INDEPENDENT AUDITOR'S REPORT

The Board of Directors, Plan Administrator and Plan Participants of
The Gorman-Rupp Company Retirement Plan
Mansfield, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of The Gorman-Rupp Company Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution, John Hancock Trust Company LLC, the custodian of the Plan, and Bank of America Merrill Lynch, the trustee of the Plan, as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be

independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held at End of Year and Schedule of Reportable Transactions as of and for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Gorman-Rupp Company Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Plan provides general information about the Plan's provisions. Participants should refer to the Plan Document and summary plan description for a more complete description of the Plan provisions.

General

The Gorman-Rupp Company Retirement Plan (the Plan) is a defined benefit pension plan covering a majority of the employees of The Gorman-Rupp Company and Patterson Pump Company (a subsidiary of the Company) (Company and Plan Administrator). All assets are held by Bank of America Merrill Lynch (trustee of the Plan) except for a small portion (approximately $1,000,000), which will be used to administer the Plan by John Hancock Trust Company LLC (custodian of the Plan). The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2008, the Plan was amended in that individuals hired on or after January 1, 2008, do not participate in the Plan. Current employees hired prior to January 1, 2008 were not affected by the change. The Plan was recently amended January 1, 2021 to update certain definitions of the plan document.

Funding

The Company has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The Company's present intention is to make annual contributions in amounts sufficient to ensure the Plan's current year's funded status is close to one-hundred percent (100%) or more. The Plan has met the minimum funding requirements of ERISA.

Benefits

Participants are entitled to monthly pension benefits equal to the product of 1.1% of final average monthly earnings (based on compensation during the final ten years of service) and the number of years of credited service. Such amount is reduced by 0.50% for each of the first 60 months and 0.28% for each of the next 60 months by which early retirement date precedes normal retirement date (age 65). Vesting occurs after five years of credited service and all participants are currently vested in the Plan. Participants may elect to receive a single sum payment in lieu of a monthly pension; such single sum is equal to the monthly pension multiplied by a single premium immediate annuity rate as defined by the Plan.

1. Description of the Plan (Continued)

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payments to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan Document.

In the event of termination of the Plan, the assets of the Plan are to be set aside for the purchase of nonforfeitable annuities for participants according to an order of priority as follows:

1. Retired participants currently receiving benefits.
2. Participants currently employed and eligible to retire and to receive benefits.
3. Participants currently employed and eligible for early retirement and to receive benefits.
4. Other vested participants in an amount not to exceed the benefits guaranteed under the termination insurance provisions of ERISA.
5. Normal benefits to all other participants.

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all non-forfeitable basic benefits subject to certain limitations prescribed by ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of The Gorman-Rupp Company Retirement Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

Management of the Plan Sponsor is responsible for determining the Plan's valuation policies and analyzing the information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments.

In accordance with Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures,* assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

- Level 1 - Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

- Level 2 - Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

    - Quoted prices for similar assets or liabilities in active markets

    - Quoted prices for identical or similar assets or liabilities in inactive markets

    - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

    - Inputs that are derived from or corroborated by observable market data by correlation or other means

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

- Level 3 - Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation during their last ten years of credited service. The accumulated plan benefits for active employees are based on their average compensation during ten years preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to services rendered by employees to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

3. Accumulated Plan Benefits

Consulting actuaries from John Hancock estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the end of each plan year is as follows:

	December 31 2025	December 31 2024
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	**$ 2,104,808**	$ 2,082,739
Other participants	**42,983,536**	44,385,557
Total vested benefits	**45,088,344**	46,468,296
Non-vested benefits	**118,459**	151,332
Total actuarial present value of accumulated plan benefits	**$ 45,206,803**	$ 46,619,628

The changes in accumulated plan benefits for each year are as follows:

	December 31 2025	December 31 2024
Actuarial present value of accumulated plan benefits at beginning of year:	**$ 46,619,628**	$ 42,003,818
Increase (decrease) during the year attributed to:		
Benefits Accumulated	**1,496,253**	2,549,680
Decrease in discount period	**2,853,987**	2,932,687
Assumption changes*	**(252,040)**	1,722,543
Benefits Paid	**(5,511,025)**	(2,589,100)
Net increase (decrease) in accumulated benefits during the year	**(1,412,825)**	4,615,810
Actuarial present value of accumulated plan benefits at end of year	**$ 45,206,803**	$ 46,619,628

*Pri-2012 Mortality Table (Total Dataset) with Generational Projection (Scale MP 2021) were used in both 2024 and 2025. The 3-tiered segment rates for valuing minimum lump sums changed from October 2024 rates (4.01%/5.04%/5.83%) to October 2025 (4.42%/5.04%/5.46%). Change in discount rate increased to 6.6%.

