Employee Benefit Plan Audit Specialists

Independent Auditor's Report

To the Plan Administrator of the Louis Dreyfus Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Louis Dreyfus Pension Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note F to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- the information in the accompanying financial statements related to assets which provide benefits under the plan and certified to by a qualified institution and assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025 and the Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the certified information in the supplemental schedules related to assets which provide benefits under the plan and certified to by a qualified institution and assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

A. PLAN DESCRIPTION:

The following brief description of the Louis Dreyfus Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a defined benefit pension plan that, prior to plan freeze, covered substantially all employees of Louis Dreyfus Company LLC and certain affiliates (collectively the "Company") who are not covered by a collective bargaining agreement ("non-union participants"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC").

Employees hired after January 1, 2009 are not eligible to participate in the Plan.

Effective December 31, 2020, the Louis Dreyfus Pension Plan for Union Employees (the "Union Plan") was merged with and into the Plan and ceased to exist as a separate plan as of that date. The Plan was amended to incorporate all projected benefits of the participants of the Union Plan and all benefit rights and features of the Union Plan shall continue as is and are included below under the Benefits section. The benefits for participants of the Union Plan were frozen effective December 31, 2020, and no new participants are permitted to enter the plan as of that date.

Contributions and Funding Policy

The Company contributes amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The Plan has met the minimum funding requirements of ERISA.

Benefits

For non-union participants, in December 2008, the Company amended the terms of the Plan to freeze benefits effective March 31, 2009. As a result, Plan participants, other than participants that were part of the Union Plan, will not accrue additional benefits after March 31, 2009, and additional participants will not be permitted to join the Plan after January 1, 2009. To determine a participant's accrued benefit, no future service is credited and no future changes in compensation are included. Service accrued after March 31, 2009 will be taken into account for vesting purposes only.

For non-union participants, normal retirement benefits are based upon a formula taking into account a participant's highest average consecutive five years of Plan compensation, as defined, the participant's Social Security Covered Compensation, and the number of years of credited service of that participant. The benefit of a participant that was part of the Union Plan is based upon a participant's years of benefit service multiplied by the level of benefit and date of eligibility. If a participant elects early retirement, benefits may be actuarially reduced by a formula based on the number of years between the normal retirement age and a participant's age at early retirement. Benefit payments are adjusted each year for cost-of-living adjustments as applicable. Cost-of-living adjustments do not apply to participants from the Union Plan.

CARON BLETZER

For an unmarried participant, there is an automatic 120-month guaranteed payment plan. For a married participant, there is a joint 50% survivor annuity unless waived by the participant and his/her spouse. Additional options available to the participant are as follows:

- Life annuity
- Joint and survivor annuity (50%, 75%, and 100%)
- Life annuity with a guaranteed period (180- or 240-month)
- Lump-sum settlement (for accrued benefit as of December 31, 1993, only). Participants who are eligible for this lump-sum settlement are also eligible to commence their retirement benefit at any age.

Life annuity with a guaranteed period and lump-sum settlement options are not available to participants from the Union Plan.

All Plan benefits are subject to the limitations prescribed by the IRC which includes provisions that limit the amount of retirement income which may be paid to an individual participant.

Retirement Dates

An employee's normal retirement age is the later of the date the employee reaches age 65 or the fifth anniversary of the date the participant entered the Plan. The Plan permits early retirement at age 55 provided the participant has been credited with 10 or more years of service. There is no mandatory retirement age.

Vesting

Participants are vested in their benefits upon completion of 5 years of service.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

CARON BLETZER

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Investment related expenses, PBGC premiums and certain audit and administrative expenses are paid through the plan. Investment related expenses are included in net appreciation (depreciation) in fair value of investments. All other administrative expenses of the Plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations used in the valuation as of December 31, 2024 are as follows:

Assumed rate of return on investments	-	6.00%
Mortality basis	-	IRS Prescribed Mortality – Generational Annuitant (or Non-Annuitant) male and female, Pri-2012 Blue collar base rate table, updated annually for MP scale.

CARON BLETZER

Retirement	- Retirement at age 65 for inactives and 70 for actives and 5 years of participation

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025. Had the valuation been performed as of December 31, there would be no material difference.

