traded on an organized exchange. The estimated fair value derived in the 2025 and 2024 appraisals reflected a weighting of 50% using the discounted cash flows method and 50% using the guideline public companies method. The historical and projected financial information of the Company used by the appraiser is provided to the appraiser by the Company's Chief Financial Officer ("CFO"). The CFO and Chief Executive Officer of the Company review the appraiser's methodology and assumptions, which involve discussions with the appraiser, and the CFO verify the financial information of the Company used in the appraisal.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (Continued)

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2025, Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market mutual fund	$ 118,990	$ -	$ -
Holden Industries, Inc. – common stock	-	-	201,650,736
Total investments at fair value	$ 118,990	$ -	$ 201,650,736

	Fair Value Measurements at December 31, 2024, Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Holden Industries, Inc. – common stock	-	-	208,062,669
Total investments at fair value	$ 114,236	$ -	$ 208,062,669

The Company contributed 218,189 shares valued at $2,862,634 to the Plan and the Plan distributed 3,282,989 shares valued at $36,933,628 of the Plan's level 3 assets for the year ended December 31, 2025.

4. CERTIFIED INVESTMENTS

Certain information related to investments included in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by TI-Trust, Inc., the trustee.

5. INVESTMENTS

During the year ended December 31, 2025 the Plan's investments that were held and certified appreciated (depreciated) in value as follows:

Holden Industries, Inc. - common stock	$ 28,741,378
Net appreciation in fair value of investments	$ 28,741,378

During the year ended December 31, 2025, the Plan earned interest and dividend income on investments of $4,821.

6. INCOME TAX STATUS

The Plan has received a determination letter dated June 5, 2015 from the Internal Revenue Service (IRS) indicating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes the Plan is designed and being operated in accordance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

7. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Company, on behalf of the Plan, paid professional fees for the administration and audit of the Plan. The Plan's investment in Holden Industries, Inc. common stock qualifies as a party-in-interest investment. The Plan held 15,369,721 shares and 18,494,459 shares of common stock of Holden Industries, Inc., the sponsoring employer, at December 31, 2025 and 2024, respectively. These shares had a fair value of $201,650,736 and $208,062,669, at December 31, 2025 and 2024, respectively. After year end, the Company contributed 218,189 shares with a fair value of $2,862,634 to the Plan for the 2025 Plan year, which qualifies as a party-in-interest transaction.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. In the event of the Plan's termination, participants would become 100% vested in their accounts.

9. SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through September 16, 2026, which is the date the financial statements were available to be issued.