3. Accumulated Plan Benefits (Continued)

Significant assumptions underlying the actuarial computations are as follows:

Actuarial cost method	Projected Unit Credit
Assumed rate of return on investments / discount rate	6.60% (2025) and 6.50% (2024) per year
Mortality basis	Pri-2012 Mortality Table with Generational Projection (Scale MP 2021) (2025 and 2024)
Retirement rate	Various rates ranging from 2% at ages 55-59 to 100% at age 65 (active); 100% at age 60 for participants with 10 years of service or 100% at age 65 for participants with less than 10 years of service (terminated)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the December 31, 2025 and 2024 accumulated plan benefit as of January 1, 2026 and 2025, respectively. There were no significant changes to the Plan that would have changed the valuations had they been performed as of December 31, 2025 and 2024, respectively.

4. Investments

The following investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2025 and 2024 and net realized and unrealized appreciation/depreciation in fair value of investments and interest, dividend, and other income for the year ended December 31, 2025, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by John Hancock Trust Company LLC, the custodian and Bank of America Merrill Lynch, the trustee.

The investments and investment income certified by the custodian and trustee are as follows:

	2025	2024
Investments, Cash and Accrued Income	**$57,293,358**	$55,130,291
Interest and dividend income	**$ 1,624,735**	N/A
Net unrealized/realized appreciation	**$ 3,753,589**	N/A

5. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The level of the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for major categories of assets measured at fair value by the plan.

Fair value for Level 1 is based upon quoted market prices of common stock, money market, treasury bills, mutual funds, and a portion of bonds. Unit values are determined by dividing the net asset value (NAV) by the total units held by the Plan at year-end.

Fair value for Level 2 is based on quoted prices of bonds in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value.

	Investments at Fair Value as of December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
U.S. equities	**$15,619,467**	**$ -**	**$ -**	**$15,619,467**
Mutual funds-U.S. equities	**3,065,943**	**-**	**-**	**3,065,943**
Bonds	**11,112,851**	**20,115,729**	**-**	**31,228,580**
Money Market / Treasury Bills	**7,081,538**	**-**	**-**	**7,081,538**
Total investments at fair value	**$ 36,879,799**	**$20,115,729**	**$ -**	**$56,995,528**

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
U.S. equities	$15,253,672	$ -	$ -	$15,253,672
Mutual funds-U.S. equities	2,434,361	-	-	2,434,361
Bonds	10,556,371	18,379,431	-	28,935,802
Money Market	8,234,337	-	-	8,234,337
Total investments at fair value	$ 36,478,741	$18,379,431	$ -	$54,858,172

For years ended December 31, the Plan had no transfers in and out of assets using significant unobservable inputs (Level 3) for 2025 and 2024, respectively.

6. Administrative Expenses

Fees for legal, accounting and other services rendered to the Plan are paid by the Company.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

7. Risks and Uncertainties (Continued)

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 29, 2016, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related Party Transactions

Certain Plan assets are invested in funds managed by the custodian and trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. In addition, the Plan has arrangements with various service providers and these arrangements qualify as party-in-interest transactions.

10. Subsequent Events

Management evaluated subsequent events for the Plan through September 22, 2026, the date the financial statements were available to be issued.

Actuarial cost method

Funding target and target normal cost

An actuarial cost method allocates the expected cost of a pension plan on a year-by-year basis. The primary objective is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) requires plan sponsors to use the Traditional Unit Credit actuarial cost method in which the estimated accrued benefit is based on service and, if applicable, earnings as of the valuation date. The funding target is equal to the actuarial present value of all accrued benefits as of the valuation date. The target normal cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefits attributable to service expected to be completed during the plan year (i.e., if applicable, one year's salary growth is reflected in the determination of target normal cost).

For tax deduction purposes, the funding target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA discounting method

The plan sponsor must choose between full yield curve spot rates or a segmented yield curve of 24-month average corporate bond rates. If the segmented yield curve is selected, the plan sponsor can use either the rates as of the month of the valuation or as of a lookback month, up to 4 months prior to the valuation date. If the full yield curve is selected, the rates as of the month of valuation must be used.

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

January 2025 segment rates, adjusted so each segment rate is no less than the applicable minimum percentage* of the corresponding 25-year average segment rate for the calendar year that contains the first day of the plan year and no more than the applicable maximum percentage of that 25-year average segment rate. The 25-year average cannot be less than 5.0% prior to application of the corridor.**

Asset valuation method

Plan assets for purposes of this actuarial valuation are valued at their fair market value, including, if applicable, discounted receivable contributions.