At December 31, 2024, the actuarial present value of accumulated plan benefits under the Plan were:

Vested benefits:	
Participants currently receiving payments	$ 56,210,078
Terminated vested participants	33,258,594
Other participants	8,878,853
Total vested benefits	98,347,525
Total actuarial present value of accumulated plan benefits	$ 98,347,525

For the year ended December 31, 2024, the estimated changes in actuarial present value of accumulated plan benefits were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	$ 98,791,430
Increase (decrease) during the year attributable to:	
Benefits accumulated/plan experience	605,613
Benefits paid	(6,776,665)
Increase in interest due to decrease in discount period	5,727,147
Net decrease in actuarial present value of accumulated plan benefits	(443,905)
Actuarial present value of accumulated plan benefits at end of year	$ 98,347,525

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

CARON BLETZER

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts - Valued at the net asset value of units of a pooled separate account. The net asset value, as provided by the contract issuer, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2025			
Description	Total	Level 1	Level 2	Level 3
Mutual fund	$ 40,071,431	$ 40,071,431	$ -	$ -
Total investments in the fair value hierarchy	40,071,431	$ 40,071,431	$ -	$ -
Investments measured at net asset value(1):				
Pooled separate accounts	48,247,450			
Total investments at fair value	$ 88,318,881			

CARON BLETZER

Description	2024 Total	Level 1	Level 2	Level 3
Mutual funds	$ 31,947,831	$ 31,947,831	$ -	$ -
Total investments in the fair value hierarchy	31,947,831	$ 31,947,831	$ -	$ -
Investments measured at net asset value(1):				
Pooled separate accounts	48,792,645			
Total investments at fair value	$ 80,740,476			

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Pooled separate accounts can be redeemed daily, have daily redemption notice periods, and have no unfunded commitments.

D. TAX STATUS:

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated April 6, 2012, stating that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

E. TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.

b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.

CARON BLETZER

c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).

d. All other vested benefits (that is, vested benefits not insured by the PBGC).

e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC may not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

F. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan.

G. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Certain plan investments are shares of pooled separate accounts managed by affiliates of the trustee and therefore, these transactions qualify as party in interest. Expenses paid to the trustee by the Plan qualify as party in interest transactions.

CARON BLETZER

H. RISKS AND UNCERTAINTIES:

The Plan invests in pooled separate accounts and mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

I. SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events through September 11, 2026, the date these financial statements were available for issuance.

SCHEDULE H, line 4i - SCHEDULE OF ASSETS (HELD AT END OF YEAR)

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Generational Non-annuitant, male and female.

During benefit payment period

IRS Prescribed Mortality - Generational Annuitant, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

6.75% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants

Age	Probability of retirement	Age	Probability of retirement
60-62	5%	67-68	10%
63	10%	69	25%
64-66	25%	70	100%

Inactive participants are assumed to retire at age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability

None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

Marriage

80% married; husbands are 4 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.75. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.75 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit	

	Life annuity with 10-year certain	75% J&S
Active	20%	80%
Deferred vested	100%	0%

	Participants with a 12/31/1993 accrued benefit are assumed to receive their 12/31/1993 benefit in the form of a lump sum
Retirement cost of living adjustment	1.25% per year. Retirement Cost of Living Adjustment is an estimate based on the plan document.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.50%. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.65%	5.28%	5.63%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None[1]

[1]Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities

6.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
Louis Dreyfus Pension Plan
EIN 27-3304138 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document.

Plan eligibility	
Age	Age 21.
Service	Completion of either on year of service provided the employee works 1,000 hours or the close of the plan year (beginning after employment commences) during which the employee works 1,000 hours.
Entry date	An employee will enter the plan on the January 1 or July 1 coincident with or next following the completion of the service requirements.

Normal retirement benefit	
Age	Attained age 65.
Service	Fifth anniversary of the member's participation in the plan.
Form	Monthly annuity payable for life with 120 monthly payments guaranteed. (Other optional forms are available.)
Amount (accrued benefit)	The benefit equal to [(a) x (b)] + (c) below: (a) 1.75% of final average salary minus 0.59% of covered compensation (up to final covered compensation). (b) Years of benefit service not in excess of 35 years. (c) 1.5% of final average salary multiplied by years of benefit service in excess of 35 years. Benefits are frozen as of March 31, 2009.

Early retirement benefit	
Age	Attained age 55.
Service	10 years of service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit at date of actual retirement payable at normal retirement.
Reduction for early commencement	Benefit may be elected immediately, but actuarially reduced and increased 1.0% for each year the sum of the member's age and years of service at early retirement exceed 85. In the case of a member whose age and years of service exceed 85, the maximum percentage payable is stated on the plan document.

Termination benefit	
Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage payable at normal retirement.

