REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator and Plan Participants of the
American Legend Services, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of American Legend Services, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

AMERICAN LEGEND SERVICES, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

1. Description of Plan

The following brief description of the American Legend Services, Inc. Employee Stock Ownership Plan (the "Plan" or "ESOP") provides only general information. Participants should refer to the Summary Plan Description and the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2017, and is a defined contribution plan covering all eligible employees of American Legend Services, Inc. (the "Sponsor" or the "Company"). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code ("IRC") of 1986, as amended and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration and Trustee

GreatBanc Trust Company (the "Trustee" or "Custodian") is the Trustee and Custodian of the trust fund, which holds all of the assets of the Plan which primarily consists of Company common stock. Company contributions are held and managed by the Trustee, who invests cash received, interest and dividend income, and makes distributions to participants. The Administrative Committee of the ESOP, appointed by the Board of Directors ("Board") of the Company, is the Plan Administrator, and a third-party is responsible for recordkeeping of the Plan. The Plan is unleveraged and therefore all assets are considered allocated.

Eligibility and Plan Entrance Date

Union employees covered by a collective bargaining agreement, non-resident aliens, and leased employees are not eligible to participate in the Plan. All other employees become eligible to participate in the Plan upon completing one year of service and reaching 21 years of age. Eligible employees are permitted to enter the Plan on each January 1 and July 1 after which the employee has satisfied the eligibility requirements.

Employer Contributions

The amount of the Company's discretionary ESOP contribution is determined by its Board on an annual basis. These contributions to the ESOP's trust can be made in Company common stock or in cash, which may be invested in the Company's common stock. Employee contributions are not permitted. Contributions to the Plan for the years ended December 31, 2025 and 2024, amounted to approximately $9,892 and $0, respectively.

At December 31, 2025, there were 1,215,396 shares of Employer Stock (with a fair value of approximately $117,856,912) allocated to participants of the Plan. At December 31, 2024, there were 1,239,774 shares of Employer Stock (with a fair value of approximately $121,473,060) allocated to participants of the Plan.

1. Description of Plan – continued

Payment of Benefits

Distributions on account of death, disability, or retirement are made in the Plan year following the event and are made in five annual installments. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are also made in five annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

Administrative Expenses

Certain administrative fees are paid by participants through their Plan accounts. Other expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Investment related expenses are included in net increase (decrease) of fair value of investments.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is permitted to vote any allocated share for which a participant has not exercised their voting rights. The Trustee is required to vote shares on behalf of the collective best interest of the Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Contributions subject to statutory limitations imposed annually by the IRC. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Participants vest based on years of service at a rate of 20% after the first two years of service and increase by 20% for each of the next four years, becoming fully vested upon completing six years of service. Upon death, disability, or retirement, participants immediately become 100% vested in any unvested Employer contributions, plus income or loss thereon.

Any portion of a terminated participant's account forfeited due to the vesting provisions described above is reallocated within the Plan to other participants based on the participant’s eligible compensation as a percentage of the total compensation of all eligible participants.

1. Description of Plan – continued

Put Option

Under federal income tax regulations, Company stock held by the Plan and its participants that is not readily tradable on an established market, or that is subject to trading limitations, includes a put option. The purpose of the put option is to ensure that the participant ultimately has the ability to obtain cash. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock.

Diversification

Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution or a direct rollover.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the years ended December 31, 2025 and 2024 totaled 21,500 and 22,500 shares, respectively. Unallocated forfeited shares outstanding as of December 31, 2025 and 2024 were 48,101 and 32,103, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net increase (decrease) in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

2. Summary of Significant Accounting Policies – continued

Payment of Benefits

Benefits payments are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 28, 2026, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1), and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements – continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Plan sponsor company stock	$ -	$ -	$ 117,856,912	$ 117,856,912
Investments at fair value	$ -	$ -	$ 117,856,912	$ 117,856,912

	2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Plan sponsor company stock	$ -	$ -	$ 121,473,060	$ 121,473,060
Investments at fair value	$ -	$ -	$ 121,473,060	$ 121,473,060

Changes in Fair Value of Level 3 Assets

During 2025, 24,378 shares were purchased or retired by the Sponsor as distributions of $2,398,490. During 2024, 15,226 shares were purchased and retired by the Sponsor as distributions of $1,313,697 were made to terminated participants. These shares had a fair value of $1,313,697 based on the 2023 valuation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

The American Legend Services, Inc. common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

December 31, 2025

Instrument	**Fair Value**	**Principal Valuation Technique**	**Unobservable Inputs**
American Legend Services, Inc. Common Stock	$117,856,912	Income approach	Discounted cash flow method Weighted average cost of capital Discount rate – 10.9% Discount for lack of marketability – 5%
		Market approach	Guideline public company method EBITDA multiple – 7.0X Discount for lack of marketability – 5%

3. Fair Value Measurements – continued

Changes in Fair Value of Level 3 Assets – continued

December 31, 2024

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
American Legend Services, Inc. Common Stock	$121,473,060	Income approach	Discounted cash flow method Weighted average cost of capital Discount rate – 12.2% Discount for lack of marketability – 5%
		Market approach	Guideline public company method EBITDA multiple – 5.75x Discount for lack of marketability – 5%

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA which are exempt from the prohibited transaction rules.

5. Risks and Uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

6. Plan Termination

Although the Company intends to continue the Plan indefinitely, it reserves the right to terminate the Plan in accordance with the provisions of the Plan. In the event of termination of the Plan, all amounts credited to participant accounts would become fully vested, and Plan assets would be distributed according to provisions outlined in the Plan Document.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated July 25, 2018, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