---

* Minimum is 95% through 2030, decreasing 5% per year beginning in 2031 until 70% is reached in 2035

** Maximum is 105% through 2030 and increasing 5% per year beginning in 2031 until 130% is reached in 2035

Actuarial assumptions

Actuarial assumptions

Economic Assumptions

PPA Segment Rates	Funding Target	Maximum Tax Deductible	PBGC
- Segment 1: Up to Year 5	5.00%	5.00%	4.65%
- Segment 2: Years 5-20	5.27%	5.27%	5.28%
- Segment 3: Years 20+	5.50%	5.40%	5.63%

ASC 960 Discount rate 6.50%

Annual rates of increase:

- Salaries 3.50%
- Future Social Security wage bases N/A
- Statutory limits on compensation and benefits N/A

Demographic Assumptions

Mortality:

- Funding Target / PBGC — IRS Generational Mortality Table for the Current Plan Year
- ASC 960 — Pri-2012 Mortality Table (Total Dataset) with Generational Projection (Scale MP 2021)

Terminations: Typical annual withdrawal rates are as follows:

Age	Males	Females
20	15.0%	25.0%
25	9.9%	15.0%
30	6.9%	9.9%
40	2.8%	4.9%
50	0.4%	1.7%
55	0.0%	0.4%

Retirement Age (Active): Annual rates are as follows for males and females meeting normal retirement eligibility requirements:

Age	Rate
55-59	2%
60	10%
61	10%
62	20%
63	15%
64	15%
65 or older	100%

Retirement Age (Terminated):	Participants with at least 10 years of service are assumed to retire at age 60. Participants with less than 10 years of service are assumed to retire at 65.

Miscellaneous Assumptions

Form of Payment:	All participants who are not in pay status (other than beneficiaries) are assumed to elect a lump sum distribution of their accrued vested pension.
Lump Sum Assumptions:	Lump sum payments are calculated using (a) the IRS applicable mortality table with three tiered Segment Rates of 5.00%, 5.27% and 5.50% (for Funding) or 4.42%, 5.04% and 5.46% (for ASC 960) or (b) the 1971 GAM table (with ages set back 4 years) with a 2.00% discount rate (whichever produces the largest value).
Percent Married:	80%
Spouse's Age:	Wives assumed to be 3 years younger than husbands
Expenses:	Equal to prior year's administrative expenses

Rationale for significant assumptions

Economic assumptions

- **ASC 960 discount rate:** This assumption is based on the expected return on plan assets assumption and was selected by the client with input from their investment advisor. We believe the assumption is reasonable as it falls within a reasonable range of expected returns for the plan's asset allocation based on capital market assumptions.

- **ASC 960 Lump sum conversion:** The lump sum conversion interest rate is set at the rates for the current year with the expectation that current interest rates are expected to be forward looking and a reasonable expectation of future interest rates.

- **Salary increase:** This assumption was selected by the client and is based on the company's long-term expectation of salary increases. We believe that this is representative of anticipated future experience.

Actuarial assumptions

Demographic Assumptions

- **ASC 960 mortality**: The mortality base table and projection scale is based on the most recent mortality table and improvement scale published by the Society of Actuaries and in our judgement, adequately reflects expected mortality rates as of the measurement date. The plan's size would not support a credible mortality study. The most recent improvement scale is from 2021 and does not include mortality data affected by the COVID-19 pandemic. The SOA will continue to study emerging mortality experience and assess what mortality improvement scale options might be considered to be implemented in the future. As such, we have decided not to reflect any adjustments to the most recent mortality improvement scale. The plan's relatively small size would not support a credible mortality study.

- **Termination:** We believe that this experience is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in termination patterns are not expected.

- **Retirement:** We believe that this experience is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in retirement patterns are not expected.

Miscellaneous assumptions

- **Expenses:** The assumption is based on the expectation of expenses to be paid out during the plan year will be similar to the prior year, rounded to the nearest $10,000.

- **Form of payment:** All optional forms are actuarially equivalent, and the assumption is based on the normal form of payment.

- **Spouse's age and percent married:** The employer does not have enough credible data to analyze spousal demographics. These assumptions are based on the actuary's experience with similar plans.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of plan provisions

Early Retirement Benefit:	A participant who has attained age 55 and completed 10 years of service may retire and his accrued Normal Retirement benefit is reduced by 1/2 of 1% for each the first 60 months and .28% for each of the next 60 months by which commencement precedes the Normal Retirement Date.
Deferred Vested Termination:	The vested benefit of a participant who has completed 5 years of service is determined under the normal retirement benefit formula using Average Compensation and Credited Service as of the termination date. The deferred vested pension is payable at age 65, or alternatively a pension reduced for early retirement payable as early as age 55, if the employee had 10 years of service at the time of termination.
Pre-Retirement Death Benefit:	Upon death of a participant satisfying vesting requirements or vested former participant who has at least one hour of credited service on or after August 23, 1984. For married participants, their spouse will receive a benefit equal to the amount the Vested Participant or Vested Former Participant would have been eligible to receive at his Earliest Retirement Date. The form of benefit will be 120-months certain at 100% of the amount described, plus 50% of this amount for the life of the spouse thereafter. For non-married participants, their beneficiary will receive a benefit as described above for a 120-month certain period.