Disability benefit	
Form	Same as normal retirement benefit.
Amount	If a member becomes disabled, he will be entitled to a deferred benefit, commencing at his normal or early retirement date, calculated as though he continued until his retirement date at his salary rate and social security covered compensation in effect immediately prior to his becoming disabled.

Death benefit	
Eligibility	Qualified married participant fully vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If an active member or terminated vested member who is married dies prior to his early retirement date, his spouse will be entitled to a survivor’s benefit. The spouse will receive a monthly benefit equal to 50% of the benefit the member would have received under the 50% joint and survivor option had he elected this option just prior to his death. If an active member who is not married dies after his early retirement date but before his normal retirement date, the beneficiary will be entitled to a monthly benefit payable for 120 months in the amount that would have been payable to the member if he had retired at the date of his death. If an active member dies after his normal retirement date but before his benefits commence, his surviving spouse or beneficiary is entitled to a lump sum that is actuarially equivalent to the retirement benefit payable to the member just prior to his death.

Definitions

Service and credited service

Benefit service for certain acquired companies is defined separately for each acquisition. The table below summarizes the dates from which benefit service is earned.

Company	Benefit service date
Allenberg Cotton Company	December 1, 1981
Scheuer Management Corporation	October 1, 1987
Stratus Petroleum Corporation	January 1, 1990
Bogert Oil Company	July 19, 1990
Earlsboro	January 1, 1991
UNOCAL	July 1, 1992[1]
Krohn Trading L.C.	April 1, 1996

[1] Plus 25% of service as of June 30, 1992.

Annual salary

Annual base pay excluding overtime, shift differentials, premium pay, bonuses and any other extra compensation but including 401(k) salary deferrals and subject to the IRS limits permissible under Section 401(a)(17) of the Internal Revenue Code.

Final average salary

The average annual salary for the highest 60 month period of service. This average shall be no less than the average of annual salary for the five highest consecutive years.

Final covered compensation

The average annual taxable compensation (excluding compensation in excess of the taxable wage base) for the last three consecutive plan years ending prior to termination or retirement.

Covered compensation

The average of the social security wage base for the 35-year period ending with the year an individual attains social security retirement age.

Cost of living

All retirement benefits commencing after December 1, 1981 for retirees age 65 and older are eligible for annual cost of living increases determined according to Section 5.9 of the plan document. In general, the cost of living increase is one half of the percentage increase in the average Consumer Price Index for Urban Consumers ("CPI-U") for the twelve month period ending on the September 30 prior to the date of the increase over the average CPI-U for the twelve month period ending on the previous September 30. The increase is limited to 5%.

Optional forms of benefit payments	Actuarial equivalent of normal form of payment available as: Life annuity with periods certain of ten, fifteen and twenty; life annuity; joint and survivor annuity with 50%, 75% or 100% continuing to surviving spouse; lump sum not greater than $5,000 and lump sum settlement (for accrued benefit as of December 31, 1993). Participants who are eligible for this lump sum settlement are also eligible to commence their retirement benefit at any age. The optional form conversion basis is 7.5% interest and the UP-1984 Mortality Table for payments other than lump sums.

Early retirement benefit	
Age	Attained age 55.
Service	10 years of service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit at date of actual retirement payable at normal retirement.
Reduction for early commencement	Benefit may be elected immediately, but actuarially reduced.

Termination benefit	
Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage payable at normal retirement.

Disability benefit	
Eligibility	Disabled participants with 10 years of service.
Form	Same as normal retirement benefit.
Amount	$100 per month is provided from date of disability until age 65 or the date the participant is no longer disabled.

Death benefit	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If an active member or terminated vested member who is married dies prior to his benefit commencement date, his spouse will be entitled to a survivor's benefit. The spouse will receive a monthly benefit equal to 50% of the benefit the member would have received under the 50% joint and survivor option had he elected this option just prior to his death. If the member is not eligible for early retirement at the date of his death, benefit payments will commence at the member's normal retirement date. If an active member is not entitled to the benefit described above and dies after his early retirement date but before his benefits commence, his beneficiary is entitled to a monthly benefit in the same amount he would have been entitled to if he retired on the date of his death. The benefit will be paid to the beneficiary for 10 years following the member's death.
Definitions	
Optional forms of benefit payments	Actuarial equivalent of normal form of payment available as: Life annuity with periods certain of ten; joint and survivor annuity with 50%, 75% or 100% continuing to surviving spouse; lump sum not greater than $5,000.
